Local Exchange Services consists of furnishing one way or two-way communication to or from a demarcation point on the customer's premises and another demarcation point within a Local Service Area as specified in Section 3 of this tariff.

Services, features and functions will be provided where facilities, including but not limited to, billing capability, technical capability and the ability of the company to purchase underlying services, features and functions and/or unbundled network elements ("UNEs") (as that term is defined by applicable law), either alone or in combination (including a combination of unbundled switching with other UNEs), are available. In this event, customers shall have an opportunity to cancel contracts or tariffed services without penalty.

2.6 CANCELLATION, DISCONTINUANCE AND CHANGES

Cancellation, Discontinuance and Changes of service are in accordance with the Ohio MTSS provisions as ordered in 96-1175-TP-ORD.

A. Cancellation of Service

1) Cancellation of Application for Service

When a customer cancels an application for service prior to the start of service or prior to any special construction, no charges will be imposed except for those specified below.

Where, prior to cancellation by the customer, the Company incurs any expenses in installing the service or in preparing to install the service that it otherwise would not have incurred, a charge equal to the costs the Company incurred, less net salvage, shall apply, but in no case shall this charge exceed the sum of the charge for the minimum period of services ordered, including installation charges, and all charges others levy against the Company that would have been chargeable to the customer had service begun.

Where the Company incurs an expense in connection with special construction, or where special arrangements of facilities or equipment have begun, before the Company receives a cancellation notice, a charge equal to the costs incurred, less net salvage, applies.

The charges described above will be calculated and applied on a case-by-case basis.

2.10 TELECOMMUNICATIONS RELAY SERVICE

The Company will provide access to a Telecommunications Relay Service (TRS). The service permits telephone communications between hearing and/or speech-impaired individuals who must use a Teletypewriter (TTY) and individuals with normal hearing and speech.

TRS assisted calls are calls completed through the TRS. This service permits hearing and/or speech impaired customers who use a Text Telephone (TT) or its equivalent to communicate with users of ordinary telephones. Communication takes place by relaying conversations (voice to TT and vice versa). These calls are between parties who must communicate by means of a TT and others who communicate by means of an ordinary telephone.

A completed TRS assisted call is rated and billed as a call from the originating telephone number (calling station) to the terminating telephone number (called station).

Direct dialed, calling card, credit/charge cards, AT&T PrePaid Cards and operator assisted calls may be placed through TRS. Cellular calls, conference calls and calls paid by depositing coins in a public or semi-public telephone are not permitted.

2. GENERAL REGULATIONS

2.11 EMERGENCY NUMBER SERVICE (ENS)

A. General

This tariff provides for Emergency Number Service (911 Service), which is an arrangement of Company Central Office and trunking facilities whereby a user who dials the telephone number "911" will reach the emergency report center for the telephone from which the number is dialed or may be routed to an operator if all lines to an emergency report center are busy. The telephone user who dials the 911 number will not be charged for the call.

Both 911 and E911 service are only available from Company switching facilities (where available) and via Company services that are equipped to provide and that do provide 911 or E911 service. The Company shall provide to the PSAP only such name, address and telephone number information as the Customer shall provide to the Company, and for any 911 or E911 call, the Company shall only pass to the PSAP such information, including ALI and/or ANI data, as the Customer's facilities, network or station equipment shall make properly available to the Company's network and equipment for transmission to the PSAP.

Universal Emergency Number Service (911) is a telephone exchange communications service whereby a Public Safety Answering Point (PSAP) serving the Customer's location may receive telephone calls dialed to the telephone number "911" from service users within a 911 service district.

Two types of 911 services are offered: Basic 911 (911) and Enhanced 911 Service (E911).

- 1) Basic 911 Service: provides for routing all 911 calls originated by telephones having telephone numbers beginning with a given central office prefix code or codes to a single PSAP equipped to receive those calls.
- 2) Enhanced 911 Service provides additional features, such as selective routing of 911 calls to a specific PSAP and Automatic Number Identification.

The 911 calling party waives the privacy afforded by non-listed and non-published service to the extent that the telephone number, address and name associated with the originating access line location are furnished to the PSAP.

B. Rules, Regulations and Terms And Conditions (ENS)

The Company does not undertake to answer and forward 911 calls, but furnishes the use of its facilities to enable the service users to have the ability to access the PSAP.

The services provided pursuant to this tariff do not include the monitoring of facilities to discover errors, defects and malfunctions in 911 or E911 services, facilities, or operations, nor does the Company undertake such responsibility. The Customer shall be responsible for making such operational tests as, in the judgment of the Customer, are required to determine whether 911 and E911 calls are functioning properly for its use. The Customer shall promptly notify the Company in the event the system is not functioning properly.

The Company's liability to the Customer, to any party dialing 911 using the Customer's facilities, or to any other party or persons, for any loss or damage arising from errors, interruptions, omissions, delays, defects, failures, or real functions of this service or any part thereof, whether caused by the negligence of the Company or otherwise, shall not exceed the amount equivalent to the pro-rate charges for the service affected during the period of time that the service was fully or partially inoperative. These limited damages shall be in addition to any credits which may be given for an out-of-service condition. This limitation of liability shall be in addition to any other limitations contained elsewhere in this tariff.

Customer agrees to defend Company against any such Claims and to pay, without limitation, all litigation costs, reasonable attorney's fees and court costs, settlement payments, and any damages awarded or resulting any such Claims.

C. Emergency Telephone Service Charge

The Company may assess Customers a fee, on a recurring basis, non-recurring basis, or both, to recover the costs incurred by the Company for providing 911 service, and may, where required or permitted, also assess and remit appropriate surcharges or other amounts payable to public or other agencies that provide 911 services.

Because the Company's serving boundaries may not coincide with political subdivisions and 911 service district boundaries, the Company may assess standard fees and surcharges upon all service users served by a central office providing 911 service.

EXHIBIT E

**Ohio Consumer Detariffing (Legacy T)
Customer Notice
New Rules Version 2.0**

Beginning on April 1, 2008, the prices, service descriptions, and the terms and conditions for intrastate long-distance services that you are provided by AT&T Communications of Ohio, Inc. (AT&T) will no longer be on file at the Public Utilities Commission of Ohio (PUCO).

This modification does not automatically result in a change in the prices, terms, or conditions of those services to which you currently subscribe. AT&T must still provide a customer notice at least 15 days in advance of rate increases, changes in terms and conditions, and discontinuance of existing services. Additionally, you will be able to view any of the company's new service offerings in a service guide online at att.com/serviceguide/home, or you can request a copy of this information by dialing 1 888 288-4099 or writing to: AT&T, P.O. Box 598022, Orlando, FL 32859-8022.

Since long-distance services will no longer be on file with the PUCO, this means that the agreement reached between the customer and the company, instead of the document on file at the PUCO, will now control new services or changes in service. This agreement, whether it is verbal or written, will still be subject to consumer protections required and enforced by the PUCO.

For any new services or changes in service, it will be important that you carefully review and confirm the price, terms and conditions.

If you have any questions about this matter, please call AT&T toll-free at 800-222-0300 or visit us at att.com. You may also visit the consumer information page on the PUCO's website at puco.ohio.gov for further information.

Detariff Notice

Attention Ohio Customers:

Beginning on April 1, 2008, the prices, service descriptions, and the terms and conditions for certain telecommunication services provided by AT&T Communications of Ohio, Inc. (AT&T) will no longer be on file at the Public Utilities Commission of Ohio (PUCO).

These services include all in-state long-distance services and various business local exchange services and features such as second and additional business access lines and local usage, non-published number service, Caller ID - Name, Call Waiting, Call Trace, N-1-1 access and usage, and per line number ID blocking. However, primary local access lines and associated services, access to presubscribed toll services, 911 emergency, operator, directory assistance, directory listings, telephone relay, Caller ID Number only, and per call caller ID blocking services will continue to remain on file at the PUCO.

This modification does not automatically result in a change in the prices, terms, or conditions of those services to which you currently subscribe. AT&T must still provide a customer with notice at least 15 days in advance of rate increases, changes in terms and conditions and discontinuance of existing services. Additionally, you will be able to view any of the company's new service offerings in a service guide available online at www.att.com/serviceguide/business or you can request a copy of this information by calling toll free at 1 888 612-2747.

As these services will no longer be on file with the PUCO, the agreement reached between the customer and the company, instead of the document on file at the PUCO, will now control new services or changes in service. This agreement, whether it is verbal or written, will still be subject to consumer protections required and enforced by the PUCO.

For any new services or changes in service, it will be important that you carefully review and confirm the price, terms and conditions. If you have any questions about this matter, please call AT&T toll free at 1 888 612-2747 or visit us at www.att.com/serviceguide/business.

This modification, or detariffing, of those services provided by AT&T that are not listed above, does not automatically result in a change to the prices, terms, or conditions of those services to which you currently subscribe. The terms, conditions, and charges that apply to all detariffed AT&T services for customers that do not have a written, customer-specific contract with AT&T are now governed by the AT&T Business Service Agreement. You will be mailed a copy of the AT&T Business Service Agreement during the month of April 2008. AT&T Customers can also find their contract provisions in the AT&T Business Service Agreement in the Service Guide which can be viewed at the AT&T web site: <http://www.att.com/business/agreement> beginning April 1, 2008. Important limitations of liability apply as set forth in the AT&T Business Service Agreement, including: AT&T will not be liable for any indirect or consequential damages (such as your lost profits or other economic loss); and AT&T's liability is limited to proven direct damages not to exceed, during any twelve (12) month period, an amount equal to the total net payments you made to AT&T for your affected service during the one (1) month preceding the month in which the damage occurred. You accept the terms of the AT&T Business Service Agreement by continuing to use any AT&T business services not covered under Ohio state tariffs. You will be mailed a copy of the AT&T Business Service Agreement noted above during the month of April 2008. If you want to discontinue your AT&T Service you may do so by notifying AT&T using the toll free number on your bill or contacting your Service Representative.

Additional terms, conditions, charges and price change information for all detariffed business services can be viewed at <http://www.att.com/serviceguide/business>. Price changes will be posted at this AT&T web site before they apply to your bill and you will receive notice 15 days prior to changes through direct mail and or bill messaging. These detariffed services remain subject to consumer protections required and enforced by the PUCO.

Customers with AT&T Ohio business telecommunications services currently under contract will continue to be governed by their contract terms and conditions for the term of the existing contract, and no action is required by such customers at this time. The Business Service Agreement is for informational purposes only.

If you have any questions about this matter, please contact your AT&T Sales Representative, or call the toll free number that can be found on your billing statement.
