TARIFF FORMAT

- A. Sheet Numbering** - Sheet numbers appear in the upper right corner of the page. Sheets are numbered sequentially. However, new sheets are occasionally added to the tariff. When a new sheet is added between sheets already in effect, a decimal is added. For example, a new sheet added between sheets 14 and 15 would be 14.1.
- B. Sheet Revision Numbers** - Revision numbers also appear in the upper right corner of each page. These numbers are used to determine the most current sheet version on file with the Ohio Public Utilities Commission. For example, the 4th revised Sheet 14 cancels the 3rd revised Sheet 14. Because of various suspension periods, deferrals, etc. the Ohio Public Utilities Commission follows in its tariff approval process, the most current sheet number on file with the Commission is not always the tariff in effect. Consult the Check Sheet for the sheet currently in effect.
- C. Paragraph Numbering Sequence** - There are nine levels of paragraph coding. Each level of coding is subservient to its next higher level:
- 2.
 - 2.1
 - 2.1.1
 - 2.1.1.A.
 - 2.1.1.A.1.
 - 2.1.1.A.1.(a)
 - 2.1.1.A.1.(a).I.
 - 2.1.1.A.1.(a).I.(i).
 - 2.1.1.A.1.(a).I.(i).(1)
- D. Check Sheets** - When a tariff filing is made with the Ohio Public Utilities Commission, an updated Check Sheet accompanies the tariff filing. The Check Sheet lists the sheets contained in the tariff, with a cross reference to the current revision number. When new pages are added, the Check Sheet is changed to reflect the revision. All revisions made in a given filing are designated by an asterisk (*). There will be no other symbols used on this page if these are the only changes made to it (i.e., the format, etc. remain the same, just revised revision levels on some pages.) The tariff user should refer to the latest Check Sheet to find out if a particular sheet is the most current on file with the Ohio Public Utilities Commission.

The Company's services and facilities are furnished for communications originating at specified points within the State of Ohio under terms of this tariff.

The Company undertakes to provide the services offered in this tariff in accordance with the terms and conditions set forth under this tariff. The Company may act as the Customer's agent for ordering access connection facilities provided by other carriers or entities, when authorized by the Customer, to allow connection of a Customer's location to the Company. The Customer shall be responsible for all charges due for such service arrangement.

The Company's services and facilities are provided on a monthly basis unless otherwise provided, and are available twenty-four hours per day, seven days per week.

2.2 Limitations

- 2.2.1 Service is offered subject to the availability of the necessary facilities and equipment, or both facilities and equipment, and subject to the provisions of this tariff.
- 2.2.2 The Company reserves the right to discontinue or limit service when necessitated by conditions beyond its control, or when the Customer is using service in violation of provisions of this tariff, or in violation of the law.
- 2.2.3 The Company does not undertake to transmit messages, but offers the use of its facilities when available, and will not be liable for errors in transmission or for failure to establish connections.

SECTION 2 - RULES AND REGULATIONS, CON'T.

2.2 Limitations, con't.

2.2.4 All facilities provided under this tariff are directly controlled by the Company and the Customer may not transfer or assign the use of service or facilities without the express written consent of the Company. Such transfer or assignment shall only apply where there is no interruption of the use or location of the service or facilities.

2.2.5 Prior written permission from the Company is required before any assignment or transfer. All regulations and conditions contained in this tariff shall apply to all such permitted assignees or transferees, as well as all conditions of service.

2.3 Use

Services provided under this tariff may be used for any lawful purpose for which the service is technically suited.

2.4 Liabilities of the Company

2.4.1 The Company's liability for damages arising out of mistakes, interruptions, omissions, delays, errors, or defects in transmission which occur in the course of furnishing service or facilities, in no event shall exceed an amount equivalent to the proportionate charge to the Customer for the period during which the faults in transmission occur.

2.4.2 The Company shall not be liable for claim or loss, expense or damage (including indirect, special or consequential damage) , for any interruption, delay, error, omission, or defect in any service, facility or transmission provided under this tariff, if caused by any person or entity other than the Company, by any malfunction of any service or facility provided by any other carrier, by an act of God, fire, war, civil disturbance, or act of government, or by any other cause beyond the Company's direct control.

SECTION 2 - RULES AND REGULATIONS, CON'T.

2.4 Liabilities of Company, con't.

2.4.3 The Company shall not be liable for, and shall be fully indemnified and held harmless by Customer against any claim or loss, expense, or damage (including indirect, special or consequential damage) for defamation, libel, slander, invasion, infringement of copy-right or patent, unauthorized use of any trademark, tradename, or service mark, unfair competition, interference with or misappropriation or violation of any contract, proprietary or creative right, or any other injury to any person, property or entity arising out of the material, data, information, or other content revealed to, transmitted, or used by the Company under this tariff; or for any act or omission of the Customer; or for any personal injury or death of any person caused directly or indirectly by the installation, maintenance, location, condition, operation, failure, presence, use or removal of equipment or wiring provided by the Company, if not directly caused by negligence of the Company.

2.4.4 No agent or employee of any other carrier shall be deemed to be an agent or employee of the Company.

2.4.5 The Company shall not be liable for any defacement of or damages to the premises of a Customer resulting from the furnishing of service which is not the direct result of the Company's negligence.

2.4.6 No third party provider or their directors, officers or employees that are directly or indirectly associated with the Company's performance of our services shall be liable to the Customer for any special, indirect, incidental, consequential, reliance, exemplary, punitive or other damages arising out of a service failure.

2.4.7 Approval of the above tariff language by the PUCO does not constitute a determination by the Commission that the limitation of liability imposed by the Carrier should be upheld in a court of law. Approval by the Commission merely recognizes that since it is a court's responsibility to adjudicate negligence and consequent damage claims, it is also the court's responsibility to determine the validity of the exculpatory clause.

Under the terms of the Selective Access Policy, the Company may not deny establishment of 1+ presubscribed toll service on the grounds that the Customer has failed to establish creditworthiness, if:

- (a) the Customer is able to establish creditworthiness using one of the means for doing so available under the Public Utilities Commission of Ohio's (PUCO) rules, or
- (b) the Company, exercising its own discretion, does not require the Customer to establish creditworthiness (through any of the means available for doing so under the PUCO's rules), or

When a prospective Customer, who has previously been universally blocked for nonpayment of toll charges by another carrier, seeks to select the Company as his or her 1+ carrier of choice, the Company may, subject to our tariffed toll deposit policies and the Commission's rules on establishment of service (See Rules 4901:1-5-14 and 4901:1-5-15, Ohio Administrative Code, [O.A.C.]), require a deposit for toll service. SECTION 3 - DESCRIPTION OF SERVICE AND MAXIMUM RATES

3.1 General

Each Customer is charged individually for each call placed through the carrier. charges are computed on an airline mileage basis as described in Section 3.4 of this tariff.

Rates vary by mileage band, time of day, call duration and by originating and terminating access type.

Customers are billed based on their use of the Company's long distance service.

3.2 Timing of Calls

3.2.1 Long distance usage charges are based on the actual usage of the Company's network. Chargeable time begins when a connection is established between the calling station and the called station. Chargeable time ends when either party "hangs up" thereby releasing the network connection.

3.2.2 Unless otherwise specified in this tariff, after the initial minimum period usage is beyond the minimum call duration is measured and rounded to the next higher six second increment for billing purposes. The initial minimum period for each product is specified in the individual service descriptions contained in this tariff.

SECTION 3 - DESCRIPTION OF SERVICE AND MAXIMUM RATES, CON'T.

3.3 Calculation of Distance

Usage charges for all mileage sensitive products are based on the airline distance between the serving wire center locations associated with the originating and terminating points of the call.

The distance between the originating and terminating points is calculated by using the "V" and "H" coordinates of the serving wire centers as defined by BellCore (Bell Communications Research), in the following manner:

- Step 1 Obtain the "V" and "H" coordinates for the serving wire center of the Customer's switch and the destination point.
- Step 2 Obtain the difference between the "V" coordinates of each of the serving wire centers. Obtain the difference between the "H" coordinates.
- Step 3 Square the differences obtained in Step 2.
- Step 4 Add the squares of the "V" difference and "H" difference obtained in Step 3.
- Step 5 Divide the sum of the square obtained in Step 4 by ten (10) . Round to the next higher whole number if any fraction results from the division.
- Step 6 Obtain the square root of the whole number obtained in Step 5. Round to the next higher whole number if any fraction is obtained. This is the distance between the originating and terminating serving wire centers of the call.

Formula:

$$\sqrt{\frac{(V_1 - V_2)^2 + (H_1 - H_2)^2}{10}}$$
