a. General

1. Sprint Service Area

Toll Limitation is available in all of the exchanges that the Company serves in the Sprint Service Area.

2. SBC Service Area

b. Service Description

The Company may establish credit limits for new and existing residential customers based upon credit scores assigned by a commercial credit reporting agency, or based upon the customer's payment history. Customers may request Toll Limitation as a means of limiting their toll or the Company may implement Toll Limitation on its own in order to limit its risk in regard to uncollectible accounts.

The Company will inform customers when they place an order for new service if they are placed on Toll Limitation in order to obtain service. Customers who are to be placed on Toll Limitation as a condition of obtaining service may choose to pay a deposit in order to obtain service or they may qualify for credit under any of the terms established in Rule 4901:1-17-03 of the Ohio Administrative Code for establishing credit for residential utility services. When a customer is placed on Toll Limitation, at their own discretion or by the Company, a letter will be sent to them outlining the specifics of Toll Limitation. Also, when a customer reaches a threshold limit of toll conversation minutes, a message will be played to that customer when they attempt to place their next toll call. This message will state that they have reached a threshold number of minutes and have only a certain number of available minutes before Toll Limitation is activated on their account. They will also be directed to contact the Company if they have any questions.

Toll Limitation service initiated by the Company may be removed from a customer's account upon request once the customer has had six months of service with satisfactory payment history.
