The Orwell Telephone Company will comply with all of the Commission's Minimum Telephone Service Standards set forth in Chapter 4901:1-5 of the Ohio Administrative Code (O.A.C.). (N)

1. Availability of Facilities

The Telephone Company's obligation to furnish exchange and toll service is dependent upon its ability to secure and retain, without unreasonable expense, suitable facilities and rights for the construction and maintenance of the necessary pole lines, circuits and equipment.

2. Interruption of Service

The Company will comply with the Commission's Minimum Telephone Service Standards regarding interruption of service, set forth in O.A.C. 4901:1-5-16, and found in Section 5 of this Tariff. (T)

3. Directory Errors and Omissions

a. The Telephone Company, except as provided herein, shall not be liable for damage claimed on account of errors in or omissions from its directories nor for the result of the publications of such errors in the directory nor will the Telephone Company be a party to controversies arising between subscribers or others as a result of listings published in its directories. The Company will comply with the Commission's Minimum Telephone Service Standards regarding omission of a subscriber's listing from the white pages of the telephone directory or the listing of an incorrect telephone number, set forth in O.A.C. 4901:1-5-16, and found in Section 5 of this Tariff. C. OBLIGATION AND LIABILITY OF TELEPHONE COMPANY (Continued)

4. Transmitting Messages

The Telephone Company does not transmit messages but offers the use of its facilities for communications between patrons. If, because of transmission difficulties, the operator, in order to accommodate the subscriber, repeats messages she is deemed to be acting as the agent of the persons involved and no liability shall attach to the Telephone Company because of any errors made by the operator or misunderstandings that may arise between subscribers because of the errors.

5. Use of Connecting Company Lines

When suitable arrangements can be made, lines of other telephone companies may be used in establishing wire connections to points not reached by this Company's lines. In establishing connections with the lines of other Companies, the Telephone Company is not responsible for any action of the Connecting Company.

6. Defacement of Premises

The Telephone Company shall exercise due care in connection with all work done on subscriber's premises. No liability shall attach to the Telephone Company by reason of any defacement or damage to the subscriber's premises resulting from the existence of the Telephone Company's instruments, apparatus and associated wiring on such premises, or by the installation or removal thereof, unless such defacement or damage is a result of the negligence of the Telephone Company.

7. Adjustment of Charges

The Company will comply with the Commission's Minimum Telephone Service Standards regarding overbilling and underbilling, set forth in O.A.C. 4901:1-5-16, and found in Section 5 of this Tariff. (T)

8. Disclaimer

Approval of the above tariff language by the PUCO does not constitute a determination by the Commission that the limitation of liability imposed by the Company should be upheld in a court of law. Approval by the Commission merely recognizes that since it is a court's responsibility to adjudicate negligence and consequent damage claims, it is also the court's responsibility to determine the validity of the exculpatory clause. 10. Liability of Telephone Company

(N)

a. In view of the fact that the customer has exclusive control of his communication over the facilities furnished him by the Telephone Company, and of the other uses for which facilities may be furnished to him by the Telephone Company, and because of unavoidable errors incident to the service and to the use of such facilities of the Telephone Company, the service and facilities furnished by the Company are subject to the terms, conditions, and limitations herein specified.

b. The liability of the Telephone Company for damages arising out of mistakes, omissions, interruptions, delays, or errors or defects in transmission occurring in the course of furnishing service or other facilities and not caused by the negligence of the customer, shall in no event exceed an amount equivalent to the proportionate charge to the customer for the period of service during which such mistake, omission, interruption, delay, error or defect in transmission occurs. No other liability shall in any case attach to the Telephone Company. The approval by the PUCO of the foregoing language in this tariff does not constitute a determination by the PUCO that the limitation of liability imposed by the Company should be upheld in a court of law. Approval by the PUCO recognizes that since it is a court's responsibility to adjudicate negligent and consequent damage claims, it is also the court's responsibility to determine the validity of the limitation of liability therefore.

c. The Company will comply with the Commission's Minimum Telephone Service Standards regarding subscriber billing adjustments for local exchange service, set forth in O.A.C. 4901:1-5-16, and found in Section 5 of this Tariff.

Subsequent to the completion of an order to terminate the service, it may at the option of the Telephone Company be re-established only on the basis of a new application.
6. In the event the service of a subscriber has been twice denied for non-payment within the previous 12 months, service may be terminated in lieu of a third denial. Service then may be re-established at the option of the Company only on the basis of a new application.

Toll Blocking Policy

The Orwell Telephone Company, when providing toll service, may “universally” block access to all toll providers for nonpayment of regulated toll charges, so long as the blocked customer is not denied the right to select, through a presubscribed interexchange change (PIC) mechanism, any other 1+ presubscribed toll service provider who is obligated to provide such service under the terms of the Selective Access Policy.

Under the terms of the Selective Access Policy, The Orwell Telephone Company when providing toll service, may not deny establishment of 1+ presubscribed toll service on the grounds that the customer has failed to establish creditworthiness, if:

- a. the customer is able to establish creditworthiness using one of the means for doing so available under the Public Utilities Commission of Ohio’s (PUCO) rules, or
- b. The Orwell Telephone Company when providing toll service, exercising its own discretion, does not require the customer to establish creditworthiness (through any of the means available for doing so under the PUCO’s rules), or
- c. The Orwell Telephone Company when providing toll service, attempts to require the customer to establish creditworthiness using credit establishment procedures which do not comport with the PUCO’s credit establishment policies and/or are not set forth within a PUCO approved tariff.

When a prospective customer, who has previously been universally blocked for nonpayment of toll charges by another carrier, seeks to select The Orwell Telephone Company as his or her 1+ carrier of choice, The Orwell Telephone Company may, subject to our tariffed toll deposit policies and the Commission’s rules on establishment of service (See Rule 4901:1-5-13, Ohio Administrative Code, [O.A.C.]), require a deposit for toll service. This deposit shall be in accordance with Rule 4901:1-5-13 (B), O.A.C., but The Orwell Telephone Company may negotiate a lower deposit. (T)

The Orwell Telephone Company may furnish credit information, acquired from the Company’s own experiences with the customer, to consumer reporting agencies within the meaning of the Federal Fair Credit Reporting Act. The Company will follow all requirements that consumer reporting agencies must follow in issuing credit reports within the meaning of the Federal Fair Credit Reporting Act. (T)

Upon payment by the customer of all past due toll debt to The Orwell Telephone Company, the Company will remove the block and all 1+ dialing capabilities, including 10-XXX, will be restored.

Toll disconnection service shall be provided as follows:

The Orwell Telephone Company will comply with all of the Commission's Minimum Telephone Service Standards (MTSS), set forth in Chapter 4901:1-5 of the Ohio Administrative Code (O.A.C.), including the following:

(N)

HANDLING OF CONSUMER COMPLAINTS
(O.A.C. 4901:1-5-05)

- (A) For purposes of this rule, a complaint is an informal investigation conducted by the public interest center staff or telecommunications provider at the request of a consumer or as a method for staff to determine the telecommunications provider's compliance with this chapter and other Commission policies. Each telecommunications provider shall fully and promptly investigate all complaints. The telecommunications provider shall provide a report of each complaint's resolution within ten business days of the date of receipt of the complaint to:
- (1) the subscriber, when investigating a complaint made directly to the telecommunications provider; or
 - (2) the subscriber and the Commission staff, when investigating a complaint referred to the telecommunications provider by the Commission staff.
- (B) After ten business days, if the investigation is not complete, the telecommunications provider shall provide an interim report to the subscriber when investigating a complaint made directly to the telecommunications provider or to both the subscriber and the Commission staff when investigating a complaint referred to the telecommunications provider by the Commission staff. The interim report shall include:
- (1) the date when a final resolution is expected to be complete;
 - (2) a report of the current status of the complaint; and
 - (3) a report explaining what work or research needs to be completed.
- (C) The Commission staff may request interim reports at other intervals containing the same or other data due to the nature of the complaint.
- (D) The telecommunications provider shall inform the subscriber, or both the subscriber and the Commission staff, of the results of the investigation, either orally or in writing. The subscriber, the Commission staff, or both may request the final report to be in writing. If the telecommunications provider provides the results of the investigation orally to the subscriber, it shall inform the subscriber of the right to have this final report in writing.

ESTABLISHMENT OF SERVICE
(O.A.C. 4901:1-5-13)

(N)

(A) Service applicants may be required to establish creditworthiness.

- (1) Chapter 4901:1-17 of the Administrative Code pertains, generally, to the manner in which credit may be established by residential utility customers. Except as otherwise indicated in this rule, in each instance where a provision of Chapter 4901:1-17 of the Administrative Code has application to residential telephone service provided by a telecommunications provider, it shall be deemed, under this rule, as also having application to nonresidential telephone service by such companies.
- (2) Telecommunications providers may required service applicants to establish financial responsibility as a condition precedent to establishing service. Both may rely on pertinent information obtained from credit reporting bureaus in determining whether creditworthiness need be established. However, a service applicant cannot be denied service, on creditworthiness grounds, unless the service applicant has been provided an opportunity to establish financial responsibility through every means available for doing so provided for in Chapters 4901:1-5 and 4901:1-17 of the Administrative Code.
- (3) When a telecommunications provider requires the financial responsibility of a service applicant to be established, it must inform the service applicant of all options available for meeting that requirement.

ESTABLISHMENT OF SERVICE (Continued)

- (a) Paying a deposit must be among the available options, except where unpaid debt for regulated service is already owed by the service applicant to the telecommunications provider with whom the service applicant is seeking to establish service. Where unpaid debt for regulated service is owed, the Company may require the applicant to pay such debt pursuant to Rule 4901:1-5-13(A)(3)(d) of the Administrative Code.
- (b) Telecommunications providers are permitted, but not required, to make use of toll caps as a method of extending limited credit to subscribers or service applicants unable to maintain or establish their creditworthiness through other means, so long as the terms and conditions of the toll cap are set forth in a Commission-approved tariff. The terms and conditions under which a toll cap is imposed as well as the steps that the subscriber or service applicant may take to have the toll cap removed must be disclosed, in writing, by the telecommunications service provider at the time a toll cap is imposed.
- (c) If an applicant for service owes to a telecommunications service provider an unpaid bill for telecommunications service previously provided but discontinued for nonpayment, where the service applicant is presently seeking to establish or reestablish service with the same provider who previously provided the service, and is presently seeking to establish or reestablish the same class of service as that previously provided, the telecommunications service provider who provided the previous service is not obligated to deem the service applicant's creditworthiness as having been satisfactorily established under the Commission's establishment of credit and establishment of service rules so long as the bill for previous service remains unpaid. However, in no event, shall local exchange service be denied to any local exchange service applicant on grounds that the service applicant has failed to pay for a type of service other than local exchange service.

- (d) An unpaid bill for previous toll service can be considered as a reason to deny service to an applicant seeking a new 1+ presubscription toll service account only when the unpaid bill is owed to the same telecommunications provider with whom the applicant is now seeking to establish or reestablish service and the class of service previously provided is the same as that the applicant is now seeking to establish or reestablish. If the previous unpaid bill is owed to a provider other than that with whom the applicant is seeking to establish service, the subsequent toll provider may not deny service on that basis alone, but may consider the applicant's unpaid debt, as well as any pertinent information obtained from a credit reporting bureau, in determining whether there exists a need to assess a toll deposit or take other measures to assure creditworthiness. Moreover, in no event shall local exchange service be denied to any local exchange service applicant on grounds that the service applicant has failed to pay for a type of service other than local exchange service.

- (4) So long as it acts in a just, reasonable, and nondiscriminatory manner, a local service provider may, pursuant to a contract obligating it to do so, enforce the tariff-established credit and deposit policies of another telecommunications provider.

- (B) Deposits.
 - (1) Deposits for local service shall be calculated separately from deposits for toll service.

 - (2) Telecommunication service providers must choose only one, from between two alternative methods available for calculating deposits. Whichever method is chosen must be uniformly applied with respect to all service applicants and customers who are assessed a deposit.
 - (a) The first method, which may be referred to as "the individual service history method" involves calculating the amount of the deposit based on the known or estimated service history of the individual who is being assessed a deposit.

- (i) Under this method, the amount of a deposit assessed for local service shall not exceed two hundred and thirty per cent of the estimated or, where the customer or service applicant has either an existing or a previous local service account billing history with the local service provider, the historic monthly average total charge for all regulated local services provided (or to be provided) to the customer by the company or companies on whose behalf the deposit is assessed.
 - (ii) Under this method, the amount of a deposit assessed for toll service shall not exceed two hundred and thirty per cent of the estimated or, where the customer or service applicant has either an existing or a previous toll service account billing history with the toll service provider, the historic monthly average total charge for all regulated toll services provided (or to be provided) to the customer by the company or companies on whose behalf the deposit is assessed.
- (b) The second method, which may be referred to as "the uniform statewide deposit amount method", involves calculating uniform statewide average deposit amounts for each of four categories of service: residence local exchange service, residence toll service, nonresidence local exchange service, and nonresidence toll service.
- (i) Under this method, a local service provider shall develop and may apply a tariffed, single, company-specific, statewide deposit amount for residence local service accounts and/or a tariffed, single company-specific statewide deposit amount for nonresidence local service accounts. Likewise, a toll service provider shall develop and may apply a tariffed, single, company-specific, statewide deposit amount for residence toll service accounts and/or a tariffed, single, company-specific statewide deposit amount for nonresidence toll service accounts.
 - (ii) Using the second alternative, the toll service provider shall develop and may apply a tariffed, single, company-specific, statewide deposit amount for residence toll service accounts and/or statewide deposit amount for nonresidence toll service accounts.

- (iii) The amount of the deposit may not exceed two hundred and thirty per cent of the statewide average bill amount for the class and type of service involved, based on a study of all the provider's customers in the state of Ohio.
 - (iv) A subscriber who is assessed a deposit based on the service provider's statewide average deposit amount may, at any time after the first three months of service and up to the end of the first full year of service, upon request, receive credit on his or her bill for the difference between the amount of the deposit actually paid and an amount equal to two hundred and thirty per cent of the subscriber's actual monthly average total bill for the type of service on which the deposit was based (where the actual monthly average is based on the subscriber's average actual monthly usage of that service, dating from the time of the assessment of the statewide deposit to the point at which the request for credit is made). Any amount so credited shall thereafter no longer accrue interest to be refunded with the deposit and, thereafter, be considered as deducted from the amount of the deposit which, along with the interest accrued, must be refunded pursuant to Rule 4901:1-17-06 of the Administrative Code.
- (3) Local service must be provided to local service applicants who are able to meet the deposit requirements for local service regardless of whether the applicant is able to meet the deposit requirements for toll service.
 - (4) So long as payment of a toll deposit is in no way made a condition precedent to a local service applicant obtaining or maintaining local service, the assessment of a separately calculated deposit for local service may occur within the same bill as any separately calculated deposit for toll service.

- (C) Toll providers, or local service providers acting on behalf of toll providers subject to billing and collection agreements, may otherwise block access to all toll providers for nonpayment of regulated toll charges, so long as the blocked customer is not, thereby, denied the right to select, through a presubscribed interexchange carrier (PIC) mechanism, any subsequent 1+ toll service provider under the terms of this chapter of the Administrative Code. Any such subsequent toll provider may not deny establishment of 1+ presubscribed toll service on grounds that the customer has failed to establish creditworthiness, if:
- (1) the customer is able to establish creditworthiness using one of the means for doing so available under Chapter 4901:1-5 or the Administrative Code; or
 - (2) the subsequent toll provider, exercising its own discretion, does not require the customer to establish creditworthiness (through any of the means available for doing so under Chapter 4901:1-5 of the Administrative Code); or
 - (3) the subsequent toll provider attempts to require the customer to establish creditworthiness using credit establishment procedures which do not comport with the Commission's credit establishment policies and/or are not set forth within a Commission-approved tariff.
- (D) When an applicant for 1+ toll service who has previously been universally blocked for nonpayment of toll charges seeks to select, through a PIC mechanism, some subsequent toll provider as the applicant's 1+ carrier of choice, the subsequently PICed toll provider may, subject to its tariffed toll deposit policies and the Commission's minimum telephone service standards set forth in Chapter 4901:1-5 of the Administrative Code, require a deposit (or other evidence of creditworthiness) from such applicant for toll service in accordance with Rule 4901:1-5-13(B) of the Administrative Code. However, the subsequently PICed toll provider may accept a lower deposit, or no deposit, based upon usage, toll cap provisions in its tariff, or credit information obtained either from a credit bureau or directly from the customer.

- (E) Nothing should constrain telecommunications providers from furnishing credit information acquired from their own experiences with their own customers to consumer reporting agencies, within the meaning of the federal Fair Credit Reporting Act. However, if and when telecommunications providers furnish such information to others, they must comply with all of the requirements that consumer reporting agencies must follow in issuing credit reports within the meaning of the federal Fair Credit Reporting Act.
- (F) All forms of toll blocking services offered by local service providers to toll service providers must be provided on a nondiscriminatory basis to all toll service providers, regardless of whether the local service provider has established a billing and collection agreement with the toll provider. Any charges for toll blocking service offered by a local service provider to toll service providers must be set forth in a Commission-approved tariff.
- (G) Changes to local exchange service after initiation of service
 - (1) Within sixty days of the date of initiation of service, new residential local service subscribers shall be allowed, at a minimum, a one-time change of their type of local exchange service (i.e., flat-rate, message, or measured service) without charge. This does not preclude the Company from charging for the original service connection, monthly charges for the period such service was used, or the addition or removal of any optional local service.
 - (2) Within sixty days of the date of a change in their type of service, existing residential local service subscribers shall be allowed to return to their prior type of local exchange service once without charge. This does not preclude the Company from charging for the previous service connection, monthly charges for the period such service was used, or the addition or removal of any optional local service. This does not apply to subscribers who have availed themselves of the relief afforded in paragraph (G)(1) of this rule within the previous six months.

The terms of the guarantee shall include the following:
- (1) the guarantor may terminate the guarantee after thirty day's notice to the Company. The subscriber may be required to reestablish creditworthiness when the guarantor terminates the guarantee. The guarantor shall be obligated for charges for the local exchange and/or interexchange services provided to the subscriber through the date of termination of the guarantee; and

SUBSCRIBER BILLING ADJUSTMENTS FOR LOCAL EXCHANGE SERVICE
(O.A.C. 4901:1-5-16)

(A) The local service provider shall make an adjustment to a subscriber's bill in accordance with paragraph (B) of this rule whenever a subscriber's service is interrupted and remains out of service for more than twenty-four consecutive hours after being reported to the local service provider or after being found by the local service provider to be out of service. The length of the service interruption must be computed on a continuous basis, Saturdays, Sundays, and holidays included. This rule does not apply if the out-of-service condition:

- (1) occurs as a result of a negligent or willful act on the part of the subscriber;
- (2) occurs as a result of a malfunction of subscriber-owned telephone equipment or inside wire;
- (3) occurs as a result of a military action, war, insurrection, riot, or strike; or
- (4) cannot be repaired due to the subscriber missing a repair appointment.

Each local service provider must justify and document in its records each instance where it applied any of the exceptions listed in this paragraph.

(B) If an out-of-service condition exceeds twenty-four hours but is less than forty-eight hours, the local service provider shall credit the subscriber's bill for at least the pro rata portion of the monthly charge(s) for all regulated local services rendered inoperative during the interruption. Credit for out-of-service conditions lasting longer shall be provided as follows:

- (1) The local service provider shall provide a subscriber who experiences an out-of-service condition of forty-eight hours but less than seventy-two hours a credit equal to at least one-third of one month's charges for any regulated local services rendered inoperative.
- (2) The local service provider shall provide a subscriber who experiences an out-of-service condition of seventy-two hours but less than ninety-six hours a credit equal to at least two-thirds of one month's charges for any regulated local services rendered inoperative.

One copy of the waiver request shall be filed with the Commission's docketing division in the MTSS Docket, Case No. 00-1265-TP-ORD, and one copy shall be submitted to the PUCO Outage Coordinator within two business days of the onset of the claimed act of God. Such waiver request shall state the specific nature of the act of God, the extent and location of damaged facilities, and the number of customers affected. If the Commission or its staff takes no action within two business days of the filing of such waiver request, the act of God exception may be invoked by the local service provider. In the event an act of God exception is applied, the provisions of paragraph (B) of this rule will not apply until forty-eight hours after the onset of the verified act of God. Accordingly, forty-eight hours shall be added to each of the time frames established in paragraph (B) of this rule for purposes of determining credits to customer accounts. Each local service provider must justify and document in its records each instance where it has applied an act of God exception.
- (D) If the local service provider fails to install new access line service and any associated features within five business days of receiving an application for new service, or by the requested date, when at least five business days notice is given, the provider must waive at least one-half of all regulated nonrecurring installation charges associated with the new service or features. If the local service provider fails to install new access line service and any associated features within ten business days of an application for new service or fails to install such service by the requested installation date, when at least ten business days notice is given, the provider shall waive all regulated nonrecurring installation charges associated with the new service or features. In that case, any amount paid over the amount past due shall be applied first to current local charges.

P.U.C.O. NO. 6
GENERAL EXCHANGE SERVICE TARIFF

Customers have certain rights and responsibilities under the Minimum Telephone Service Standards (Ohio Adm.Code 4901:1-5) (the "MTSS"). These safeguards can be found in the Appendix to Ohio Adm.Code 4901:1-5-03, which is entitled "Telephone Customer Rights and Responsibilities." These rights and responsibilities include complaint handling, ordering or changing service, service repair, payment of bills, and disconnection and reconnection of service. (N)

The rules and regulations specified herein are in addition to those contained in the Local Exchange Service Tariffs, the General Exchange Service Tariffs and the Message Toll Telephone Service Tariffs. They apply to the intrastate services and facilities furnished by The Orwell Telephone Company, hereinafter referred to as the Telephone Company, or Company. Failure on the part of the subscribers to observe these rules and regulations of the Telephone Company, after due notice of such failure, automatically gives the Telephone Company the privilege to discontinue the furnishing of service.

In the event of a conflict between any rate, rule, regulation or provision contained in these General Rules and Regulations and any rate, rule, regulation or provision contained in the Local Exchange Service Tariffs, the General Exchange Service Tariffs or the Message Toll Telephone Service Tariffs, the rate, rule, regulation or provision contained in the specific tariffs shall prevail.

These Tariffs cancel and supersede all other Tariffs of the Telephone Company issued and effective prior to the effective dates of these Tariffs.

C. OBLIGATION AND LIABILITY OF TELEPHONE COMPANY

(D)

1. Availability of Facilities

The Telephone Company's obligation to furnish exchange and toll service is dependent upon its ability to secure and retain, without unreasonable expense, suitable facilities and rights for the construction and maintenance of the necessary pole lines, circuits and equipment.

(D)

2. Directory Errors and Omissions

a. The Telephone Company, except as provided herein, shall not be liable for damage claimed on account of errors in or omissions from its directories nor for the result of the publications of such errors in the directory nor will the Telephone Company be a party to controversies arising between subscribers or others as a result of listings published in its directories.

(T)

b. In the cases of extra listings in the alphabetical section of the directory for which a charge is made, the Telephone Company's liability shall be limited to an amount not to exceed the established rate for such listing during the period which the error or omission continues.

P.U.C.O. NO. 6
GENERAL EXCHANGE SERVICE TARIFF

C. OBLIGATION AND LIABILITY OF TELEPHONE COMPANY (Continued)

3. Transmitting Messages

The Telephone Company does not transmit messages but offers the use of its facilities for communications between patrons. If, because of transmission difficulties, the operator, in order to accommodate the subscriber, repeats messages she is deemed to be acting as the agent of the persons involved and no liability shall attach to the Telephone Company because of any errors made by the operator or misunderstandings that may arise between subscribers because of the errors.

4. Use of Connecting Company Lines

When suitable arrangements can be made, lines of other telephone companies may be used in establishing wire connections to points not reached by this Company's lines. In establishing connections with the lines of other Companies, the Telephone Company is not responsible for any action of the Connecting Company.

5. Defacement of Premises

The Telephone Company shall exercise due care in connection with all work done on subscriber's premises. No liability shall attach to the Telephone Company by reason of any defacement or damage to the subscriber's premises resulting from the existence of the Telephone Company's instruments, apparatus and associated wiring on such premises, or by the installation or removal thereof, unless such defacement or damage is a result of the negligence of the Telephone Company.

(D)

6. Disclaimer

Approval of the above tariff language by the PUCO does not constitute a determination by the Commission that the limitation of liability imposed by the Company should be upheld in a court of law. Approval by the Commission merely recognizes that since it is a court's responsibility to adjudicate negligence and consequent damage claims, it is also the court's responsibility to determine the validity of the exculpatory clause.

P.U.C.O. NO. 6
GENERAL EXCHANGE SERVICE TARIFF

C. OBLIGATION AND LIABILITY OF TELEPHONE COMPANY (Continued)

(D)

7. Liability of Telephone Company

- a. In view of the fact that the customer has exclusive control of his communication over the facilities furnished him by the Telephone Company, and of the other uses for which facilities may be furnished to him by the Telephone Company, and because of unavoidable errors incident to the service and to the use of such facilities of the Telephone Company, the service and facilities furnished by the Company are subject to the terms, conditions, and limitations herein specified.
- b. The liability of the Telephone Company for damages arising out of mistakes, omissions, interruptions, delays, or errors or defects in transmission occurring in the course of furnishing service or other facilities and not caused by the negligence of the customer, shall in no event exceed an amount equivalent to the proportionate charge to the customer for the period of service during which such mistake, omission, interruption, delay, error or defect in transmission occurs. No other liability shall in any case attach to the Telephone Company. The approval by the PUCO of the foregoing language in this tariff does not constitute a determination by the PUCO that the limitation of liability imposed by the Company should be upheld in a court of law. Approval by the PUCO recognizes that since it is a court's responsibility to adjudicate negligent and consequent damage claims, it is also the court's responsibility to determine the validity of the limitation of liability therefore.
- c. When the lines of other telephone companies are used in establishing connection to points not reached by the Telephone Company's lines, the Telephone Company is not liable for any act or omission of the other company or companies.

(D)

D. USE OF SERVICE AND FACILITIES (Continued)

6. Use of Profane Language or Impersonation of Another

The Telephone Company may refuse to furnish or may deny telephone service to any persons, firm or corporation who, over the facilities furnished by the Telephone Company, uses or permits to be used, foul, abusive, obscene, or profane language; or impersonates or permits others to impersonate any other individual with fraudulent or malicious intent.

(D)

E. ESTABLISHING AND FURNISHING OF SERVICE

(D)

1. Application for Service

- a. Applications for service must be made on the Telephone Company's standard form of application. These applications become contracts when accepted in writing by the Telephone Company, or upon the establishment of service. The terms and conditions specified in such contracts are subject to these General Rules and Regulations, the General Exchange Service Tariffs and the Local Exchange Service Tariffs for the particular exchange from which service is to be furnished. Any change in rates, rules or regulations shall act as a modification of the contract to that extent, without further notice.
- b. Requests from subscribers for additional service, equipment, etc., may be made verbally, if the original contract provides for such additional service and equipment as may be ordered, and no advance payment will be required. A move from one location to another (Outside Move) within the same Exchange Area is not considered to terminate the contract and orders for such moves may be made verbally.

G ESTABLISHMENT AND MAINTENANCE OF CREDIT

1. Deposits (T)

The Company currently does not collect deposits, but reserves its right to do so in accordance with the MTSS. Should the Company begin collecting deposits, the deposits will be calculated pursuant to Ohio Adm.Code 4901:1-5-05(B)(1)(a) for new customers and 4901:1-5-05(B)(1)(b) where the customer has a service account billing history.

(D)

2. Deposit Not to Affect Regular Collection Practices

The fact that a deposit has been made shall in no way relieve the applicant or subscriber from complying with the Telephone Company's regulations as to advance payments and the prompt payment of bills on presentation; nor constitute a waiver or modification of the regular practices of the Telephone Company providing for the discontinuance of service for non-payment of any sums due the Telephone Company for services rendered. The Company may discontinue service to any subscriber failing to pay current bills without regard to the fact that such subscriber has made a deposit with the Company to secure payment of such bills or has furnished the Company with a guarantee in writing of such bills.

PAYMENT FOR SERVICE AND FACILITIES

1. The subscriber shall pay for services and facilities monthly in advance – except Departments, Administrations and Agencies of the Federal, State, County, Township or Municipal Governments, and shall pay for Toll Messages (including charges for messenger service), Teletypewriter Exchange Service Messages, and Moves and Changes when billed. Failure to receive a bill does not relieve the subscriber of the responsibility for payment in accordance with the provisions set forth herein.
2. A subscriber's bill shall not be due earlier than fourteen (14) days from the date of the postmark on the bill. If the bill is not paid by the due date, it then becomes past due. Bills are payable at the office of the Telephone Company or an authorized collection agency. (T)
3. When warranted, in the judgment of the Company, special toll bills may be rendered. In such cases, the amounts billed are due and payable on demand. (D)
4. The regular restoral of service charge will be made for reconnecting services which have been discontinued for non-payment of charges due. No allowance will be made for loss of service during the period when service is disconnected for non-payment if payment is made and service reconnected before the completion of an order to terminate the service. Subsequent to the completion of an order to terminate the service, it may at the option of the Telephone Company be re-established only on the basis of a new application.
5. In the event the service of a subscriber has been twice denied for non-payment within the previous 12 months, service may be terminated in lieu of a third denial. Service then may be re-established at the option of the Company only on the basis of a new application.
6. The Telephone Company shall respond promptly to customer inquiries pertaining to charges for IXC toll services, either by handling the inquiry itself, or referring it to the IXC, depending on the nature of the customer's inquiry.

(D)

Toll Blocking Policy

The Orwell Telephone Company, when providing toll service, may “universally” block access to all toll providers for nonpayment of regulated toll charges, so long as the blocked customer is not denied the right to select, through a presubscribed interexchange change (PIC) mechanism, any other 1+ presubscribed toll service provider who is obligated to provide such service under the terms of the Selective Access Policy.

Under the terms of the Selective Access Policy, The Orwell Telephone Company when providing toll service, may not deny establishment of 1+ presubscribed toll service on the grounds that the customer has failed to establish creditworthiness, if:

- a. the customer is able to establish creditworthiness using one of the means for doing so available under the Public Utilities Commission of Ohio’s (PUCO) rules, or
- b. The Orwell Telephone Company when providing toll service, exercising its own discretion, does not require the customer to establish creditworthiness (through any of the means available for doing so under the PUCO’s rules), or
- c. The Orwell Telephone Company when providing toll service, attempts to require the customer to establish creditworthiness using credit establishment procedures which do not comport with the PUCO’s credit establishment policies and/or are not set forth within a PUCO approved tariff.

When a prospective customer, who has previously been universally blocked for nonpayment of toll charges by another carrier, seeks to select The Orwell Telephone Company as his or her 1+ carrier of choice, The Orwell Telephone Company may, subject to our tariffed toll deposit policies and the Commission’s rules on establishment of service (see MTSS), require a deposit for toll service. This deposit shall be in accordance with the MTSS, but The Orwell Telephone Company may negotiate a lower deposit. (T)

The Orwell Telephone Company may furnish credit information, acquired from the Company’s own experiences with the customer, to consumer reporting agencies within the meaning of the Federal Fair Credit Reporting Act. The Company will follow all requirements that consumer reporting agencies must follow in issuing credit reports within the meaning of the Federal Fair Credit Reporting Act.

Upon payment by the customer of all past due toll debt to The Orwell Telephone Company, the Company will remove the block and all 1+ dialing capabilities, including 10-XXX, will be restored.

Toll disconnection service shall be provided as follows:
