3. Service Descriptions (Cont'd)

3.1 Local Exchange Service (Cont'd)

3.1.2 General - The Company's Local Exchange Service is comprised of four different service elements. Two of the service elements, Switched Network Access Channel and Local Usage are mandatory for all customers subscribing to the Company's local exchange service offerings. The remaining service elements, enhanced features and toll usage, are optional services available to customers.

3.1.3 Class of Service: The Local Exchange Service Offering is available in two classes of service distinguished by their primary character or nature of use as well as the location to which service is provided: residential or business.

3.1.3.1 Local Exchange Service will be classified as Residential Service where the primary use is for social or domestic purposes and the location to which service is provided is a residence or the bona fide living quarter for a combined residence and business premises.

3.1.3.2 Local Exchange Service will be classified as Business Service where the primary use is for paid commercial, professional or institutional activity and the location to which service is provided is a business or commercial location or the service number is listed as the principal or only number for a business in any telecommunications directory.

3.1.4 Geographic Zones - The Company's Local Exchange Service Offering is segmented into 4 Zones generally reflecting each exchange area's relative density and the underlying price distinctions of the incumbent local exchange carrier's services which the Company is reselling. Each of the exchanges listed in 3.1.1 has been assigned a zone designation. At present, the Company's zone rate distinction only applies to the Network Access Channel element of its local exchange service offering. The rates and charges for Network Access Elements listed in Section 3.1.8.2 reflect the zone differential.

3.1.5 Switched Network Access Channels include the following features as standard and are offered in the following configurations:

Touchtone Dialing

Calling number delivery blocking/per call
