1. Local Exchange Service Regulations

1.1 Undertaking of the Company

- A The Company undertakes to provide the services in this tariff on the terms and conditions and at the rates and charges set forth herein. The services in this tariff are provided on a resale basis. Ameritech Ohio is the underlying incumbent local exchange carrier.
- B The Company is responsible under this tariff only for the services provided herein, and it assumes no responsibility for any service provided by any other entity, not including agents of the Company. Customers may use services provided under this tariff to obtain access to services offered by other service providers. However, this does not permit the Company to offer any services it purchased from Ameritech Ohio on a resale basis for resale to other carriers.
- C The Company will provide a toll-free number giving Customers access to service personnel 24 hours per day, 7 days per week.
- D The Company will comply with any applicable quality of service requirements according to Ohio laws and rules.

1.2 Terms and Conditions

- A Customers may be required to enter into written service orders which shall contain or reference a specific description of the service ordered, the rates to be charged, the duration of the services, and the terms and conditions in this tariff. The Customer will be required to execute any other documents as may be reasonably requested by the Company.

1. Local Exchange Service Regulations (cont'd)

1.2 Terms and Conditions (cont'd)

At the expiration of the initial terms specified in each service order, or in any extension thereof, service shall continue on a month to month basis at the then current tarified, month to month rates, unless terminated by the Customer. Any termination shall not relieve the Customer of its obligation to pay any charges incurred under the service order and this tariff prior to termination. The rights and obligations which by their nature extend beyond the termination of the term of the service order shall survive such termination.
- C This tariff shall be interpreted and governed by the laws of the State of Ohio without regard for the State's choice of laws provisions.
- D Another telephone company must not interfere with the right of any person or entity to obtain service directly from the Company.
- E The services the Company offers shall not be used for any unlawful purpose or for any use as to which the Customer has not obtained all required governmental approvals, authorizations, licenses, consents and permits.
- F The Customer has no property right to the telephone number or any other call number designation associated with services furnished by the Company. The Company reserves the right to change such numbers, or the central office designation associated with such numbers, or both, assigned to the Customer, whenever the Company deems it necessary to do so in the conduct of its business. Nothing in this provision shall be construed to be inconsistent with number portability requirements.

1.7 Interruptions in Service

An interruption is deemed to have occurred when the phone lines of the underlying provider are inoperative. If a Customer reports a facility, service or circuit to be inoperative but declines to release it for testing and repair, it is considered to be impaired, but not interrupted.

1.7.1 Temporary Suspension for Maintenance

A The Company's underlying provider shall have the right to make necessary repairs or changes in its services at any time and will have the right to suspend or interrupt service temporarily for the purpose of making the necessary repairs or changes in its system. When such suspension or interruption of service for any appreciable period is necessary, the Company will give the Customers who may be affected as reasonable notice thereof as circumstances will permit, and will perform the work with reasonable diligence, and if practicable at times that will cause the Customer the least inconvenience.

When the Company's services are being repaired or changed, it shall take appropriate precautions to avoid unnecessary interruptions of Customer's service.

1.7.2 Credit Allowance for Interruptions

A Interruptions of 24 hours or more, are reported to or detected by the Company, and which are not due to negligence or willful act of the Customer are credited to the Customer at the pro rata monthly charge involved for each twenty-four hours or fraction thereof of interruption. Credit is not allowed for interruptions to service of less than 24 hours. Credit allowances for service outages that exceed 24 hours in duration will be rounded up to the next whole 24 hours.

B For calculating credit allowances, every month is considered to have 30 days. A credit allowance for up to 48 hours is applied on a pro rata basis against the monthly recurring charges. A credit of at least one third of a month will be made for interruptions of 48 to 72 hours, and a credit of at least two-thirds of a month will be made for interruptions of 72 to 96 hours, with a full month credit for interruptions in excess of 96 hours. Only those facilities on

Call Forward

This optional feature allows all calls directed to a telephone number to be routed to a user defined telephone number. The user can activate/deactivate Call Forward and define a telephone number where all calls will be forwarded. Calls cannot be forwarded to an International Direct Distance Dialing (IDDD) number.

Call Forward Busy Line

This optional feature forwards calls to a busy station to a predetermined number. Calls cannot be forwarded to an International Direct Distance Dialing (IDDD) number. The user is charged any applicable usage charges for the forwarded call.

Call Forward Don't Answer

Allows users to re-route a call to a predetermined station in the event that the call is not answered within a customer-specified number of rings. Users are charged for any applicable usage charges on the forwarded call.

Call Pick Up

This optional feature allows a call to be answered from a different line by dialing a code. All lines in the group must be equipped with this feature. The Customer can have an unlimited number of lines in a Call Pick Up group.

Direct Connect Hotline

This optional feature allows a Customer to automatically dial a designated number whenever the originating telephone goes off hook. This feature is assigned to a phone which is used only for this purpose.

Hunting

This standard feature routes a call to an idle line in a prearranged group when the called telephone number is busy. Typically this feature is used with the customer's main telephone number and several subtending lines so that the customer can receive calls on several lines, although all calls are placed to the same number. Hunting will not work with Call Forward Busy and Don't Answer.

Speed Dial

This optional feature allows a Customer to designate up to six numbers to be called by dialing a code.

4.15.4 Company Prepaid Calling Cards.

This service permits use of Company Prepaid Calling Cards for placing long distance calls. Customers may purchase Company Prepaid Calling Cards at a variety of retail outlets or through other distribution channels. Company Prepaid Calling Cards are available at a variety of face values. Company Prepaid Calling Card service is accessed using the Company toll-free number printed on the card. The caller is prompted by an automated voice response system to enter his/her Authorization Code, and then to enter the terminating telephone number. The Company's processor tracks the call duration on a real time basis to determine the number of Telecom Units consumed. The total consumed Telecom Units for each call is deducted from the remaining Telecom Unit balance on the Customer's Prepaid Calling Card.

All calls must be charged against a Company Prepaid Calling Card that has a sufficient Telecom Unit balance. A Customer's call will be interrupted with an announcement when the balance is about to be depleted. Calls in progress will be terminated by the Company if the balance on the Company Prepaid Calling Card is insufficient to continue the call.

A card will expire 12 months from the date of first usage or last recharge. The expiration date will be provided to the Customer at the point of sale. The Company will not refund unused balances.

4. Toll Service Regulations (cont'd)

A credit allowance for Company Prepaid Calling Card Service is applicable to calls that are interrupted due to poor transmission, one-way transmission, or involuntary disconnection of a call. To receive the proper credit, the Customer must notify the Company at the designated toll-free customer service number printed on the Company Prepaid Calling Card and furnish the called number, the trouble experienced (e.g. cut-off, noisy circuit, etc.), and the approximate time that the call was placed.

When a call charged to a Company Prepaid Calling Card is interrupted due to cut-off, one-way transmission, or poor transmission conditions, the Customer will receive a credit equivalent of one Telecom Unit.

Credit allowances for calls pursuant to the Company Prepaid Card Service do not apply for interruptions not reported promptly to the Company or interruptions that are due to the failure of power, equipment or systems not provided by the Company.

Credit for failure of service shall be allowed only when such failure is caused by or occurs due to causes within the control of the Company.

The Company will block all calls beginning with the NPA "900" and NXX "976" calls, therefore such calls can not be completed.

4.16 Discontinuance of Service

- A In addition to enforcing, on its own behalf, the Company's own billing, credit/deposit and disconnection policies with respect to all regulated telephone services provided by the Company itself, the Company is not precluded from entering into formal contracts with other toll service providers which would authorize the Company as a formal contractual agent of such other toll service providers for purposes of enforcing the billing, credit/deposit, and disconnection policies of such other toll service providers.
- B Unless and until it has entered into a formal contract specifically authorizing it to do so, the Company is not permitted to enforce the billing, credit/deposit and disconnection policies of any toll service provider.
- C In Case No. 95-790-TP-COI, the Public Utilities Commission of Ohio established a policy under which the procedural and substantive safeguards which are afforded to applicants for local exchange service and to subscribers of local exchange service under Chapter 4901:1-5, O.A.C., as pertains to billing, establishing credit/deposits, and to disconnection, shall also inure to applicants for toll services, regardless of whether such service is provided by a local exchange company or another toll service provider. All practices of the Company, pertaining to either the provision of its own toll service, if any, or as a duly-authorized agent for another toll service provider, shall conform with this policy.

4. Toll Service Regulations (cont'd)

- D** When the Company disconnects toll service for nonpayment of toll debt, whether owed to the Company or to some other provider of toll service, the method of toll disconnection which the Company utilizes:
- (i) must not function as a vehicle by which the (nonpaying) toll subscriber is denied access, through presubscription, to any other toll service provider besides the one whose provision of toll service has precipitated the toll disconnection;
 - (ii) must be available from the Company, by tariff, on a nondiscriminatory basis to all toll service providers; and
 - (iii) may consist of either a depicing mechanism or else a selective toll blocking service.
- E** Neither purchase of the toll service provider's accounts receivable by the Company, nor a requirement that the Company be the billing and collection agent for the toll service provider, shall be established as a necessary precondition imposed by the Company in connection with its tariffed disconnection services offered on a nondiscriminatory basis to all toll service providers.
- F** The following toll disconnection service offerings will be available on a nondiscriminatory basis to all toll service providers in areas where implementation of intraLATA equal access has occurred. This will be the same method that the Company itself utilizes in connection with its own provision, if any, of toll service:
- (i) **DePICing.** DePICing is a method whereby a Customer's access to continued 1+ access to a specific toll provider is discontinued. It does not affect Customer's access to other toll provider's services. There will be no charge for this service.

TARIFF FORMAT

A. Sheet Numbering: Sheet numbers appear in the upper right corner of the page. Sheets are numbered sequentially. However, new sheets are occasionally added to the tariff. When a new sheet is added between sheets already in effect, a decimal is added. For example, a new sheet added between pages 11 and 12 would be page 11.1.

B. Sheet Revision Numbers: Revision numbers also appear in the upper right corner of each sheet where applicable. These numbers are used to indicate the most current page version on file with the Commission. For example, 4th Revised Sheet 13 cancels 3rd Revised Sheet 13. Consult the Check Sheet for the sheets currently in effect.

C. Paragraph Numbering Sequence: There are nine levels of paragraph coding. Each level of coding is subservient to its next higher level:

2.
2.1
2.1.1
2.1.1.A
2.1.1.A.1
2.1.1.A.1.(a)
2.1.1.A.1.(a).I
2.1.1.A.1.(a).I.(i)
2.1.1.A.1.(a).I.(i).(1)

D. Check Sheets: When a tariff filing is made with the Commission, an updated Check Sheet accompanies the tariff filing. The Check Sheet lists the sheets contained in the tariff, with a cross reference to the current Revision Number. When new sheets are added, the Check Sheet is changed to reflect the revision. All revisions made in a given filing are designated by an asterisk (*). There will be no other symbols used on this sheet if these are the only changes made to it (i.e., the format, etc. remains the same, just revised revision levels on some sheets). The tariff user should refer to the latest Check Sheet to find out if a particular sheet is the most current on Commission file.
