PUCO

To whom it may concern:

In regards to case no. 07-589, I vehemently appose any more rate hikes. I am a widow, living on the same income for the last 15 years. With gasoline, heat, medical insurance, property taxes etc. going up, where shall we get the money?

I've already mortgaged my home, which was paid for, so there is no place left to get any more money. Something has to be done, or there will be more houses on the market than there are now, with no one to buy them.
