- .2 0+ area code + 555-1212
- .3 00 and request the long distance operator to connect the caller to Directory Assistance
- .4 one of the Company's Toll Free Access Numbers and request the long distance operator to connect the caller to Directory Assistance or by dialing the area code + 555-1212.

SECTION 3 - DESCRIPTION OF SWITCHED SERVICES

3.2 Directory Assistance Services (continued)

3.2.3 Access Methods (continued)

(C) Call Originates From On-Net Location

Customers, End Users or Casual Callers may also reach Directory Assistance via:

- .1 1+ area code + 555-1212
- .2 0+ area code + 555-1212
- .3 00 and request the long distance operator to connect the caller to Directory Assistance
- .4 one of the Company's Toll Free Access Numbers and request the long distance operator to connect the caller to Directory Assistance or by dialing the area code + 555-1212.

SECTION 3 - DESCRIPTION OF SWITCHED SERVICES

3.2 Directory Assistance Services (continued)

3.2.4 Features

(A) Multiple Listings

Customers may receive up to two listings per request to Directory Assistance. Regardless of the access method used by the caller to reach Directory Assistance, the two listings requested by the caller may be for telephone numbers located within different area codes.

(B) Automated DACC

Automated DACC provides the caller an option of having an interactive automated system complete a call to the called telephone number listing received from Directory Assistance without the caller hanging up and originating a new call.

- .1 The Company will offer Automated DACC only where technical capability exists to terminate the call.
- .2 For Customers that subscribe to any of the Company's outbound Services that require Dedicated Access to reach the long distance network, access to Automated DACC is blocked from the Customer's DVA lines.

SECTION 3 - DESCRIPTION OF SWITCHED SERVICES

3.2 Directory Assistance Services (continued)

3.2.4 Features (continued)

(B) Automated DACC (continued)

- .3 For Customers that subscribe to any of the Company's outbound Services that require Switched Access to reach the long distance network, Automated DACC is available for Directory Assistance accessed via 1 + area code + 555-1212. Automated DACC is blocked via all other access methods.
- .4 Automated DACC calls may not be completed via Group 2 Toll Access Free Numbers.
- .5 When two directory listings are requested, Automated DACC is available for completing the call to the first or second listing.
- .6 Once the caller is provided the desired telephone number, the caller is offered call completion.
- .7 Manual completion of the call from the Directory Assistance operator is not available

SECTION 3 - DESCRIPTION OF SWITCHED SERVICES

3.2 Directory Assistance Services (continued)

3.2.4 Features (continued)

(C) Call Completion By Long Distance Operator

Manual call completion may be required for disabled callers or for callers that originate calls from rotary telephones. These callers should contact the long distance operator for connection to the Directory Assistance operator and request the long distance operator stay on the line to complete the call.

SECTION 3 - DESCRIPTION OF SWITCHED SERVICES

3.2 Directory Assistance Services (continued)

3.2.5 Application of Charges

(A) General

- .1 Directory Assistance charges apply whether or not the Directory Assistance operator furnishes the requested telephone number(s) (e.g., the requested telephone number is unlisted, non-published or no record can be found).
- .2 Customers will be billed a charge for each request of two listings or portion thereof.
- .3 Directory Assistance charges may be billed to the originating number or to an alternate billing option such as third number or a calling card. Calls placed to Directory Assistance with alternate billing will incur both the Directory Assistance charge as well as the per call charge for the alternate billing option.

SECTION 3 - DESCRIPTION OF SWITCHED SERVICES

3.2 Directory Assistance Services (continued)

3.2.5 Application of Charges (continued)

(A) General (continued)

.4 Any calls to Directory Assistance utilizing an operator will be billed the Directory Assistance charge plus the applicable operator services per call charges. If the Customer reaches a long distance operator and the long distance operator connects the Customer to Directory Assistance, the following charges apply:

- .a Directory Assistance charge pursuant to Section 4.2 of this Tariff and
- .b operator dialed per call charge pursuant to Section 4.1.1 or Section 4.1.2 of this Tariff.

If the long distance operator stays on the line to complete the call for the caller, usage charges also apply pursuant to Section 4.1.1 or Section 4.1.2 of this Tariff.

SECTION 3 - DESCRIPTION OF SWITCHED SERVICES

3.2 Directory Assistance Services (continued)

3.2.5 Application of Charges (continued)

(B) Automated DACC

The Automated DACC charge applies in addition to the Directory Assistance per-call charge if the caller accepts the offer. The Automated DACC charge will not apply if the call is not completed. The DACC charge and the associated usage charges for the completed call will be billed using the same billing option used for the originating call to Directory Assistance. For rates and charges, see Section 4.2 of this Tariff for the DACC charge. In addition to the DACC charge, the Customer will be billed the directory assistance charge and the appropriate usage charge.

3.4.1 MTS

(A) Business MTS

N

MTS is an intercity long distance Service available to Business Customers seven (7) days per week, twenty-four (24) hours per day, 365 days per year. With Business MTS, calls are originated from other than a payphone. The desired telephone number is dialed, the call is completed without the assistance of a live or automated operator, and the call is not billed to a number other than the originating number. Calls originate on switched facilities provided by LECs, CLECs or authorized access providers. Business MTS is available to Business Customers that presubscribe to the Company for long distance Service. If a Business Customer presubscribes to the Company for the provision of outbound long distance Service and does not select one of the Company's optional price plans, the Company will provision MTS Service on the Customer's initial order for Service. Charges are usage sensitive and vary by day-of-week and time-of-day. Calls are billed in one (1) minute increments, with a minimum call duration of one (1) minute. Peak and off peak rates apply. The peak rate period is 8:00 a.m. to but not including 5:00 p.m., Monday through Friday. The off-peak rate period is all other times. The off-peak rates apply on the following holidays: New Year's Day, Independence Day, Labor Day, Thanksgiving Day, and Christmas Day. With MTS, there is no minimum monthly billing. Calls billed under this Service offering will not qualify for promotional rates.

3.6 AT&T Toll Free Services¹

T/C

3.6.1 General

- (A) AT&T Toll Free Service is a reverse billed Service that allows the Customer to pay for incoming calls. It permits calls to be completed to the Customer's location without charge to the calling party. Business Customers may subscribe to TFS with or without the ability to receive intrastate IntraLATA Service from the Company.
- (B) For Business Customers TFS includes: (1) a TFS Number that can be selected by the Customer or randomly generated by the SMS/800 database; (2) an Area of Service selected by the Customer; and (3) various optional features. For Residential Customer, TFS includes: (1) a TFS Number randomly generated by the SMS/800 database and (2) an Area of Service selected by the Customer.
- (C) For Residential Customers, the Company will serve as the Customer's Resp Org. If the Business Customer does not advise the Company of its choice of a specific Resp Org, the Company will determine which Resp Org will be used.

3.6.2 Availability

(A) Area of Service

Area of Service allows a TFS Customer to block or allow calls to a given TFS Number based on the originating area of the caller. Area of Service blocking is dependent on valid ANI being delivered in the network. Calls placed from outside the Customer's Area of Service will receive an announcement informing the caller that calls cannot be completed from the caller's location. The call will then be terminated. For TFS terminating via Dedicated Access, the customer's minimum area of service must include at least one interstate area of service. For TFS terminating via Switched Access, the Customer's minimum area of service is one intrastate area of service

(B) Originating and Terminating Access

Toll Free calls may originate on any type of access but are terminated via DVA or Switched Access lines to the Customer's location.

(C) Termination of TFS

TFS may terminate in the State where Dedicated Access or Switched Access are available.

¹ Effective November 12, 2007, the dedicated service offering associated with Toll Free Service will no longer be available to new Customers. Existing term plan Customers may add, move, remove or change lines and/or locations for the duration of their current term plan agreement. 3.6.3 Optional Features (continued)

(D) AT&T Toll Free Call Routing

T

AT&T Toll Free Call Routing enables a TFS Customer to route or block calls to a single TFS Number to multiple locations based on several routing variables. The routing features may be combined to create a customized routing plan for a given TFS Number. The AT&T Toll Free Call Routing features that may be combined in any routing plan are: Area Code Routing, Area Code/Exchange Routing, Time of Day Routing, Day of Week Routing, Day of Year Routing, and Percent Allocation. AT&T Toll Free Alternate Routing plans may be activated by placing a call to Company-designated personnel.

T

T

.1 Area Code Routing

.2

This feature permits the Customer to have calls to the same TFS Number routed differently based upon the originating NPA of the caller.

.a Permissible area codes include all area codes in Canada, the United States, and the U.S. territories of Puerto Rico, the U.S. Virgin Islands, Guam, and Commonwealth of Northern Mariana Islands.

.b On request, the Company will update a Customer's Area Code Routing feature at no charge if the update is due to an area code split or a new area code being added to the North American Numbering Plan.

.c The proper usage rate based on point of call origination will be applied to each call.

¹ Effective November 12, 2007, the dedicated service offering associated with Toll Free Service will no longer be available to new Customers. Existing term plan Customers may add, move, remove or change lines and/or locations for the duration of their current term plan agreement. .2 Area Code/Exchange Routing

This feature permits the Customer to have calls to the same TFS Number routed differently based upon the originating NPA and NXX of the caller. Exchanges cannot be divided for routing purposes.

- .a Default routing is required for Area Code/Exchange Routing. The subscriber will specify routing for calls without full 10-digit ANI delivered.
- .b Permissible area codes include all area code/exchanges in the United States and the U.S. territories of Puerto Rico, the U.S. Virgin Islands, Guam, and Commonwealth of Northern Mariana Islands.
- .c This feature supports default routing on an area code basis only for calls originating from Canada.

.3 Time of Day Routing

This feature allows the Customer to have calls to the same TFS Number routed to different locations based on the time of the day.

- .a Time of Day routing will follow the national observance of daylight savings time.
- .b The day may be divided into fifteen (15) minute increments, with up to ninety-six (96) intervals per twenty-four (24) hour period. All time intervals must begin on the quarter clock hour.
- .c The Customer's time of day schedule must include the entire twenty-four (24) hour day.

.5 Day of Year Routing

This feature allows the Customer to have calls to the same TFS Number routed to different locations on specified days of the year. Dates are stored in a month/day format. It is the responsibility of the Customer to revise day of year routing schedules annually. Day of Year Routing is limited to sixty (60) days to be identified.

.6 Percent Allocation

This feature permits the Customer to define routing of calls made to the same TFS Number on a percentage basis so that calls can be allocated to multiple locations. Percentages must be defined in whole numbers, with 1% (one percent) as the smallest allocation percentage to any location. ***The total of all percentages must be 100%.*** The algorithm used to allocate calls to different destinations is based on random number generation, so allocation will be not necessarily be exact, especially with smaller numbers of calls.

(F) Release By the Company of Customer's TFS Number(s) for Porting to Other Carriers

- .1 A Customer may request that the Company release its TFS Number(s) so that another long distance service provider may provide toll free service to a Customer. The Company will release a Customer's TFS Number(s) only upon the following occurrences:
 - .a there are no outstanding unpaid, unresolved or disputed payments or any other payments or indebtedness due and payable to the Company by the Customer or its successors or assignees relative to any communications service(s) or Services(s) provided by the Company; and
 - .b there are no unsatisfied liens or claims for property against which payment for such communications service(s) or Service(s) have been guaranteed or otherwise collateralized.
- .2 The Company reserves the right to withhold its authorization of such transfer of such Customer's TFS Number(s) until the Customer's indebtedness is resolved to the satisfaction of the terms and conditions of this Tariff and any agreement(s) between the Customer and the Company.

¹ Effective November 12, 2007, the dedicated service offering associated with Toll Free Service will no longer be available to new Customers. Existing term plan Customers may add, move, remove or change lines and/or locations for the duration of their current term plan agreement. Adds, moves and changes for this Service are no longer available to existing Customers upon expiration of the Customer's Term Plan Agreement or Customers currently on a month to month basis.

(H) Termination of TFS By Company

- .1 If Service is terminated by the Company for violation of this Tariff, the national SMS/800 data base allows the Company to retain control of all TFS Numbers disconnected for up to a 4-month period. If the Customer rectifies the violation to the satisfaction of the Company, the Company may, in its sole discretion, return the number to the control of the Customer. If the Customer does not rectify the violation within three (3) months, the Company may refuse to:
 - .a reconnect the disconnected number for the previous Customer;
 - .b transfer disconnected Customer to a third party identified by the Customer; and
 - .c process any request to change the Resp Org from the disconnected Customer except as indicated in Section 3.6.4 (F) of this Tariff.

.2 Reserved for future use

.3 Customers that are direct-billed must provide the Company updated information within fifteen (15) days of a change in billing address and/or contact information. If the Customer fails to timely provide such updated information, the Company reserves the right to terminate Service on seven (7) days' written notice to last known address/contact, and the Customer shall be responsible for any and all early termination charges.

(I) Application of Charges

Rates and charges are associated with the Customer's BTN. For an existing Customer who subscribes to TFS in the middle of a billing cycle, monthly recurring charges are prorated based on the amount of time the plan is in effect prior to the first bill. Calls terminating to Switched Access will be rated with switched rates. Calls terminating to Dedicated Access will be rated with dedicated rates. Actual rates will vary based on the plan selected by the Customer. Unless otherwise indicated in this Tariff, if a Customer subscribes to any of the optional features described in Section 3.6.3 of this Tariff, the rates and charges for those optional features are per TFS Number.

3.6.6 AT&T Enhanced Toll Free Services¹

(A) General

AT&T Enhanced Toll Free Services is a suite of complex features that allow Business Customers to route, manage and track calls for complex routing or call center applications. The majority of the AT&T Enhanced Toll Free service features are controlled via an Internet-based Web Tool so the Customer can make changes or additions to their routing plans on an as-needed basis without interacting with the Company. AT&T Enhanced Toll Free Services provide the ability for a TFS Customer to route calls based on caller-selected menu choices.

(B) Availability

AT&T Enhanced Toll Free Services are add-on Services available to Customers that (1) subscribe to any of the Company's High Volume Calling Business Optional Calling Plans for the provision of AT&T Toll Free Service that sign a term plan agreement for one (1), two (2) or three (3) years.

(C) Billing In Advance of Service

Monthly recurring and non-recurring charges for Service components are billed in advance of Service and reflect the rates in effect as of the date of the invoice (e.g., bills generated in February will cover the month of March). A Customer's first invoice may contain charges from previous periods for Service provided from the date of installation through the current invoice period. An Applicant for Service may be required to pay in advance of the establishment of Service the applicable nonrecurring charges together with the fixed charges applicable for the first month.

¹ This Service is no longer available for new Customer term plan agreements effective July 9, 2007. Existing Customers may add, move, remove or change lines and/or locations for the duration of their current term plan agreement. This Service is no longer available to existing Customers upon expiration of the Customer's Term Plan.

(D) Service Features

.1 Alternate Routing

Alternate routing allows the Customer to make alternative routing changes at the phone group level effecting multiple Toll Free Numbers.

.2 Authorization Code

The authorization code feature allows the Customer to restrict access to the Customer's TFS by prompting callers to enter one of the valued authorization codes the Customer has defined for the Customer's TFS.

.3 Busy/No Answer Overflow

The busy/no answer overflow feature allows a Customer to define multiple routes in the event that the first or subsequent routes are busy or do not answer.

¹ This Service is no longer available for new Customer term plan agreements effective July 9, 2007. .4 Call Routing

.a Time Dependent Routing

With time dependent routing, the incoming call is screened based on the time of the call and is time zone adjusted. Time is measured in military time in one minute increments or ranges.

.b Day of Week Routing

The day of week routing feature permits the Customer to have calls to same Toll Free Number routed to different locations based upon the day of the week. Day of week routing will follow the national observance of daylight savings time.

.c Day of Year Routing

The day of year routing feature allows the Customer to have calls to the same Toll Free Number routed to different locations on specified day of the year. Dates are stored in a month/day format. It is the responsibility of the Customer to revise day of year routing schedules annually.

.d Holiday Routing

With holiday routing, incoming calls are routed based on a pre-defined list of holidays defined by the Customer.

CTS features allow an agent to hand off a caller to a second agent at a different destination. This can be done with or without the first agent staying on the call.

.a Call Transfer

With call transfer, the caller can be transferred to another destination.

.b Call Transfer Consult

This arrangement allows the Customer to place the caller on hold, hear call progress (ie. ringing or busy signal) and either; (1) transfer the caller to the target party without remaining on the call or (2) terminate the redirection and return to the caller for further call handling.

.c Call Transfer Conference

This arrangement allows the Customer to conference with the target party and the caller. The Customer may consult with the target party prior to adding the caller to the three way conference. Following the three way conference, the caller may remain connected to the Customer or to the target party. If the target party is busy or does not answer, the Customer may return to the caller and may attempt another transfer.

Network queuing is used only in conjunction with call center availability routing. As a call routes into a Toll Free Number, the maximum call threshold functionality determines if all the trunks are busy, if so, programmable messages or music is played while the call is in queue.

.13 Origin Dependent Routing

The origin dependent routing feature permits the TFS Customer to have calls to the same Toll Free Number routed differently based upon the calling party's geographic location. Calls may be routed based on state, NPA, NPA-NXX, NPA-NXX-XXXX or 10 digit numbers. Permissible NPAs include all area codes/exchanges in the United States, the Extended Area, and Canada. Except for call from Canada, International TFS cannot be divided for routing purposes.

.14 Play Announcement Feature

The play announcement feature allows the Customer to play a single announcement either during a call flow or at the end of the call flow. A call may be terminated at a predetermined location and a custom or standard announcement played.

.15 Unlimited Storage Blocks

With unlimited storage blocks, a Toll Free Service Customer may store an unlimited number of caller announcement instructions.

SECTION 3 - DESCRIPTION OF SWITCHED SERVICES

3.7 Custom Business Services (continued)

Except for SBC Long Distance Virtual Private Network (VPN), Business Customers subscribing to a Custom Business Service offering described in Section 3.7 of this Tariff may subscribe to the Calling Card - Option 2 or an Option 2 category as specified in the specific Service offering, and as described in Section 3.1.5 (A).2 of this Tariff. Unless otherwise indicated in this Tariff, the following rules and regulations regarding the Calling Card - Option 2 and Option 2 categories apply to all Custom Business Services described in Section 3.7 of this Tariff except for SBC Long Distance Virtual Private Network (VPN):

- Operator assisted, operator dialed, and fully automated calling card calls billed to the Calling Card - Option 2 and Option 2 categories are rated at the usage rates specified in Section 4 of this Tariff for the Custom Business Service subscribed to by the Customer in lieu of the rates and charges specified in Section 4.1.1 (B).2.b and Section 4.1.2 (A) of this Tariff for Operator Toll Assistance Service. A per call charge applies in addition to the initial period and additional period charges applicable to the call. For fully automated, operator assisted, and operator dialed calls billed to the Calling Card - Option 2 and Option 2 categories, see Section 4.1.1 (B).2.a, Section 4.1.2 (B) and Section 4.1.2 (C) of this Tariff for per call charges.
- For Customers that subscribe to one of the Company's Custom Business Service offerings described in Section 3.7 of this Tariff that also subscribe to the Calling Card - Option 2 or an Option 2 category, the billing increments (including the minimum connect time) for fully automated, operator assisted, and operator dialed calls billed to the Calling Card are the same as the billing increments for 1+ outbound calls rated under the Custom Business Service subscribed to by the Customer.

3.7.12 SBC Long Distance Virtual Private Network (VPN)¹

C

(A) General

SBC Long Distance Virtual Private Network (VPN) is an outbound only long distance Service that provides the functionality and capabilities of a private network through the use of shared transmission facilities. VPN is operated by a software-controlled management system. This Service is available to Business Customers or Applicants that:

- .1 sign a term plan for a minimum commitment period of one year;
- .2 access the VPN network via one or more of the access methods described in Section 3.7.12 (B) of this Tariff;
- .3 subscribe to VPN for the provision of interstate, intrastate IntraLATA, and intrastate InterLATA calling (VPN is not available for intrastate IntraLATA calling on a stand alone basis); and
- .4 commit to a MAC of \$240,000. See Section 2.26 of this Tariff for rules and regulations applicable to MACs and term plan agreements.

¹ This Service is no longer available for new Customer term plan agreements effective July 15, 2006. Existing Customers may add, move, remove or change lines and/or locations for the duration of their current term plan agreement. This Service is no longer available to existing Customers upon expiration of the Customer's term plan

3.7.12 SBC Long Distance Virtual Private Network (VPN)¹ (continued)

C

(B) Access

Access to the Customer's VPN network may be provided via one or more of the following methods:

- .1 by subscribing to one of the Company's High Volume Dedicated Outbound Calling plans, as described in Section 3.7 of this Tariff, with DVA access or PRI-ISDN access (term plan, MAC, and MMC commitments required to subscribe to High Volume Dedicated Outbound Calling Service will be waived for Customers subscribing to VPN Service);
- .2 by presubscribing one or more of the Customer's Switched Access lines to the Company for the provision of outbound long distance service and identifying those lines to be associated with the Customer's VPN Service; or
- .3 by remote access using a toll-free number. Remote access enables VPN members to access their VPN network from remote, non-VPN locations (e.g., while traveling). The VPN member dials a toll-free number to access the VPN Service and is prompted for a VPN Authorization Code, a PIN number, and the called party number. The remote access toll-free number, the VPN member's authentication code, and PIN are printed on a VRA card, available as part of the VPN Service.

¹ This Service is no longer available for new Customer term plan agreements effective July 15, 2006. Existing Customers may add, move, remove or change lines and/or locations for the duration of their current term plan agreement. .3 Call Rate Type C

- a. Dedicated to Dedicated (VPN On-Net) - Call originates from Customer's dedicated VPN facility and terminates to a VPN station on a different dedicated facility within the Customer's VPN network.

(D) Features

.1 Private Numbering Plan

Private Numbering Plan is a dialing plan independent of the North American Dialing Plan and specific to the Customer. The private number dialing plan enables Customers or users to dial an abbreviated number of digits or a 10 digit 700 number when calling from one VPN member station to another.

¹ This Service is no longer available for new Customer term plan agreements effective July 15, 2006. C

(D) Features (continue)

.2 Public Dialing Plan

Public Dialing Plan allows the VPN user to dial a 1+10-digit number from a VPN switched station using the North American Dialing Plan and have that call rated as a VPN call. This functionality is specifically designed for Switched Access lines presubscribed to the Company for the provision of outbound long distance Service. The VPN user may complete three different call types using the Public Dialing Plan: (1) switched to dedicated (VPN On-Net), (2) switched to switched (Virtual On-Net), and (3) switched to switched (VPN Off-Net). This feature requires that the VPN Customer's Switched Access lines be presubscribed to the Company for the provision of interstate Service.

.3 Forced On-Net

Forced On-Net enables a VPN user to dial another station within the same VPN service using the North American Dialing Plan and have the call routed as if the user had dialed the private number.

¹ This Service is no longer available for new Customer term plan agreements effective July 15, 2006. Existing Customers may add, move, remove or change lines and/or locations for the duration of their current term plan agreement. .4 Network Overflow

Network Overflow provides the ability for VPN On-Net calls to be routed over an alternate route should the primary route (or subsequent alternate routes) be busy. For example, if a VPN On-Net call cannot be completed due to a busy condition, the call can be routed over another dedicated switch/trunk group or over public network facilities. Network Overflow can only be applied to VPN Dedicated Access lines.

.5 Call Screen Routing

Call Screen Routing provides the capability to screen or route calls based on a number of parameters, such as the ANI from a switched line. VPN Customers may choose to block calls to a particular geographical area, or route calls depending on time of day, day of week, or day of year. Customers may subscribe to CSR features without subscribing to VPN Authorization Codes.

¹ This Service is no longer available for new Customer term plan agreements effective July 15, 2006. Customers must subscribe to CSR in order to obtain VPN Authorization Codes. The VPN Authorization Code is used to override CSR restrictions imposed on the VPN Service. When a call screen restriction is reached, the VPN user(s) will be informed by an announcement that they do not have the proper authority to place the call. To override the restriction and enable the call to proceed, user(s) are required to enter a VPN Authorization Code with the appropriate Authorization Level. The VPN Authorization Code may be from one (1) to twenty-three (23) digits in length.

.7 Re-Origination

Re-Origination allows VPN members to make multiple calls during a single remote access session. That is, rather than redialing the remote access toll-free number for each successive call, the VPN member may simply press the pound (#) key on the telephone keypad on completion of a call and dial the next number the member wishes to call. The VPN member may make up to four (4) re-originated calls. A separate call detail record will be created for each individual call.

.8 Account Codes

Account Codes are optionally available with VPN Service.

¹ This Service is no longer available for new Customer term plan agreements effective July 15, 2006. Existing Customers may add, move, remove or change lines and/or locations for the duration of their current term plan agreement. This Service is no longer available to existing Customers upon expiration of the Customer's term plan.

C

(E) Commence of Service

Once Service is implemented and tested, billing for the Service will begin upon receipt of Customer's acceptance of the Service. This applies to both the initial VPN Service(s) and additional VPN Service(s).

(F) Billing

Customers subscribing to VPN will be direct-billed by the Company. The VPN Service is identified with the Corporate BAN of a Billing Hierarchy, and as such, there can only be one VPN per Billing Hierarchy and vice versa. The Corporate BAN is always an invoice point, but VPN Customers may request multiple invoice points throughout the Billing Hierarchy, such that different corporate organizations, divisions, groups, etc. are billed individually for the VPN charges that they incur.
