AFFIDAVIT

Compliance with Commission Rules and Service Standards

I am an officer/agent of the applicant corporation, Catherine M. Hannan, and am authorized to make this statement on its behalf.
(Name)

I attest that these tariffs comply with all applicable rules, including the Minimum Telephone Service Standards (MTSS) Pursuant to Chapter 4901:1-5 OAC for the state of Ohio. I understand that tariff notification filings do not imply Commission approval and that the Commission's rules, including the Minimum Telephone Service Standards, as modified and clarified from time to time, supersede any contradictory provisions in our tariff. We will fully comply with the rules of the state of Ohio and understand that noncompliance can result in various penalties, including the suspension of our certificate to operate within the state of Ohio.

I declare under penalty of perjury that the foregoing is true and correct.

Executed on (Date) March 31, 2008 at (Location) McLean, Virginia

*(Signature and Title) Catherine M. Hannan, Regulatory Counsel (Date) 03/31/08

- This affidavit is required for every tariff-affecting filing. It may be signed by counsel or an officer of the applicant, or an authorized agent of the applicant.

VERIFICATION

I, Catherine M. Hannan, Regulatory Counsel for Broadview Networks, Inc.

verify that I have utilized the Telecommunications Application Form for Detariffing and Related Actions provided by the Commission and that all of the information submitted here, and all additional information submitted in connection with this case, is true and correct to the best of my knowledge.

*(Signature and Title) Catherine M. Hannan, Regulatory Counsel (Date) 03/31/08

*Verification is required for every filing. It may be signed by counsel or an officer of the applicant, or an authorized agent of the applicant.

TARIFF FORMAT

- A. Page Numbering - Page numbers appear in the upper right corner of the page. Pages are numbered sequentially. However, new pages are occasionally added to the tariff. When a new page is added between pages already in effect, a decimal is added. For example, a new page added between Page 14 and 15 would be 14.1.
- B. Page Revision Numbers - Revision numbers also appear in the upper right corner of each page. These numbers are used to determine the most current page version on file with the Commission. For example, the 4th revised Page 14 cancels the 3rd revised Page 14.
- C. Paragraph Numbering Sequence - There are various levels of paragraph coding. Each level of coding is subservient to its next higher level:
- 2
 - 2.1
 - 2.1.1
 - 2.1.1.1
- D. Check Sheets - When a tariff filing is made with the Commission, an updated check sheet accompanies the filing. The check sheet lists pages contained in the tariff, with a cross-reference to the current revision number. When pages are added the check sheet is changed to reflect the revision. All revisions made in a given filing are designated by an asterisk (*). There will be no other symbols used on this page if these are the only changes made to it (i.e. the format, etc. remains the same, just revised revision levels on some pages). The tariff user should refer back to the latest check sheet to find out if a particular sheet is the most current on file with the Commission.

SECTION 1 - DEFINITIONS AND ABBREVIATIONS

Authorization Code: A numerical code, one or more of which the Company may assign to a Customer, to enable Company to identify the origin of service of the Customer so it may rate and bill the call. All authorization codes shall be the sole property of Company and no Customer shall have any property or other right or interest in the use of any particular authorization code. Automatic numbering identification (ANI) may be used as or in connection with the authorization code.

Authorized User: The Customer may authorize a person, firm or corporation to be an end-user of the service of the Customer.

Automatic Number Identification (ANI): A type of signaling provided by a local exchange telephone company, which automatically identifies the local exchange line from which a call originates.

Business Hours: The time after 8:00 a.m. and before 5:00 p.m., Monday through Friday excluding holidays.

Business Office: The primary location where the business operations of Company are performed and where the Company makes a copy of the Company's tariff available for public inspection. The address of the business is: 2950 Gallows Road, Falls Church, VA 22042.

Company: The term "Company" refers to Broadview Networks, Inc. or "Broadview".

Commission: The Public Utilities Commission of Ohio, the regulating entity within the State of Ohio.

Completed call: is a call which the Company's network has determined has been answered by a person, answering machine, fax machine, computer modem device, or other answering device.

SECTION 2 - RULES AND REGULATIONS (CONT'D)2.4 Limitations of Liability (Cont'd)

2.4.14 The Customer and any Authorized Users, jointly and severally, shall indemnify and hold the Company harmless from claims, loss, damage, expense or liability for patent or trademark infringement or other infringement of intellectual property rights arising from (1) combining (or using in connection) Company-provided services and equipment with any facilities, services, functions, or products provided by the Customer, by an Authorized User or by any other entity other than the Company, or (2) use of services, functions, or products the Company furnished in a manner the Company did not contemplate and over which the Company exercises no control; and from all other claims, loss, damage, expense or liability arising out of any commission or omission by the Customer or Authorized User in connection with the service, function, or product. In the event that any such infringing use is enjoined, the Customer or Authorized User at its expense, shall obtain immediately a dismissal or stay of such injunction, obtain a license or other agreement so as to extinguish the claim of infringement, terminate the claimed infringing use, or modify such combination so as to avoid any such infringement. In addition and without limitation, the Customer and/or Authorized User shall defend, on behalf of the Company and upon request by the Company, any suit brought or claim asserted against the Company for any such infringement, damages, or other claims, at the sole and entire expense of the Customer and/or Authorized User.

2.4.15 Y2K: The Company will operate as specified in its agreement with the Customer during the 20th and 21st centuries. The Company will make reasonable efforts to cure any material failure to provide Services caused solely by Year 2000 defects in the Company's hardware, software or systems. Due to the interdependence among telecommunications companies and the interrelationship with non-Company processes, equipment and systems, the Company is not responsible for failures caused by circumstances beyond its control including, but not limited to, failures caused by: (1) a local exchange carrier; (2) customer premise equipment; or (3) Customer. In addition, the Company does not ensure compatibility between Company services and non-Company services used by Customer.

SECTION 3 - DESCRIPTION OF SERVICES (CONT'D)3.8 Message Telecommunications Service (MTS)

Message Telecommunications Service is a communications service which is available for use by Customers twenty-four (24) hours a day. MTS enables a User of an exchange access line to place calls to any station on the public switched telecommunications network bearing an NPA-NXX designation associated with points outside the Customer's Local Calling Area, but within the boundaries of the home LATA.

This tariff applies to MTS furnished or made available by the Company via resold services over facilities, wholly within or partly within and partly without the State of Ohio where respective rate centers of such points are located within a LATA in the state.

Service is available to and from Customers of a miscellaneous common carrier with which arrangements have been made for the interchange of telephone traffic and is furnished through interconnecting equipment and connecting channels provided by the Company service is being resold. The rates between the applicable wire telephone rate center and the rate center of the miscellaneous common carrier are the rates specified in 5.4 of this tariff. The rate center of the miscellaneous common carrier is the rate center of the Company service serving exchange. And additional charge that the miscellaneous common carrier bills to and collects from its Customer is applicable to the remainder of the call as specified in the tariffs of the miscellaneous common carrier.

Service is offered on both a Customer dialed and operator dialed basis each of the following classes of calls:

- (a) Station-to-Station
- (b) Calling Card
- (c) Collect or Bill to 3rd Party
- (d) Person-to-Person

SECTION 3 - DESCRIPTION OF SERVICES (CONT'D)

3.12 Optional Calling Features

Call Waiting: Permits the end-user engaged in a call to receive a tone signal indicating a second call is waiting; and, by operation of the switch hook, to place the first call on hold and answer the waiting call. The Customer may alternate between the two calls by operation of the switch hook, but a three-way conference call cannot be established.

Three Way Calling: Permits the end-user to add a third party to an established connection. When the third party answers, a two-way conversation can be held before adding the original party for a three-way conference. The end-user initiating the conference controls the call and may disconnect the third party to reestablish the original connection or establish a connection to a different third party. The feature may be used on both outgoing and incoming calls.

Busy Number Re-dial: This feature automatically redials another parties phone number after the Customer's first attempt to connect to that number resulted in a busy signal. The line is checked every 45 seconds for up to 30 minutes and alerts the Customer with a distinctive ringing pattern when the busy number and the Customer's line are free. The Customer can continue to make and receive other calls while the feature is activated.

Call Forwarding Variable: Permits the end-user to automatically forward (transfer) all incoming calls to an end-user designated telephone number, and permits the end-user to restore incoming calls to non Call Forwarding operation.

The Customer is charged for the call between the original terminating number and the number to which it is remotely call forwarded. The Customer must subscribe to adequate facilities to permit the use of the service without impairment, disruption or deterioration of the quality of other telephone services.

SECTION 3 - DESCRIPTION OF SERVICES (CONT'D)

3.12 Optional Calling Features (Cont'd)

Call Forwarding Busy: Permits the forwarding of incoming calls when the end-user's line is busy. The forwarded number is fixed by the end-user's service order.

Call Forwarding No Answer: Permits the forwarding of incoming calls when the end-user's line remains unanswered after end user designated number of rings. The number of rings and the forwarded number are fixed by the Customer service order.

Speed Calling (8 or 30): Permits the Customer to place calls to other telephone numbers by dialing a one- or two-digit code rather than complete telephone numbers. The feature is available as an eight code list or a thirty code list. Either code list may include local and/or toll telephone numbers. To establish or change a telephone number in a code list, the Customer dials an activating code, receives a second dial tone and dials either a one- or two-digit code (for the eight code and thirty code lists, respectively) plus the telephone number.

SECTION 3 - DESCRIPTION OF SERVICES (CONT'D)

3.12 Optional Calling Features (Cont'd)

Caller ID: Allows the number of the calling party to be passed from the telephone company to your telephone between the first and second ring signaling an incoming telephone call.

Caller ID with Name: This feature provides the originating telephone number and also the name associated with the line. The information is displayed on a Customer provided display device attached to the Customer's telephone line.

Distinctive Ringing: This feature allows a Customer to have up to three separate telephone numbers which consist of the main telephone number and two additional telephone numbers, associated with one exchange access line. Each telephone number will have a distinctive ring on incoming calls to allow the Customer to identify the incoming call line. If the Customer also subscribes to Call Waiting, a Call Waiting tone is provided for each additional telephone number. All telephone lines must be served by the same Central Office.

SECTION 3 - DESCRIPTION OF SERVICES

3.1 Basic Local Exchange Service

3.1.1 Service Areas and Rate Groups

Broadview Networks, Inc.'s exchange areas and local calling areas are identical to those defined in the tariffs of the incumbent local exchange company serving each exchange area. NXX's associated with each particular exchange or zone may be found in the telephone directory published by the incumbent local exchange provider in the Customer's exchange.

Broadview Networks, Inc. provides service in the exchange areas served by the following local exchange companies and concurs in their filed exchange areas, exchange rate classification criteria and exchange maps:

SECTION 3 - DESCRIPTION OF SERVICES (CONT'D.)3.2 Standard Access Line

The Standard Residential or Business Line provides a Customer with a single, analog, voice-grade telephonic communications channel which can be used to place or receive one call at a time. Standard Lines are provided for the connection of Customer-provided wiring and single station sets or facsimile machines. A multi-line subscriber is a Business customer with more than one Line provided by Broadview Networks. Standard Access Lines enable the customer to:

- (a) place or receive calls to any station in the local calling area, as defined herein;
- (b) access enhanced 911 Emergency Service where available;
- (c) access the interexchange carrier selected by the Customer for interLATA, intraLATA, interstate or international calling;
- (d) access Operator Services;
- (e) access Directory Assistance;
- (f) place or receive calls to 800 numbers;
- (g) access Telecommunications Relay Service.

Touch Tone signaling, consisting of a push button or touchtone dial that sends out a sound which consists of two discrete tones (one low frequency and one high frequency), picked up and interpreted by telephone switches, is provided as part of the Standard Access Line.

The Company's service will automatically block originating calls to other telephone companies' caller-paid information services (e.g., 900, 976) at no charge. Calls to those numbers and other numbers used for caller-paid information services will be unblocked on a per directory number basis only. Subsequent blocking of 900-type numbers will incur a charge.

SECTION 3 - DESCRIPTION OF SERVICES (CONT'D)

3.13 Blocking Features

A calling party may block their telephone number, associated main listed name and voiceback of calling identification information to users or subscribers to customer calling features utilizing SS7 technology. Blocking will also prevent call completion through the use of Return Call service.

Customers have two blocking options:

Per-Call Blocking: By activating a special code, the caller may block the transfer of the telephone number for that call only. There is no charge for using per-call blocking and it is provided on an unlimited basis.

Line Blocking: This service must be added to a customer's line by contacting the Company's business office and having a service order issued. All calls are automatically blocked when a customer subscribes to line blocking unless the blocking feature is deactivated.

If a customer subscribes to line blocking, he/she can deactivate blocking by dialing a special code prior to placing a call. Blocking will be deactivated for that outgoing call only.

As facilities permit, a line blocking customer will be provided with a separate code to deactivate blocking, which is different from the per-call blocking code. Where this separate code is not available, the code for per-call blocking and the code to deactivate line blocking will be the same.

Line blocking is available to all customers in Broadview Networks, Inc.'s serving territory. Line blocking is provided without charge, except as discussed in the rate section of this Tariff.

SECTION 3 - DESCRIPTION OF SERVICES (CONT'D)

3.14 Directory Listings

For each Customer of Company-provided Exchange Service(s), the Company shall arrange for the listing of the Customer's main billing telephone number in the directory(ies) published by the dominant Local Exchange Carrier in the area at no additional charge. Directory listings are provided in connection with each Customer service as specified herein.

The Company reserves the right to limit the length of any listing in the directory by the use of abbreviations when, in its judgement, the clearness of the listing or the identification of the Customer is not impaired thereby. When more than one line is required to properly list the Customer, no additional charge is made.

The Company may refuse a listing which is known not to constitute a legally authorized or adopted name, contains obscenities in the name, or any listing which, in the opinion of the Company, is likely to mislead or deceive calling persons as to the identity of the listed party, or is a contrived name used for advertising purposes or to secure a preferential position in the directory or is more elaborate than is reasonably necessary to identify the listed party. The Company, upon notification to the Customer, will withdraw any listing which is found to be in violation of its rules with respect thereto.

Each listing must be designated Government, Business, or Residence to be placed in the appropriate section of the directory. In order to aid the user of the directory, and to avoid misleading or deceiving the calling party as to the identity of the listed party, only business listings may be placed in the Business Section and only residential listings in the Residential Section. The Company, upon notification to the Customer, will withdraw any listing which is found to be in violation of its rules with respect thereto.

3.14 Directory Listings (Cont'd)

The following types of listings will be made available:

Primary: A primary listing contains the name of the Customer, or the name under which a business is regularly conducted, as well as the address and telephone number of the Customer. This listing is provided at no additional charge.

Additional: In connection with local exchange service, additional listings are available only in the same name of authorized users of the Customer's service, as defined herein.

Non-Published: Listings that are not printed in directories nor available from Directory Service.

A Non-Published Telephone Service will be furnished at the customer's request providing the omission or deletion of the Customer's telephone listing from the telephone directory and, in addition, the Customer's telephone listing will be omitted or deleted from the DA records.

3.16 Maintenance Visit Charges

Maintenance Visit Charges apply when the Company dispatches personnel to a Customer's premises to perform work necessary for resolving troubles reported by the Customer and the trouble is found to be caused by the Customer's facilities.

Maintenance Visit Charges will be credited to the Customer's account in the event trouble is not found in the Company facilities, but the trouble is later determined to be in facilities.

The time period for which the Maintenance Visit Charges is applied will commence when Company personnel are dispatched at the Customer premises and end when work is completed. The rates for Maintenance of Service vary by time per Customer request.

3.17 Emergency Services Calling Plan

Access (at no additional charge) to emergency services by dialing 0 - or 9-1-1.

Message toll telephone calls, to governmental emergency service agencies as set forth in (a) following, having primary or principal responsibility with respect to the provision of emergency services to person and property in the area from which the call is made, meeting the definition and criteria of an emergency call as set forth in (b) following: are offered at no charge to Customers:

- (a) Governmental fire fighting, police, and emergency squad service (as designated by the appropriate governmental agency) qualify as governmental emergency service agencies provided they answer emergency service calls on a personally attended (live) twenty-four (24) hour basis, three hundred sixty-five (365) days a year, including holidays.
- (b) An emergency is an occurrence or set of circumstances in which conditions pose immediate threat to human life, property, or both and necessitate that prompt action be taken. An emergency call is an originated call of short duration to a governmental emergency services agency in order to seek assistance for such an emergency.

SECTION 5 - MISCELLANEOUS SERVICES5.1 IntraLATA Presubscription5.1.1 General

InterLATA Presubscription is a procedure whereby a subscriber designates to the Company the carrier which the subscriber wishes to be the carrier of choice for intraLATA toll calls. Such calls are automatically directed to the designated carrier, without the need to use carrier access codes or additional dialing to direct the call to the designated carrier. IntraLATA presubscription does not prevent a subscriber who has presubscribed to an intraLATA toll carrier from using carrier access codes or additional dialing to direct calls to an alternative intraLATA toll carrier on a per call basis. IntraLATA Presubscription will become effective upon the initial offering of certified local exchange service.

IntraLATA Presubscription Options

1. Option A: The Customer may select the Company as the presubscribed carrier for intraLATA toll calls subject to presubscription.
2. Option B: The Customer may select her/his interLATA toll carrier for IntraLATA toll calls subject to presubscription.
3. Option C: The Customer may select a carrier other than the Company or the Customer's interLATA toll carrier as the presubscribed carrier for intraLATA toll calls subject to presubscription.
4. Option D: The Customer may select no presubscribed carrier for intraLATA toll calls subject to presubscription which will require the subscriber to dial a carrier access code to route all intraLATA toll calls to the carrier of choice for each call.

Rules and Regulations

1. The Customer will retain their current dialing arrangements until they request that their dialing arrangements be changed.
2. The Customer of record or new Customers may select either Options A, B, C, or D for intraLATA Presubscription.

5.1.1 General (Cont'd)

Rules and Regulations (Cont'd)

3. The Customer may change their selected Option and/or their presubscribed intraLATA toll carrier at any time subject to charges specified in this tariff.

5.1.2 IntraLATA Presubscription Procedures

1. New Customers will be asked to select an intraLATA toll carrier(s) at the time the Customer places an order to establish local exchange service with the Company. The Company will process the Customer's order for intraLATA service. The selected carrier(s) will confirm their respective subscribers' verbal selection by third-party verification or return written confirmation notices. All new Customer's initial request for intraLATA toll service presubscription shall be provided free of charge.
2. If a new Customer is unable to make a selection at the time the new Customer places an order to establish local exchange service, the Company will read a random listing of all available intraLATA carriers to aid the Customer in selection. If selection is still not possible, the Company will inform the Customer that he/she will be given ninety (90) calendar days in which to inform the Company of an intraLATA toll carrier presubscription selection free of charge. until the Customer informs the Company of his/her choice for intraLATA Toll carrier, the Customer will not have a presubscribed intraLATA toll carrier, but rather will be required to dial a carrier access code to route all intraLATA toll calls to the carrier(s) of choice. The Customer who informs the company of a choice for intraLATA toll presubscription within the 90-day period will not be assessed a service charge for the initial subscriber request.
3. Customers of record may initiate an intraLATA presubscription change at any time subject to the charges specified in Paragraph 2.12.5 below. If a Customer of record inquires of the Company of the carriers available for intraLATA toll presubscription, the Company will read a random listing of all available intraLATA carriers to aid the Customer in selection.

SECTION 5 - MISCELLANEOUS SERVICES (CONT'D)

5.2 Universal Emergency Number Service - 911

5.2.1 Description

Note: As used in this section, the term "Customer" refers to the governmental entity (county or municipality) which provides 911 service to its residents.

Universal Emergency Number Service/911 Telecommunications Service (911) is a telephone exchange communication service whereby a Public Safety Answering Point (PSAP) designated by the Customer may receive telephone calls dialed to the telephone number 911. The 911 Service includes lines and central office features necessary to provide the capability to originate by persons within the telephone central office areas arranged for 911 calling.

When requested by local government authorities, and subject to the availability of facilities, the Company will provide a universal number "911" for the use of Public Safety Answering Points (PSAPs) engaged in assisting local government in the protection and safety of the general public. Use of the 911 number will provide each caller with the telephone access to the appropriate local PSAP.

The 911 customer may a municipality or other State or local government unit, or an authorized agency of one or more municipalities or other State or local governmental units to whom authority has been lawfully delegated. The customer must be legally authorized to subscribe to the service and have public safety responsibility by law to respond to telephone calls from the public for emergency police, fire, or other emergency services within the Central Office areas arranged for 911 calling. 911 service provides for routing all 911 calls originated by telephones having telephone numbers beginning with a given central office prefix code or codes to a PSAP which is prepared to receive those calls. Each features which may or may not be available with other 911 service classifications.

SECTION 5 - MISCELLANEOUS SERVICES (CONT'D)

5.2 Universal Emergency Number Service - 911 (Cont'd)

5.2.2 Terms and Conditions

The service is limited to the use of central office telephone number 911 as the universal emergency telephone number. Single PSAP may subscriber to only one 911 service classification within any single government agency's locality.

911 service is furnished to the Customer only for the purpose of receiving reports and emergencies from the public. It is not intended a total replacement for the telephone service of various public safety agencies which participate in the use of this service. The public safety agencies must subscribe to other exchange telephone services provided under this tariff for non-emergency telephone communications.

TARIFF FORMAT

- A. Page Numbering - Page numbers appear in the upper right corner of the page. Pages are numbered sequentially. However, new pages are occasionally added to the Tariff. When a new page is added between pages already in effect, a decimal is added. For example, a new page added between Page 14 and 15 would be 14.1.
- B. Page Revision Numbers - Revision numbers also appear in the upper right corner of each page. These numbers are used to determine the most current page version on file with the Commission. For example, the 4th revised Page 14 cancels the 3rd revised Page 14.
- C. Paragraph Numbering Sequence - There are various levels of paragraph coding. Each level of coding is subservient to its next higher level:
- 2
2.1
2.1.1
2.1.1.1
- D. Check Sheets - When a tariff filing is made with the Commission, an updated check sheet accompanies the filing. The check sheet lists pages contained in the Tariff, with a cross-reference to the current revision number. When pages are added the check sheet is changed to reflect the revision. All revisions made in a given filing are designated by an asterisk (*). There will be no other symbols used on this page if these are the only changes made to it (i.e. the format, etc. remains the same, just revised revision levels on some pages). The tariff user should refer back to the latest check sheet to find out if a particular sheet is the most current on file with the Commission.

SECTION 1 - DEFINITIONS AND ABBREVIATIONS

Authorization Code: A numerical code, one or more of which the Company may assign to a Customer, to enable Company to identify the origin of service of the Customer so it may rate and bill the call. All authorization codes shall be the sole property of Company and no Customer shall have any property or other right or interest in the use of any particular authorization code. Automatic numbering identification (ANI) may be used as or in connection with the authorization code.

Authorized User: The Customer may authorize a person, firm or corporation to be an end-user of the service of the Customer.

Automatic Number Identification (ANI): A type of signaling provided by a local exchange telephone company, which automatically identifies the local exchange line from which a call originates.

Business Hours: The time after 8:00 a.m. and before 5:00 p.m., Monday through Friday excluding holidays.

Business Office: The primary location where the business operations of Company are performed and where the Company makes a copy of the Company's Tariff available for public inspection. The address of the business is: 2950 Gallows Road, Falls Church, VA 22042.

Company: The term "Company" refers to Broadview Networks, Inc.

Commission: The Public Utilities Commission of Ohio, the regulating entity within the State of Ohio.

Completed call: is a call which the Company's network has determined has been answered by a person, answering machine, fax machine, computer modem device, or other answering device.

SECTION 2 - RULES AND REGULATIONS (CONT'D)**2.4 Limitations of Liability**

2.4.1 Because the Customer has exclusive control of its communications over the services furnished by the Company, and because interruptions and errors incident to these services are unavoidable, the services, functions, and products the Company furnishes are subject to the terms, conditions, and limitations specified in this Tariff and to such particular terms, conditions, and limitations as set forth in the special regulations applicable to the particular services, functions, and products furnished under this Tariff. These limitations shall not limit any right the Company may have to be indemnified, defended, or held harmless against any amounts payable to a third person, including any losses, costs, fines, penalties, criminal or civil judgments or settlements, expenses and consequential damages of such third persons.

2.4.2 The liability of the Company for damages arising directly or indirectly out of the furnishing of these services, functions, or products, including but not limited to mistakes, omissions, interruptions, delays, or errors, or other defects, representations, or use of these services, functions, or products or arising out of the Company's failure to furnish the service, function, or product, whether caused by acts of commission or omission, shall be limited to the extension of allowances for interruption. The Customer or Authorized User has the sole remedy of the extension of such allowances for interruption and the sole liability of the Company. The Customer shall not hold the Company liable for any indirect, special, consequential, exemplary or punitive damages a Customer may suffer, including lost business, revenues, profits, or other economic loss, whether or not caused by the negligence of the Company's employees or agents, whether or not foreseeable, and regardless of notification by any party of the possibility of such damages.

SECTION 2 - RULES AND REGULATIONS (CONT'D)2.4 Limitations of Liability (Cont'd)

- 2.4.7 The Company does not guarantee or make any warranty with respect to installations it provides for use in an explosive atmosphere. The Customer indemnifies and holds the Company harmless from any and all loss, claims, demands, suits, or other action, or any liability whatsoever, whether suffered, made, instituted, or asserted by any other party or person(s), and for any loss, damage, or destruction of any property, whether owned by the Customer or others, caused or claimed to have been caused directly or indirectly by the installation, operation, failure to operate, maintenance, removal, presence, condition, location, or use of any installation so provided.
- 2.4.8 The Company is not liable for any defacement of or damage to the premises of a Customer or end-user (or Authorized User) resulting from the furnishing of services or equipment on such premises or the installation or removal thereof, when such defacement or damage is not the result of negligence or willful misconduct on the part of the agents or employees of the Company.
- 2.4.9 The Customer shall not hold the Company liable for any damages resulting from delays in meeting any service dates due to delays resulting from normal construction procedures. Such delays shall include, without limitation, delays in obtaining necessary regulatory approvals for construction, delays in obtaining right-of-way approvals and delays in actual construction work.
- 2.4.10 The Customer shall not hold the Company liable for any damages whatsoever to persons or property resulting from the installation, maintenance, repair or removal of equipment and associated wiring, unless the Company's willful misconduct or gross negligence causes the damage.

SECTION 2 - RULES AND REGULATIONS (CONT'D)**2.4 Limitations of Liability (Cont'd)**

2.4.14 The Customer and any Authorized Users, jointly and severally, shall indemnify and hold the Company harmless from claims, loss, damage, expense or liability for patent or trademark infringement or other infringement of intellectual property rights arising from (1) combining (or using in connection) Company-provided services and equipment with any facilities, services, functions, or products provided by the Customer, by an Authorized User or by any other entity other than the Company, or (2) use of services, functions, or products the Company furnished in a manner the Company did not contemplate and over which the Company exercises no control; and from all other claims, loss, damage, expense or liability arising out of any commission or omission by the Customer or Authorized User in connection with the service, function, or product. In the event that any such infringing use is enjoined, the Customer or Authorized User at its expense, shall obtain immediately a dismissal or stay of such injunction, obtain a license or other agreement so as to extinguish the claim of infringement, terminate the claimed infringing use, or modify such combination so as to avoid any such infringement. In addition and without limitation, the Customer and/or Authorized User shall defend, on behalf of the Company and upon request by the Company, any suit brought or claim asserted against the Company for any such infringement, damages, or other claims, at the sole and entire expense of the Customer and/or Authorized User.

2.4.15 Y2K: The Company will operate as specified in its agreement with the Customer during the 20th and 21st centuries. The Company will make reasonable efforts to cure any material failure to provide Services caused solely by Year 2000 defects in the Company's hardware, software or systems. Due to the interdependence among telecommunications companies and the interrelationship with non-Company processes, equipment and systems, the Company is not responsible for failures caused by circumstances beyond its control including, but not limited to, failures caused by: (1) a local exchange carrier; (2) customer premise equipment; or (3) Customer. In addition, the Company does not ensure compatibility between Company services and non-Company services used by Customer.

2.5 Application for Service (Cont'd)

2.5.4 Minimum Contract Period

2.5.4.1 Except as otherwise provided, the minimum contract period is one month for all services furnished. However, if a new residential or single line business customer notifies the Company within twenty days after receipt of the first bill that certain services or equipment are not desired, the Company will delete such services or equipment from the customer's account without a record keeping or service ordering charge. The customer nonetheless shall be responsible for all monthly usage and installation charges incurred for the use of such service and equipment.

2.5.5 Cancellation of Service

2.5.5.1 Where the applicant cancels an order for service prior to the start of the installation or special construction of facilities, no charge shall apply, except to the extent the Company incurs a service order or similar charge from a supplying carrier, if any, prior to the construction.

2.5 Application for Service (Cont'd)

2.5.5 Cancellation of Service (Cont'd)

2.5.5.2 Where the installation of facilities, other than those provided by special construction, has been started prior to cancellation, the lower of the following charge applies;

- (a) The total costs of installing and removing such facilities; or
- (b) The monthly charges for the entire initial contract period of the service ordered by the customer as provided in this Tariff plus the full amount of any applicable installation and termination charges.

2.5.5.3 Where special construction of facilities has been started prior to the cancellation, and the Company has another requirement for the specially constructed facilities, no charge applies.

2.6 Payment for Service

2.6.1 Service will be billed on a monthly basis and is due and payable upon receipt or as specified on the customer's bill. Service will continue to be provided until canceled by the customer or discontinued by the Company as set forth in Section 2.14 of this Tariff.

2.6.2 The customer is responsible for payment of all charges for service furnished to the customer. Charges based on actual usage during a month will be billed monthly in the month following the month in which the service was used. All fixed monthly and nonrecurring charges for services ordered will be billed monthly in advance.

SECTION 2 - RULES AND REGULATIONS (CONT'D)

2.6 Payment for Service (Cont'd)

2.6.3 For a pre-paid local carrier, customers pay in advance the monthly flat rate charge for local service. Customers will be billed prior to the expiration of their current pre-paid service period. If payment is not received by the due date for the next pre-paid service period, service may be disconnected. While it is the Company's intent not to offer the customer usage sensitive services (including Directory Assistance), if the customer does incur usage sensitive charges, the customer will be billed as soon as practical and the customer may be disconnected if payment is not received as provided in Section 2.14.

2.7 Customer Deposits

2.7.1 The Company agrees to abide by the regulations associated with nonresidential customer deposits as specified by the Ohio Administrative Code.

2.7.2 In order to establish credit, the carrier may require an applicant for nonresidential service to demonstrate good paying habits by showing that the applicant:

2.7.2.1 Was a customer of a Ohio utility for at least 12 months within the preceding 2 years;

2.7.2.2 Does not currently owe any outstanding bills for utility service to a utility doing business in Ohio;

2.7.2.3 Did not have service discontinued for nonpayment of a utility bill during the last 12 months that service was provided; and

2.7.2.4 Did not fail, on more than two occasions during the last 12 months that service was provided, to pay a utility bill when it became due.
