TARIFF FORMAT

- A. **Page Numbering** - Page numbers appear in the upper right corner of the Page. Pages are numbered sequentially. However, occasionally, when a new Page is added between Pages already in effect, a decimal is added. For example, a new Page added between Pages 14 and 15 would be 14.1.
- B. **Page Revision Numbers** - Revision numbers also appear in the upper right corner of each Page. These numbers are used to determine the most current Page version on file with the Commission. For example, the 4th revised Page 14 cancels the 3rd Revised Page 14. Because of various suspension periods, deferrals, etc., the Commission follows in their tariff approval process, the most current Page number on file with the Commission is not always the Page in effect. Consult the Check Sheet for the Page currently in effect.
- C. **Paragraph Numbering Sequence** - There are four levels of paragraph coding. Each level of code is subservient to its next higher level:
- 2.
 - 2.1.
 - 2.1.1.
 - 2.1.1.1.
- D. **Check Sheets** - When a tariff filing is made with the Commission, an updated Check Sheet accompanies the tariff filing. The Check Sheet lists the Pages contained in the tariff with a cross-reference to the current revision number. When new Pages are added, the Check Sheet is changed to reflect the revision. All revisions made in a given filing are designated by an asterisk (*). There will be no other symbols used on this Page if these are the only changes made to it (i.e., the format, etc., remains the same, just revised revision levels on some Pages). The Tariff user should refer to the latest Check Sheet to find if a particular Page is the most current on file with the Commission.

SECTION 3 - DESCRIPTION OF SERVICE

3.1. TIMING OF CALLS

- 3.1.1. The subscriber's long distance usage charge is based on the actual usage of Company's service. Usage begins when the receiver of the called number is answered. The moment of the called party's answer is determined by hardware supervision in which the local telephone company sends a signal to the underlying carrier's switch or the software utilizing audio tone detection. The timing of the call occurs when called party answers and terminated when either party hangs up.
- 3.1.2. Unless otherwise specified in this tariff, the minimum call duration for billing purposes is thirty (30) seconds with six (6) second billing increments thereafter.
- 3.1.3. Any portion of an applicable increment, after the appropriate minimum time for the call, will be rounded upward to the next increment. Calls less than the minimum length will be rounded to the minimum length.
- 3.1.4. There is no billing for incomplete calls.

3.2. TELECOMMUNICATIONS SERVICES

Company provides switched and dedicated telecommunications services, which allow a Customer to establish a communications path between two stations by using uniform dialing plans. Calls are billed in six (6) second increments. A thirty (30) second initial billing minimum is applicable on each call, unless otherwise specified in this tariff.

Network Plus Switched Access Service is a switched access service, offering users both outbound (1 plus) and inbound (toll free) long distance telecommunications services. The service offers direct dial capabilities of other underlying carrier(s') network services.

Network Plus Dedicated Access Service is a dedicated access service, offering users both outbound (1 plus) and inbound (toll free) long distance telecommunications services over dedicated local access connections to the underlying carrier's point of presence. This service is designed for subscribers with high traffic volumes, whose traffic volumes justify the additional costs of dedicated access facilities.

Network Plus Travel Card is a calling card service enabling Switched Access Service subscribers to place calls from any touch tone phone in the United States. Travel Card calls are billed at the Company's rate and appear on the subscriber's monthly long distance bill.

Directory Assistance is provided by Broadview Net Plus' underlying carrier to subscribers of record. The Customer may access the underlying carrier's Directory Assistance by dialing the area code plus 555-1212. 3.2. TELECOMMUNICATIONS SERVICES, Continued

Network Plus Prepaid Calling Card Service is a discretionary switched access service available to subscribers via a toll free number from any telephone in the United States. The user's account is credited for the amount of calling purchased and is debited as the subscriber places calls, until the account balance is depleted. Subscribers are informed of the amount of calling time remaining on the card at the time they access the Company's equipment and enter a card identification number and are reminded to replenish the account prior to its depletion at one (1) minute prior to the account's depletion. Subscribers may immediately replenish the account at any time by contacting the Company's Customer service department and charging the desired amount to a valid credit card or by mailing a check to the Company. If the account is not replenished, access to the Company's underlying carrier network is blocked.

EXHIBIT C

**Narrative Summarizing All Changes Proposed by
Broadview NP Acquisition Corp.
d/b/a Broadview Net Plus
In Compliance with PUCO Opinion and Order
in Case No. 06-1345-TP-ORD**

PUCO Opinion and Order in Case No. 06-1345-TP-ORD provides that even within the P.U.C.O.'s mandatory detariffing environment, carriers must retain tariffs

“for purposes of complying with Commission and/or Federal Communications (FCC) directives including, but not limited to: primary interexchange carrier (PIC) change charges, Alternative Operator and Inmate Operator Services (AOS/IOS); late payment and bad check charges, per call and per line blocking; intrastate special and switched access services provided to carriers; N-1-1 service; pole attachments and conduit occupancy; pay telephone service; and telecommunications relay service.”

To comply with this directive, Broadview NP Acquisition Corp. d/b/a Broadview Net Plus (“Broadview Net Plus) has analyzed the provisions embodied in the Company’s Tariff P.U.C.O. No. 1. Set forth at Exhibit A hereto is the text which Broadview Net Plus is removing from Tariff P.U.C.O. No. 1 in order to comply with the dictates of the PUCO’s Opinion and Order. Set forth at Exhibit B hereto is the text of Tariff P.U.C.O. No. 1 which will remain on file with the PUCO following the effectiveness of Broadview Net Plus’ mandatory detariffing filing.

To the extent the provisions previously set forth in PUCO Tariff No 1 have not been superceded by PUCO rules, these rates, terms and conditions of service will continue to apply to Broadview Net Plus’ Ohio telecommunications service offerings.
