6. Subsequent line additions/deletions to the original service contract period are stipulated as follows:
 - a. Subsequent additions will be added to an existing contract, based upon the remaining period of the initial contract.  - b. Subsequent line deletions, resulting in reductions equal to or exceeding 20% of the initial quantity of lines under contract, will be considered a termination liability and treated as specified in E.9. below. 8. Service Contract Plan

- a. The monthly rate for Centrex service under the term payment plan for the periods of 24, 36, 48, or 60 months is subject to Company initiated rate increases. The Public Service Commission of Ohio ordered rate changes supersede the rates, terms, and conditions of this Tariff.
- b. Centrex station line additions under the term payment plan may be made at contracted rates for the duration of the contract period. If this election is made, the additions would be subject to termination liabilities.
 - 1) Upon expiration of the term payment plan, the customer must select a new contract period as offered in the current tariff, or revert to current tariff rates for the month-to-month payment option.

9. Termination Liability

Termination liability for all or part of Centrex Service is as follows:

a. Full Termination

Discontinuance of entire Centrex service within the initial service contract period will be calculated as the lesser amount of the following:

- 1) The difference between the amount the customer would be charged for the period the service was installed, had the one (1) month rate been selected and what was charged under the selected service contract plan period from the date the system was installed, or;

9. Termination Liability (Continued)

a. Full Termination (Continuee)

- 2) The remaining number of months times the originally selected contract period monthly rates times fifty percent.

Under either of the above options, the termination calculation applies only to the Centrex line rate and the number of line the customer has selected under the service contract plan.

b. Partial Terminations

Failure to maintain the contracted for Centrex Lines on a monthly basis, as specified in the Service Contract Plan selected by the customer, will result in billing the customer for unused lines. This billing will be based on the contracted for number of Centrex lines, less the number of lines in service at the end of the month, times the lesser or:

- 1) The difference between the amount the customer would be charged had the one (1) month rate been selected and what would have been charged under the selected service contract plan payment period for the line; or,
- 2) The originally selected Service Contract Period monthly rate times fifty percent.

c. Moves

Moves of the primary location within the LATA will be subject to termination liability except when the move is within the same serving wire center area and the customer subscribes to the same or greater number of lines.

Moves of secondary locations to a non-continuous property location do not constitute termination of the Centrex Service Agreement.
