One-time customer notice of detariffing and related changes consistent with rule 4901:1-06-16(B), including where customers may find the information regarding such services as required by rule 4901:1-6-05(G)(3).

Dear Valued Sprint Customer,

Beginning on April 1, 2008, the prices, service descriptions, and the terms and conditions for certain telecommunication services that you are provided by Sprint Communications Company, L.P. (Sprint) will no longer be on file at the Public Utilities Commission of Ohio (PUCO).

The services affected are long-distance service, Private Line, WATS and Toll Free.

This modification does not automatically result in a change in the prices, terms or conditions of those services to which you currently subscribe. Sprint must still provide a customer notice at least 15 days in advance of rate increases, changes in terms and conditions and discontinuance of existing services. Additionally, you will be able to view the company's future service offerings in the company's Intrastate Schedule online at [sprint.com/tariffs](http://sprint.com/tariffs) or you can request a copy of this information by contacting Sprint at P.O. Box 15955, Shawnee Mission, KS 66285 or by calling 1-800-877-4020.

Because these services will no longer be on file with the Commission, the agreement reached between the customer and the company, instead of the document on file at the PUCO, will now control new services or changes in service. This agreement, whether it is verbal or written, will still be subject to consumer protections required and enforced by the PUCO.

For any new services or changes in service, it will be important that you carefully review and confirm the price, terms and conditions.

If you have any questions about this matter, please call Sprint toll free at 1-800-877-4020 or visit [sprint.com/tariffs](http://sprint.com/tariffs).

Sincerely,  
Sprint Communications Company, L.P.

- .1 The liability of the Company for damages arising out of mistakes, omissions, interruptions, delays, errors, or defects in the transmission occurring in the course of furnishing service, channels, or other facilities, and not caused by the negligence of the subscriber, commences upon agreement to provide service and in no event exceeds an amount equivalent to the charges the Company would make to the subscriber for the period of service during which such mistakes, omissions, interruptions, delays, errors, or defects in transmission occur. (T)

- \* Approval of the above tariff language by the PUCO does not constitute a determination by the Commission that the limitation of liability imposed by Sprint should be upheld in a court of law. **.19 Restricted Service**

Under certain circumstances, as described below, a customer's long distance service may be suspended, and the customer routed to a receivables operator or a voice response unit if the customer has incurred significant pre-bill charges and one or more of the following apply:

- the customer does not have credit information available from one of the major credit reporting agencies;
- the customer has poor credit based on industry standards;
- the customer has not paid a bill in a timely manner; or
- the customer's usage resembles fraudulent usage.

If the customer is routed to a voice response unit, the customer will be advised that their service has been restricted. The customer will be provided the option of either: 1) making a prepayment using a credit card or 2) dialing a toll free number to speak with a collection representative.

The receivables operator or collection representative will explain the reasons for the restricted service and the requirements for the customer to resume unrestricted service. For example, if the customer has not paid a bill in a timely manner (in compliance with the requirements of Payment of Charges, Section 3.8), payment of the outstanding bill will be requested. **3. TERMS AND CONDITIONS (Continued)****.20 Toll Blocking**

Notwithstanding the preceding portions of Section 3.19, the Company, may cause (T)  
to have blocked, access to all toll providers for nonpayment of regulated toll  
charges, so long as the blocked customer is not denied the right to select, through a  
presubscribed interexchange change (PIC) mechanism, any other 1+ presubscribed  
toll service provider who is obligated to provide such service under the terms of the  
Selective Access Policy.

Under the terms of the Selective Access Policy, the Company may not deny (T)  
establishment of 1+ presubscribed toll service on the grounds that the customer has  
failed to establish creditworthiness, if:

- (a) the customer is able to establish creditworthiness using one of the means for (T)  
doing so available under the Public Utilities Commission of Ohio's (PUCO)  
rules, or
- (b) The Company, exercising its own discretion, does not require the customer to (T)  
establish creditworthiness (through any of the means available for doing so  
under the PUCO's rules), or
- (c) The Company attempts to require the customer to establish creditworthiness (T)  
using credit establishment procedures which do not comport with the PUCO's  
credit establishment policies and/or are not set forth within a PUCO approved  
tariff.

When a prospective customer, who has previously been universally blocked for (T)  
nonpayment of toll charges by another carrier, seeks to select the Company as his (T)  
or her 1+ carrier of choice, the Company may, subject to our tariffed toll deposit  
policies and the Commission's rules on establishment of service (See Rules  
4901:1-5-14 and 4901:1-5-15, Ohio Administrative Code, [O.A.C.]), require a  
deposit for toll service. This deposit shall be in accordance with Rule 4901:1-5-14  
(A) (3), O.A.C., but the Company may negotiate a lower deposit. (T)

The Company may furnish credit information, acquired from the Company's own (T)  
experiences with the customer, to consumer reporting agencies within the meaning  
of the Federal Fair Credit Reporting Act. Sprint will follow all requirements that  
consumer reporting agencies must follow in issuing credit reports within the  
meaning of the Federal Fair Credit Reporting Act.

Upon payment by the customer of all past due toll debt to the Company, the (T)  
Company will notify the customer's local carrier that the block can be lifted and (T)  
all 1+ dialing capabilities, including 10-XXX, will be restored.

**4. SERVICE AND RATE DESCRIPTION****.1 Message Telecommunications Service (MTS)**

Message Telecommunications Service (MTS) is an intercity service which is available for use by subscribers 24 hours a day. Subscribers will use one of the three following dialing patterns to gain access to the Sprint network. 1) In Feature Group D exchanges, the subscribers' telephone line(s) are programmed by the local exchange company to automatically route "1+" interLATA calls to the Sprint network. 2) To access the Sprint network for an intraLATA call, Feature Group D subscribers dial "1010XXX" and the called telephone number. This dialing pattern would also be used by presubscribed customers who had selected Sprint as their secondary carrier. 3) In non-Feature Group D exchanges, subscribers dial a seven digit access number, receive a second dial tone from the Sprint switch then dial their authorization code and the called telephone number for both interLATA and intraLATA calls. Subscribers may originate and terminate MTS in all locations within the state of Ohio (Section 2).

(T)

In the event Sprint determines that provision of Dial-Up Service via a seven digit access number imposes a significant risk of fraudulent use of its service, Sprint, at its discretion, may choose not to process new orders for Dial-Up Service and/or may, after written notice, cancel existing customers' authorization codes. In such cases, Sprint will continue to offer customers its 800 access FÖNCARD service. Dial-1 Service or the 1010XXX access number will also be offered where equal access is available. Customers who use Dial-Up Service in connection with automatic dialing equipment may be exempted from this requirement when Sprint determines that the likelihood of fraudulent use of FÖNCARD are available to MTS subscribers. Rates for these services are set forth in Price List Section 6.

(T)

Unless otherwise not herein, Message Telecommunications Services (except Sprint Service) are available only to a maximum of two residential phone lines, per location.

**4. SERVICE AND RATE DESCRIPTION (Continued)****.5 VPN**

VPN provides the functionality and capabilities of a private network through the use of shared transmission facilities and is operated by a single, software-controlled management system. It interconnects large volume users, usually at the PBXs, through dedicated access lines with the Sprint network POPs.

VPN service is virtually banded. A single circuit can carry traffic to and/or from any mileage band. The rates are automatically applied to the actual traffic originating from a specific location based upon the rate step in which the traffic terminates.

The following call types and features are available to VPN:

Call Types:

- 1) On-Net to On-Net calling provides the "private network" type calls (7-digit dialing) between locations linked by dedicated access.
- 2) On-Net to Off-Net calling provides dedicated access WATS type calls (10-digit dialing) which terminate to off-network locations via the public switched network.
- 3) Off-Net to On-Net calling provides dialing from remote locations originating via the public switched network to On-Net (dedicated access) locations.
- 4) Off-Net to Off-Net calling provides switched access originated calling that terminates via the public switched network.

Minute increments of usage rates will be deducted on a real-time basis as the card is used until the full amount of the card is depleted unless specified elsewhere. The dollar amount will be added to the card once the credit card has been verified. Only one purchase is permitted within a 24 hour period and that single purchase cannot exceed \$100.

The customer will be notified in advance of the depletion of the card. The expiration date or policy is stated on the back of the phone card. The Voice Response Unit advises the caller when there is *one minute remaining* on the card.

Directory Assistance calls may be placed with phone calling cards for which a Directory Assistance rate is specified. For cards with specific payphone surcharges listed with the card rates, no additional payphone surcharge rates will apply.
