**Investigation Report**

**Project Description:** This project would expand the fence line of the Tangy Substation approximately 22 feet to the east, representing a 3.9 percent increase. The expansion is necessary to facilitate the installation of new voltage transformation and control equipment at the substation.

**Site Description:** An existing access road would be utilized for construction and no significant vegetative clearing is required. No new r-o-w would be required. Land use in proximity to the project consists of utility and railroad uses. This project is located in Delaware Township, Delaware County.

**Discussion/Comments/Concerns:** The construction of this project should pose only minimal negative social and ecological impacts.
