RE: **Other Filing - Business Long Distance Services**  
McLeodUSA Telecommunications Services, Inc. ("McLeodUSA")  
90-9087-TP-TRF

Dear Docketing Division:

Enclosed please find an original and ten copies of revised pages to McLeodUSA Telecommunications Services, Inc.'s ("McLeodUSA") Telephone Tariff No. 2. In this filing McLeodUSA is grandfathering the PA Long Distance Products for business customers and introducing new LD products for business customers. The Check Sheets (Sheet Nos. 2, 3 and 5) were modified accordingly.

Enclosed you will find the following Exhibits:

- 1) Exhibit A – current approved tariff pages;
- 2) Exhibit B – proposed replacement tariff pages; and
- 3) Exhibit C – description and rationale.

This filing has an Issue Date of February 14, 2008 and Effective Date of February 18, 2008. Please file stamp the extra copy and return it to me in the enclosed, self-addressed, stamped envelope. If you have any questions, please contact me at [jredman-carter@mcleodusa.com](mailto:jredman-carter@mcleodusa.com) or (319) 790-2250.

Sincerely,

Julia Redman-Carter  
Regulatory Analyst

<b>Other*</b> (explain) Adding new LD products for business customers and grandfather existing business LD products.				

\*NOTE: During the interim period between the effective date of the rules and an Applicant's Detariffing Filing, changes to existing business Tier 2 and all toll services, including the addition of new business Tier 2 and all new toll services, will be processed as 0-day TRF filings, and briefly described in the "Other" section above.

All Section I and II applications that result in a change to one or more tariff pages require, at a minimum, the following exhibits. Other exhibits may be required under the applicable rule(s). ACN, ACO, AMT, ATC, ATR and CIO applications see the 4901:1-6-14 Filing Requirements on the Commission's Web Page for a complete list of exhibits.

Exhibit	Description:
A	The tariff pages subject to the proposed change(s) as they exist before the change(s)
B	The Tariff pages subject to the proposed change(s), reflecting the change, with the change(s) marked in the right margin.
C	A short description of the nature of the change(s), the intent of the change(s), and the customers affected.
D	A copy of the notice provided to customers, along with an affidavit that the notice was provided according to the applicable rule(s).

**Section III. – Attestation**

Registrant hereby attests to its compliance with pertinent entries and orders issued by the Commission.

**AFFIDAVIT**

***Compliance with Commission Rules and Service Standards***

I am an officer/agent of the applicant corporation, McLeodUSA Telecommunications Services, Inc., and am authorized to make this statement on its behalf.

(Name)

I attest that these tariffs comply with all applicable rules, including the Minimum Telephone Service Standards (MTSS) Pursuant to Chapter 4901:1-5 OAC for the state of Ohio. I understand that tariff notification filings do not imply Commission approval and that the Commission's rules, including the Minimum Telephone Service Standards, as modified and clarified from time to time, supersede any contradictory provisions in our tariff. We will fully comply with the rules of the state of Ohio and understand that noncompliance can result in various penalties, including the suspension of our certificate to operate within the state of Ohio.

I declare under penalty of perjury that the foregoing is true and correct.

3.0 Description of Services Offered (cont'd)

---

3.5 Long Distance Interexchange Services

McLeodUSA long distance services are interexchange telephone services that allow customers to originate and terminate interexchange calls at locations within the state of Ohio. A Customer must select McLeodUSA as their primary interexchange carrier for both Interstate and Intrastate long Distance. With the exception of Preferred Advantage® long distance services, usage charges are based on the duration and time of day of each call when applicable. Where Customer's local service is provided by McLeodUSA, McLeodUSA offers reduced long distance pricing on a nondiscriminatory basis provided all Customer's local lines at a Customer location are served by McLeodUSA. Intrastate rates will be applied to any call record where the originating ANI is not provided by the customer or the originating carrier.

(T)

Long Distance Preferred Advantage® Packages consist of a bucket anytime minutes used by the Customer for both incoming and outgoing domestic long distance calls. Long distance minutes used in excess of the bucket of minutes shall be billed at the "overage rate per minute." Preferred Advantage® Inter/Intrastate Plan Plus is available to Business Customers.

(N)

Preferred Advantage® Dedicated Long Distance Plus provides dedicated outbound 1+ long distance services for business customers that bill over 50,000 minutes of long distance usage (i.e., both inbound and outbound Long Distance) per month per and purchase more than \$500 per month in telecommunications services from McLeodUSA. A direct connection must be established with the McLeodUSA network via a Dedicated Access Line (DAL).

(T)

Preferred Advantage® Flat Rate Long Distance provides switched outbound 1+ long distance at one per minute rate for calls placed at any time of day.

(M)(N)

Preferred Advantage® Long Distance Plus provides switched outbound 1+ long distance to business customers with at least \$50.00 estimated monthly usage for long distance and toll free services, including conference calling, calling card and international long distance usage.

(N)

(Section 3.5.1 and 3.5.2 have been moved to sheet no. 65.01)

---

**3.0**    Description of Services Offered (cont'd)**3.5**    Long Distance Interexchange Services (cont'd)

Complete Long Distance provides switched outbound 1+ long distance in a 3,000 minute usage to domestic and Canadian terminations per ANI per month. No auto-dialers, modems or call generation equipment of any kind is permitted. A threshold of 3,000 maximum minutes per ANI per month will be treated as an indication of call generation equipment usage. Usage that exceeds 3,000 minutes per ANI per month will be billed at \$0.12 per minute for all minutes that exceed the 3,000 minute threshold. Call details for minutes that exceed the 3,000 minute threshold will appear on the monthly invoice, and the customer may request the call detail for the minutes that fall below the 3,000 minute threshold. This package is only available when combined with the Preferred Advantage Complete package. No other local packages are available with the Complete Long Distance plan. This plan is only available when McLeodUSA provides services using its own local switching facilities.

5.0 Rates and Charges - Price List (cont'd)5.3 Rate Tables (cont'd)5.3.4 Rate Table 4: Long Distance Services

McLeodUSA long distance services are interexchange telephone services that allow customers to originate calls from their telephone line and terminate calls to domestic (intrastate and interstate) and international points. All long distance calls will be recorded and all calls will be billed using the Overage Rate minutes will be billed in 6-second increments for business customers. All residential long distance calls will be recorded and billed in one-minute increments. All lines at a customer location must be PIC'ed to McLeodUSA for long distance service. Intrastate rates will be applied to any call record where the originating ANI is not provided by the customer or the originating carrier.

(N)  
|  
|  
(N)

The long distance service minutes included in the Preferred Advantage® Long Distance Packages apply to domestic intrastate calls, and to domestic interstate and to international calls as specified by McLeodUSA pursuant to federal regulation. Long Distance Packages exclude toll free, calling card, conference calling, and international usage. Customers not subscribing to a long distance package shall pay the overage rate per minute for all calls. Customers using more than the number of minutes in their selected long distance package for that particular location shall be charged a per minute overage rate for each minute of long distance usage in excess of the total minutes in the selected long distance package. For example, if a Business Customer has selected a 1,000 anytime LD minute package at Location A, and that Customer uses 1,005 minutes of long distance services in July at Location A, then the Customer's August invoice will reflect an additional usage sensitive charge for the 5 minutes of overage long distance usage billed at the overage rate/minute set forth below. Customers may increase or decrease the size of their long distance package once a month without a non-recurring charge after having service for a minimum of ninety days. Any changes will become effective with the following billing cycle. All lines at a customer location must be PIC'ed to McLeodUSA for long distance service package.

Preferred Advantage® Inter/Intra State Long Distance provides switched outbound 1+ long distance services for Business Customers. All lines at a customer location must be PIC'ed to McLeodUSA for long distance service package.

Preferred Advantage® Dedicated Long Distance Plus provides dedicated outbound 1+ long distance services for business customers that bill over 50,000 minutes of long distance usage (i.e., both inbound and outbound Long Distance) per month per and purchase more than \$500 per month in telecommunications services from McLeodUSA. A direct connection must be established with the McLeodUSA network via a Dedicated Access Line (DAL).

5.0 Rates and Charges - Price List (cont'd)5.3 Rate Tables (cont'd)5.3.4.A Rate Table 4: Long Distance Services (cont'd)5.3.4.A Rate Table 4.1.4: Preferred Advantage<sup>SM</sup> Dedicated Long Distance Plus (T)

This service is available to business customers that bill over 50,000 minutes of long distance usage per month (*i.e.*, both inbound and outbound Long Distance) and purchase more than \$500 per month in telecommunications services from McLeodUSA. A direct connection with the McLeodUSA network via a Dedicated Access Line (DAL) is required. DALs are either connected to a McLeodUSA switch or provided via an alternative vendor. This service can be provided where necessary facilities are available. This product is available for multiple locations, however, the monthly rates may vary due to state locations.

Pricing is based on per minute rates that incorporate the origination, transport and final termination of the customer's call. Calls are billed in 6-second increments, with a 6-second minimum. Customer will be subject to an additional port charge of \$500 in any month in which Customer's total monthly long distance usage is less than 50,000 minutes. A recurring charge will also be assessed for the DAL circuit.

Intrastate rates will be applied to any call record where the originating ANI is not provided by the customer or originating carrier. Preferred Advantage Dedicated Long Distance rates are based on an assumed distribution of 80% RBOC end user termination and origination and 20% non-RBOC end user origination and termination of long distance calls. If Customer's long distance calls terminate or originate more than 20% of the total long distance minutes with non-RBOC end users, McLeodUSA may in its sole discretion: (a) immediately impose an additional charge of \$0.025/minute to Customer's long distance minutes terminated to a non-RBOC end user in excess of the 20% limit; (b) impose an additional charge in excess of \$0.025/minute after providing notice to Customer of the additional charge in the event Customer's long distance calling patterns show that an additional \$0.025/minute will not recover the cost of excessive non-RBOC terminations; or (c) terminate the underlying Master Service Agreement for cause. Long Distance calls to another McLeodUSA local exchange customer shall be considered an RBOC termination for purposes of this provision. (N)

Account Codes are available to provide customers auditing functionality for all long distance calls. (N)

5.0 Rates and Charges - Price List (cont'd)5.3 Rate Tables (cont'd)5.3.7 Rate Table 7: Local T1/PRI ISDN (cont'd)5.3.7.F Rate Table 7.6: Preferred Advantage<sup>SM</sup> Integrated Access Trunk5.3.7.F.1 Product Description

The McLeodUSA Preferred Advantage Integrated Access (IA) Trunk solution is a full service communications product combining local voice and data over a single On-Switch T1 or PRI dedicated facility. The customer is eligible for PA Inter/Intrastate LD with Local and PA Inter/Intrastate Toll Free Service with Local pricing for calls carried by the same facility. An Integrated Access Device (IAD) will be placed at the customer's premise and allow for delivery and integration of each service to the end customer. The Base Package for this product is 6 voice lines plus 256K (4 channels) of High-Speed Internet access with 8 static IP addresses, of which 5 are usable. High Speed Internet, Secure Metro Connections (metro frame), or Secure City-to-City Connections (standard frame) can be added, in single channel (64K) increments to the base package. Pricing does not include the loop, port, or PVC charges associated with multi-node frame services. Additional IP addresses are available for an additional charge. This service is not offered on a month-to-month basis; the customer will be required to sign a contract with a term of at least 1 year to purchase the service. (T)

For this product, no separate charges apply for an End User Common Line (EUCL) charge, Local Number Portability (LNP), Presubscribed Interexchange Carrier Charge (PICC), Local Measured Service (LMS), or mandatory Extended Area Service (EAS). Taxes and surcharges associated with E911 and universal service programs will be applied in addition to the rates in this section. Features will be available subject to technical requirements. (T)

This product is available where McLeodUSA facilities permit. The customer must use IAD terminal equipment that will be owned and supplied by McLeodUSA at no additional charge to the customer. Basic managed services are provided at no additional cost to the customer. These are: proactive monitoring of the IAD, initial configuration assistance (not including LAN configuration settings), on-site replacement in case of equipment failure which is not the fault of the customer, and firmware upgrades as necessary. Other services may be provided at additional charge. McLeodUSA will maintain initial IAD customer configurations at the time of initial service turn-up, but will not capture or retain incremental configuration changes. If the customer voluntarily powers down the IAD, a technician may need to be dispatched and additional charges to the customer will result.

5.3 Rate Tables (cont'd)5.3.7 Rate Table 7: Local T1/PRI ISDN (cont'd)5.3.7.H Rate Table 7.8: Dedicated Local Preferred T1 Service5.3.7.H.1 Rate Table 7.8.1: On-Switch Service

This service is intended to be utilized in conjunction with a customer-provided Private Branch Exchange (PBX) or similar system, utilizing a customer-provided DTI or channel bank. The service includes a digital T1 facility, local exchange switching and access to toll networks. Trunk signaling is done in-band. The customer shall be eligible for "Preferred Advantage<sup>SM</sup> Inter/IntraLATA Long Distance with Local" long distance rates on outbound toll services provided McLeodUSA. When *Direct Inward Dial (DID)* / *Direct Outward Dial (DOD)* service is ordered, DID numbers must be purchased from the Company. Where technically available, outbound calling ID number is a standard component of this service.

This service can be provided where necessary facilities are available on a minimum 12-month contract term, and with a minimum of 12 trunks required. Term and volume discounts may be available. Subsequent T1 facilities installed also require that minimum of 12 trunks be purchased on each facility. The customer can select from in-only, out-only or two-way communication trunks. Expedited service installation may be available for an additional fee, based on the agreement of the customer.

A Customer purchasing this service must represent to McLeodUSA that all traffic routed to McLeodUSA over the facilities will be traffic to which neither interstate nor intrastate access charges apply, according to the regulations of the FCC and the state PUC in the state to which the traffic will terminate. Each Customer subscribing to the service is required to periodically perform such traffic studies as are necessary to confirm this fact, and to immediately inform McLeodUSA if those studies do not confirm the fact.

This service is intended to be utilized in conjunction with a customer-provided Private Branch Exchange (PBX) or similar system, utilizing a customer-provided DTI or channel bank. The service includes a digital T1 facility, local exchange switching and access to toll networks. Trunk signaling is done out-of-band on a separate "D" channel, typically the 24<sup>th</sup> trunk on the digital T1 facility. The customer shall be eligible for "Preferred Advantage<sup>SM</sup> Inter/IntraLATA Long Distance with Local" long distance rates on outbound toll services provided by McLeodUSA. When Direct Inward Dial (DID) / Direct Outward Dial (DOD) service is ordered, DID numbers must be purchased from the Company. Where technically available, inbound and outbound calling ID number is a standard component of this service.

(T)

(T)

This service can be provided where necessary facilities are available on a minimum 12-month contract term, and with a minimum of 12 trunks required. Term and volume discounts may be available. Subsequent T1 facilities installed also require that minimum of 12 trunks be purchased on each facility. The customer can select from in-only, out-only or two-way communication trunks. Expedited service installation may be available for an additional fee, based on the agreement of the customer.

Calling Party Name & Number is an included feature and allows the customer to receive this information from their call, assuming that their PBX system is capable of doing so, the calling ID party is served by a switch capable of passing that information, and the calling party has not blocked that information. This feature is offered where technically available

(N)

Call Transfer with Release is an included feature and allows the customer to transfer an inbound call on their PRI service to a person on an outbound trunk, then disconnect the call without the calling party and the party to which the call was transferred, being disconnected. This optimizes utilization on the customer PRI trunks. This feature is offered where technically available.

(N)

A Customer purchasing this service must represent to McLeodUSA that all traffic routed to McLeodUSA over the facilities will be traffic to which neither interstate nor intrastate access charges apply, according to the regulations of the FCC and the state PUC in the state to which the traffic will terminate. Each Customer subscribing to the service is required to periodically perform such traffic studies as are necessary to confirm this fact, and to immediately inform McLeodUSA if those studies do not confirm the fact.

A Customer subscribing to this service is also prohibited from stripping, changing, or in any way manipulating the telephone number of the calling party associated with each individual call, and to maintain call records showing the originating numbers for each call, to the extent those originating numbers are passed to Customer with the call.

**3.0    Description of Services Offered (cont'd)****3.5    Long Distance Interexchange and 800 Services**

(M)(N)

McLeodUSA long distance services are interexchange telephone services that allow customers to originate and terminate interexchange calls at locations within the state of Ohio. A Customer must select McLeodUSA as their primary interexchange carrier for both Interstate and Intrastate long Distance. With the exception of Preferred Advantage® long distance services, usage charges are based on the duration and time of day of each call when applicable.

Where Customer's local service is provided by McLeodUSA, McLeodUSA offers reduced long distance pricing on a nondiscriminatory basis provided all Customer's local lines at a Customer location are served by McLeodUSA. Intrastate rates will be applied to any call record where the originating ANI is not provided by the customer or the originating carrier.

McLeodUSA 800 services are inward WATS services that permit intrastate calls to a customer's station in one location from stations in diverse geographical locations, and for which the McLeodUSA customer is billed for the calls rather than the call's originator. Unless otherwise specified, all McLeodUSA 800 calls are subject to a 30-second average connect time (i.e., total monthly minutes of use divided by total monthly calls must equal at least 30 seconds) for a given terminating service group. All calls are rounded up to the next higher increment. In the event that 800 calls do not meet the 30-second average connect time requirement, billable usage will be increased by a surcharge equal to the necessary number of minutes at the average cost per minute to meet the 30-second requirement. In addition, Customers may also order Originating ANI Sorting, which provides the Customer with a detailed monthly analysis of the originating telephone numbers of those placing 800 calls. A Customer must select McLeodUSA as their primary interexchange carrier for both Interstate and Intrastate long Distance. With the exception of Preferred Advantage® toll Free services, usage charges are based on the duration and time of day of each call when applicable.

Long Distance and Toll Free Packages consist of a bucket anytime minutes used by the Customer for outgoing domestic long distance calls. Long distance minutes used in excess of the bucket of minutes shall be billed at the "overage rate per minute."

3.0 Description of Services Offered (cont'd)3.5 Long Distance Interexchange Services (cont'd)

Dedicated Select LD and Toll Free Plan provides dedicated inbound long distance services and outbound 1+ long distance services for business customers that bill over 50,000 minutes of long distance usage (i.e., both inbound and outbound Long Distance) per month per DAL from McLeodUSA. A direct connection must be established with the McLeodUSA network via a Dedicated Access Line (DAL). Any McLeodUSA business customer that has a DAL has 3 months to "ramp up" their monthly DAL usage to 50,000 minutes per month per DAL. Beginning the fourth month of billing the customer will be assessed a \$500 shortfall charge per DAL if the customer does not bill more than 50,000 minutes per month per DAL from McLeodUSA

(N)

LD and Toll Free Plan w/o Local Access and LD and Toll Free Plan w/ Local Access provide switched inbound and outbound 1+ long distance services for Business Customers.

LD and Toll Free Select Plan w/o Local Access and LD and Toll Free Select Plan w/ Local Access provide switched inbound and outbound 1+ long distance to business customers with at least \$50.00 estimated monthly usage for long distance and toll free services, including conference calling, calling card and international long distance usage.

(N)

Complete Long Distance provides switched outbound 1+ long distance in a 3,000 minute usage to domestic and Canadian terminations per ANI per month. No auto-dialers, modems or call generation equipment of any kind is permitted. A threshold of 3,000 maximum minutes per ANI per month will be treated as an indication of call generation equipment usage. Usage that exceeds 3,000 minutes per ANI per month will be billed at \$0.12 per minute for all minutes that exceed the 3,000 minute threshold. Call details for minutes that exceed the 3,000 minute threshold will appear on the monthly invoice, and the customer may request the call detail for the minutes that fall below the 3,000 minute threshold. This package is only available when combined with the Preferred Advantage Complete package. No other local packages are available with the Complete Long Distance plan. This plan is only available when McLeodUSA provides services using its own local switching facilities.

5.0 Rates and Charges - Price List (cont'd)5.3 Rate Tables (cont'd)5.3.4 Rate Table 5: Long Distance and 800 Services

(M)(N)

McLeodUSA long distance services are interexchange telephone services that allow customers to originate calls from their telephone line and terminate calls to domestic (intrastate and interstate) and international points. All long distance calls will be recorded and all calls billed using the Overage Rate minutes will be billed in 6 second increments for business customers. All residential long distance calls will be recorded and billed in one-minute increments. All lines at a customer location must be PIC'd to McLeodUSA for long distance service. Intrastate rates will be applied to any call record where the originating ANI is not provided by the customer or the originating carrier.

The long distance service minutes included in the Long Distance and Toll Free plans apply to domestic intrastate calls, domestic interstate, extended calls (Alaska and Hawaii), NANP calls and to international calls as specified by McLeodUSA pursuant to federal regulation. All lines at a customer location must be PIC'd to McLeodUSA for long distance service package.

Dedicated Select LD and Toll Free Plan provides dedicated inbound long distance services and outbound 1+ long distance services for business customers that bill over 50,000 minutes of long distance usage (i.e., both inbound and outbound Long Distance) per month per DAL from McLeodUSA. A direct connection must be established with the McLeodUSA network via a Dedicated Access Line (DAL). Any McLeodUSA business customer that has a DAL has 3 months to "ramp up" their monthly DAL usage to 50,000 minutes per month per DAL. Beginning the fourth month of billing the customer will be assessed a \$500 shortfall charge per DAL if the customer does not bill more than 50,000 minutes per month per DAL from McLeodUSA.

**5.0 Rates and Charges - Price List (cont'd)****5.3 Rate Tables (cont'd)****5.3.4.A Rate Table 5: Long Distance and 800 Services (cont'd)**

(M)(N)

**5.3.4.A Rate Table 5.1.1: Dedicated Select LD and Toll Free Plan**

This service is available to business customers that bill over 50,000 minutes of long distance usage per month (*i.e.*, both inbound and outbound Long Distance) from McLeodUSA. A direct connection with the McLeodUSA network via a Dedicated Access Line (DAL) is required. DALs are either connected to a McLeodUSA switch or provided via an alternative vendor. This service can be provided where necessary facilities are available. This product is available for multiple locations, however, the monthly rates may vary due to state locations.

Pricing is based on per minute rates that incorporate the origination, transport and final termination of the customer's call. Calls are billed in 6-second increments, with a 6-second minimum. Customer has 3 months from the time of the DAL turn up to ramp up to 50,000 minutes per month usage on that DAL. After that period, Customer will be subject to a charge of \$500 in any month in which Customer's total monthly long distance usage is less than 50,000 minutes. A recurring charge will also be assessed for the DAL circuit.

Intrastate rates will be applied to any call record where the originating ANI is not provided by the customer or originating carrier. Long Distance rates for Dedicated Select LD and Toll Free Plan long distance service require that a customer maintain an acceptable traffic distribution on its outgoing and incoming Long Distance calls. The total minutes of Long Distance calls must originate or terminate at least 80% of the time from or to end user customers located in a local exchange in which a Regional Bell Operating Company ("RBOC") is the incumbent Local provider. McLeodUSA has the right to switch customer to a different LD plan and provide service on a month-to-month arrangement when any customer's Long Distance terminates less than 80% of the time to a LEC providing local service in an RBOC exchange. The toll free service is not available for any locations outside of the continental United States. Tailored Call Coverage and Route Overflow are available features.

Account Codes are available to provide customers auditing functionality for all long distance calls.

Per Minute Usage Rate LD:	\$0.0250
Per Minute Usage Rate Toll Free:	\$0.0276

**5.3.4.A Rate Table 5.1.3: LD and Toll Free Plan w/o Local Access and LD and Toll Free Plan w/ Local Access**

Intrastate rates will be applied to any call record where the originating ANI is not provided by the customer or the originating carrier. Long Distance rates for LD and Toll Free Plan w/o Local Access and LD and Toll Free Plan w/ Local Access service require that a customer maintain an acceptable traffic distribution on its outgoing and incoming Long Distance calls. The total minutes of Long Distance calls must originate or terminate at least 80% of the time from or to end user customers located in a local exchange in which a Regional Bell Operating Company ("RBOC") is the incumbent Local provider. McLeodUSA has the right to switch customer to a different LD plan and provide service on a month-to-month arrangement when any customer's Long Distance terminates less than 80% of the time to a LEC providing local service in an RBOC exchange.

The toll free service is not available for any locations outside of the continental United States. All incoming toll free calls will be rounded and billed in 6-second increments. Toll Free features include: listing of Customer's toll free number in the national Toll Free directory service; message referral that provides a disconnect or referral message on the toll free number; ability to restrict areas of service; geographical routing that permits multiple destinations of Toll Free based on NPA of the caller; time routing that permits customer to set multiple destination numbers based on time specifications; percent allocation routing that permits routing of calls to multiple destinations based on a percentage distribution; and route advance overflow that allow for a secondary target termination for overflow.

5.0 Rates and Charges - Price List (cont'd)5.3 Rate Tables (cont'd)5.3.7 Rate Table 7: Local T1/PRI ISDN (cont'd)5.3.7.F Rate Table 7.6: Preferred Advantage<sup>SM</sup> Integrated Access Trunk5.3.7.F.1 Product Description

The McLeodUSA Preferred Advantage Integrated Access (IA) Trunk solution is a full service communications product combining local voice and data over a single On-Switch T1 or PRI dedicated facility. The customer is eligible for LD and Toll Free w/ Local Access pricing for calls carried by the same facility. An Integrated Access Device (IAD) will be placed at the customer's premise and allow for delivery and integration of each service to the end customer. The Base Package for this product is 6 voice lines plus 256K (4 channels) of High-Speed Internet access with 8 static IP addresses, of which 5 are usable. High Speed Internet, Secure Metro Connections (metro frame), or Secure City-to-City Connections (standard frame) can be added, in single channel (64K) increments to the base package. Pricing does not include the loop, port, or PVC charges associated with multi-node frame services. Additional IP addresses are available for an additional charge. This service is not offered on a month-to-month basis; the customer will be required to sign a contract with a term of at least 1 year to purchase the service. (T)

For this product, no separate charges apply for an End User Common Line (EUCL) charge, Local Number Portability (LNP), Presubscribed Interexchange Carrier Charge (PICC), Local Measured Service (LMS), or mandatory Extended Area Service (EAS). Taxes and surcharges associated with E911 and universal service programs will be applied in addition to the rates in this section. Features will be available subject to technical requirements.

This product is available where McLeodUSA facilities permit. The customer must use IAD terminal equipment that will be owned and supplied by McLeodUSA at no additional charge to the customer. Basic managed services are provided at no additional cost to the customer. These are: proactive monitoring of the IAD, initial configuration assistance (not including LAN configuration settings), on-site replacement in case of equipment failure which is not the fault of the customer, and firmware upgrades as necessary. Other services may be provided at additional charge. McLeodUSA will maintain initial IAD customer configurations at the time of initial service turn-up, but will not capture or retain incremental configuration changes. If the customer voluntarily powers down the IAD, a technician may need to be dispatched and additional charges to the customer will result.

This service is intended to be utilized in conjunction with a customer-provided Private Branch Exchange (PBX) or similar system, utilizing a customer-provided DTI or channel bank. The service includes a digital T1 facility, local exchange switching and access to toll networks. Trunk signaling is done in-band. The customer shall be eligible for LD and Toll Free Plan w/ Local Access long distance rates on outbound toll services provided McLeodUSA. When Direct Inward Dial (DID) / Direct Outward Dial (DOD) service is ordered, DID numbers must be purchased from the Company. Where technically available, outbound calling ID number is a standard component of this service.

(T)

This service can be provided where necessary facilities are available on a minimum 12-month contract term, and with a minimum of 12 trunks required. Term and volume discounts may be available. Subsequent T1 facilities installed also require that minimum of 12 trunks be purchased on each facility. The customer can select from in-only, out-only or two-way communication trunks. Expedited service installation may be available for an additional fee, based on the agreement of the customer.

A Customer purchasing this service must represent to McLeodUSA that all traffic routed to McLeodUSA over the facilities will be traffic to which neither interstate nor intrastate access charges apply, according to the regulations of the FCC and the state PUC in the state to which the traffic will terminate. Each Customer subscribing to the service is required to periodically perform such traffic studies as are necessary to confirm this fact, and to immediately inform McLeodUSA if those studies do not confirm the fact.

5.0 Rates and Charges - Price List (cont'd)5.3 Rate Tables (cont'd)5.3.7 Rate Table 7: Local T1/PRI ISDN (cont'd)5.3.7.I Rate Table 7.9: Dedicated Local PRI Service -5.3.7.B.1 Rate Table 7.2.1: On-Switch Service

This service is intended to be utilized in conjunction with a customer-provided Private Branch Exchange (PBX) or similar system, utilizing a customer-provided DTI or channel bank. The service includes a digital T1 facility, local exchange switching and access to toll networks. Trunk signaling is done out-of-band on a separate "D" channel, typically the 24<sup>th</sup> trunk on the digital T1 facility. The customer shall be eligible for LD and Toll Free Plan w/ Local Access long distance rates on outbound toll services provided by McLeodUSA. When Direct Inward Dial (DID) / Direct Outward Dial (DOD) service is ordered, DID numbers must be purchased from the Company. Where technically available, inbound and outbound calling ID number is a standard component of this service. (T)

This service can be provided where necessary facilities are available on a minimum 12-month contract term, and with a minimum of 12 trunks required. Term and volume discounts may be available. Subsequent T1 facilities installed also require that minimum of 12 trunks be purchased on each facility. The customer can select from in-only, out-only or two-way communication trunks. Expedited service installation may be available for an additional fee, based on the agreement of the customer.

Calling Party Name & Number is an included feature and allows the customer to receive this information from their call, assuming that their PBX system is capable of doing so, the calling ID party is served by a switch capable of passing that information, and the calling party has not blocked that information. This feature is offered where technically available

Call Transfer with Release is an included feature and allows the customer to transfer an inbound call on their PRI service to a person on an outbound trunk, then disconnect the call without the calling party and the party to which the call was transferred, being disconnected. This optimizes utilization on the customer PRI trunks. This feature is offered where technically available.

A Customer purchasing this service must represent to McLeodUSA that all traffic routed to McLeodUSA over the facilities will be traffic to which neither interstate nor intrastate access charges apply, according to the regulations of the FCC and the state PUC in the state to which the traffic will terminate. Each Customer subscribing to the service is required to periodically perform such traffic studies as are necessary to confirm this fact, and to immediately inform McLeodUSA if those studies do not confirm the fact.

A Customer subscribing to this service is also prohibited from stripping, changing, or in any way manipulating the telephone number of the calling party associated with each individual call, and to maintain call records showing the originating numbers for each call, to the extent those originating numbers are passed to Customer with the call.

**Effective February 18, 2008, these Business Long Distance and Toll Free packages in this Section 7.39 are for existing customers of record at existing locations, and are no longer available to new customers.** (N)

**A. Descriptions - Business** (M)

**Long Distance Interexchange Services**

McLeodUSA long distance services are interexchange telephone services that allow customers to originate and terminate interexchange calls at locations within the state of Ohio. A Customer must select McLeodUSA as their primary interexchange carrier for both Interstate and Intrastate long Distance. With the exception of Preferred Advantage® long distance services, usage charges are based on the duration and time of day of each call when applicable. Where Customer's local service is provided by McLeodUSA, McLeodUSA offers reduced long distance pricing on a nondiscriminatory basis provided all Customer's local lines at a Customer location are served by McLeodUSA. Intrastate rates will be applied to any call record where the originating ANI is not provided by the customer or the originating carrier.

Long Distance Preferred Advantage® Packages consist of a bucket anytime minutes used by the Customer for both incoming and outgoing domestic long distance calls. Long distance minutes used in excess of the bucket of minutes shall be billed at the "overage rate per minute." Preferred Advantage® Inter/Intrastate Plan Plus is available to Business Customers.

Preferred Advantage® Dedicated Long Distance Plus provides dedicated outbound 1+ long distance services for business customers that bill over 50,000 minutes of long distance usage (i.e., both inbound and outbound Long Distance) per month per and purchase more than \$500 per month in telecommunications services from McLeodUSA. A direct connection must be established with the McLeodUSA network via a Dedicated Access Line (DAL).

Preferred Advantage® Flat Rate Long Distance provides switched outbound 1+ long distance at one per minute rate for calls placed at any time of day.

Preferred Advantage® Long Distance Plus provides switched outbound 1+ long distance to business customers with at least \$50.00 estimated monthly usage for long distance and toll free services, including conference calling, calling card and international long distance usage. (M)

Customers may be credited for certain calls to emergency services as set forth in Case Nos. 85-1466-TP-COI and 89-54-TP-COI.

**800 Services**

McLeodUSA Preferred Advantage® 800 services are inward WATS services that permit intrastate calls to a customer's station in one location from stations in diverse geographical locations, and for which the McLeodUSA customer is billed for the calls rather than the call's originator. Unless otherwise specified, all McLeodUSA 800 calls are subject to a 30-second average connect time (i.e., total monthly minutes of use divided by total monthly calls must equal at least 30 seconds) for a given terminating service group. All calls are rounded up to the next higher increment. In the event that 800 calls do not meet the 30-second average connect time requirement, billable usage will be increased by a surcharge equal to the necessary number of minutes at the average cost per minute to meet the 30-second requirement. In addition, Customers may also order Originating ANI Sorting, which provides the Customer with a detailed monthly analysis of the originating telephone numbers of those placing 800 calls. A Customer must select McLeodUSA as their primary interexchange carrier for both Interstate and Intrastate long Distance. With the exception of Preferred Advantage® toll Free services, usage charges are based on the duration and time of day of each call when applicable. Where Customer's local service is provided by McLeodUSA, McLeodUSA offers reduced long distance pricing on a nondiscriminatory basis provided all Customer's local lines at a Customer location are served by McLeodUSA.

**Rate Table 4: Long Distance Services**

McLeodUSA long distance services are interexchange telephone services that allow customers to originate calls from their telephone line and terminate calls to domestic (intrastate and interstate) and international points. All long distance calls will be recorded and all calls will be billed using the Overage Rate minutes will be billed in 6-second increments for business customers. All residential long distance calls will be recorded and billed in one-minute increments. All lines at a customer location must be PIC'ed to McLeodUSA for long distance service. Intrastate rates will be applied to any call record where the originating ANI is not provided by the customer or the originating carrier.

The long distance service minutes included in the Preferred Advantage® Long Distance Packages apply to domestic intrastate calls, and to domestic interstate and to international calls as specified by McLeodUSA pursuant to federal regulation. Long Distance Packages exclude toll free, calling card, conference calling, and international usage. Customers not subscribing to a long distance package shall pay the overage rate per minute for all calls. Customers using more than the number of minutes in their selected long distance package for that particular location shall be charged a per minute overage rate for each minute of long distance usage in excess of the total minutes in the selected long distance package. For example, if a Business Customer has selected a 1,000 anytime LD minute package at Location A, and that Customer uses 1,005 minutes of long distance services in July at Location A, then the Customer's August invoice will reflect an additional usage sensitive charge for the 5 minutes of overage long distance usage billed at the overage rate/minute set forth below. Customers may increase or decrease the size of their long distance package once a month without a non-recurring charge after having service for a minimum of ninety days. Any changes will become effective with the following billing cycle. All lines at a customer location must be PIC'ed to McLeodUSA for long distance service package.

Preferred Advantage® Inter/Intra State Long Distance provides switched outbound 1+ long distance services for Business Customers. All lines at a customer location must be PIC'ed to McLeodUSA for long distance service package.

Preferred Advantage® Dedicated Long Distance Plus provides dedicated outbound 1+ long distance services for business customers that bill over 50,000 minutes of long distance usage (*i.e.*, both inbound and outbound Long Distance) per month per and purchase more than \$500 per month in telecommunications services from McLeodUSA. A direct connection must be established with the McLeodUSA network via a Dedicated Access Line (DAL).

Rate Table 4.1.4: Preferred Advantage<sup>SM</sup> Dedicated Long Distance Plus

This service is available to business customers that bill over 50,000 minutes of long distance usage per month (*i.e.*, both inbound and outbound Long Distance) and purchase more than \$500 per month in telecommunications services from McLeodUSA. A direct connection with the McLeodUSA network via a Dedicated Access Line (DAL) is required. DALs are either connected to a McLeodUSA switch or provided via an alternative vendor. This service can be provided where necessary facilities are available. This product is available for multiple locations, however, the monthly rates may vary due to state locations.

Pricing is based on per minute rates that incorporate the origination, transport and final termination of the customer's call. Calls are billed in 6-second increments, with a 6-second minimum. Customer will be subject to an additional port charge of \$500 in any month in which Customer's total monthly long distance usage is less than 50,000 minutes. A recurring charge will also be assessed for the DAL circuit.

Intrastate rates will be applied to any call record where the originating ANI is not provided by the customer or originating carrier. Preferred Advantage Dedicated Long Distance rates are based on an assumed distribution of 80% RBOC end user termination and origination and 20% non-RBOC end user origination and termination of long distance calls. If Customer's long distance calls terminate or originate more than 20% of the total long distance minutes with non-RBOC end users, McLeodUSA may in its sole discretion: (a) immediately impose an additional charge of \$0.025/minute to Customer's long distance minutes terminated to a non-RBOC end user in excess of the 20% limit; (b) impose an additional charge in excess of \$0.025/minute after providing notice to Customer of the additional charge in the event Customer's long distance calling patterns show that an additional \$0.025/minute will not recover the cost of excessive non-RBOC terminations; or (c) terminate the underlying Master Service Agreement for cause. Long Distance calls to another McLeodUSA local exchange customer shall be considered an RBOC termination for purposes of this provision.

Account Codes are available to provide customers auditing functionality for all long distance calls.
