TARIFF P.U.C.O. NO. 5  
ACCESS SERVICE TARIFF

INTRASTATE ACCESS

(A) General Regulations

The Chillicothe Telephone Company offers intrastate equal access for both interLATA and intraLATA message tolls. InterLATA equal access was introduced in 1989 and effective August 1, 1997 equal access for intraLATA will be available.

1. Our subscribers will be notified within 60 days of implementation that they may choose a carrier other than their local telephone company for their intraLATA message traffic.
2. Subscribers have the option of remaining with their local telephone company for their intraLATA message traffic.
3. Subscribers can have a different carrier for their interLATA and intraLATA message traffic.
4. The rates and regulations in paragraphs B. & C. of this tariff that apply to intrastate interLATA also apply to intraLATA.
5. Beginning with implementation and continuing for 90 days from the implementation date or 90 days from mailing of customer notification, whichever is longer, customers requesting to change their intraLATA carrier will be changed free.
6. After the 90 day time period for free changes of an intraLATA carrier (detailed in A.5 above) has expired, a charge of \$5.50 will apply to change an intraLATA carrier. In the event that the subscriber changes their intraLATA carrier simultaneously with their interstate carrier, one-half of the intraLATA PIC Change Charge will be waived.
7. New local service customers will be asked to select an interLATA and intraLATA toll carrier at the time they place an order for local exchange service with the Telephone Company.
8. If a new customer is unable to make a selection, a random list of available carriers will be read to the customer. The customer will have 90 days to make a selection free of charge. During the 90 days, the customer will not have an intraLATA toll carrier so they must dial a carrier access code (10XXX/101XXXX) to route each intraLATA call.
- 9.

INTRASTATE ACCESS (cont'd)

B. Access Rates

The rates, charges and conditions for the provision of intrastate Carrier Access Service are as specified in The Chillicothe Telephone Company Interstate Access Services, Tariff F.C.C. No. 1, as it now exists, and as it may be revised, added to or supplemented. Section 4, End User Services, is not effective in Ohio.

Carrier Common Line Access Service terms and conditions appear in Section 2, Sheets 1-14 herein, where as the rates have been moved to Section 2, Sheet 14 herein.

(M)

(D)

(D)

For End User Service the Public Utilities Commission of Ohio ordered that the service not be implemented.

C. Billing and Collection Rates

Interexchange billing and collection services, except for recording services, are deregulated. Recording services, other than billing and address services, while subject to regulation by the PUCO, are detariffed. Upon conversion of an end-office to equal access, billing name and address information for non-presubscribed traffic shall be provided to interexchange carriers pursuant to rates, terms and conditions contained in paragraph C.3 and C.4.

1. General Description

Billing name and address service (BNA) is the provision of account detail for use by the customer in billing its non-presubscribed or "10XXX"/"101XXXX" traffic.

Issued: February 17, 2004

Effective: February 17, 2004

Issued by Thomas McKell, President  
In accordance with Public Utilities Commission of Ohio  
Order dated February 11, 2004 in Case No. 03-2157-TP-ATA

TARIFF P.U.C.O. NO. 5  
ACCESS SERVICE TARIFF

INTRASTATE ACCESS (cont'd.)

(T)

C. Billing and Collection Rates (cont'd.)

2. General Regulations

(S)

- a. Upon acceptance by the Telephone Company of a request for BNA service, the Telephone Company will furnish account detail for requested accounts. Account detail consists of the end user name, billing address and billing parameters other than message detail and/or service and equipment detail.
- b. Only current information which resides in the data base will be provided.
- c. The Telephone Company will specify the location where requests are to be received and the format in which the requests are to be made.
- d. The customer shall make every effort to make sure that BNA output is provided only to authorized personnel. The customer shall agree, in writing to the Telephone Company, that the customer will not provide the BNA output to third parties for use by those third parties except for work for the customer which is under the complete control of the customer.

3. Rate Regulations

- a. The number and type of records for which charges apply will be accumulated by the Telephone Company and the Telephone Company will bill the customer in accordance with these accumulations. A record is a logical grouping of information.
- b. The normal output of BNA service is a paper report. When records are entered on a data file or magnetic tape in order to provide information to a customer, the per tape charge applies for each data file or tape prepared. In addition, the per record charge applies for each record entered on the data file or tape.

(S)

4. Rates and Charges

Regulations, rates and charges for BNA services are the same as those set forth in Section 11 of the Chillicothe Telephone Company's Interstate Access Services, Tariff F.C.C. No. 1.

(T)

(T)

Issued: July 2, 1997

Effective: August 1, 1997

Issued by Thomas McKell, President  
In accordance with the Public Utilities Commission of Ohio  
Order dated June 19, 1997 in Case No. 96-1355-TP-ATA

INTRASTATE CARRIER COMMON LINE ACCESS SERVICE  
REFERENCE TARIFF

The Telephone Company will provide Carrier Common Line Access Service (Carrier Common Line Access) to interexchange service providers ("IXCs") in conjunction with Switched Access Service provided in Section 6. of the National Exchange Carrier Association (NECA) Tariff F.C.C. No. 5 or the appropriate Switched Access Service section of other Access Service tariffs in which the Telephone Company participates.

(T)

1. General Description

Carrier Common Line Access provides for the use of end users' Telephone Company-provided common lines by IXCs for access to such end users to furnish intrastate communications.

Premium Access is (1) Switched Access Service provided to customers under this tariff which furnish intrastate MTS/WATS, and (2) Switched Access Service in an end office converted to equal access.

(T)

Issued: February 17, 2004

Effective: February 17, 2004

Issued by Thomas McKell, President  
In accordance with the Public Utilities Commission of Ohio  
Order dated February 11, 2004 in Case No. 03-2157-TP-ATA

INTRASTATE CARRIER COMMON LINE ACCESS SERVICE  
REFERENCE TARIFF2. Limitations

(T)

2.1 Exclusions

Neither a telephone number nor detail billing is provided with Carrier Common Line Access. Additionally, directory listings and intercept arrangements are not included in the rates and charges for Carrier Common Line Access.

2.2 Access Groups

All line side connections provided in the same access group will be limited to the same features and operating characteristics.

All trunk side connections provided in the same access group will be limited to the same features and operating characteristics.

2.3 WATS Access Lines

Where Switched Access Services are connected with Special Access Services at Telephone Company Designated WATS Serving Offices for the provision of WATS or WATS-type Services, Switched Access Service minutes which are carried on that end of the service (i.e., originating minutes for outward WATS and WATS-type services and terminating minutes for inward WATS and WATS-type services) shall not be assessed Carrier Common Line Access per minute charges.

(T)

INTRASTATE CARRIER COMMON LINE ACCESS SERVICE  
REFERENCE TARIFF3. Undertaking of the Telephone Company

(T)

Where the IXC is provided Switched Access Service for intrastate communications under other sections of this or other Access Service tariffs, the Telephone Company will provide the use of Telephone Company common lines by an IXC for access to end users at rates and charges as set forth in the Telephone Company's Intrastate Access Service Tariff.

4. Obligations of the IXC4.1 Switched Access Service Requirement

The Switched Access Service associated with Carrier Common Line Access shall be ordered by the IXC under applicable sections of NECA Tariff F.C.C. No. 5.

4.2 Supervision

The IXC facilities at the premises of the ordering IXC shall provide the necessary on-hook and off-hook supervision.

(T)

Issued: February 17, 2004

Effective: February 17, 2004

Issued by Thomas McKell, President  
In accordance with the Public Utilities Commission of Ohio  
Order dated February 11, 2004 in Case No. 03-2157-TP-ATA

INTRASTATE CARRIER COMMON LINE ACCESS SERVICE  
REFERENCE TARIFF5. Determination of Usage Subject to Carrier Common Line Access Charges

(T)

Except as set forth herein, all Switched Access Service provided to the IXC will be subject to Carrier Common Line Access charges.

5.1 Cases Involving Usage Recording By the IXC

Where Feature Group C end office switching is provided without Telephone Company recording and the IXC records minutes of use used to determine Carrier Common Line Access charges (i.e., Feature Group C operator and calls such as pay telephone sent-paid, operator-DDD, operator-person, collect, credit-card, third number and/or other like calls), the IXC shall furnish such minutes of use detail to the Telephone Company in a timely manner. If the IXC does not furnish the data, the IXC shall identify all Switched Access Services that could carry such calls in order for the Telephone Company to accumulate the minutes of use through the use of special Telephone Company measuring and recording equipment.

5.2 Local Exchange Access and Enhanced Services Exemption

When access to the local exchange is required to provide an IXC service (e.g., MTS/WATS-type, telex, Data, etc.) that uses a resold Special Access service, Switched Access Service Rates and Regulations, as set forth in Section 6. of NECA Tariff F.C.C. No. 5 will apply, except when such access to the local exchange is required for the provision of an enhanced service.

(T)

Issued: February 17, 2004

Effective: February 17, 2004

Issued by Thomas McKell, President  
In accordance with the Public Utilities Commission of Ohio  
Order dated February 11, 2004 in Case No. 03-2157-TP-ATA

INTRASTATE CARRIER COMMON LINE ACCESS SERVICE  
REFERENCE TARIFF6. Resold Services

(T)

6.1 Scope

Where the IXC is reselling MTS and/or MTS-type service(s) on which the Carrier Common Line and Switched Access charges have been assessed, the IXC may, at the option of the IXC, obtain Feature Group A, Feature Group B or Feature Group D Switched Access Service under Section 6. of NECA Tariff F.C.C. No. 5 for originating and/or terminating access in the local exchange. Such access group arrangements whether single lines or trunks or multiline hunt groups or trunk groups will have Carrier Common Line Access charges applied as set forth in the Telephone Company's Intrastate Access Service Tariff in accordance with the resale rate regulations set forth in 6.4 following. For purposes of administering this provision:

Resold intrastate terminating MTS and MTS-type service(s) shall include collect calls, third number calls and credit card calls where the reseller pays the underlying carrier's service charges.

Resold intrastate originating MTS and MTS-type service(s) shall not include collect, third number, or credit card calls.

(T)

Issued: February 17, 2004

Effective: February 17, 2004

Issued by Thomas McKell, President  
In accordance with the Public Utilities Commission of Ohio  
Order dated February 11, 2004 in Case No. 03-2157-TP-ATA

INTRASTATE CARRIER COMMON LINE ACCESS SERVICE  
REFERENCE TARIFF6. Resold Services (Cont'd)

(T)

6.2 IXC Obligations Concerning the Resale of MTS and MTS-type Services

When the IXC is reselling MTS and/or MTS-type service as set forth in 6.1 preceding, the IXC will be charged Carrier Common Line Access charges in accordance with the resale rate regulations as set forth in 6.4 following if the IXC furnishes documentation of the MTS usage and/or the MTS-type usage. Such documentation supplied by the IXC shall be supplied each month and shall identify the involved resold MTS and/or MTS-type services.

The monthly period used to determine the minutes of use for resold MTS and/or MTS-type service(s) shall be the most recent monthly period for which the IXC has received a bill for such resold service(s). This information shall be delivered to the Telephone Company, at a location specified by the Telephone Company, no later than 15 days after the bill date shown on the resold MTS and/or MTS-type service bill. If the required information is not received by the Telephone Company, the previously reported information, as described preceding, will be used for the next two months. For any subsequent month, no allocation or credit will be made until the required documentation is delivered to the Telephone Company by the IXC.

6.3 Resale Documentation Provided By the IXC

When the IXC utilizes Switched Access Service as set forth in 6.2 preceding, the Telephone Company may request a certified copy of the IXC's resold MTS or MTS-type usage billing. Requests for billing will relate back no more than 12 months prior to the current billing period.

(T)

Issued: February 17, 2004

Effective: February 17, 2004

Issued by Thomas McKell, President

Order dated February 11, 2004 in Case No. 03-2157-TP-ATA

INTRASTATE CARRIER COMMON LINE ACCESS SERVICE  
REFERENCE TARIFF6. Resold Services (Cont'd)

(T)

6.4 Rate Regulations Concerning the Resale of MTS and MTS-type Services

When the IXC is provided an access group to be used in conjunction with the resale of MTS and/or MTS-type services as set forth in 6.1 preceding, subject to the limitations as set forth in 6.2 preceding, and the billing entity receives the usage information required as set forth in 6.2 preceding, to calculate the adjustment of Carrier Common Line Access charges, the IXC will be billed as set forth in (C) below.

(A) Apportionment and Adjustment of Resold Minutes of Use

When the IXC is provided with more than one access group in a LATA in association with the resale of MTS and/or MTS-type services, the resold minutes of use will be apportioned as follows:

(1) Originating Services

The Telephone Company will apportion the resold originating MTS and/or MTS-type services and originating minutes of use for which the resale credit adjustment applies, among the access groups. Such apportionment will be based on the relationship of the originating usage for each access group to the total originating usage for all access groups in the LATA. For purposes of administering this provision:

Resold originating MTS and/or MTS-type services minutes shall be only those attributable to intrastate originating MTS and/or MTS-type minutes and shall not include collect, third number, or credit card calls.

The resale credit adjustment shall apply for resold originating MTS and MTS-type services and minutes of use, provided Carrier Common Line and Switched Access Charges have been assessed on such services.

(T)

INTRASTATE CARRIER COMMON LINE ACCESS SERVICE  
REFERENCE TARIFF6. Resold Services (Cont'd)

(T)

6.4 Rate Regulations Concerning the Resale of MTS and MTS-type Services (Cont'd)(A) Apportionment and Adjustment of Resold Minutes of Use (Cont'd)(2) Terminating Services

The Telephone Company will apportion the resold terminating MTS and/or MTS-type services and terminating minutes of use for which the resale credit adjustment applies, among the access groups. Such apportionment will be based on the relationship of the terminating usage for each access group to the total terminating usage for all access groups in the LATA. For purposes of administering this provision:

Resold terminating MTS and/or MTS-type services minutes shall be only those attributable to intrastate terminating MTS/MTS-type (i.e., collect calls, third number calls, and credit card calls).

The resale credit adjustment shall apply for resold terminating MTS and MTS-type services and minutes of use, provided Carrier Common Line and Switched Access Charges have been assessed on such services.

(B) Direct and Indirect Connections

Each of the access group arrangements used by the IXC in association with the resold MTS and/or MTS-type services must be connected either directly or indirectly to the IXC designated premises at which the resold MTS and/or MTS-type services are terminated. Direct connections are those arrangements where the access groups and resold MTS and/or MTS-type services are terminated at the same IXC designated premises.

Indirect originating connections are those arrangements where the access groups and the resold originating MTS and/or MTS-type services are physically located at different IXC designated premises in the same exchange. Such different IXC designated premises are connected by facilities that permit a call to flow from access groups to resold MTS and/or MTS-type services.

Indirect terminating connections are those arrangements where the access groups and resold terminating MTS and/or MTS-type services are physically located at different IXC designated premises in the same exchange. Such different IXC designated premises are connected by facilities that permit a call to flow from resold terminating MTS and/or MTS-type services to access groups.

INTRASTATE CARRIER COMMON LINE ACCESS SERVICE  
REFERENCE TARIFF

---

6. Resold Services (Cont'd)

(T)

6.4 Rate Regulations Concerning the Resale of MTS and MTS-type Services (Cont'd)(C) Rates

The Premium Access Charge per minute as set forth in the Telephone Company's Intrastate Access Service Tariff will apply. The minutes billed Carrier Common Line Access Service charges will be the adjusted originating intrastate access minutes and the adjusted terminating intrastate access minutes.

The adjusted originating access minutes will be the originating intrastate access minutes less the reported resold originating MTS and/or MTS-type service minutes of use as set forth in (A)(1) preceding; but not less than zero. The adjusted terminating access minutes will be the terminating intrastate access minutes less the reported resold terminating MTS and/or MTS-type service minutes of use as set forth in (A)(2) preceding; but not less than zero.

(D) When the Adjustment Will Be Applied to IXC Bills

The adjustment as set forth in (C) preceding will be made to the involved IXC account no later than either the next bill date, or the one subsequent to that, depending on when the usage report is obtained.

(E) Conversion of Billed Usage to Minutes

When the MTS and/or MTS-type usage is shown in hours, the number of hours shall be multiplied by 60 to develop the associated MTS and/or MTS-type minutes of use. If the MTS and/or MTS-type usage is shown in a unit that does not show hours or minutes, the IXC shall provide a factor to convert the shown units to minutes.

(F) Percent Intrastate Use (PIU)

The adjustment as set forth in (C) preceding will be made to the involved IXC account after making the adjustments to the customer account as set forth in 7.4 following (PIU).

(T)

INTRASTATE CARRIER COMMON LINE ACCESS SERVICE  
REFERENCE TARIFF7. Rate Regulations

(T)

7.1 Billing of Charges

Carrier Common Line charges will be billed to each Switched Access Service provided under this tariff and the Telephone Company's Intrastate Access Service Tariff.

7.2 Measuring and Recording of Call Detail

When access minutes are used to determine Carrier Common Line charges, they will be accumulated using call detail recorded by Telephone Company equipment except as set forth in 7.3 following (Unmeasured FGA and B Usage) and Feature Group C operator and automated operator services systems call detail such as pay telephone sent-paid, operator-DDD, operator-person, collect, credit-card, third number and/or other like calls recorded by the customer. The Telephone Company measuring and recording equipment, except as set forth in 7.3 following (Unmeasured FGA and B Usage), will be associated with end office or local tandem switching equipment and will record each originating and terminating access minute where answer supervision is received. The accumulated access minutes will be summed on a line by line basis, by line group or by end office, whichever type of account is used by the Telephone Company, for each IXC and then rounded to the nearest minute.

7.3 Unmeasured Feature Group A and B Usage

When Carrier Common Line Access is provided in association with Feature Group A or Feature Group B Switched Access Service in Telephone Company offices that are not equipped for measurement capabilities, assumed average intrastate access minutes will be used to determine Carrier Common Line Access charges. These assumed access minutes are as set forth in the exchange carriers' access tariffs.

7.4 Percent Intrastate Use (PIU)

When the IXC reports interstate and intrastate use of in-service Switched Access Service, Carrier Common Line charges will be billed to intrastate Switched Access Service access minutes based on the data reported by the IXC as set forth in Section 2.3.11 of NECA Tariff F.C.C. No. 5 (Jurisdictional Reports), except where the Telephone Company is billing according to actuals by jurisdiction. Intrastate Switched Access Service access minutes will, when necessary, be used to determine Carrier Common Line Charges as set forth in 7.5 following.

(T)

Issued: February 17, 2004

Effective: February 17, 2004

In accordance with the Public Utilities Commission of Ohio  
Order dated February 11, 2004 in Case No. 03-2157-TP-ATA

INTRASTATE CARRIER COMMON LINE ACCESS SERVICE  
REFERENCE TARIFF7. Rate Regulations (Cont'd)7.5 Determination of Premium Charges

After the adjustments as set forth in 7.4 preceding have been applied, when necessary, to Switched Access Service access minutes, charges for the involved IXC account will be determined as follows:

- (A) Access minutes for all premium rated Switched Access Service subject to Carrier Common Line charges will be multiplied by the Premium Access per minute rate as set forth in the Telephone Company's Intrastate Access Service Tariff.
- (B) Access minutes for all FGB Access Services with an Abbreviated Dialing Arrangement (ADA) subject to Carrier Common Line Charges will be multiplied by the Premium Access per minute rate as set forth in the Telephone Company's Intrastate Access Service Tariff.
- (C) Carrier Common Line charges shall not be reduced as set forth in 6.1 preceding unless Switched Access Charges, as set forth in Section 6. of NECA Tariff F.C.C. No. 5, are applied to the IXC's Switched Access Services.

INTRASTATE CARRIER COMMON LINE ACCESS SERVICE  
REFERENCE TARIFF7. Rate Regulations (Cont'd)7.5 Determination of Premium Charges (Cont'd)

## (D) Terminating Premium Access per minute charge(s) apply to:

- all terminating access minutes of use;
  - less those terminating access minutes of use associated with Wireless Switching Centers (WSCs);
- all originating access minutes of use associated with FGA Access Services where the off-hook supervisory signaling is forwarded by the IXC's equipment when the called party answers;
- all originating access minutes of use associated with calls placed to 700, 800 series and 900 numbers, less those originating access minutes of use associated with calls placed to 700, 800 series and 900 numbers for which the IXC furnishes for each month a report of either the number of calls or minutes or a report of the percent of calls or minutes that terminate in a Switched Access Service that is assessed Carrier Common Line charges.

When the IXC makes this report available to the Telephone Company in advance of billing, these minutes of use will be charged on the current bill as originating minutes of use as set forth in (E) following. If a billing dispute arises concerning the IXC provided report, the Telephone Company will request the IXC to provide the data the IXC used to develop the report. The Telephone Company will not request such data more than once a year. The IXC shall supply the data within 30 days of the Telephone Company request.

When this report is not available to the Telephone Company until after billing, it shall be used by the Telephone Company to calculate and post a credit to the IXC's account. The credit shall be posted to the IXC's account within 30 days of receipt of the report. The credit shall be calculated by multiplying the number of access minutes of use, for which a credit is determined to be applicable, times the difference between the terminating and originating Carrier Common Line charges in effect when the calls were completed.

**A. APPLICATION OF TARIFF**

1. This tariff applies to intraLATA Message Toll Telephone service furnished or made available by The Chillicothe Telephone Company, hereinafter, referred to as the Telephone Company and for intraLATA or interLATA Message Toll Telephone Service furnished or to be furnished by other connecting carriers concurring in this tariff. Message Toll Telephone Service includes Message Toll Mobile Telephone Service as defined in section 5 of the tariff.
2. Where reference is made in this tariff to regulations, rates and charges specified in other tariffs of the Telephone Company, such tariffs as they now exist, or as they may be revised, added to or supplemented, are hereby adopted and made a part of this tariff.

**B. REGULATIONS**

1. **Definition**  
Message Toll Telephone Service provides for the furnishing of facilities, other than facilities for exchange service as defined in the General Exchange Tariff and other than facilities for mobile telephone service as defined in the Mobile Telephone Service Tariff, for telephone communication between local service areas, or between a local service area and a mobile service area, or between two mobile service areas, in accordance with the regulations and system of charges specified in this tariff.
2. **Abuse or Fraudulent Use of Service**  
See Section 2 of General Exchange Tariff
3. **Advance Payments**  
See Section 2 of General Exchange Tariff
4. **Authorized Attachments or Connections**
  - a. Customer-provided equipment and facilities may be attached to or connected with facilities furnished by the Telephone Company for message toll service, subject to the provisions of Section 4 of Exchange and Network Services Tariff.
  - b. Where customer-provided equipment or facilities are involved in the transmission or reception, or both, of a toll call, the regulations and rates for each call are those applicable for message toll telephone customer-dialed, operator-handled or conference service, according to the connection established, as set forth in this tariff.
5. **Construction Charges**  
See Section 8 of General Exchange Tariff

Issued: July 27, 1989

Effective: August 1, 1989

In accordance with the Finding and Order in case No. 83-464-TP-COI, (Subfile C), issued by The Public Utilities Commission of Ohio, July 18, 1989

GENERAL REGULATIONS

B. Regulations (cont'd.)

10. Local Service Area  
See Section 1 of General Exchange Tariff.
11. Mobile Service Area  
See Mobile Telephone Service Tariff.
12. Obligation of Customer
  - a. The calling party shall establish his identity as often as may be necessary in the course of any communication.
  - b. The calling party shall be solely responsible for knowing the identity of the person or persons with whom connection is made at the called station or stations.
13. Payment for Service  
See Section 2 of General Exchange Tariff.
14. Priority of Service  
In case a shortage of facilities exists at any time, either for temporary or protracted periods, the establishment of local and message toll telephone service shall take precedence over all other services, except as the public interest shall otherwise require.
15. Transfer of Toll Charge Service
  - a. Regulations
    - (1) Transfer of toll charge service provides an arrangement in connection with message toll telephone service whereby a customer's patrons have the privilege of calling him without the payment of a charge for a message toll call and without having to request specific reversal of this charge.
    - (2) This service is available only to customers having PBX service, Centrex service, or non-residence or residence individual line service, except Payphone Service.
    - (3) A customer selects the exchanges in which he desires such service to be furnished, subject to the approval of the Telephone Company. Each exchange selected includes all of the other Telephone Company exchanges within its local service area. The Telephone Company assigns and lists in the alphabetical directory serving the local service area of each of the selected exchanges, a special telephone number designation for the use of patrons.

---

B. REGULATIONS (Cont'd)

15. Transfer of Toll Charge Service (Cont'd)

a. Regulations

(4) Calls for the special number are accepted only when originating at telephones located in the exchanges with which the special telephone number is associated, and only those toll calls placed by calling this special number are considered as coming within the scope of the service.

(5) The customer assumes the message toll charges for all calls made to such special number.

b. Rates and Charges

(1) The customer to this service is charged the sent-paid operator handled rate for each completed call.

(2) Additional rates and charges applicable to transfer of toll charge appear in Section 18 of the General Exchange Tariff.

(3) Service in Exchanges of Other Telephone Companies

When transfer of toll charge service is requested in an exchange of another telephone company, the regulations, rates and charges applicable for such service under the tariff of the other telephone company apply.

16. Transmitting Messages

See Section 2 of General Exchange Tariff.

17. Broadcast of Recordings of Telephone Conversations

See Section 2 of General Exchange Tariff.

18. Interconnection with Miscellaneous Common Carriers

Message toll telephone service to and from mobile stations of a Miscellaneous Common Carrier (MCC), with whom the Telephone Company has made arrangements for the interchange of telephone traffic, is available at the rates set forth for two-point service in this tariff.

GENERAL REGULATIONS

B. REGULATIONS (Cont'd)

19. Emergency Calls Offered at NO Charge

Message toll telephone calls, to governmental emergency service agencies as set forth in a. following, having primary or principal responsibility with respect to the provision of emergency services to persons and property in the area from which the call is made, meeting the definition and criteria of an emergency call as set forth in b. following, are offered at no charge to customers for an experimental period to expire on January; 1, 1986.

a. The Ohio State Highway Patrol and other governmental fire fighting, police (C) and emergency squad service (as designated by the appropriate governmental agency) qualify as governmental emergency service agencies provided they answer emergency service calls on a personally attended (live) twenty-four (24) hour basis, 365 days a year, including holidays.

b. An emergency is an occurrence or set of circumstances in which conditions pose immediate threat to human life and/or property and necessitate that prompt action be taken. An emergency call is an originated call of short duration to a governmental emergency service agency in order to seek assistance for such an emergency.

20. Use of Service

The Telephone Company will permit resale or sharing of message toll telephone service (excluding optional off-peak toll service) under the terms and regulations of Section 12 of the General Exchange Tariff and subject to the provisions of this tariff.

21. Maximum Level Pricing

a. For certain items offered under the provision of this tariff the rates and charges are identified as maximum level only. If the applicable rates and charges are below the maximum level, a pricing list setting forth such rates and charges will be furnished to the Public Utilities Commission of Ohio by the Telephone Company.

b. Not less than seven days prior to the Effective date of any changes in the rates and charges for such items, the Telephone Company will furnish to the PUCO a new list reflecting such changed rates and charges. Any change to a rate or charge below the maximum level shall not be construed as an application to increase rates.

c. The provisions of this paragraph 21 apply to the following.

Two Point Service

Issued: November 2, 1990

Effective: July 1, 1989

GENERAL REGULATION

---

B. REGULATIONS (Cont'd)

22. Minimum Level Pricing

- a. For certain items offered under the provisions of this tariff the rates and charges are identified as a minimum level only. The maximum level of such rates and charges is two times the minimum level. The present applicable rates and charges which may be anywhere within the range of the minimum and the maximum levels are covered in a pricing list furnished to the Public Utilities Commission of Ohio (PUCO) by the Telephone Company.
- b. Not less than seven days prior to the Effective: date of any changes in the rates and charges for such items, the Telephone Company will furnish to the PUCO a new list reflecting such changed rates and charges. Any change to a rate or charge below the maximum level shall not be construed as an application to increase rates.
- c. The provisions of this paragraph 22 apply to the following:

---

Issued: July 27, 1989

TWO POINT AND OPTIONAL CALLING PLANS

(T)

A. TWO POINT SERVICE

1. Definition

Two point service is that of furnishing toll connections between two main stations or PBX trunk lines, or a combination thereof.

2. Classes of Service

- a. Two classes of two point service are offered, namely, customer dialed service and operator handled service. Operator handled service is offered for station-to-station calls and person-to-person calls as described in A-4 following.

b. Rates Applicable on Certain Holidays

On Christmas Day (December 25), New Year's Day (January 1), Independence Day (July 4), Thanksgiving Day and Labor Day, the rate applicable is the Evening rate, unless a lower rate would normally apply.

3. Customer-Dialed Service is that service where the person originating the call, dials the telephone number desired without the assistance of the Telephone Company operator the telephone number of the desired telephone, private branch exchange system, or private branch exchanges station which is reached directly rather than through a private branch exchange attendant; or gives the telephone number assigned to the MCC (Miscellaneous Common Carrier) for interconnected service.
4. Operator-Handled Service is that service requested of a telephone company operator, by the person originating a call, which is in addition to the customer-dialed service specified in A-3 preceding.
- a. Station-to-Station calls are those calls where the person originating the call specifies to a Telephone Company operator a particular telephone number to be reached.

TWO POINT AND OPTIONAL CALLING PLANS (cont'd.)

A. TWO POINT SERVICE (cont'd.)

- b. Person-to-Person calls are those calls where the person originating the call specifies to a Telephone Company operator a particular person to be reached, a particular mobile station to be reached through a MCC operator, or a particular station, department or office to be reached through a private branch exchange attendant.
- (1) When, after the telephone, MCC operator, or private branch exchange system called has been reached and while the connection remains established, the person originating the call requests or agrees to talk to any person other than the person specified, or to any other person or mobile station to be reached through a MCC, or to any other station, department or office to be reached through a private branch exchange attendant, the call is charged for as person-to-person.
  - (2) Where the person originating the call wishes arrangements made in advance with a particular party or station for the establishment of a connection at a specified time (appointment call), the call is charged for as person-to-person.
  - (3) When at the request of the calling party the Telephone Company uses a messenger or other means to bring the called party to a telephone (messenger call), the call is charged for as person-to-person, and in addition to the charges for the message, a charge is made for the exact amount expended, if any, for messenger service.

5. Collect Call (Reversed Charge), Bill to a Third Telephone Number or Calling Card

- a. Subject to the provisions in A-6 following, station-to-station and person-to-person calls (including messenger charges, if applicable) may, upon request, be:
- (1) Collect, i.e., charges against the called telephone number provided the charges are accepted at the called telephone number, and complete to other than pay telephones; (T)
  - (2) Billed to a third telephone number, i.e., charges to an authorized station, as determined by the Telephone Company, other than the station originating the call or the station where the call is terminated;
  - (3) Calling Card, i.e., calls placed using a billing arrangement by which a call may be charged to an authorized Telephone Company calling card number.

TWO POINT AND OPTIONAL CALLING PLANS (cont'd.)

(T)

A. TWO POINT SERVICE (cont'd.)

6. Initial Minute, Additional Minutes, Service Charges and Discounts

- a. Two point message toll service rates are quoted in terms of initial minute, additional minutes and service charges in the Schedule of Rates in A-10 following.

(1) Initial Minute

Initial minute rates are for connections of one minute or any fraction thereof.

(2) Additional Minutes

Additional minute rates are for each additional minute or any fraction thereof that the connection continues beyond the initial minute.

(3) Customer Dialed Station-to-Station

Only initial minute and additional minute rates apply.

(4) Automated Calling Card Station-to-Station, Customer Dialed-Operator Assisted Calling Card Station-to-Station, Operator handled Station-to-Station and Person-to-Person.

Initial minute and additional minute rates apply in addition to a service charge.

b. Service Charge

A service charge applies to each automated calling card station-to-station and customer dialed-operator assisted-calling card station-to-station call and to each operator handled station-to-station and person-to-person call. This charge is added to the initial minute and additional minute charges. Discounts do not apply to the service charge.

- c. Discounts for the Evening and Night & Weekend reduced rate periods in the Schedule of Rates are expressed as a percent reduction of the charge calculated at the rates for initial minute and additional minutes and are applied to that portion of the messages occurring within the rate discount periods stated in the Schedule of Rates.

- (1) For all classes of service the discount is applied only to the sum of the initial minute and additional minute charges. The discount is computed separately for charges in each rate period and the results are then totaled.

- (2) When application of the discount results in a fractional charge, the amount will be rounded down to the lower cent.

Effective: February 19, 1998

---

TWO POINT AND OPTIONAL CALLING PLANS (cont'd.)

(T)

A. TWO POINT SERVICE (cont'd.)

7. Timing of Messages

- a. With respect to customer-dialed, automated calling card station-to-station, customer-dialed operator assisted and operator-handled station-to-station calls, a message is considered as starting at the time telephone communication is established between the calling station and the called telephone number, MCC operator, PBX system, or PBX station reached directly rather than through a PBX attendant.
- b. With respect to operator-handled person-to-person calls, a message is considered as starting at the time telephone communication is established between the person calling and (1) the particular person called, (2) another party acceptable to the person calling, (3) the PBX station reached through a PBX attendant, or (4) the particular MCC mobile station called, or another MCC mobile station acceptable to the calling party.
- c. Chargeable time ends when the calling station "hangs up" thereby releasing the network connection. If the called station "hangs up" but the calling station does not, chargeable time ends when the network connection is released either by automatic timing equipment in the telephone network or by the Telephone Company operator.
- d. Chargeable time does not include time lost because of faults or defects in the service.

8. Time of Day

- a. The time legally or commonly in use at the rate center of the calling station determines the rate period for customer-dialed calls.
- b. In cases where a message begins in one rate period and ends in another, the discount is computed in accordance with A-6-c preceding.

Effective: February 19, 1998

Issued by Thomas McKell, President  
In accordance with the Public Utilities Commission of Ohio  
Order dated January 15, 1998 in Case No. 97-573-TP-ATA

TARIFF P.U.C.O. NO. 6  
MESSAGE TOLL TELEPHONE SERVICE TARIFF

TWO POINT AND OPTIONAL CALLING PLANS (cont'd.)

(T)

A. TWO POINT SERVICE (cont'd.)

9. Method of Applying Rates

- a. Two point message toll telephone service rates between points are based on the rate distance between rate centers.
- b. Message toll telephone service rates between points in Ohio are based on the airline distance between rate centers.
- c. The rate centers and central offices for the State of Ohio are arranged alphabetically by rate center and numerically by central office in Section 4.

Under the list of rate centers the columns headed "V and H" contain the vertical and horizontal coordinates for each rate center.

- d. For the purpose of determining airline mileage, vertical and horizontal grid lines have been established across the State of Ohio. The spacing between adjacent vertical grid lines and between horizontal grid lines represents a distance of one coordinate unit. This unit is the square root of 0.1, expressed in statute miles. A vertical (V) and a horizontal (H) coordinate is computed for each rate center from its latitude and longitude location by use of appropriate map projection equations. A pair of V-H coordinates locates a rate center, for determining airline mileage, at a particular intersection of an established vertical grid line with an established horizontal grid line. The distance between any two rate centers is the airline mileage computed as explained in Section 3, Determination of Toll Rate Distances between Points within the State of Ohio.

10. Schedule of Rates (cont'd.)

c. Rate Centers of Miscellaneous Common Carrier Mobile Stations

The rate center of mobile stations served by a MCC, with whom the Telephone Company has made arrangements for the interchange of telephone traffic, is the wire telephone rate center of the Telephone Company exchange in which is located the point of connection of the system of the particular MCC, used by the mobile station on the particular toll message, with the system of the Telephone Company.

d. Messages Placed by Hearing and/or Speech Impaired Persons

- (1) For purposes of this tariff, the definition of impaired refers to those persons with communication impairments, including those hearing impaired, deaf, deaf/blind, or speech impaired persons who have an impairment that prevents them from communicating over the telephone without the aid of a telecommunications device for the deaf.
- (2) Residential impaired customers or impaired members of a customer's household, upon written application and upon certification of their impaired status, which is evidenced by either a certificate from a physician, health care official, or state agency, or a diploma from an accredited educational institution for the impaired, are eligible to receive a discount off their message toll service rates, and, if they utilize telebraille devices, they are eligible to receive free access to local and intrastate long distance directory assistance. Additionally, TDD lines maintained by nonprofit organizations and governmental agencies, upon written application and verification that such lines are maintained for the benefit of the impaired, are eligible to receive a discount off their message toll service rates.

(3) Rate Discounts

Upon receipt of the appropriate application, and certification or verification, the following discounts off basic message toll service shall be made available for the benefit of the impaired: the evening discount off the intrastate, interexchange, customer-dialed, station-to-station calls occurring between 8:00 a.m. and 4:59 p.m. Monday through Friday; and the night/weekend discount off the intrastate, interexchange, customer-dialed, station-to-station calls occurring between 5:00 p.m. and 10:59 p.m. Sunday through Friday, and on New Year's Day, Independence Day, Labor Day, Thanksgiving, and Christmas. Furthermore, the night/weekend discount plus an additional discount equivalent to no less than ten percent of the Company's current, price list, day rates for basic message toll service shall be made available for intrastate, interexchange, customer-dialed, station-to-station calls occurring between 11:00 p.m. and 7:59 a.m. any day, 8:00 a.m. and 4:59 p.m. Sunday, and all day Saturday.

(4) Message Toll Calls Placed Through the Telephone Relay Service (TRS)

All message toll service calls placed through the Telephone Relay Service (TRS) are eligible to receive a discount off the message toll service rates. The rate discounts are the same as those set forth in paragraph 3 preceding. The discount shall not apply to sponsor charges associated with calls placed to pay-per-call services, such as 900, 976, or 900-Like services.

TWO POINT AND OPTIONAL CALLING PLANS (cont'd.)

B. OPTIONAL CALLING PLANS

1. Definition

CHILLICOTHE TELEPHONE INTRALATA TOLL PLAN (ITP) is an optional toll plan offered to exchanges within the Chillicothe Telephone basic calling area. The regulations and rates contained herein are in addition to any other applicable regulations and rates specified in this and other Company tariffs.

(C)

2. Existing Downtown and Metro Plan customers have the option of migrating to the new Columbus LATA Plan option at no charge or discontinuing their existing plan. Customers subscribing to more than one line can choose an ITP option per line.

3. CHILLICOTHE TELEPHONE INTRALATA TOLL PLAN consists of the following options:

- a. COLUMBUS LATA PLAN - Provides flat rate originating calling to all exchanges in the Columbus LATA (614/740 NPA). This plan provides for a maximum monthly usage of 800 minutes with additional minutes billed on a per minute of use (MOU) basis.

(D)

(D)

(C)

4. CHILLICOTHE TELEPHONE INTRALATA TOLL PLAN will not be offered to the following classes of service: Payphone Service.

TARIFF P.U.C.O. NO. 6  
MESSAGE TOLL TELEPHONE SERVICE TARIFF

---

TWO POINT AND OPTIONAL CALLING PLANS (cont'd.)

B. OPTIONAL CALLING PLANS (cont'd.)

5. Calls made within the Columbus LATA must be dialed by the customer on a station-to-station sent-paid basis without operator assistance. Operator assisted (0+/0-) calls are excluded from the CHILLICOTHE TELEPHONE INTRALATA TOLL PLAN and will be rated at appropriate rates. (C)
6. Call Detail billing is provided to customers of the CHILLICOTHE TELEPHONE INTRALATA TOLL PLAN. Call Detail includes: date of call, telephone number called, time of call and number of minutes.
7. Rates and Charges
  - a. The Monthly Minutes Allowed (MMA) package options and rates for the CHILLICOTHE TELEPHONE INTRALATA TOLL PLAN are those set forth in B.8. following. (C)
  - b. The MMA is a maximum usage level that a customer reaches per month, per account. If the total CHILLICOTHE TELEPHONE INTRALATA TOLL PLAN charges are below the MMA in any given month, the full amount of the applicable MMA will apply. Any minutes over the maximum usage level will be billed as additional minutes of use (MOU). (C)
  - c. CHILLICOTHE TELEPHONE INTRALATA TOLL PLAN usage is billed in one (1) minute increments.
  - d. Timing of each call begins when the called party answers or when the caller is connected to automatic answering recording equipment.
  - e. The CHILLICOTHE TELEPHONE INTRALATA TOLL PLAN rates are not time sensitive. The Plan applies to calls originated during all time-of-day and day-of-week rate periods.
  - f. An Implementation Fee (IF) will be charged to those customers subscribing to the CHILLICOTHE TELEPHONE INTRALATA TOLL PLAN or changing between ITP options. An IF will not apply when discontinuing an ITP. The IF rate may be discounted for special promotions.
  - g. To subscribe to the CHILLICOTHE TELEPHONE INTRALATA TOLL PLAN, customers must have Chillicothe Telephone as their IntraLATA carrier. (C)

EXTENDED LOCAL CALLING SERVICE PLAN

1. EXTENDED LOCAL CALLING SERVICE PLAN  
1.01. DESCRIPTION

N

Extended Local Calling Service Plan (ELCSP) is a usage sensitive rate service provided between specific intrastate exchanges. This service is provided in lieu of new extended area service between specific exchanges of the Telephone Company and to exchanges of other telephone companies when ordered by the Public Utilities Commission of Ohio (PUCO) in an Extended Area Service complaint case. All Extended Area Service existing prior to the establishment of Extended Local Calling Service Plan will continue in its present form unless discontinued by Order of the PUCO.

Extended Local Calling Service Plan ordered by the PUCO will be available to all customers.

This service is restricted to customer dialed station-to-station calls charged to the calling station and does not apply to operator assisted calls.

DETERMINATION OF TOLL RATE DISTANCES BETWEEN POINTS WITHIN THE STATE OF OHIO

To determine the rate distance between any two rate centers proceed as follows:

- Step 1. Obtain the "V" and "H" coordinates for each rate center.
- Step 2. Obtain the difference between the "V" coordinates of the two rate centers.  
Obtain the difference between the "H" coordinates.

NOTE: The difference is always obtained by subtracting the smaller coordinate from the larger coordinate.

- Step 3. Divide each of the differences obtained in Step 2 by three, rounding each quotient to the nearer integer.
- Step 4. Square these two integers and add the two squares.  
If the sum of the squares is greater than 1777, divide the integers obtained in Step 3 by three and repeat Step 4. Repeat this process until the sum of the squares obtained in Step 4 is less than 1778.
- Step 5. The number of successive divisions by three in Steps 3 and 4 determines the value of "N". Multiply the final sum of the two squares obtained in Step 4 by the multiplier specified in the following table for this value of "N" preceding.

<u>N</u>	<u>Multiplier</u>	<u>Minimum Rate Mileage</u>
1	0.9	-
2	8.1	41
3	72.9	121
4	656.1	361

- Step 6. Obtain square root of product in Step 5 and, with any resulting fraction, round up to next higher integer. This is the message rate mileage except that when the mileage so obtained is less than the minimum rate mileage shown in Step 5 preceding, the minimum rate mileage corresponding to the "N" value is applicable.

Issued: July 27, 1989

Effective: August 1, 1989

In accordance with the Finding and Order in case No. 83-464-TP-COI, (Subfile C), issued by The Public Utilities Commission of Ohio July 18, 1989

By Thomas McKell, President, Chillicothe, Ohio

P.U.C.O. No.6  
MESSAGE TOLL TELEPHONE SERVICE TARIFF

Original Page 2

DETERMINATION OF TOLL RATE DISTANCES BETWEEN POINTS WITHIN THE STATE OF OHIO

Step 6. (Cont'd)

Example:

The message rate distance is required between Toledo and Marietta.

- |   | <u>V</u>   | <u>H</u>      |
|---|--|---------------|
| a. Toledo   | 5704   | 2820          |
| Marietta  | <u>5938</u>  | <u>2270</u>   |
| b. difference   | 234  | 550           |
| c. (1) dividing each difference by three and rounding to nearer integer = 78 and 183  |  |               |
| d. (1) squaring integers and adding,  | 78 x 78 =  | 6,084         |
|   | 183 x 183 =  | <u>33,489</u> |
|   | sum of squared integers  |               |
|   |  | 39,573        |
|   | sum of squared integers is greater than 1777, so divide integers in c.(1) by three and repeat d.(1). |               |
| c. (2) dividing integers in c.(1) by three and rounding = 26 and 61.  |  |               |
| d. (2) squaring integers and adding,  | 26 x 26 =  | 676           |
|   | 61 x 61 =  | <u>3,721</u>  |
|   | sum of squared integers  |               |
|   |  | 4,397         |
|   | sum of squared integers is greater than 1777, so divide integers in c.(2) by three and repeat d.(2)  |               |
| c. (3) dividing integers in c.(2) by three and rounding = 9 and 20  |  |               |
| d. (3) squaring integers and adding,  | 9 x 9 =  | 81            |
|   | 20 x 20 =  | <u>400</u>    |
|   | sum of squared integers  |               |
|   |  | 481           |
| This sum of squared integers is less than 1778 and was obtained after three successive divisions by three, therefore "N" = 3.   |  |               |
| e. Multiply final sum of squared integers by factor 72.9 (corresponding to "N" = 3).  |  |               |
|   | 481  |               |
|   | X <u>72.9</u>  |               |
|   | =  | 35,064.9      |
| f. Square root of 35,064.9 = 187 and a fraction, which is rounded up to 188 miles fractional miles being considered full miles). The 188 miles is larger than the minimum 121 rate miles applicable when "N" = 3, so the message rate mileage is 188 miles. |  |               |

**MOBILE TELEPHONE SERVICE**

**A. REGULATIONS**

**1. General**

- a. Message Toll Mobile Telephone Service is a communication service through a base station between a mobile unit and a wire telephone located outside the mobile service area associated with such base station, or between two mobile units served through base stations having different rate centers.
  - b. Message Toll Mobile Telephone Service also includes service through a base station between a wire telephone or a mobile unit, and another unit which is authorized by the Federal Communications Commission to communicate with the base station, or between two such other units.
  - c. In the application of regulations and rates, units other than mobile units which are authorized by the Federal Communications Commission to communicate with a base station are considered as mobile units.
  - d. Message Toll Mobile Telephone Service is available to mobile units when within range of a base station through which such service is furnished, and subject to transmission, atmospheric and like limitations.
  - e. Call may be filed either to a specified person or to a specified telephone.
2. Message toll mobile telephone is available through the base stations of the mobile service areas where the Telephone Company has arranged its facilities for such service.

DIRECTORY LISTINGS AND SERVICES

DIRECTORY ASSISTANCE SERVICE

A. Regulations

1. The Telephone Company will offer Directory Assistance Service on an interim basis, subject to P.U.C.O. alteration or cancellation.
2. The regulations and rates set forth in this paragraph A apply to calls placed to directory assistance for the purpose of obtaining telephone numbers of services located outside the local service area but within the same numbering plan area. The number of such telephone numbers furnished on each call shall be limited to two.

(a) A numbering plan area, as set forth above, is the territory which shares a common area code.

3. Except as otherwise specified in (3)-(d) below, the following are not subject to the regulations and rates set forth in A-1 and 2, preceding.

(a) Services furnished to hospitals and skilled nursing homes.  
For the purpose of this paragraph, the term "skilled nursing homes" applies to those nursing homes that provide around-the-clock professional nursing care.

(b) Payphone Service.  
(Directory Assistance charges to end users at payphones are deregulated after 10/7/97.)

(c) Services furnished to the handicapped.

- (1) One residence service designated by a handicapped person who is unable to use a directory due to a visual or other physical handicap. Such person must make application to the Telephone Company for exemption and will be required to provide suitable proof of handicap. Such application shall be established by the following procedures:

A letter to the Telephone Company from a professional familiar with the person's visual or physical impairment stating that the person qualifies for the exemption; or

The filling out of a prepared form made available by the Telephone Company by a professional familiar with the person's visual or physical impairment.

- (2) Exemption may be extended to one non-residence service, in lieu of a residence service where the handicapped person subscribes only to non-residence service which is located in the residence of said person.

Issued: March 13, 1998

Effective: March 13, 1998

3. (cont'd.)

(c) Services furnished to the handicapped. (cont'd.)

(3) In addition to the exemption provided in (a) above, exemption also may be extended to any telephone service used by the handicapped person when he is away from his residence. Such exemption is provided by means of special arrangements which must be made in advance with the Telephone Company. This exemption provides for the first 100 calls per month at no charge. Each additional call per month is charged for at the rate set forth in A-2-a(2) following.

(4) For the purpose of this paragraph, a visual handicap may be defined as follows:

Visual acuity of 20/60 or worse with best refractive correction with best eye, or

Visual field of 20° or less in diameter.

GENERAL REGULATIONS

A. Application of Tariff

1. This tariff applies to mobile-telephone service furnished by the Telephone Company, or furnished jointly with other carriers, in the area of its availability, as set forth in PC, below.
2. Where reference, if any, is made in this tariff to regulations, rates and charges set forth in other tariffs of the Telephone Company, the same as they now exist, or as they may be revised, added to, or supplemented, are incorporated in this tariff.

B. Definitions

1. "Mobile-telephone service" is a communication service through a base station between a wire telephone and a mobile unit or between two mobile units. The term also includes one-way signaling service to a person on land equipped with a suitable pocket receiver.
2. A "base station" is a radiotelephone station in a fixed location, equipped and operated to carry on radiotelephone communications with suitably equipped land mobile units. A base station has circuit connections with a telephone central office of the Telephone Company over which communications to and from mobile units may be transmitted.
3. A "mobile unit" is an automobile, truck, bus, taxicab, locomotive, or other vehicle capable of moving or being moved over roads or rails, or a boat or an airplane, and which is or may be equipped with radiotelephone apparatus suitable for carrying on radiotelephone communications with a base station.
4. "Dial-equipped and -actuated radiotelephone apparatus" shall include such apparatus employing either a rotary dial or a bank of push-buttons performing the same function as a rotary dial.
5. "Telephone Company," as used herein, refers to The Chillicothe Telephone Company.

---

GENERAL REGULATIONS

---

C. Availability of Service

Mobile-telephone service is available to mobile units and persons equipped for this service when within range of the Telephone Company's base station through which such service is furnished. The area of such availability, subject to the following, is shown generally on the map at Preface, Original Sheet No. 4, hereof. Its availability is subject to transmission, atmospheric, and like limitations, and also to limitations, cancellations, and denials of licenses of the Telephone Company's base stations by the Federal Communications Commission.

D. Provision, Installation, and Maintenance of Equipment

1. The radio equipment on the mobile unit may be provided either by the Telephone Company on deregulated basis or by the customer, as the customer desires. In either case it shall be dial-actuated only, and shall be suitable for the proper operation of the service. (See F-4, below.) (T)

2. (D)

(D)

E. Undertaking of the Telephone Company

1. The Telephone Company's obligation to furnish service, in whole or in part, is dependent upon its ability to secure and retain suitable facilities and rights for the construction and maintenance of the necessary circuits and equipment and licenses to operate radio transmitters, and is dependent upon the limitations on the use of such facilities and equipment as established by the Communications Act of 1934, as amended, and the Federal Communications Commission.
2. Except as provided in Section 20 of the Telephone Company's General Exchange Tariff, PUCO No. 12, the Telephone Company does not undertake to transmit and report messages, but offers the use of its facilities for direct telephonic communications by or between its customers or for signaling them. The Telephone Company, however, may in its discretion undertake to transmit messages on a limited basis at no charge to its mobile-telephone service subscribers.

---

Issued November 30, 1984

Effective January 1, 1985

Issued by ROBERT McKELL, President

The Public Utilities Commission of Ohio

MOBILE-TELEPHONE SERVICE TARIFF

---

GENERAL REGULATIONS

**F. Obligation of Subscriber and Calling Party**

1. Both the calling party and the called party shall establish his identity in the course of any communication as often as may be necessary.
2. In the case of person-to-person toll-message calls, the calling party shall be responsible for establishing the identity of the person or persons with whom connection is made at the called station.
3. The subscriber's use of the radio transmitter on the mobile unit shall at all times be subject to the control of the operator at the base station of the Telephone Company.
4. The subscriber is required to furnish, install, and maintain upon his mobile unit the selective-signaling equipment (see Note, below ); storage battery; power-supply cables; charging equipment; and noise suppressors.

Note: Whenever the Telephone Company uses selective signaling equipment at its base station, the mobile unit must be properly equipped to receive the call signals.

**G. Limited Conversation**

Each conversation shall be limited to five minutes' duration. The Telephone Company reserves the right in its discretion further to limit the length of conversation when necessary in times of emergency resulting in a shortage of facilities or when necessary to make the requisite facilities available for the use of other subscribers.

**H. Liability of Telephone Company**

Because the subscriber has control of his communications over the facilities furnished by the Telephone Company and of the other uses for which facilities may be furnished him by the Telephone Company, and because of the unavailability of errors incident to the services and to the use of such facilities, the Telephone Company's obligations are subject to the terms, conditions, and limitations herein specified. (See, also, P P, below in this Section 1.)

MOBILE-TELEPHONE SERVICE TARIFF

---

GENERAL REGULATIONS

H. Liability of Telephone Company (Cont'd)

In the event of an interruption in the service, which is not due to the negligence or willful act of the subscriber, nor to the failure or inadequacy of any equipment furnished by the subscriber, there will be allowed a pro rata adjustment of the monthly rates involved, for the service and facilities rendered useless by reason of the interruption, during the time said interruption continues in excess of twenty-four hours from the time it is reported to or detected by the Telephone Company.

The liability of the Telephone Company for damages arising out of mistakes, omissions, interruptions, delays, or errors or defects in transmission of direct telephone communications by or between its subscribers, or for signaling them, occurring in the course of furnishing service or facilities and not caused by the negligence of the subscriber, or of the Telephone Company in failing to maintain proper standards of maintenance and operation and to exercise reasonable supervision, shall in no event exceed an amount equivalent to the proportionate charge to the subscriber for the period of service during which such mistake, omission, interruption, delay, or error or defect in transmission occurs.

The sender and recipient of every message transmitted and reported by the Telephone Company, by his or his agent's act in transmitting or routing the message via the Telephone Company and its facilities or the receipt of it thereby, agrees with the Telephone Company that the value of such message is not in excess of five hundred dollars, and the Telephone Company's charges are fixed in consideration of such limitation and agreement. Therefore, and also because each such message must be transmitted vocally by at least one person, and must be received aurally by at least one person, with attendant difficulty or impossibility of fixing responsibility and of preventing errors and misunderstandings, the Company shall not be liable to any person for damages arising out of mistakes or delays in the transmission, forwarding, delivery or nondelivery of such messages beyond the sum of five hundred dollars.

The Company shall not be liable for any loss or damage due to errors in the transmission, forwarding, delivery, or reporting of cipher, code, data, or obscure messages.

P.U.C.O. No. 10  
MOBILE-TELEPHONE SERVICE TARIFF

---

GENERAL REGULATIONS

H. Liability of Telephone Company (Con't)

The Telephone Company is not liable for damages for any accident or injury occasioned by the land mobile unit or by radiotelephone equipment installed in or upon it provided in connection therewith when such accident or injury is not due to the negligence of the Telephone Company.

When the facilities of other telephone companies are used in establishing connections to points not reached by the Telephone Company's lines, the Telephone Company is not liable for any act or omission of the other company or companies.

I. Advance Payments

1. Applicants for service who have no account with the Telephone Company or whose financial responsibility is not a matter of general knowledge or acceptance, may be required to make an advance payment at the time the application is signed, equal to one month's charges for the service to be provided plus any applicable non-recurring charges.
2. The amount of the advance payment is credited to the subscriber's account on the first bill rendered under the contract.

J. Payment of Service

The subscriber is required to pay all charges for service in accordance with the Telephone Company's regular billing and collection practices.

K. Deposits

The Telephone Company will extend credit to present customers or to new applicants for service, or it may require deposits from such new or present customers for residential service in full accordance with Administrative Order No. 210 as issued by the Public Utilities Commission of Ohio. Business customers, old or new, will be required to make deposits as guarantee of payment or may be extended credit in accordance with the spirit and intent of that order of the Commission.

MOBILE-TELEPHONE SERVICE TARAFF

---

GENERAL REGULATIONS

L. Initial Contract Period and Termination of Service by Subscriber

The initial contract period for mobile-telephone service, and for each feature of such service to which a separate monthly rate applies, is three months. If the subscriber elects to terminate the service or any such feature in less than three months, he shall immediately pay the rates for the remainder of the applicable three-month period or periods.

M. Use of Service and Facilities

Except as provided in the next paragraph, the service is intended only for communications in which the subscriber has a direct interest. The service shall not be used for any purpose for which a payment or other compensation shall be received by the subscriber from any other person, firm, or corporation for such use, or in the collection, transmission, or delivery of any communication for others.

Service is furnished to railroads and bus companies for use by passengers as well as the subscriber when the trains or buses are equipped for this service, upon the condition that use of the service by passengers shall not be made subject to any charge in addition to the message-unit charges set forth in this tariff.

N. Contracts for Service

An application or request for service or for any additional service or service feature becomes a contract, subject to all provisions of this tariff, when the Telephone Company first delivers to the applicant, or commences the installation of, any item of equipment required to serve him.

GENERAL REGULATIONS

O. Assignment of Service Contract

A subscriber may assign his contract for service, provided there is no interruption of the service and no relocation of any of the facilities involved in rendering it. Such an assignment is subject to the right of the Telephone Company to require the assignee to comply with PPI, J, and K, above, and may be to:

1. An individual, partnership, association, or corporation, provided the assignee assumes all of the subscriber's outstanding indebtedness to the Telephone Company for the services rendered to him and all his obligations under the service contract assigned (including any initial-contract-period obligations).
2. A receiver, trustee, or other person appointed by a court or acting pursuant to law in bankruptcy, receivership, reorganization, insolvency, liquidation or other similar proceedings with respect to the subscriber, provided the assignee assumes the unexpired portion of the initial-contract-period obligations, if any, under the contract.

P. Directory Errors and Omissions

The Telephone Company's liability arising from errors in or omissions of directory listings shall be limited to and satisfied by a refund or credit not exceeding the amount of the fixed charges for the service during the period covered by the directory in which the error or omission occurs.

Q. Denial and Restoration of Service.

1. In the event of abandonment by the subscriber of equipment provided by the Telephone Company; the nonpayment of any sum due; the use of foul or profane expressions; the impersonation of another with fraudulent intent; or the violation of the lawful regulations of the Telephone Company, of the Communications Act of 1934, as amended, or of the rules and regulations of the Federal Communications Commission; the Telephone Company may temporarily deny service, or may terminate the service, at one or more or at all locations where the subscriber receives service from the Telephone Company.
2. When a subscriber has been notified that his service will be temporarily denied for nonpayment of any sum due in accordance with the preceding paragraph, but discontinuation of the service has not been

completed, such denial of service will be rescinded upon the payment of all charges due, plus a fee of \$11.40.

(I)

3. Upon the use by a customer of the service for the purpose of performing any service in competition with any service which the Telephone Company may now or hereafter furnish, the Telephone Company may, by notice in writing to the customer, without incurring any liability, forthwith discontinue the furnishing of said service and terminate the contract.

(T)

(T)

R. Authorized Attachments and Connections

Customer-provided equipment and facilities may be attached to or connected with facilities furnished by the Telephone Company, subject to the provisions set forth in Section 16 of P.U.C.O No. 12, General Exchange Tariff.

(T)

S. Miscellaneous Devices Provided by the Subscriber

The provisions of R above, shall not be construed or applied to bar a customer from using devices which serve his convenience in his use of the facilities of the Telephone Company in the service for which they are furnished under this tariff, provided any such device so used would not endanger the safety of Telephone Company employees or the public; damage, require change in or alteration of, or involve direct electrical connection to, the equipment or other facilities of the Telephone Company; or interfere with the proper functioning of such equipment or facilities; or impair the operation of the telephone system or otherwise injure the public in its use of the Telephone Company's services.

(T)

Except as otherwise provided in this tariff, nothing herein shall be construed to permit the use of a device for the recording of two-way.

GENERAL REGULATIONS

S. Miscellaneous Devices Provided by the Subscriber (Concl'd)

telephone conversations, or of a device to interconnect any line or channel of the Telephone Company with any other communication line or channel of the Company or of any other person.

T. Noise Silencers

Devices provided by the subscriber to obtain quietness or privacy may be used in conjunction with the radiotelephone furnished to the subscriber by the Telephone Company, provided any such device does not involve direct electrical connection to the equipment of the Telephone Company or any change in or alteration of such equipment, or interfere with its proper functioning, or damage it in any way.

U. Defacement of Premises or Property

The Telephone Company is not liable for any defacement of or damage to the land mobile unit or subscriber's premises resulting from the existence of the Telephone Company's instruments, apparatus, and associated wiring thereon, or from the installation or removal thereof, when such defacement or damage is not the result of the negligence of the Telephone Company.

V. Maintenance and Repairs

1. The subscriber will be responsible for damages to or loss of apparatus or wiring provided by the Telephone Company on land mobile units when caused by his negligence but not for normal wear and tear or for causes beyond his control. The subscriber may not rearrange, disconnect, remove, or attempt to repair any equipment or wiring provided by the Telephone Company or permit others to do so.
2. Except as provided in PP (a) and (b), below, all ordinary maintenance and repairs of equipment and facilities provided by the Telephone Company are performed by the Telephone Company at its expense.

The Public Utilities Commission of Ohio.

**MOBILE-TELEPHONE SERVICE TARIFF**

---

**GENERAL REGULATIONS**

**V. Maintenance and Repairs (Concl'd)**

**2. (Concl'd)**

- (a) In situations in which maintenance and repairs would have been performed by the Telephone Company during the usual working hours on normal working days, but, at the specific request of the subscriber, such work is performed at other times for the subscriber's convenience or for other reasons not under the control of the Telephone Company, the expense incurred by the Telephone Company in excess of the normal expense of such maintenance and repairs, when performed during usual working hours on normal working days, may be billed to the subscriber. This provision, however, shall not apply to emergencies, that is, situations that affect public health or safety, or result from critical illness, unavoidable casualties, or acts of God.
- (b) In situations such as sporting events, one-time entertainment events, etc., when the subscriber requests that "standby" workmen be provided to safeguard the continuity of service, irrespective of when such "standby" workmen are provided, the entire cost of providing such "standby" workmen shall be charged to the subscriber.

**W. Nonrecurring, Move, and Change Charges**

The nonrecurring, move and change charges specified in this tariff contemplate work being performed by the Telephone Company during the usual working hours on normal working days. When, at the specific request of a subscriber or applicant for service, work is performed at other times, either for the convenience of the subscriber or applicant for other reasons not under the control of the Telephone Company, the expense incurred by the Telephone Company in excess of the normal expense of such work, then performed during usual working hours on normal working days, shall be to the subscriber or applicant, in addition to the charges otherwise applicable.

**X. Thirty-day Month**

For the purpose of computing charges for equipment, facilities, and services, and allowances for interruptions in service, every month shall be considered to have 30 days.

The Public Utilities Commission of Ohio,

TARIFF P.U.C.O. NO. 10  
MOBILE-TELEPHONE SERVICE TARIFF

RATES AND REGULATIONS APPLICABLE THERETO

A. General Service

General service is furnished between a base station operated by the Telephone Company and a mobile unit within range of such base station.

1. General service is furnished to a customer of the Telephone Company using dial-equipped and actuated radiotelephone apparatus for communication between the Telephone Company's base station and the customer's mobile unit, at the following rates and charges:

	Service Only	
Monthly Rate:	\$ <u>67.50</u>	(1)

2. General service is furnished on a nondial basis to Telephone Company customers and to noncustomers of the Telephone Company for communication between the base station of the Telephone Company or the mobile unit of a Telephone Company customer and the mobile unit of a person not a customer of this service from the Telephone Company. Such service is furnished on a per-message basis at the rate of \$.55 for the first three minutes of each message and \$.25 for each additional minute.

of each message. Such rates are in addition to the rates and charges under A-1, above, if applicable, are to be paid by the customer placing the call, unless otherwise specified.

The above paragraph applies only to that portion of the service furnished by the Telephone Company and has no application to any rates or charges made by any other Telephone Company for any portion of the service rendered by it.

B. Signaling Service

1. Tone Only - One-Way communication from a wire telephone to a battery powered pocket receiver which upon receipt of a signal broadcast by the Telephone Company, emits an audible tone.

Service only (customer provided equipment)

Monthly Rate . . . . . \$ 7.85 (I)

2. Tone and Voice - One-Way communication from a wire telephone to a battery powered pocket receiver which upon receipt of a signal broadcast by the Telephone Company, emits an audible tone followed by short voice message from wire telephone.

Service only (customer provided equipment)

Monthly Rate . . . . . \$ 7.85 (I)

3. Display - One-Way communication from a wire touch calling telephone to a battery powered pocket receiver which upon receipt of a signal broadcast by the Telephone Company, causes a series of numbers or alpha characters to be displayed. An audible tone can be received at the option of the customer.

Service only (customer provided equipment)

Monthly Rate . . . . . \$ 7.85 (I)

Service connection charges as outlined in P.U.C.O. No. 12, General Exchange Tariff for business service are applicable.

C. Dispatching Service

Dispatching service is not currently offered by the Telephone Company.
