LOCAL EXCHANGE SERVICE TARIFF
VANLUE EXCHANGE

The following identified service rates entitle subscribers of Vanlue Telephone Company Service to call, without additional charge, subscribers of the New Riegel and Findlay Exchanges of The Ohio Bell Telephone Company, Arcadia Exchange of the Arcadia Telephone Company, Mt. Blanchard and Wharton Exchanges of the General Telephone Company of Ohio, in addition to the other subscribers of the Vanlue Exchange.

RATES AND THEIR REGULATIONS

For the purposes of establishing local exchange service, rates the service territory of the Vanlue Telephone Company is divided into two areas: the Base Rate Area and Zone 1. (See map at Section 1, Second Revised Sheet No. 4).

The Base Rate Area consists of those areas formerly delineated as the Base Rate Area and Zones 1, 2 and 3. As of the effective date of this tariff, the Base Rate Area is an area encompassed by a circle having a radius of approximately three and one-half (3 1/2) miles, the center of which is the building used to house the switch equipment owned by the Vanlue Telephone Company.

Any location not in the area described above shall be considered to be in Zone 1, and shall pay an additional charge for one-party, two-party and multi-party line service.

4. An unpaid bill for previous toll service can be considered as a reason to deny service to an applicant seeking a new 1+ presubscription toll service account only when the unpaid bill is owed to the same telecommunications provider with whom the applicant is now seeking to establish or reestablish service and the class of service previously provided is the same as that the applicant is now seeking to establish or reestablish. If the previous unpaid bill is owed to a provider other than that with whom the applicant is seeking to establish service, the subsequent toll provider may not deny service on that basis alone, but may consider the applicant's unpaid debt, as well as any pertinent information obtained from a credit reporting bureau, in determining whether there exists a need to assess a toll deposit or take other measures to assure creditworthiness. Moreover, in no event shall local exchange service be denied to any local exchange service applicant on grounds that the service applicant has failed to pay for a type of service other than local exchange service.

C. So long as it acts in a just, reasonable, and nondiscriminatory manner, a local service provider may, pursuant to a contract obligating it to do so, enforce the tariff-established credit and deposit policies of another telecommunications provider.

D. Deposits

1. Deposits for local service shall be calculated separately from deposits for toll service.

a. "The individual service history method" involves calculating the amount of the deposit based on the known or estimated service history of the individual who is being assessed a deposit.

GENERAL RULES AND REGULATIONS

D. ESTABLISHMENT AND FURNISHING OF SERVICE (Continued)

2. Establishing Credit (Continued)

C. (Continued)

1. An unpaid bill for previous toll service can be considered as a reason to deny service to an applicant seeking a new 1+ presubscription toll service account only when the unpaid bill is owed to the same telecommunications provider with whom the applicant is now seeking to establish or reestablish service and the class of service previously provided is the same as that the applicant is now seeking to establish or reestablish. If the previous unpaid bill is owed to a provider other than that with whom the applicant is seeking to establish service, the subsequent toll provider may not deny service on that basis alone, but may consider the applicant's unpaid debt, as well as any pertinent information obtained from a credit reporting bureau, in determining whether there exists a need to assess a toll deposit or take other measures to assure creditworthiness. Moreover, in no event shall local exchange service be denied to any local exchange service applicant on grounds that the service applicant has failed to pay for a type of service other than local exchange service.

A. So long as it acts in a just, reasonable, and nondiscriminatory manner, a local service provider may, pursuant to a contract obligating it to do so, enforce the tariff-established credit and deposit policies of another telecommunications provider.

B. Deposits

1. The Company may, in order to safeguard its interest, require a deposit. The deposit will not exceed two hundred thirty per cent (230%) of the customer's average monthly bill based upon the customer's service account billing history for the same recurring regulated charges for the class of service seeking to be established with the telecommunications provider.
2. Deposits for new customers are calculated pursuant to Ohio Admin. Code 4901:1-5-05(B)(1)(a) or at the above method when the customer has a service account billing history.
