RE: Docket No. CP07-208-000
        Rockies Express Pipeline LLC, REX-East Project
        Response to February 8, 2008 Data Requests

Dear Ms. Bose:

On April 30, 2007, Rockies Express Pipeline LLC ("Rockies Express") filed with the Federal Energy Regulatory Commission ("FERC" or "Commission") an application, pursuant to Section 7(c) of the Natural Gas Act and Part 157 of the Commission's regulations, requesting a Certificate of Public Convenience and Necessity authorizing the construction and operation of its Rockies Express Pipeline-East ("REX-East") Project.

On February 8, 2008, FERC Staff issued a data request which included a request to submit previously filed documents to FERC Staff in Microsoft Word format (Request No. 29). The documents requested to be submitted in Microsoft Word format were documents filed at the Commission by Rockies Express on December 28, 2007 and January 14, 2008. As requested, the documents submitted here to FERC Staff are in Microsoft Word format. Rockies Express is not providing documents such as maps and alignment sheets that have only been produced in pdf format. Because the request is to provide documents that have already been filed at the Commission, but in a different format, Rockies Express is not re-filing the documents with the Secretary's office, but is providing an electronic copy directly to FERC Staff.

This is to certify that the images appearing are an accurate and complete reproduction of a case file document delivered in the regular course of business

Technician _____ Date Processed 2-15-08
