¹ Includes Tel-Tone Touch Dial service.

Effective August 6, 2007, the rates for Residential and Business customers who do not have Tel-Touch Service will be grandfathered and will see no change in their monthly rate. Any subsequent change to service made by such a grandfathered customer, however, will result in the loss of the grandfathering exception and will require that customer to upgrade to Tel-Touch Service.

* Rates for Tier 1 Core Services are capped at current rates. Rates for Tier 1 Non Core Services are capped at current rates until 09/10/09. After 09/10/09, Tier 1 Non-Core rates can be increased to a maximum cap of double the initial rate, other than the second local exchange access line and call waiting, which are limited to a ten percent increase per year until they cap at double the initial rate. This pricing flexibility is in accordance with O.A.C. 4901: 1-4 and Alt Reg Case 07-850-TP-ALT effective 09/10/07.

TOTAL TALK PACK

A. General

1. Total Talk Pack is an optional service package. The package permits a customer to receive services and features for a flat monthly rate, for each Total Talk Pack subscriber line provided. Total Talk Pack includes the following services:¹
 - a. Residential or Business One-Party Line (includes Touch Tone capability) (C)
 - b. Three-Way Calling & Call Waiting (Custom Calling Services)
 - c. Caller ID Deluxe, Anonymous Call Rejection, & Priority Ringing (Advanced Calling Services)
 - d. Inside Wire Protection Plan (deregulated service)

B. Conditions and Limitations

1. Rules, regulations, and limitations as specified elsewhere in the Company's tariffs for each individual service will apply as part of this bundle.
2. Total Talk Pack customers may terminate their enrollment in the Plan at any time upon notice to the company.
3. Unless terminated by the Total Talk Pack customer or the Company, a customer will remain enrolled in the Plan, as amended from time-to-time, with any applicable changes in rate, for as long as the Plan continues to be offered by the Company.
4. Service Charges, as described in Section 2 of this tariff, apply to requests for new and additional Total Talk Pack lines, and moves of existing lines. Service Charges will not apply when the Total Talk Pack replaces existing Local Exchange Service or if the customer requests a change from the Total Talk Pack back to Local Exchange Service.
5. Total Talk Pack customers are not eligible for discounts or promotional offerings (outside of this bundle) associated with the Custom Calling and Advanced Calling Services included in the Plan, unless specifically provided for in a promotional offering.

¹ Customers must also subscribe to TDS Long Distance Corporation's Total Talk Pack.

SUSPENSION OF SERVICE

A. General

Suspension of Service allows local exchange service to be temporarily suspended by request of the customer. This service is provided to customers whose requirements for telephone service is less than the normal 12-month period within a year.

B. Conditions

1. Service can be temporarily suspended for a minimum of one (1) month and a maximum of ten (10) months.
2. Suspension of Service is available on all one-party residence lines and up to three one-party business lines subject to the availability of facilities.
3. The customer must have at least one month of regular telephone service paid prior to the establishment of Suspension of Service.
4. The Company reserves the right to bill charges for the total number of suspended months requested prior to establishment of Suspension of Service.
5. Suspension of Service may begin and terminate on any day of the month, provided notice is given sufficiently in advance for arrangements to be made.
6. The Company will not provide installations, moves, changes, or maintenance during the period when the customer is billed at the reduced rate.
7. Only two suspension periods will be allowed and shall not exceed ten months in any one calendar year nor exceed ten continuous months at any time regardless of the year.
8. Bills are rendered at the reduced rate at regular billing dates during the period of suspension.
9. The customer's listing will be retained in the directory.
10. The Company assumes no liability for failure of a calling party to reach the customer during the period of suspension.
11. The Company reserves the right to refuse suspension of service in the case of a customer whose account is delinquent.

MISCELLANEOUS SERVICE ARRANGEMENTS**APPROVED****TELEPHONE NUMBER REFERRAL SERVICE****A. General**

1. When customers move to a new location outside the Telephone Company's service territory, the Company provides, without a recurring charge, a message that informs the caller to a disconnected number that the number has been disconnected or changed, and that the caller should consult the directory or call the operator.

Telephone Number Referral Service will provide a service to customers whose telephone service is being disconnected and are moving to a new location outside the Company's service territory. Dialing the customer's former number results in a prerecorded message which announces the new number.

2. The non-recurring charge applies to a 90-day increment of service and can be continued for an additional 90-day period at the customer's request.
3. Customers moving to a new location outside the Company's service area will be billed in advance for this service.

B. Rates

PER CALL BLOCKING/PER LINE BLOCKING

APPROVED

A. GENERAL

1. Customers may prevent the disclosure of their telephone number or directory name and number when placing calls to a party with service that reveals the calling party's number or name and number, by subscribing to either Per Call Blocking or Per Line Blocking.
2. Per Call Blocking and Per Line Blocking are provided according to the availability of facilities, features and central office equipment in locations determined by the Company. The features described will only operate on calls originating and terminating within suitably-equipped offices, or similarly equipped offices of interconnecting Local Exchange Companies.

B. DESCRIPTION

1. Per Call Blocking
Enables customers to prevent the disclosure of their telephone number or name and number on a per call basis to the called party. This disclosure of the calling party's number or name and number can be prevented on a per call basis by dialing *67 (1167 from a rotary phone) before making a call. This action must be repeated each time a call is made to prevent the disclosure of the calling party's telephone number or name and number. If the called party has a display device, a privacy indication will appear instead of the calling party's telephone number or name and number.

Per the FCC Caller ID Order, Per Call Blocking is provided to all customers at no charge.

Per Call Blocking will be provided on calls originating from paystations used by the general public and party lines.

2. Per Line Blocking
Enables customers to prevent the disclosure of their telephone number or name and number to the called party. Per Line Blocking is applicable on all outgoing calls placed from the customer's line. If the called party has a display device, a privacy indication will appear instead of the calling party's telephone number or name and number.

Per Line Blocking will be provided at no monthly charge on an optional basis to customers of non-published service.

ADVANCED CALLING SERVICES

A. GENERAL

1. The Company will offer Advanced Calling Services (ACS) to customers served by digital switches equipped with the new industry standard SS7 signaling protocol. These features are widely known as Custom Local Area Signaling Service (CLASS).
2. Advanced Calling Services (ACS) is comprised of a group of features described under B. which allows customers to efficiently manage the call flow generated over their Exchange Access Line(s). This management is possible only where the calling party's telephone number can be forwarded from the central office serving the called party. ACS features are optional services offered in addition to regular exchange service.
3. ACS is available to residence and business customers served by central offices where the Company has installed CLASS features and is furnished subject to the availability of facilities. Individual feature availability may differ by exchange.
4. ACS features will be functional under the following conditions:
 - a. When both the originating customer and the call terminating customer are served by the same central office.
 - b. When both the call originating customer and the call terminating customer are served from different central offices equipped for ACS and are linked by appropriate facilities.
 - c. Where the calling party's data can be forwarded from the central office originating the call to the terminating central office serving the called party.
 - d. If offering Caller ID - Deluxe, the Calling Name will be displayed only where the appropriate facilities are available to provide a match of Calling Name to Calling Number.
- 4A. Advanced Calling Services (ACS) may be offered to customers for trial use for a period not to exceed ninety (90) days. The dates of offering and duration of trial use will be determined by the Telephone Company. During trial use, the recurring charge for ACS will not apply to customers participating in the trial use offering. This offering is limited to one-party lines which are not already equipped with ACS added. A customer may participate only once during each trial use offering period. Customer requests for ACS trial use will be subject to availability of facilities.

Requests for promotional offerings will be filed with the Public Utilities Commission of Ohio not less than ten days prior to the effective date.

DIRECT INWARD DIALING (DID) SERVICE

C. Conditions (Continued)

3. The service must be provided on a minimum of 10 lines in a trunk group arranged for inward service.
4. The rates herein contemplate the use of standard Telephone Company equipment and serving arrangements and are in addition to rates and charges for the service with which it is furnished. When equipment or service of a special type is requested and provided, rates and charges are related to the costs involved to meet the individual requirements of each case.
5. Operational characteristics of interface signals between the Telephone Company-provided connecting arrangements and the customer-provided equipment must conform to the rules and regulations the Telephone Company considers necessary to maintain proper standards of service.
6. The Telephone Company shall not be responsible to the customer or authorized user or joint user if changes in protection criteria or in any of the facilities, operations or procedures of the Telephone Company render any facilities provided by a customer, authorized user or joint user obsolete or require modification or alternation of such equipment or system or otherwise affect its use or performance.
7. Directory listings will be provided in accordance with the regulations of the "Directory Listings" section of this Tariff. DID numbers furnished herein are not entitled to free directory listings.
8. Customer-provided equipment must be arranged by the customer to provide for the intercepting of assigned but unused station numbers.
9. The customer being provided DID service will be responsible for all toll calls billed to the DID numbers.
10. DID numbers will be sold in conjunction with DID service only.
11. The assignment of the telephone numbers and the sequence of numbers assigned to a DID service is determined by the Company based on the rules established in FCC order 00-104. The customer may request a sequential block of numbers to be placed into service at a later date. Non-Recurring Charges for DID numbers may apply to recover the cost of reserving the numbers. Reserved numbers can only be held for a maximum of six months. After six months, the reserved numbers must be placed into service for that specific customer or the numbers will be categorized as available for use by other customers.

CENTREX SERVICE

C. REGULATIONS AND CONDITIONS (Continued)

8. Termination Liabilities shall be treated as follows:

- a. If the service is canceled by the customer after installation of the service, but prior to the completion of the service period, the customer shall be obligated to pay a termination liability charge. The charge is calculated by multiplying the monthly rate by the remaining months in the contract period times fifty percent.

Commission approval of the termination liability language is not intended to indicate that the Commission has sanctioned any particular legal result regarding termination liability and that should a dispute arise over this issue, the parties may pursue whatever legal remedies they deem appropriate.

- b. A customer who reduces the quantity of Centrex lines under contract has the following options for the duration of the contract period:

1. Continue to pay an amount equal to the monthly rate for the number of Centrex station lines that are disconnected under contract, or
2. Pay termination charges as described in a. above on the number of Centrex station lines disconnected.

9. All exchange lines in a Centrex Group must have the same billing arrangement, either flat-rate or measured service (where offered).

10. Intercom calls between lines in a Centrex Group are not subject to local measured service.

11. When used with Call Forwarding or Call Transfer, the Centrex customer is responsible for the payment of the applicable toll charge for each billable call connected over the public network between the Centrex station and the station at which the call is answered. The charge is applicable to each call answered, including the Call Forwarding set-up call. It also applies to collect and person-to-person calls, which may be refused at the answering station.

12. This tariffed Centrex service does not include terminal equipment on the customer's premises. Terminal equipment may be covered under a separate tariff, contract, or may be provided by the customer.

13. Unless specifically exempted, Centrex service shall be subject to all general regulations applicable to the provision of service by the telephone company as stated in the general tariff.

14. It is at the Company's discretion to offer temporary suspension of Centrex Service.

D. DEFINITIONS:

The following definition section defines all standard and optional features which either are or may be provided as a part of the Centrex service.

The following are standard, non-chargeable individual station features which are included with the Centrex line rate at no charge:

1. **Business Group Automatic Identified Outward Dialing**
Business Group Automatic Identified Outward Dialing provides identification of the calling line or the Centrex Group billing/pilot number on billable calls directed to the public network.
2. **Call Park Features:**
 - a. **Call Park - Directed**
Call Park - Directed allows a Centrex user to park (or store) a call against any directory number within the business group and unpark (or retrieve) the call from any other directory number within the business group.
 - b. **Call Park - Local**
Call Park - Local allows a Centrex user to park (or store) a call against his/her directory number within the business group and unpark (or retrieve) the call from any other directory number within the business group.
3. **Call Pick-Up Features:**
 - a. **Call Pick-Up**
Call Pick-Up enables a station user to answer a call that is ringing at another station within the Centrex Group by dialing an access code.
 - b. **Call Pick-Up - Directed**
Call Pick-Up - Directed enables a station user to answer a call that is ringing at another station within the Centrex Group by dialing an access code and the ringing station number.

CENTREX SERVICE

D. DEFINITIONS (Continued)

4. Call Transfer - Internal Only

Call Transfer - Internal Only allows a station user to transfer calls to another station within the Centrex Group by flashing the switchhook and dialing the transfer-to number.

5. Centrex Repeat Dialing - Internal Only

Centrex Repeat Dialing - Internal Only allows the customer to automatically redial the last intercom number dialed. When the recalled telephone number is busy, the Company's equipment will make repeated attempts to establish the call for a thirty (30) minute period beginning with the customer's activation.

6. Direct Inward Dialing

Direct Inward Dialing allows Centrex station users to directly receive incoming calls without the assistance of an attendant.

7. Direct Outward Dialing

Direct Outward Dialing enables Centrex station user to call outside the Centrex Group directly without the assistance of an attendant.

8. Distinctive Ringing/Call Waiting Indication

Distinctive Ringing/Call Waiting Indication allows a Centrex station user to listen to the cadence of the ringing pattern or Call Waiting tone to determine whether a call is coming from within the business or from outside the business. Distinctive Ringing and Call Waiting tones are applied under the following conditions: 1) Pattern A: (normal ringing and Call Waiting tones) is used with intercom calls. These are internal calls that originate within the business; 2) Pattern B: (two short rings or Call Waiting tones) is used with Direct Inward Dialing calls. These are incoming calls that originate outside the business. Pattern B is also used for calls completed by way of the attendant and calls incoming from a tie facility; 3) Pattern C: (short-short-long ringing or three short Call Waiting tones) is used with Dial Call Waiting, Call Waiting-Originating, and Night Service calls.

D. DEFINITIONS (Continued)

9. Do Not Disturb

Do Not Disturb allows a station user to prevent incoming calls from ringing at his/her station by diverting them to a tone or recorded announcement. This feature can be offered with a Personal Identification Number (PIN) override option that selected callers can dial to override Do Not Disturb.

10. Intercom Dialing

Intercom Dialing allows Centrex station users to call other stations within their Centrex Groups by dialing abbreviated codes.

11. 3-Way Calling

3-Way Calling allows a station user to add a third party to an existing call, and thus enables a simultaneous conference between parties at multiple locations.

12. Touchtone

Where Central Office facilities are available, a type of high-speed address signaling (dialing) in which buttons in a bank of twelve can be depressed to give one of a group of audio tone pairs for signaling directly over the circuit.

13. Voice/Data Protection

Voice/Data Protection allows a station user to inhibit intrusion features such as Call Waiting and Operator Verification which are directed to that line when it is busy.

D. DEFINITIONS (Continued)

The following are optional, non-chargeable individual station features which may be added to a Centrex line at no charge:

14. Call Forwarding Features:

- a. **Call Forwarding - All Calls (Variable)**
Call Forwarding - All Calls (Variable) enables a station user to divert all incoming calls to another directory number. Activation, deactivation and the forward-to destination are controlled by the station user.
- b. **Call Forwarding - Busy**
Call Forwarding - Busy causes all calls to be redirected to an alternate station when the called station is busy.
- c. **Call Forwarding - Don't Answer**
Call Forward - Don't Answer allows all calls that terminate to a user's station to be redirected to an alternate station after a predetermined number of rings.
- d. **Call Forwarding - Incoming Only (Add-on to Call Forwarding)**
Call Forwarding - Incoming Only is an option that can be used with any of the Call Forwarding features (Call Forwarding - All Calls (Variable), Busy, and Don't Answer) and allows only incoming calls (calls that originate outside the Centrex Group) to be forwarded. Calls from within the group or a private facility are not forwarded.
- e. **Call Forwarding - Within Group Only (Add-on to Call Forwarding)**
Call Forwarding - Within Group Only is an option that can be used with any of the Call Forwarding features (Call Forwarding Variable, Don't Answer, and Busy Line) and restricts call forwarding to only directory numbers within the same Centrex group, thus preventing the station user from forwarding calls outside the Centrex group.

CENTREX SERVICE

D. DEFINITIONS (Continued)

15. **Call Hold**

Call Hold allows a station user to place a call on hold in order to initiate a second call, answer a waiting call, consult privately with another party, or return to the previously held call.

16. **Caller Identification-Number - Internal Only**

Caller Identification-Number - Internal Only allows for the display of the calling party's telephone number (intercom number) on calls made within the Centrex Group. This feature requires a special customer-provided display device which may be either attached to the telephone or built into the telephone. Caller Identification-Basic - External (calls from outside the Centrex Group) can be subscribed to at rates established in this tariff.

17. **Call Transfer - Attendant**

Call Transfer - Attendant allows members of a customer group, who do not have station-controlled call transfer capability, to transfer calls with the aid of the attendant. During a call incoming to the customer group via direct distance dialing, the called party can reach the attendant to request the transfer by flashing and dialing the access code to the attendant. The attendant can only transfer the incoming call to another station within the customer group.

18. **Call Waiting Features:**

a. **Call Waiting (Terminating)**

Call Waiting provides a burst of tone to inform a station user with a call already in progress that another call is waiting to be answered. The station user may answer the waiting call by hanging up or flashing the switchhook. This feature may include Cancel Call Waiting.

b. **Call Waiting - Incoming Only**

Call Waiting - Incoming Only gives the Centrex user a call waiting tone only for calls incoming to his/her group from outside the business. All other calls receive busy tone, and no call waiting tone is provided to the called party. This feature may include Cancel Call Waiting.

CENTREX SERVICE

D. DEFINITIONS (Continued)

19. Class of Service Restrictions:

a. Fully-Restricted Line

A Fully-Restricted Line is prevented from making calls to and/or receiving calls from stations outside the Centrex Group. It is also prevented from making calls to and/or receiving calls from the attendant, thereby denying it indirect access to/from outside the Centrex Group. Blocked calls may be routed to reorder tone or a recorded announcement.

b. Semi-Restricted Line

A Semi-Restricted Line is prevented from making calls to and/or receiving calls from stations outside the Centrex Group. It may, however, make and/or receive outside calls indirectly via the attendant, Call Forwarding, Call Transfer, and Call Pick-Up features. Blocked calls may be routed to reorder tone or a recorded announcement.

20. Off-Premises Stations

Off-Premises Stations enable a secondary business location to access the same Centrex features and services as the main business location. The secondary locations must be served by the same Digital Central Office as the primary location. Appropriate Centrex line rates will be applied to Off-Premises Stations.

21. Single-Digit Dialing

Single-Digit Dialing permits a Centrex station user to reach a line or facility, or to access a feature by dialing a single-digit code. The Single-Digit Dialing codes are shared by all users in a Centrex Group and are preprogrammed by the Telephone Company.

22. Speed Calling 8-Code (Customer Changeable)

Speed Calling 8-Code enables a station user to call a list of up to 8 preselected directory numbers by dialing one-digit codes instead of the directory numbers. This list may be programmed from the Centrex user's telephone set.

CENTREX SERVICE

D. DEFINITIONS (Continued)

The following are optional, chargeable individual station features which may be provisioned on any Centrex line at established tariff rates:

23. **Advanced Calling Services**

Advanced Calling Services are offered as optional, chargeable features and are outlined in the Advanced Calling Services' section of this Company's tariff. Advanced Calling Services are a group of features which allow customers to efficiently manage the call flow generated over exchange access lines. The rates for Advanced Calling Services for Centrex users are defined in this Centrex tariff.

24. **Attendant Camp-On**

Attendant Camp-On allows an attendant attempting to transfer a call to a busy station within the Centrex Group to place the call in waiting until the station becomes available. The busy station receives a special call waiting indication and may either flash the switchhook or hang up to answer the camped-on call.

25. **Call Forwarding - Remote Activation**

Call Forwarding - Remote Activation allows the Centrex user to activate and deactivate Call Forwarding from any location.

26. **Call Transfer - Individual - All Calls**

Call Transfer - Individual - All Calls allows the Centrex user to transfer any established call to another person. Calls may be transferred to other parties both within and outside the business. The Centrex user may transfer a call by flashing the switchhook and dialing the station to which the call is to be transferred. When the Centrex user hangs up, the call will be transferred. In addition, this feature may be used to transfer calls to Tie Facilities.

CENTREX SERVICE

D. DEFINITIONS (Continued)

27. Call Waiting Features:

a. Call Waiting - Dial

Call Waiting - Dial allows the Centrex user to dial a special code prior to calling another station in the Centrex Group and cause a Call Waiting tone to be applied to the station if it is busy (regardless of whether it has Call Waiting). Once alerted, the station called can either flash the switchhook or hang up to answer the waiting call.

b. Call Waiting - Originating

Call Waiting - Originating allows the Centrex user to automatically apply Call Waiting tones whenever he/she calls another station in the Centrex Group and the line is busy, even if the station called does not have the Call Waiting feature. Once alerted, the station called can either flash the switchhook or hang up to answer the waiting call. In contrast to Dial Call Waiting, this feature does not require the Centrex user to dial an access code prior to making the call.

28. Class of Service Restrictions:

a. Toll Restriction

Toll Restriction blocks the completion of calls that are directed to the outside operator or to numbers outside the local calling area. Blocked calls may be routed to reorder tone, a recorded announcement or to a designated station (e.g. the attendant).

b. Code Restriction & Diversion

Code Restriction blocks the completion of calls that are directed to customer specified area codes (NPAs) and/or central office codes (NXXs). Blocked calls may be routed to reorder tone, a recorded announcement or to a designated station (e.g. the attendant).

28. Class of Service Restrictions: (Continued)

c. Outgoing Call Screening

Outgoing Call Screening blocks the completion of calls to specific directory numbers (3, 6, 7, or 10 digit basis). Blocked calls may be routed to reorder tone, a recorded announcement or to a designated station (e.g. the attendant).

29. Conference - Attendant

Conference - Attendant allows an attendant to initiate a conference call of up to six parties (including the attendant). The selection of a special Conference Attendant can be done from any subscribing station within the same customer group by dialing a specific access code.

30. Direct Connect Service (a/k/a Hot Line)

Direct Connect Service allows a station user to automatically place a call to a preselected directory number by lifting the receiver off the switchhook. No dialing is required for the calling party to reach the specified destination.

31. Manual Line Service

Manual Line Service automatically places a call to the operator when the station user lifts the receiver off the switchhook.

32. Night Service

Night Service allows calls directed to the attendant to be re-routed to predesignated station lines within the same Centrex Group when the attendant position is not staffed (i.e., evening hours, weekends).

33. 6-Way Calling

6-Way Calling allows the Centrex user to sequentially call up to five other people and add them together to make up a six-way call. The Centrex user must first dial an access code to implement this feature.

This list may be programmed from the Centrex user's telephone set. In addition, Speed Calling 30 lists may be shared by multiple users within a Centrex Group. When the list is shared, only one user is allowed to change the list.

35. **Warm Line**

Warm Line provides a time-out option with either Direct Connect Service or Manual Line Service. The time-out interval may be set at 1 to 14 seconds. During the time-out interval, a station user will receive normal dial tone and can originate calls. However, after the time-out interval expires, a call is automatically set up and routed to the specified destination.

CENTREX SERVICE

D. DEFINITIONS (Continued)

The following are optional, chargeable features/services which may be provisioned on Centrex Groups of lines or Centrex Systems at established tariff rates:

36. **Account Codes**

Account Codes allow the Centrex user to add an account code for allocating charges. These charges can be printed out on a report or made part of the monthly phone bill.

37. **Authorization Codes**

Authorization Codes allow the Centrex user to dial a special code prior to making a call and override the dialing restrictions at a particular station.

38. **Automatic Route Selection Features:**

a. **Automatic Route Selection**

Automatic Route Selection provides a list of route choices (OutWATS, tie facilities, public carriers, direct distance dialing and foreign exchange) for each outgoing call. The routes on the list are searched sequentially and automatically for idle facilities until an idle facility is found or all route selections are determined unavailable.

b. **Time-of-Day/Day-of-Week Routing Control**

Time-of-Day/Day-of-Week Routing Control allows the list of facility groups over which the Automatic Route Selection feature hunts to complete a given call to be manually altered based on Time-of-Day and/or Day-of-Week considerations.

c. **Expensive Route Warning Tone**

Expensive Route Warning Tone provides a per-call method of cost control by giving the Centrex user a tone when a call is being routed over the most expensive facility in the group.

D. DEFINITIONS (Continued)

38. Automatic Route Selection Features: (Continued)

d. Outgoing Queuing

Outgoing Queuing allows outgoing calls to be placed into a queue and wait for an available facility when all allowed/available facilities are in use. When a facility becomes idle, the call can be made. This feature allows callers to automatically be placed in waiting for an outgoing facility on either an on-hook or off-hook basis.

39. Business Group Dialing Plan

A Business Group Dialing Plan enables a Centrex Group to have a unique dialing scheme which includes Intercom Dialing; access to an attendant, private network and/or special facilities using 1 to 5 digit codes; Single-Digit Dialing; and customized feature activation/deactivation codes. Each Centrex Group may use either a standardized or a customized Business Group Dialing Plan.

40. Centralized Attendant Service

Centralized Attendant Service provides a centralized attendant group for the business which is distributed over geographically separate switching systems. Attendants are normally located at one location and all calls requiring attendant assistance (for all locations) are routed to the attendant location.

41. Centrex Complex

Centrex Complex allows the association of multiple Centrex Groups in a single system. All Centrex Groups within the Complex share intercom calling privileges, but may have separate private facility groups or separate dialing plans.

42. Customer Control

Customer Control allows for the ability to change the operation of certain features via the attendant console. The features which may be changed are Time-of-Day/Day-of-Week Routing Control, Outgoing Queuing and Authorization Codes.

D. DEFINITIONS (Continued)

43. Main Satellite Service

Main Satellite Service allows the Centrex user to tie together several business locations which may be serviced from different central office switches. All attendant services are normally provided from the "main" location, and this location is the only one with a listed directory number. Tie trunks connect all locations for intercom calling.

44. Music/Message on Hold

Music/Message on Hold provides music/message for calls put on call hold (or parked) by Centrex subscribers. The music/message and audio source may be telephone company provided or customer provided.

a. **Standard Music Audio** - Standard Music and audio source is provided by the telephone company-Music is only available for Standard.

b. **Custom Music/Message Audio (audio source resides at telco)** - The production of the Custom Music/Message is provided by the customer. The telephone company reserves the right to refuse any audio source equipment in or on the telephone company's premises due to physical size, electronic emissions, safety concerns, etc.

c. **Custom Music/Message Audio (audio source resides at customer)** - The production of the Custom Music/Message is provided by the customer. The audio is located at the customer's premises and a line/trunk tariff will apply and be necessary to supply the Music/Message to the telephone company.

45. OutWATS, INWATS, and Tie Facilities:

a. OutWATS

OutWATS is a form of Direct Distance Dialing service that allows a station user to place long distance calls to specified geographical areas at reduced rates. Each OutWATS call is screened to ensure that the call destination is within the band limits of the OutWATS station user. Simulated Facility Groups may be used to control the number of simultaneous OutWATS calls that can be made from a business.

D. DEFINITIONS (Continued)

45. OutWATS, INWATS, and Tie Facilities: (Continued)

b. INWATS

INWATS service provides the ability to receive calls which would be dialed as 800-type numbers. This allows individuals calling a business to do so without incurring toll charges. Simulated Facility Groups may be used to control the number of simultaneous INWATS calls that can be made to the business.

c. Tie Facilities

Tie Facility Access allows the Centrex user to make and receive calls to other switches via Tie Facilities. For outgoing Tie Facilities, stations in the business dial a special access code. Access to Tie Facilities can be controlled or restricted by Simulated Facility Groups.

46. Special Customer Premise Equipment (CPE) Interface Circuits:

Special CPE Interface Circuits provide access to special customer-owned equipment, such as paging equipment, code calling equipment, dictation and radio paging equipment by dialing an intercom or access code. Depending upon the customer-owned equipment used, either line circuits or trunk circuits will be required:

a. Code Calling

Code Calling allows for dial access via an access code to connect to a customer-provided signaling device using a bell or some other audible signal. During the time that the user is on the line to the device, the person called can pick up any line within the Centrex Group and dial a code to automatically connect to the user.

b. Improved Radio Paging

Improved Radio Paging allows attendants and other users to page other people in the business using radio paging equipment. Anyone receiving a page can establish a connection by dialing a code from a Centrex phone.

D. DEFINITIONS (Continued)

46. Special Customer Premise Equipment (CPE) Interface Circuits: (Continued)

c. Loudspeaker Paging

Loudspeaker Paging allows dial access via an access code to page someone on the business' premises. The user can use this feature when someone is on hold, but the person on hold cannot be transferred to the paging device.

d. Paging Access

Paging Access allows selected stations to have dial access to customer-provided loudspeaker paging equipment. A line or a tie-trunk is required to support the customer's paging equipment.

e. Recorded Telephone Dictation

Recorded Telephone Dictation allows the Centrex user to connect a telephone dictation machine so that users can dial an access code and dictate information.

47. Special Intercept Announcement

A Special Intercept Announcement may optionally be used to address the following conditions: a) If a Centrex station user dials a code which is not defined or assigned in the Business Group Dialing Plan, or b) If the call is restricted due to various restriction arrangements (i.e., Semi-Restricted, etc.).

48. Station Message Detail Recording (SMDR)

SMDR provides detailed call information on billable and non-billable calls made from the Centrex Group. This feature requires special equipment which must be located on the customer's premises.

CENTREX SERVICE

D. DEFINITIONS (Continued)

The following are optional, chargeable hunting features which may be provisioned with Centrex Service at established tariff rates:

49. Hunting Arrangements:

a. **Circle Hunting**

Circle Hunting allows calls directed to busy stations in the middle of the hunt group to search through to the end of the hunt group and then return to the beginning of the hunt list in search of an idle station. The caller is connected to the first idle station encountered.

b. **Preferential Hunting**

Preferential Hunting allows any station in a Hunt Group to have its own (preferential) hunting list. If a call is made to a station with a Preferential Hunting list assigned to it, and that station is busy, the preferential list is first hunted until an idle station is found. If an idle station is not found on the preferential list, the hunt will proceed to the entire hunt group.

c. **Regular Hunting**

Regular Hunting or Linear Hunting is performed in a sequential fashion across all members of a Multiline Hunt Group. The search for an idle station starts with the pilot number. If the first station is busy, the group is sequentially hunted until an idle station is found. If there are no idle stations available, the caller receives a busy signal.

d. **Series Completion**

Series Completion is a hunting arrangement in which individual stations always have their own directory numbers and classes of service. Two different hunting arrangements can be selected with Series Completion: linear or circle.

Uniform Call Distribution

Uniform Call Distribution is intended to distribute calls evenly among the stations in a Hunt Group. When a caller is connected to an idle station, the location of the next station is marked as the starting point for hunting when the next incoming call is received. Once hunting begins, it proceeds in a circular manner until an idle station is found.

D. DEFINITIONS (Continued)

50. Delay Announcements for Queued Calls

Delay Announcements can optionally be used to inform a caller that his or her call has been placed in a queue. The delay announcement can be repeated at regular intervals until an idle station becomes available.

51. Make Busy Features:

a. Make Busy

Make Busy can be used to temporarily make a particular station in a Hunt Group appear busy to incoming callers. Make Busy causes the hunt to skip over a station during the search for an idle station.

b. Group Make Busy

Make Busy can be used to temporarily make a group of stations or an entire Hunt Group appear busy to incoming callers. Make Busy causes the hunt to skip over a group of stations during the search for an idle station and is operated via a physical switch.

52. Queuing for Hunt Groups

Queuing may optionally be used when all stations in a Hunt Group are busy. When this occurs, a call is placed into a queue. The call remains in the queue until an idle station is located. Up to ten calls can be in queue for a Multiline Hunt Group. Queuing cannot be provided for Preferential Hunt Groups or Series Completion Groups.

53. Stop Hunt

Stop Hunt allows a station user to stop the normal hunting process at a predetermined point. Activating this feature at a particular station in a Hunt Group will cause the search for an idle line to stop there.

RESALE AND SHARING TARIFF

A. GENERAL

1. Except where specifically noted herein, this tariff is not intended to apply to the resale of local exchange service by a Facilities-Based Local Exchange Carrier.
2. This tariff does not permit, by a Facilities-Based Local Exchange Carrier or any other entity, the purchase of local residential service for resale as business service. Such resale is prohibited.
3. The Telephone Company will permit the resale or sharing of local exchange service. Resale or sharing of local exchange service is provided on a non-residence individual lines or trunks. The customer's service may be extended to:
 - a. Tenants and guests of nursing homes, retirement homes or villages, apartments and/or apartment complex and other developments for residential use (i.e. Mobile Home Parks),
 - b. Persons temporarily subleasing a customers residential premises,
 - c. Patrons of non-residence customer's who resell or share their service or equipment.

For the purpose of this tariff "resale and sharing of local exchange service" shall be interpreted in the following manner:

- a. **RESALE** - The reselling by a customer of the customer's service to others for profit.
- b. **SHARING** - The shared use by a customer with others on a shared cost basis of the customers service.
- c. **LOCAL EXCHANGE SERVICE** - Telecommunications service provided within local exchange service areas in accordance with the tariffs. It includes the use of exchange facilities required to establish connections between stations within the exchange and between stations and the toll facilities serving the exchange.
- d. Other applicable interpretations are those set forth under title "Definitions" Chapter 4901:1-5-02 of the Code of Rules and Regulations.

The Telephone Company will continue to offer Local Exchange Service to subscribers of the reseller/sharer customer at applicable rates and charges as filed under the General Exchange Tariff then on file with the Public Utilities Commission of Ohio.

ISSUED BY THE PUBLIC UTILITIES COMMISSION OF OHIO
BY: JOSEPH D. KIRK, PRESIDENT
VANLUE, OHIO

P. U. C. O. NO. 1

RESALE AND SHARING TARIFF

- (3) The Telephone Company will not be responsible for the manner in which the use of service or charges are allocated to others by a customer who resells or shares service. All applicable rates and charges for such service will be billed to the customer.
- (4) Service orders will be accepted by the Telephone Company only from the customer; provided, however, that the Telephone Company will respond to repair and maintenance requests from others and, in such circumstances, the customer is responsible for any maintenance of service charge that may be billed by the Telephone Company.
- (5) Resale or STS access line service will be provided on a measured rate basis pursuant for rates set forth in the local exchange tariff. Where measured (or message) service is not available, the reseller or STS provider shall pay the appropriate flat business individual or trunk rate. Should the Company acquire the capability to offer measured (or message) rate service, it will file an application pursuant to section 4909.18 Revised Code, to institute measured (or message) service charges for resellers and STS providers.

C. REGULATIONS

1. Access Line

Resale and Sharing of local exchange service shall be provided on a Non-Resident Access Line or trunks basis only.

2. Inter-Connection

- (a) Inter-connection of the resale/sharing facilities with the Telephone Company network shall be in accordance of FCC's Part 68 Standards for interconnection.
- (b) CPE and intrasystem wiring used in the reseller/sharing operation shall meet FCC part 68 Standards.

3. Restrictions

The following restrictions shall be applicable to Resale and Sharing operations:

- (a) A reseller/sharer may provide service only within a single building, or a contiguous complex of buildings under common ownership or management (such complex may be intersected by public thoroughfares provided that the property segments created would be continuous in the absence of the thoroughfares);
- (b) Where separate buildings are involved, they must have a related business purpose (e.g., industrial park, shopping center, university, etc.);

P. U. C. O. NO. 1

RESALE AND SHARING TARIFF

- (c) Direct interconnection of PBXs serving different resale/sharing systems is prohibited; and
- (d) Participation in reselling/sharing systems shall be limited to occupants of a building or contiguous complex of buildings which compose a resale/sharing system.

4. Directory

- (a) The Telephone Company shall provide one (1) copy of the Local Telephone Directory on a periodic basis. Any additional copies will be provided at the expense of the resale/sharer customer.
- (b) Directory listings for the subscribers of the resale/sharing customer will be provided at the rates for non-residence additional listings as set forth in the General Exchange Tariff on file with The Public Utilities Commission of Ohio. The Telephone Company will place listings of residential customers of STS providers in the residential section of the directory, when so notified by the STS provider.

D. RATES AND CHARGES

The Rates and Charges for the provision of local resale and sharing are those rates set forth in the Commission approved General Exchange Tariff (filed with The Public Utilities Commission of Ohio), as each now exists, and as each may be revised, added to, or supplemented by order of The Public Utilities Commission of Ohio.

- 1. Non-Residence Access Line
- 2. Local Telephone Directory
- 3. Non-Residence Additional Listings
- 4. Other recurring and non-recurring tariff items required to accommodate the customer (i.e. Service Order Charges).

RESALE AND SHARING TARIFF

E. PAYMENT FOR SERVICES AND FACILITIES

1. The Telephone Company will endeavor to mail its bills for telephone service on or before the same date each month. All bills for local service one month in advance; toll charges for all calls originated by the customer or accepted by him as "collect", "third number", or "special billed" calls; or miscellaneous charges for facilities or services are due upon presentation of the bill. If the bill is not paid within fifteen (15) calendar days following the date of the bill (the date the bill is mailed to the customer) the account will be considered delinquent. Bills are payable at the office of the Telephone Company or any agency authorized by the Telephone Company to receive such payment.
2. The failure of the customer to promptly pay the delinquent bill (regular billing or special toll billing) may subject the customer's service to either temporary suspension or discontinuance of service pursuant to the provisions of Paragraph No. 3 following:
 - a. If the customer's service is temporarily suspended for non-payment it may not be restored until all amounts due (at the time of payment) are paid in full, including the reconnection of service charge. Upon receipt of all amounts due (including the reconnection of service charge) or, upon agreement to satisfactory payment arrangements by the parties involved, the Telephone Company will restore the service as soon as possible.
3. The Telephone Company is responsible for providing actual notice to the subscriber before service is discontinued pursuant to provisions set forth under "Procedure for Disconnection of Service".
4. Each month is considered to have thirty (30) days for the purpose of computing charges, and shall be the basis for computing fractional portions of monthly billing, pro rated charges and adjustments to customer accounts.
5. Failure to receive a bill will not exempt a subscriber from prompt payment of any sum or sums due the Company.

RESALE AND SHARING TARIFF

6. If a temporarily suspended service is reconnected prior to the completion of an order to discontinue the service, the Telephone Company will give a pro rata credit for the entire period of time the service was temporarily suspended; except, in the case where service is reconnected within the day after the day it was temporarily suspended, no credit will be given. Subsequent to the completion of an order to discontinue a customer's telephone service, the Telephone Company will re-establish the service only on the basis of a new application for service; in such case, the restoral of service charge is not applicable.

F. PROCEDURE FOR DISCONNECTION OF SERVICE

1. Telephone Service will not be discontinued or denied without prior approval of the Commission, except:
 - a. Where a customer has neglected or refused payment of an overdue bill and the Company has exhausted all reasonable efforts for collection;
 - b. When some condition exists on a customer's premises, whether or not of his making, that is causing disruption of service to others;
 - c. Where the Company is served with an order which has been legally issued by a government agency which the Company has reason to believe has jurisdiction to issue such an order.
2. Prior to taking any action to temporarily disconnect or permanently terminate a customer resale/sharing service, for any cause whatsoever, except at the request of the customer, actual notice will be given to the customer.

Such actual notification shall be accomplished by personal visit or telephone message. A mailed notice shall include the date the notice was given (mailed) by the Company. It shall inform the customer that his telephone service is subject to temporary disconnection or permanent termination, five (5) working days from the date the notice is actually received. It shall also convey the reason(s) for disconnecting or terminating the customer's telephone service, and request the customer to contact the telephone company immediately. Verbal, either face-to-face or telephone notice shall convey the same information.

RESALE AND SHARING TARIFF

3. The Telephone Company will not take action to temporarily disconnect or permanently terminate a customer's resale/sharing service unless the customer has received the above stated actual notice, and has not contacted the Company within the five (5) days notice period; or if, through such contact by the customer, satisfactory arrangements have not been made for continued telephone service.
4. In the event the customer indicates that he can not, or will not, pay his overdue bill, and/or refuses to negotiate reasonable payment arrangements, the Telephone Company may immediately disconnect his service.
