In addition to the rates and charges applicable according to the rules and regulations of this tariff, various surcharges and taxes may apply to charges incurred by and billed to the customer on the monthly billing statement. The Customer is responsible for payment of any and all such fees (including franchise and right-of-way fees), charges, surcharges, contributions and taxes, however designated, (including without limitation universal service contributions, telephone relay service contributions, sales, use, gross receipts, excise, access or other taxes, but excluding taxes on the Company's net income) imposed by any local, state, or federal government on or based upon the provision, sale or use of the Company's services. 14.22 SCHOOLS AND LIBRARIES DISCOUNT PROGRAM

14.22.1 General

The Schools and Libraries Discount Program permits eligible schools (public and private, grades Kindergarten through 12) and libraries to purchase Carrier's services offered in this tariff at a discounted rate, in accordance with the Rules adopted by the Federal Communications Commission (FCC) in its Universal Service Order 97-157, issued May 8, 1997 and applicable Public Utilities Commission orders, if any. The FCC's Rules are codified at 47 Code of Federal Regulation (C.F.R.) 54.500 et. seq.

As indicated in the Rules, the discounts will be between 20 and 90 percent of the pre-discount price, which is the price of services to schools and libraries prior to application of a discount. The level of discount will be based on an eligible school or library's level of economic disadvantage and by its location in either an urban or rural area. A school's level of economic disadvantage will be determined by the percentage of its students eligible for participation in the national school lunch program, and a library's level of economic disadvantage will be calculated on the basis of school lunch eligibility in the public school district in which the library is located. A non-public school may use either eligibility for the national school lunch program or other federally approved alternative measures to determine its level of economic disadvantage. To be eligible for the discount, schools and libraries will be required to comply with the terms and conditions set forth in the Rules. Discounts are available only to the extent that they are funded by the federal universal service fund. Schools and libraries may aggregate demand with other eligible entities to create a consortium.
