TARIFF FORMAT

- A. **Page Numbering** - Page numbers appear in the upper right corner of the page. Pages are numbered sequentially. However, new pages are occasionally added to the Tariff.  - 2.
 - 2.1
 - 2.1.1
 - 2.1.1 (A)
 - 2.1.1 (A).1
- D. **Check Page** - When a filing is made with the Commission, an updated Check Page accompanies the filing. The Check Page lists the pages contained in the Tariff, with a cross reference to the current revision number. When new pages are added, the Check Page is changed to reflect the revision.

SECTION 2 – RULES AND REGULATIONS

2.4 Use of Service

- 2.4.1 The Company's Services are available for use twenty-four hours per day, seven days per week. Unless otherwise restricted herein, Customers may use the Company's Service(s) to place and/or receive interstate calls.
- 2.4.2 The Service offered herein may be used for any lawful purpose, including residential, business, governmental, or other use. The Customer is liable for all obligations under this Tariff notwithstanding any sharing or resale of Services and regardless of the Company's knowledge of same. The Company will have no liability to any person or entity other than the Customer and only as set forth herein. The Customer will not use nor permit others to use the Service in a manner that could interfere with Service provided to others or that could harm the facilities of others.
- 2.4.3 Service furnished by the Company will not be used for any unlawful or fraudulent purposes including but not limited to use of electronic devices, invalid numbers, and false credit devices to avoid payment for Service contained in this Tariff either in whole or in part. Service furnished by the Company may not be used to make calls which might reasonably be expected to frighten, abuse, torment, or harass another. The Service may not be used for any purpose for which any payment or other compensation is received by the Customer except when the Customer is an authorized communications common carrier, an authorized resale common carrier, or an enhanced or electronic service provider who has subscribed to the Company's Service. However, this provision does not preclude an agreement between the Customer, Authorized User, or Joint User to share the cost of the Service as long as this arrangement generates no profit for anyone participating in a joint use or authorized use arrangement.
- 2.4.4 Service furnished by the Company may be arranged for joint use or authorized use. The Joint User or Authorized User will be permitted to use such Service in the same manner as the Customer, but subject to the following conditions.
- (A) The Customer must complete and provide to the Company all Service agreements and/or other documentation required by the Company to initiate Service.

SECTION 2 – RULES AND REGULATIONS

2.4 Use of Service (continued)

2.4.4 (continued)

- (B) One Joint User or Authorized User must be designated as the Customer. The designated Customer does not necessarily have to have communications requirements of its own. The Customer must specifically name all Joint Users or Authorized Users in the application for Service. Service Orders which involve the start, rearrangement or discontinuance of joint use or authorized use of Service will be accepted by the Company only from that Customer and will be subject to all requirements of this Tariff.
- (C) All charges for the Service will be computed as if the Service were to be billed to one Customer. The Joint User or Authorized User which has been designated as the Customer will be billed for all components of the Service and will be responsible for all payments to the Company. If designated Customer fails to pay the Company, each Joint User or Authorized User will be liable to the Company for all charges incurred as a result of its use of the Company's Service. Each joint or Authorized User must submit to the designated Customer a letter guaranteeing payment for the joint or Authorized User's portion of all charges billed by the Company to the designated Customer. This letter must also specify that the joint or Authorized User understands that the Company will receive a copy of the guaranty from the designated Customer. The designated Customer will be responsible for allocating charges to each Joint User or Authorized User.

SECTION 2 – RULES AND REGULATIONS

2.4 Use of Service (continued)

2.4.4 (continued)

(D) Joint use is a Service/billing allocation arrangement and not a resale arrangement. Neither the Customer nor any Joint User nor any third party engaged by either of them in connection with a joint use agreement or arrangement may mark up Service or otherwise profit from the joint use agreement or arrangement.

2.4.5 If the Company reasonably concludes that Customer-provided equipment does not pass back appropriate answer supervision to the long distance network, the Company will notify the Customer. If the Customer cannot correct the problem and if Customer-provided equipment continues to provide inappropriate answer supervision to the long distance network, the Company reserves the right to suspend or terminate the Customer's Service. The Company may give the Customer five (5) days' written notice of its intent to terminate Service in accordance with OAC 4901: 5-17 (G).

2.4.6 From time to time, the Company may grant credits against usage or monthly recurring or non-recurring charges in an amount not to exceed \$1,000 per Customer or account per monthly billing period whenever the Company determines in its sole discretion that such credit is warranted due to considerations involving the delivery of past service to the Customer or account receiving the credit.

2.4.7 The Customer will be billed directly by the LEC or CAP or any other authorized access provider for the Dedicated Access arrangements selected by the Customer for the provisioning of certain Switched Services. At the Customer's request, the Company may act as agent in the ordering of such arrangements. In instances where the Company orders such arrangements as an agent for the Customer, the Company will bill the Local Access charges to the Customer.

2.4 Use of Service (continued)

- 2.4.8 Upon nonpayment of any sum owing to the Company, or upon a violation of any of the provisions governing the furnishing of Service under this Tariff, the Company may, upon written notification to the Customer, without incurring any liability, immediately discontinue the furnishing of such Service in accordance with OAC 4901:17 (G). The Business Customer will be deemed to have canceled Service as of the date of such disconnection and will be liable for any cancellation charges set forth in this Tariff for term plans. If the Customer uses 10XXX or other carrier access codes once the Customer's account has been canceled by the Company, the Customer is a Customer of the DUC, not the Company; provided that where the Company has a Carrier Identification Code (CIC) separate from that of the DUC and the Customer uses 10XXX or similar means to access that CIC, the Customer remains a Customer of the Company if the agreement between the Company and the DUC so provides.
- 2.4.9 Nothing herein, or in any other provision of this Tariff, or in any marketing materials issued by the Company shall give any person any ownership, interest, or proprietary right in any code or TFS Number issued by the Company to its Customers.

SECTION 2 – RULES AND REGULATIONS

2.12 Mileage Measurements

2.12.1 Calls are mileage by the DUC that carries the call. The mileage between rate centers is calculated based on V and H coordinates as obtained by reference to AT&T Tariff FCC No. 10. Calculation between service wire centers is based on V and H coordinates as obtained by reference to NECA FCC Tariff No. 4. The mileage for a call between access lines associated with stations that use the same rate center is one mile. If Feature Group B is used, the distance will be measured from the rate center of the tandem location or network site to which the Feature Group B line is connected. If Feature Group D access is used, the distance will be measured from the rate center of the calling number.

2.12.2 Airline mileage between service locations is calculated as follows:

FORMULA:

$$\sqrt{\frac{(V1 - V2)^2 + (H1 - H2)^2}{10}}$$

Where V₁ and H₁ are the V and H coordinates of point 1 and V₂ and H₂ are the coordinates of point 2.

Mileage is rounded up to an integer value to determine the airline mileage.

2.12.4 Calculation of interoffice Channel mileage between the two Company-designated POPs is based on V and H coordinates as obtained by reference to National Exchange Carrier Association, Inc. Tariff F.C.C. No. 4. The Airline Mileage between two Company-designated POPs is calculated as follows:

FORMULA:

$$\sqrt{\frac{(V1 - V2)^2 + (H1 - H2)^2}{10}}$$

Where V₁ and H₁ are the V and H coordinates of point 1 and V₂ and H₂ are the coordinates of point 2.

2.12.5 For the IOC, Fractions of a mile are rounded up to the next whole mile before rates are applied.

2.13 Timing of Calls

2.13.1 On Direct-Dialed calls chargeable time begins when the called Station answers and the connection is established between the calling Station and the called Station, miscellaneous common carrier, mobile radio system, or PBX system. Answer detection is determined based on standard industry answer detection methods, including hardware and software answer detection. However, when Services are directly connected to a Customer-provided communications systems at the Customer's or End User's premises, chargeable time begins when a call terminates in, or passes through, the first Customer equipment on that Customer-provided communications system. It is the Customer's responsibility to furnish appropriate answer supervision to the point of interface with the Company's Service so that chargeable time may begin.

SECTION 2 – RULES AND REGULATIONS

2.15 Determining Rate In Effect

For outbound Services that are time-of-day sensitive, the time-of-day at the central office or POP associated with the calling station determines the rate in effect. For Toll Free Services that are time-of-day sensitive, the time-of-day at the central office or POP associated with the called station determines the rate in effect. If a unit of time is split between two (2) or more rate periods, each rate period applies to the portion of the call that occurred during that rate period rounded to the nearest billing increment. For Dedicated Access Services, when a call or unit of time is split between two rate periods, the rate is based on the rate period in which it began. When a Call spans more than one rate period, total charges for each rate period are calculated and the results for each rate period are totaled to obtain the total message charge.

(B) The Company reserves the right to withhold its authorization of such transfer of such Customer's TFS Number(s) until the Customer's indebtedness is resolved to the satisfaction of the terms and conditions of this Tariff and any agreement(s) between the Customer and the Company.

(C) The failure of the Customer to fulfill the terms and conditions of any agreement with the Company or the attempt to process a change of long distance service provider for the Customer's TFS Number(s) prior to the completion of a contract's terms and conditions (and/or before all payments and indebtedness have been paid or satisfied) shall cause the ownership of the TFS Number(s) to revert from the Customer to the Company, whereupon such Customer shall no longer possess the right to transfer such TFS Number(s) to any other long distance service provider and whereupon the Company shall have the right to reissue said number(s) at its sole discretion to any other party.

(D) A canceled TFS Number can be reestablished for the same Customer within four (4) months and, therefore, cannot be selected by another Customer. After four (4) months, the TFS Number is returned to the pool where it can be selected by another customer under any RespOrg.

TELEPHONE SERVICE REQUIREMENTS FORM
Pursuant to Case Nos. 99-998-TP-COI and 99-563-TP-COI

The provider affirms that it is in compliance with Commission directives concerning the following checked items, and that this represents an up-to-date listing of applicable "generic" service requirements. The provider understands that this in no way supersedes the context of the applicable Commission orders described below. Unless otherwise specified, this language replaces the need for related language to be contained in the provider's tariff.

A. MANDATORY REQUIREMENTS FOR BASIC LOCAL EXCHANGE AND CTS PROVIDERS (unless otherwise noted):

[x] 1. **SALES TAX** (See also Case No. 87-1010-TP-LINC)

Certain telecommunication services, as defined in the Ohio Revised Code, are subject to state sales tax at the prevailing tax rates, if the services originate, or terminate in Ohio, or both, and are charged to a subscriber's telephone number or account in Ohio.

[x] 2. **MTSS TARIFF REQUIREMENTS**

[x] The provider attests that its tariffs include:

- o provider-specific language addressing the deposit method (as cited in 4901:1-5-13) adopted by the company and approved by the Commission;
- o Toll Caps (choose one):
 - ☐ language addressing the provider-specific parameters of toll caps approved by the Commission, OR
 - X not applicable since the provider has not chosen to incorporate toll caps.
- o language regarding establishment of service, including requirements to establish creditworthiness, as cited in 4901:1-5-13;
- o language regarding residential service guarantors, as cited in 4901:1-5-14;
- o language regarding subscriber bills, as cited in 4901:1-5-15;
- o language regarding subscriber billing adjustments for local exchange service, as cited in 4901:1-5-16; and,

- o language regarding denial or disconnection of local and/or toll service, including the requirements for the reconnection of local and/or toll service, as cited in 4901:1-5-17.

Check the boxes below to attest that the provider shall adhere to the following criteria when the provider implements cancellation of service policies and/or requests an advance payment:

X Cancellation of Service:

When a customer cancels an application for service prior to the start of service or prior to any special construction, no charges will be imposed except for those specified below:

Where the company has notified a customer or prospective customer of the possibility that special expenses may be incurred in connection with provisioning the customer's service, and then the company does incur such expenses. Expenses could include special construction, or where special arrangements of facilities or equipment have begun before the company received a cancellation notice. The charge will be equal to the costs actually incurred, less net salvage;

X Advance Payment:

Advance Payment means a payment that may be required by the company as a means of being compensated for extraordinary expenses, including, but not limited to, special construction costs associated with a particular service installation.

[x] 3. SURCHARGES

The company shall not assess separately any taxes, fees or surcharges, other than government-approved sales taxes imposed directly on the end users, without seeking Commission approval under the appropriate procedures required by the Commission. Generally, the Commission will not grant the inclusion of gross receipts tax as a separate item on the bill unless special circumstances so warrant and the Commission specifically approves same. The company shall not place a separate line item on a customer's bill without sending notice to all customers

informing them of the new line item charges in accordance with Commission-adopted notice procedures.

The customer is responsible for the payment of all state, local and E9-1-1 taxes, surcharges, utility fees, or other similar fees for which the end user is directly responsible and that may be levied by a governing body or bodies in conjunction with or as a result of a service furnished under a tariff on file with the Public Utilities Commission of Ohio. These charges may appear as separate line items on the customer's bill, as opposed to being included in the rates contained in a tariff. Any such line item charges will be reflected in the company's tariff.

[] 4. **1+ INTRALATA PRESUBSCRIPTION – Basic Local Exchange Providers Only** (See Also Case No. 95-845-TP-COI, Guideline X.)

a. General

IntraLATA Presubscription is a procedure whereby a subscriber designates to the Telephone Company the carrier which the subscriber wishes to be the carrier of choice for intraLATA toll calls. Such calls are automatically directed to the designated carrier, without the need to use carrier access codes or additional dialing to direct the call to the designated carrier. IntraLATA presubscription does not prevent a subscriber who has presubscribed to an intraLATA toll carrier from using carrier access codes or additional dialing to direct calls to an alternative intraLATA toll carrier on a per call basis.

IntraLATA Presubscription will become effective upon the initial offering of certified local exchange service.

b. IntraLATA Presubscription Options

Option A: Subscriber may select the Telephone Company as the presubscribed carrier for intraLATA toll calls subject to presubscription.

Option B: Subscriber may select her/his interLATA toll carrier as the presubscribed carrier for intraLATA toll calls subject to presubscription.

Option C: Subscriber may select a carrier other than the Telephone Company or the subscriber's interLATA toll carrier as the

presubscribed carrier for intraLATA toll calls subject to presubscription.

Option D; Subscriber may select no presubscribed carrier for intraLATA toll calls subject to presubscription which will require the subscriber to dial a carrier access code to route all intraLATA toll calls to the carrier of choice for each call.

c. Rules and Regulations

Subscribers of record will retain their current dialing arrangements until they request that their dialing arrangements be changed.

Subscribers of record or new subscribers may select either Options A, B, C, or D for intraLATA Presubscription.

Subscribers may change their selected Option and/or their presubscribed intraLATA toll carrier at any time subject to charges specified in Paragraph E, below.

d. IntraLATA Presubscription Procedures

New subscribers will be asked to select an intraLATA toll carrier(s) at the time the subscriber places an order to establish local exchange service with the Telephone Company. The Telephone Company will process the subscriber's order for intraLATA service. The selected carrier(s) will confirm their respective subscribers' verbal selection by third-party verification or return written confirmation notices. All new subscribers' initial requests for intraLATA toll service presubscription shall be provided free of charge.

If a new subscriber is unable to make a selection at the time the new subscriber places an order to establish local exchange service, the Telephone Company will read a random listing of all available intraLATA carriers to aid the subscriber in selection. If selection is still not possible, the Telephone Company will inform the subscriber that he/she will be given 90 calendar days in which to inform the Telephone Company of an intraLATA toll carrier presubscription selection free of charge. Until the subscriber informs the Telephone Company of his/her choice for intraLATA toll carrier, the subscriber will not have a presubscribed intraLATA toll carrier, but rather will be required to dial a carrier access code to route all intraLATA toll calls to the carrier(s) of choice. Subscribers who inform the Telephone Company of a choice for intraLATA toll presubscription within the

90-day period will not be assessed a service charge for the initial subscriber request.

Subscribers of record may initiate an intraLATA presubscription change at any time subject to the charges specified in e.ii. below. If a customer of record inquires of the Telephone Company of the carriers available for intraLATA toll presubscription, the Telephone Company will read a random listing of all available intraLATA carriers to aid the subscriber in selection.

e. IntraLATA Presubscription Charges

i. Application of Charges

After a subscriber's initial selection for a presubscribed intraLATA toll carrier and as detailed in Paragraph D above, for any change thereafter, an IntraLATA Presubscription Change Charge, as set forth in Paragraph E.2. will apply.

ii. Nonrecurring Charges IntraLATA Presubscription Change Charge

Per business or residence line, trunk, or port:

--	Initial line, trunk, or port	\$5.00
--	Additional line, trunk, or port	\$1.50

Case No. 04-1875 - TP-C10

Case No. _____ - TRF

Issued: 12/14/05

(Date Filed)

Thanksgiving, and Christmas. Furthermore, the "night/weekend" discount plus an additional discount equivalent to no less than ten percent of the company's current, price list, "day" rates for basic MTS shall be made available for intrastate, interexchange, customer-dialed, station-to-station calls placed during the "night/weekend" period any day, the "day" period Sunday, and all day Saturday.

- d. All MTS calls placed through the telecommunication relay service (TRS) are eligible to receive a discount off the MTS rates. The rate discounts are the same as those set forth in paragraph 1.c. preceding. The discount shall not apply to sponsor charges associated with calls placed to pay-per-call services, such as 900, 976, or 900-like calls.

X 2. EMERGENCY SERVICES CALLING PLAN

Applicable to all CLECs and CTSs offering MTS (See also Case Nos. 85-1466-TP-COI and 89-54-TP-COI):

Message toll telephone calls to governmental emergency service agencies, as set forth in (a) following, having primary or principal responsibility with respect to the provision of emergency services to persons and property in the area from which the call is made, meeting the definition and criteria of an emergency call as set forth in (b) following, are offered at no charge to customers:

- a. Governmental fire fighting, Ohio State Highway Patrol, police, and emergency squad service (as designated by the appropriate governmental agency) qualify as governmental emergency service agencies provided they answer emergency service calls on a personally attended (live) 24-hour basis, 365 days a year, including holidays.
- b. An emergency is an occurrence or set of circumstances in which conditions pose immediate threat to human life, property, or both, and necessitate that prompt action be taken. An emergency call is an originated call of short duration to a governmental emergency service agency in order to seek assistance for such an emergency.

☐ 3. ALTERNATIVE OPERATOR SERVICES

The following applies to the provision of alternative operator services (AOS) including Inmate Facility Services. (See, also, Case No. 88-560-TP-

COI, December 30, 1991 Supplemental Opinion and Order and February 27, 1992 Entry on Rehearing):

Preceding the maximum operator-assisted surcharges set forth in the text of the proposed tariff, as well as preceding the operator-assisted surcharges set forth in the price list attached to the proposed tariff, the service provider must insert a statement which specifies whether the rates as set forth apply to the provider's provision of traditional operator services, alternative operator services (AOS), or both.

(A) Definitions

- (1) AOS are those services provided by the provider in which the customer and the end user are totally separate entities. The provider contracts with the customer to provide the AOS; however, the provider does not directly contract with the end user to provide the services even though it is the end user who actually pays for the processing of the operator-assisted calls. These do not include coin-sent calls.
- (2) Traditional operator services are those services provided by the provider in which the end user has a customer relationship with the provider, the provider contracts with the customer/end user to provide the services, and the customer/end user pays for the actual processing of the operator-assisted calls.

(B) AOS Service Parameters

- (1) Local operator-assisted calls:
For local operator-assisted calls, both live and automated, the AOS provider shall not charge the billed party more than the ILEC's price list rates for traditional local operator-assisted calls in the same exchange. This requirement includes both the local usage rate (either flat-rate per call or a minute-of-use rate per call) and applicable operator surcharges. The minutes-of-use rate for a local call shall be no higher than the rates for MTS identified in paragraph (B)(2), below.
- (2) MTS provided in conjunction with AOS:
For intraLATA and interLATA, intrastate toll service calls, each AOS provider must apply one of the following MTS price ceilings to the MTS provided in conjunction with AOS:

Mileage Band	Initial Minute	Each Additional Minute
1 - 10	.32	.16
11 - 22	.40	.22
23 - 55	.48	.28
56 - 124	.57	.37
125 - end	.58	.39

or;

\$.36 per minute of use

- (3) For intraLATA and interLATA, intrastate toll service calls, each AOS provider's maximum operator-assisted rates shall be no more than:

- (a) \$1.70 for customer-dialed calling card calls;
- (b) \$2.50 for operator-handled calls; and
- (c) \$4.80 for person-to-person calls.

- (4) Notice of any change in the rates stated above, whether it be upward or downward, must be maintained in the company's tariff (via its web-site or its tariff on file with the Commission), on or before the effective date.

(C) Secured Inmate Facilities:

The following provisions apply to those operator service providers (OSPs) providing service to a secured inmate facility where the originating caller does not have access to other OSPs for the call from the secured inmate facility.

- (1) Local operator-assisted calls:
For local operator-assisted calls, the AOS provider serving secured inmate facilities shall not charge the billed party more than the ILEC price list rates for a local operator-assisted call in the same exchange.
- (2) IntraLATA and interLATA intrastate toll service calls:
For intraLATA and interLATA intrastate toll service calls, the AOS provider serving secured inmate facilities shall not charge the billed party more than the ILEC price list rates for

an intraLATA intrastate call. This requirement includes both the rates for message toll service and operator surcharges.

- (D) The AOS providers shall not charge end users surcharges in addition to the price list rates for MTS and operator-assisted surcharges set forth in the AOS providers' tariffs. This restriction means that no surcharges, including but not limited to, bill rendering charges and any additional surcharge which a host facility may request the AOS provider to bill an end user, may be levied by the AOS provider on the end user. Any surcharges imposed by a host facility are to be billed separately by the host facility.
- (E) AOS and secured inmate facility services are not subject to either Tier 1 or Tier 2 regulatory treatment, but rather will remain subject to the provisions of these rules and the applicable provisions adopted by the Commission in Case No. 88-560-TP-COI.

X 4. LIMITATION OF LIABILITY

The following is applicable to all telephone companies that choose to include in their tariffs language which may limit their liability (See also Case No. 85-1406-AU-COI):

Approval of limitation of liability language by the PUCO does not constitute a determination by the Commission that the limitation of liability imposed by the company should be upheld in a court of law. Approval by the Commission merely recognizes that since it is a courts responsibility to adjudicate negligence and consequent damage claims, it is also the court's responsibility to determine the validity of the exculpatory clause.

X 5. TERMINATION LIABILITY

The following is applicable to all telephone companies who choose to include in their tariffs language which imposes early termination liability on a customer for termination of service prior to the designated term of service:

Inclusion of early termination liability by the company in its tariff or a contract does not constitute a determination by the Commission that the termination liability imposed by the company is approved or sanctioned by the Commission. Customers shall be free to pursue whatever legal remedies they may have should a dispute arise.

☐ 6. **SERVICE CONNECTION ASSISTANCE (SCA)**

The following is applicable to all LECs that offer local service to residential customers:

SCA is targeted to help defray the one-time, up-front costs of connecting to the local exchange network for qualified customers. It provides a waiver of the deposit requirement, full or partial waiver of the service connection charges.

☐ 7. **LOCAL NUMBER PORTABILITY and NUMBER POOLING**

See Case No. 95-845-TP-COI Guideline XIV, FCC Dockets 95-116 and 99-200. NOTE: LNP and number pooling are required of all facilities-based LECs, regardless of size, and CMRS where currently rolled-out by the FCC or as a result of a bona fide request unless granted an extension, exemption, or waiver by the Commission or the FCC.

☐ 8. **TARIFFING AND DISCONNECTION PROCEDURES FOR SERVICE PACKAGES OR BUNDLES**

Applicable to all LECs packaging or bundling regulated local services with toll service and/or unregulated services. See Rule 4901:1-6-21(C), Ohio Administrative Code.

☐ **Option 1****Tariffing**

Under option 1, LECs that package or bundle regulated local services with toll and/or unregulated services shall tariff only the regulated components of a package or bundle of services either as a package at a separate, single rate for the regulated components or individually at individual tariffed rates. The unregulated services and any rate(s) associated with the unregulated service components of any package or bundle of services shall not be tariffed.

Disconnection Procedures

Under option 1, if a customer fails to submit timely payment sufficient to cover the amount of the regulated charges, the LEC may discontinue the provision of the regulated services in compliance with Rule 4901:1-5-17, Ohio Administrative Code.

Staff Notice

Under option 1, LECs shall keep the Director of the Consumer Services Division and the Chief of Telecommunications of the Utilities Department informed and up-to-date on all current offers to consumers that bundle regulated local services with unregulated services at a single packaged rate, different from the rate shown in the tariff for the regulated components of the package. The notice to staff shall identify the regulated and unregulated services included and the packaged rate (the combined tariffed and untariffed rate).

☐ **Option 2**

Tariffing

Under option 2, LECs shall tariff the entire package or bundle of services including both regulated local services and toll and/or unregulated services for a single combined packaged rate (including any amount attributable to the unregulated components). The LEC shall clearly identify the services within the package and denote which services are unregulated.

Disconnection Procedures

Under option 2, if a customer fails to submit timely payment sufficient to cover the entire amount of the regulated and unregulated bundled packaged rate, the LEC may discontinue the provision of any regulated and unregulated services, other than basic local exchange service, if payment is sufficient to cover the rate for basic local exchange service. For purposes of this rule, the rate for basic local exchange service shall be the tariffed rate for stand-alone basic local exchange service. In the event a CLEC does not offer basic local exchange service on a stand-alone basis, the CLEC shall identify an amount in the tariff for the basic local exchange service component of the package. In no event shall this amount exceed the packaged rate. Further, if the customer loses services included in the package due to non-payment or partial payment pursuant to this rule, the customer shall be entitled to add, change, or discontinue any regulated services provided according to the LEC's normal procedures for adding, changing or discontinuing such services.

Disconnection Notice

Under option 2, the LEC shall, in its notice of disconnection for non-payment, state the total amount due to avoid discontinuance of the package, as well as the total amount due to avoid discontinuance of the basic local exchange service component of the package.

EXHIBIT C

**Narrative Summarizing All Changes Proposed by
Business Productivity Solutions, Inc.
In Compliance with PUCO Opinion and Order in Case No. 06-1345-TP-ORD**

In addressing the scope of its detariffing proceeding, the PUCO has instructed carriers that a tariff must be retained

“for purposes of complying with Commission and/or Federal Communications (FCC) directives including, but not limited to: primary interexchange carrier (PIC) change charges, Alternative Operator and Inmate Operator Services (AOS/IOS); late payment and bad check charges, per call and per line blocking; intrastate special and switched access services provided to carriers; N-1-1 service; pole attachments and conduit occupancy; pay telephone service; and telecommunications relay service.”

Consistent with the direction provided by the PUCO in Opinion and Order in Case No. 06-1345-TP-ORD, BPS has undertaken a comprehensive review of Tariff PUCO No. 1, which has heretofore contained rates, terms and conditions of PBS' toll telecommunications services (now detariffed by the PUCO) and has removed therefrom all text other than that related to topics such as the above. For the convenience of customers, however, BPS has also retained tariff language setting forth contact information for the Company. This contact information is also accessible on the Company's website.

Notwithstanding the detariffing of toll telecommunications services, previously tariffed information concerning the rates, terms and conditions of service for BPS' toll telecommunications service offerings in the State of Ohio is also accessible on the Company's website. To the extent these provisions have not been superceded by PUCO rules, these rates, terms and conditions of service will continue to apply to BPS' Ohio toll telecommunications service offerings.

Set forth at Exhibit A hereto are the pages of BPS PUCO Tariff No. 1 which are being removed in their entirety from the tariff presently on file with the PUCO.¹ Exhibit B, consisting of First Revised Pages 58, 60, 86, 95 and 99, sets forth the text which will remain on file with the PUCO following the effectiveness of BPS' mandatory detariffing filing.

¹ Please note that First Revised Page 95 is not being deleted in its entirety. As set forth in Exhibit A, this page has been redacted; the text which BPS proposes to retain is set forth on the corresponding page in Exhibit B.

EXHIBIT D

Rule 4901:1-6-05(G)(3) Statement of Business Productivity Solutions, Inc.

Business Productivity Solutions, Inc. As BPS advised the PUCO on March 18, 2008, that information may be found in BPS' tariff on-line, at 222.bizproductivity.com. At the bottom right, click on the "Rates Schedules, Tariffs and Price Lists" link and then select Ohio.
