

May 9, 2008

Ms. Renee J. Jenkins
Docketing Division Chief
The Public Utilities Commission of Ohio
180 East Broad Street, 12th Floor
Columbus, Ohio 43215-3793

**RE: Case No. 90-5013-TP-TRF
Case No. 08-368-TP-ATA**

Dear Ms. Jenkins:

Cincinnati Bell Telephone Company LLC (CBT) is submitting revised tariff pages to Exchange Services Tariff, PUCO No. 1. Please replace the previously submitted tariff pages associated with the case number as noted above filed on April 2, 2008 with the attached.

These revisions are a result of discussions with Ms. Ambrosia Logsdon of the PUCO Staff or reflect textual modifications.

Introduction – this section is replaced in its entirety; revisions reflect textual modifications
Section 1 - revision reflects textual modification
Section 3 - revisions reflect textual modifications
Section 5 - this section is replaced in its entirety; revisions reflect textual modifications
Section 6 – this section is replaced in its entirety; revisions reflect removal of Long Distance Service references
Section 7 – revisions reflect textual modifications
Section 19.1 - this section is replaced in its entirety; revisions reflect removal of Long Distance Service references

Any questions regarding this transmittal should be directed to me at 513-397-1378.

Sincerely,

/s/ Evelyn W. King
Regulatory Specialist
Government Relations

PUCO NO. 1

CINCINNATI BELL TELEPHONE COMPANY LLC

Introduction
Original Page 12

TIER CLASSIFICATION

The Company's services are divided into six categories in accordance with the Rules for an Elective Alternative Regulation Plan for ILECs, established in PUCO Case Nos. 00-1532-TP-COI and 05-1305-TP-ORD. The six categories and the price flexibility for each category are as follows:

Tier 1 Core: (No BLES Alt Reg)	Rates for Tier 1 Core services are capped at the rates in effect as of July 1, 2004, and may not increase above this cap for so long as the Company remains under this elective alternative regulation plan or if these services qualify for alternative regulation treatment pursuant to Case No. 05-1305-TP-ORD.
Tier 1 Core (BLES Alt Reg)	Monthly rates for Tier 1 Core (BLES Alt Reg) services - basic local exchange service as defined in O.A.C. 4901:1-4-01 and basic Caller ID - are capped at annual increases of no more than \$1.25 and \$0.50, respectively. In following years, the upward pricing flexibility similarly is limited. Annual increase allowances will not be carried over in subsequent years. Lifeline rates are capped at the rates effective November 28, 2006.
Tier 1-Noncore: (No BLES alt reg)	The cap for all Tier 1-Noncore services, except a second local exchange access service line and Call Waiting, is double the rate in effect on July 1, 2004. Rates may change to any amount not exceeding the cap, except rates for a second local exchange access service line and Call Waiting shall be limited to no more than a 10% increase per year for each service, up to a maximum cap that is double the rate in effect on July 1, 2004 for each service. The maximum rates shown in the tariff are the highest rates allowed at any time under the elective alternative regulation plan.
Tier 1-Noncore (BLES Alt-Reg):	Rates for Tier 1-Noncore (BLES Alt-Reg) services are subject to Tier 2 pricing flexibility.
Tier 2:	Rates for Tier 2 services are not subject to any rate cap and may be priced at market based rates.
Non-Tier:	Rates for Non-Tier services are governed by the rules for non-specific service charges established in Case No. 00-1532-TP-COI or by rules and regulations established in other proceedings. Non-Tier services include access services, conduit occupancy, construction, N11 Services including E911, late payment fees, payphone lines and usage, pole attachments, and returned check fees. Tier pricing rules do not apply to these services.

DEFINITIONS

Directory Listing

The publication in the Company's alphabetical directory of information pertaining to a customer's telephone number, which allows telecommunications users to locate the desired telephone number.

Exchange

A unit established by the Company for the administration of telecommunications service in a specified area which usually embraces a city, town, or village and its environs. It consists of one or more central offices together with the associated plant used in furnishing telecommunications service within that area.

Exchange Access Line

Denotes all equipment and facilities from the central office line up to and including the Company provided and maintained network interface or demarcation point on a customer's premises, encompassing the central office line and all lines connected to a central office line for access to an exchange.

Exchange Area

The area within which the Company furnishes telecommunications service at the exchange rates and charges applicable within that area.

Exchange Service

The service of furnishing facilities for telecommunications within a local service area, in accordance with regulations, rates, and charges specified in this tariff. The following are classified as types of exchange service:

Flat Rate Service

Customer exchange service for which a stipulated monthly rate is charged, covering all local message use within a defined area.

Measured Service

Customer exchange service which is usage sensitive. In addition to a basic monthly charge for an access line, the customer is billed for usage based upon the duration of the originated calls.

F. MEASURED SERVICE

1. General

Measured Service allows subscribers to control charges for monthly telephone service by controlling usage. Besides a basic monthly charge for the access line, a subscriber is billed for usage based upon the duration of originated calls. Chargeable time includes the initial minute plus the additional minutes or fraction thereof, if any.

Measured Service is furnished subject to the availability of facilities.

The monthly charges for measured service are listed in Part D of this section of the tariff.

The Operator Completion of Local Calls charge (Section 9, Part D of this tariff) applies in addition to the usage charges when the customer requests the assistance of the Company operator to complete a local call or a call to a cellular telephone service number that is not a toll call.

H. LOCAL USAGE DETAIL

1. General

Local Usage Detail is an option for Measured Service and Community Connection Service customers who desire a printed listing of call details instead of the usual summary billing of local usage.

Requests for Local Usage Detail must be received prior to the billing date on which it is to be initiated.

To establish Local Usage Detail, the initial charge to establish or change billing arrangements will apply as given in Section 3, Part E of this tariff. The change of billing arrangement charge does not apply to discontinue Local Usage Detail.

MISCELLANEOUS LOCAL SERVICES AND CHARGES

A. RETURNED CHECK CHARGE

An administrative charge will apply on each occasion a check, draft, or electronic funds transfer item is presented for payment for service by a subscriber and is not accepted by the institution upon which it is drawn.

Returned Check Charge, per check (USOC REK): \$25.00

B. LATE PAYMENT FEE

For unpaid balances of \$25.00 or more, a late payment fee (LPF) will be \$5.00 or an amount that equals one and one-half percent (1.5%) per month on the unpaid balance on all local exchange service regulated revenue owed to the Company, whichever is greater.

The late payment charge does not apply to accounts receivable purchased from other providers, not paid on or before the due date on the monthly bill

The late payment charge not apply to amounts that are in dispute.

If the regulated charges are not paid within the 21-day period following the bill date printed on the bill, a late payment fee will be assessed.

C. RESTORAL OF SERVICE CHARGE

1. General

When service of a customer has been temporarily denied in accordance with Section 2, Part D of this tariff, but the contract has not been terminated, or the order to remove the service has not been issued and completed; service will be restored following adjustment of the circumstances that caused the temporary denial, upon the payment of a restoration charge per exchange access line for residence or nonresidence service. If service has been denied for non-payment of charges due, the customer must pay all charges due. Temporary denial status will be maintained for a minimum period of five days, after which the service will be discontinued. Subsequent to the completion of a discontinuance order, service will be reestablished only upon the basis of a new service application.

MISCELLANEOUS LOCAL SERVICES AND CHARGES

D. MAINTENANCE OF SERVICE CHARGE

The Company undertakes to maintain and repair the equipment and facilities which it furnishes to customers pursuant to its tariffs. The customer will be responsible for damages to equipment or facilities of the Company caused by the negligence or willful act of the customer.

The customer may not rearrange, disconnect, remove, or attempt to repair, or permit others to rearrange, disconnect, remove, or attempt to repair any equipment or facilities which the Company maintains or repairs without the express consent of the Company.

If trouble develops and the customer has any equipment or facilities which the Company does not maintain or repair, the customer will make appropriate tests to determine whether that equipment or facility is the cause of the trouble before reporting an out of service or other trouble condition to the Company.

Customers will be required to pay the maintenance of service charges, listed in this Part D, for visits made by the Company to the customer's premises, when a service difficulty or trouble report results from equipment or facilities not maintained or repaired by the Company. The customer will be advised, before a visit to the premises, of the possibility of a maintenance of service charge.

The Company or its agent will provide a written statement of the time and charges for any maintenance of service charge to the customer or his designated agent before leaving the customer's premises. The Company or its agent will request the customer or designated agent to signify acceptance of the statement of time and charges by signature on the statement.

Maintenance of Service Charge - Residence and Public Telephone Service:

- | | |
|--|---------|
| 1. First 15 minutes or fraction thereof: | \$31.50 |
| 2. Each additional 15 minutes or fraction thereof: | 9.00 |

Note: See the Company's Nonresidence Service Agreement - Local Telephone Services for rates, terms, and conditions applicable to nonresidence customers.

E. LOCAL SERVICE FREEZE

Local Service Freeze (LSF) will be provided upon customer request to control instances of unauthorized switching of local service.

Only the subscriber to LSF can authorize the removal of LSF from the account to allow for an authorized migration of service to another local service provider.

Approved methods of LSF removal include:

Submission of Letter of Agency (LOA) to the Company with the current subscriber's signature.

Three-way telephone call with the Company representative, the current subscriber, and the potential new local service provider.

Customer's electronically signed authorization.

The Company will adhere to the guidelines for preferred carrier freeze (PCF) for local exchange service, as found in Minimum Telephone Service Standards, Chapter 4901:1-5 O.A.C.

There is no recurring charge or nonrecurring charge to add or remove the LSF.

F. DISCOUNTS

1. General

Discounts specified in this section apply only towards the regular monthly rates for flat rate or measured local exchange services lines included in this tariff. The discount in connection with measured service applies to the monthly rate but not to charges for local usage.

2. Municipal, County, and State Departments

A discount of 20 percent from the regular nonresidence rate is allowed to municipal, county, and state departments, and their branches having the qualifications indicated below. The service must be located in the administrative offices of the department or branches, and be used exclusively for municipal, county, or state governmental purposes.

In order to qualify for the discount, a municipal, county, or state department or its branch must be engaged in a governmental function and must derive its principal support from taxes levied by a municipality, county, or state. Municipal, county, or state departments or their branches which are engaged in non-governmental functions of a character similar to private business enterprises, and which do not derive their principal support from taxes levied by a municipality, county, or state, do not qualify for the discount.

3. Public, Parochial, and Private Schools

A discount of 20 percent from the regular nonresidence rates is allowed to municipal, county, and state public schools and to parochial and private schools of the character indicated below. The service must be located in a school or its administrative offices and be used exclusively for school purposes.

A public school, in order to qualify for the discount, must be an elementary, middle or high school, or college with a curriculum of studies customarily provided in a public school, which derives its principal support from taxes levied for school purposes by a municipality, county, or state, and to which enrollment is open to the public generally.

A parochial or private school, in order to qualify for the discount, must be an elementary, middle or high school with a curriculum of studies similar to that customarily provided in a public school.

F. DISCOUNTS (Continued)

4. Employees

a. General

Service furnished to active and retired employees under this section must be located in the employee's residence and its use must be restricted to the employee and members of his or her immediate family.

One-time charges related to installation of central office services are not applicable to service furnished to employees under this section.

b. Active Employees with More Than Six (6) Months of Service

A discount from the regular residence local exchange service rates is allowed to active employees with more than six months of net credited service. A forty percent discount applies to all residence local exchange services including: basic exchange service, miscellaneous central office services and additional directory listings.

c. Active Employees with More Than Thirty (30) Years of Service and Retired Employees

Appropriate residence local exchange service is furnished without charge to active employees with more than thirty years of net credited service and to retired employees receiving a service or disability pension.

d. Company Service

Access lines are furnished without charge at the residences of certain active employees whose duties require that they be accessible to call when the Company considers the service essential to its operations. Other services are provided at the discounts stated in this Part F.

G. HUNTING - RESIDENTIAL

1. General

Hunting Service is the process by which two or more exchange service lines of the same class, served from the same central office and furnished to the same residential customer, are grouped so that incoming calls overflow to the first non-busy line if the called line is busy. A busy signal is not given unless all the grouped lines are busy.

Residential Hunting service may be set up on a serial, sequential or multiline group basis.

Charges for Residential Hunting Service on exchange access lines are applied as indicated herein and are in addition to the regular individual line rate.

2. Rates and Charges

	Monthly <u>Rate</u>	Nonrecurring <u>Charge</u>

MISCELLANEOUS LOCAL SERVICES AND CHARGES

H. SELECTIVE CALL ACCEPTANCE

1. Service Description

Selective Call Acceptance allows a subscriber to establish a list of numbers that are to be accepted on the subscribers' line. When an incoming call is from a telephone number that is on the list, it will be completed. If an incoming call is from a telephone number that is not on the list, it will be routed to a local telephone number that has been predetermined by the subscriber. A Company representative will work with the subscriber to initialize and update the acceptance list. The initialization of the list and any subsequent updates to the list are subject to the nonrecurring charges found in this Part H. The number of telephone numbers that appear on the acceptance list will be subject to subscriber needs and technical feasibility.

Selective Call Acceptance calls will be routed within the local network.

If the network receives a calling party number where the handling of the call has not been predetermined, (i.e. new telephone number), the call will be routed to a predetermined default location, that has been selected by the subscriber.

If the network does not receive the required information necessary to process a call (i.e. out-of-area), the call will be routed to a predetermined default location, that has been selected by the subscriber.

2. Regulations

Provisioning of the element associated with this tariff is subject to the availability and operational limitations of the equipment and associated facilities.

In the event that a call originates outside the Cincinnati LATA, the company will use its best efforts to maintain compatibility with any carrier required to complete such calls.

A Company technician will review each subscriber line in order to determine technical feasibility and any possible impact to other services that the subscriber has on their line.

Standard network traffic controls within the subscriber's serving central office may limit the number of queries launched to this service. If this occurs, normal call processing will occur as if the subscriber did not have the Selective Call Acceptance service, i.e. calls will not be screened by Selective Call Acceptance.

MISCELLANEOUS LOCAL SERVICES AND CHARGES

I. REMOTE CALL FORWARDING

1. General

Remote Call Forwarding (RCF) is a service which allows a call placed from a station (the originating station) to a customer's (the RCF customer) telephone number (the call forwarding location) to be automatically forwarded by Company central office equipment to another station designated by the RCF customer (the terminating station) which is (1) interexchange, (2) local exchange service, (3) 800 Service (Inward Wide Area Telecommunications Service), or (4) foreign exchange service (FX). RCF may be used with foreign exchange service to forward calls via network facilities when the foreign exchange line is busy. This service is available only where the terminating station has incoming-call dial capability.

2. Limitations of the Service

RCF service is offered subject to the availability of suitable facilities.

RCF service is not offered where the terminating station is a coin telephone.

The Company will not provide identification of the originating telephone number to the RCF customer.

Transmission characteristics may vary depending on the distance and routing necessary to complete the remotely forwarded call.

RCF is not represented as being suitable for satisfactory transmission of data.

Regular call forwarding should not be offered as a feature at the RCF terminating station.

Remote Call Forwarding is provided on the condition that the customer subscribes to sufficient RCF features and facilities to adequately handle calls to the terminating station(s) without interfering with or impairing any services offered by the Company. If in the opinion of the Company, additional RCF features at the call forwarding location or facilities at the terminating station are needed, the customer will be required to subscribe for such additional RCF features and facilities. In the event the customer refuses to subscribe for these additional RCF features and facilities, the customer's RCF service will be subject to termination.

MISCELLANEOUS LOCAL SERVICES AND CHARGES

I. REMOTE CALL FORWARDING (Continued)

3. Regulations

a. Message Charges

The message charges applicable to remotely forwarded calls are comprised of two separate charges:

1. Charge for the portion of the call from the originating station to the call forwarding location

The charge for this portion of a remotely forwarded call will be the charge applicable for the type of call involved.

2. Charge for the portion of the call from call forwarding location to the terminating station.

The remote call forwarding customer is responsible for the applicable customer-dialed station-to-station toll charge. On local calls, the customer is responsible for the payment of a charge equivalent to the usage rates for originated customer-dialed measured service calls as specified in Section 3, Part F of this tariff.

Usage allowances are not applicable to RCF. The preceding charges apply to all calls answered at the terminating station, including person-to-person and collect calls, even though such calls might not be accepted at the answering location.

b. Number Changes

The initial charge applies each time:

The number is changed at the call forwarding location.

The number to which calls are forwarded is changed at the request of the customer.

c. Directory Listings

One listing is provided without additional charge in the directory covering the exchange in which the call forwarding central office is located.

d. Minimum Service Period

The minimum service period for this service is two months.

J. DUAL SERVICE

1. Terms and Conditions

Dual Service is a service allows calls to a telephone number to be sent simultaneously to two different addresses served from the same wire center. The provision of Dual Service assures the customer continual service at both locations during the time of a move and will be limited to a maximum of 30 days.

A request for Dual Service occurs on orders for a transfer of service within the same wire center where no telephone number change is involved. Dual Service will be offered subject to the availability of facilities and technical limitations. Dual Service will be available to subscribers of single line and multi-line residence service.

The following features are not compatible with Dual Service and will be temporarily unavailable at both locations until Dual Service is no longer subscribed.

- Call Forwarding Busy Line
- Call Forwarding Don't Answer
- Call Tracing
- Call Waiting Deluxe
- Caller ID
- Calling Name and Number
- Repeat Dialing

2. Rates and Charges

Dual Service charges will include the nonrecurring charge below, in addition to the applicable portion of the monthly rate on both lines during the period of service overlap.

K. SUSPENSION OF SERVICE (VACATION SERVICE)

1. General

Upon customer's request, residence service may be suspended for periods of one or more months at a given location. Service must be restored for at least one month between periods of suspension.

No outward or inward service is furnished during the period of suspension.

Unless otherwise arranged for by the customer, parties calling the telephone number of the suspended service will be advised that the service has been temporarily suspended.

2. Rates and Charges

The rate for service during the period of suspension is 50 percent of the regular rate for the service. Bills are rendered at the reduced rate during the period of suspension.

A one-time nonrecurring charge of \$18.30 applies, which provides for both the suspension and restoral of the residence service.

L. BILLED NUMBER SCREENING - RESIDENTIAL

1. General

Billed Number Screening is an incoming toll screening service available to subscribers of the Company's local exchange service. This service is intended to prevent the charging of collect, and/or third number billed calls to a customer's telephone number.

2. Regulations

To provide this service, the Company will place the information required to utilize Billed Number Screening in the Line Information Data Base (LIDB) or other databases. In the event a call is placed and charged to a number which should have been prevented by Billed Number Screening, the Company will adjust the charge for the call or calls from the customer's bill and turn the information over to the carrier or operator service provider to determine and arrange for any further billing of such calls. The Company makes no guarantee and assumes no liability arising out of the use, lack of use or misuse of Billed Number Screening by Interexchange Carriers or any other entity. Bill Number Screening is not a central office service but rather a database service. It is only effective in combating toll fraud when the Interexchange Carriers and/or Operator Service Providers access the database(s). The Company is not responsible for calls charged to telephone numbers which should have been prevented by Billed Number Screening that are carried over other carrier's networks or facilities.

Billed Number Screening Service is offered subject to the availability of suitable facilities.

The minimum service period for Billed Number Screening Service is one month.

3. Rates and Charges

The following rates and charges for Billed Number Screening Service are in addition to all other charges.

		Monthly Charge	Non-Recurring Charge*
Option 1:	No Collect or Third Number Billing, per Line or Telephone Number Screened	\$ 1.50	\$ 5.00
Option 2:	No Third Number Billing, per Line or Telephone Number Screened	1.50	5.00
Option 3:	No Collect Billing, per Line or Telephone Number Screened	1.50	5.00

* Only one non-recurring charge per service order is applicable.

RESIDENTIAL LOCAL SERVICE BUNDLES

A. General

Residential local service bundles provide a Flat Rate Residence Line as described in Section 3, Part D of this tariff in combination with a selected set of Custom Calling features described in detail in Section 7. Measured Rate Service is not provided with the residential local service bundles.

The Local Service Areas for Residential Local Service Bundles are the same as the Local Service Areas defined in Section 3, Part C of this tariff. Community Connection Service charges, as described in Section 3, Part G also apply to the residential local service bundles when appropriate. All rules, regulations and limitations for the Custom Calling features specified in Section 7 also apply to the residential local service bundles.

Services/features that are selected by a subscriber to be included in the Residential Local Service Bundle are not eligible for any additional discounts or credits. In particular, discounts and/or credits included in any separate package pricing for Custom Calling Services do not apply to services a customer selects for the residential local service bundles.

An existing Flat Rate Line residential service subscriber who upgrades to a Residential Local Service Bundle will pay the nonrecurring charge associated with the Residential Local Service Bundle to convert the service.

The nonrecurring charge to establish the access line, as described in Section 3, Part E, will apply along with the nonrecurring charge for establishing the Residential Local Service Bundle when a Residential Local Service bundle is established as new service or when moving service to a different address.

Residential Local Service Bundle subscribers are not eligible for special promotions on the individual Custom Calling features unless specifically noted for inclusion.

Customers subscribing to any Residential Local Service Bundle may change features at anytime without incurring a charge for making such change once the Residential Local Service Bundle has been established. However, customers changing their telephone numbers (except for Distinctive Ringing) and/or moving to different addresses will be billed the nonrecurring charges associated with such changes as noted in Section 3, Part E.

All charges (such as End User Common Line, E-911 Service, taxes and other surcharges) normally associated with Flat Rate Access Line service will be billed in addition to the Residential Local Service Bundle charges.

RESIDENTIAL LOCAL SERVICE BUNDLES

A. General (Continued)

Customers subscribing to a Residential Local Service Bundle are provided with a thirty (30) day Customer Satisfaction Guarantee. This guarantee will provide dissatisfied customers up to a 30-day credit for the monthly charge associated with the service, less the appropriate monthly access line charge. The credit will be pro-rated based on the time the customer has the service, up to a maximum of 30 days. To receive the credit, the customer must notify the Company of their dissatisfaction with the service and place an order to discontinue the service within 30 days of the time that the service was installed. Customers will also be credited for the nonrecurring charge associated with the Custom Calling service(s), if a nonrecurring charge was incurred.

Customers must specify which Custom Calling services they want included at the time that they place their order. Subscriber may select any or all the services/features, where available. Residential Local Service Bundles provide unlimited use of the Custom Calling services/features.

CUSTOM CALLING SERVICES

B. SERVICE DESCRIPTIONS (Continued)

10. Caller ID

The Caller ID service allows a customer to view the telephone number of the calling party on an incoming telephone call. The telephone number of the incoming call is disclosed on a customer-provided display device.

When the display device is turned on, the telephone number of every incoming call is disclosed, subject to the limitations in Part A of this section. The number is sent from the calling party's serving central office to the customer during the first silent interval in the ringing cycle. If the customer's line is busy, and another incoming call attempt is made, the telephone number of that calling party will not be disclosed even if the called customer has Call Waiting. The customer has the option of turning off the display device to suspend the display of incoming calling numbers.

If the telephone number of the incoming call is on the customer's Priority Forward screening list, the call will be forwarded and the number will not be displayed by the customer-provided display device. Likewise, if the telephone number is on the Call Block screening list, the call will be blocked and the number will not be displayed by the customer-provided display device.

Callers placing calls to customers subscribing to Caller ID, subject to the provisions in Parts A of this section, have the ability to prevent their telephone number from being disclosed to the called party on a per call basis by utilizing Per Call Number Privacy. The prevention of the disclosure of their telephone number is accomplished by dialing a special code before dialing the telephone number. The special code must be dialed prior to every call made where the calling party does not want the telephone number disclosed. If the called party has a display device, a privacy indication will appear instead of the calling party's telephone number.

Callers placing calls to customers subscribing to Caller ID may also prevent the disclosure of their telephone number on a per line basis by subscribing to Per Line Number Privacy. This service will prevent the displaying of the calling party's number on all calls originating on that line. A privacy indication will appear instead of the calling party's telephone number on all calls.

Caller ID includes Anonymous Call Rejection (ACR) where facilities are available. This feature allows customers to automatically reject incoming calls when the call originates from a telephone number which has invoked a blocking feature that prevents the delivery of their number to the called party. When ACR is activated on the customer's line and an incoming call marked private is received, the called party's telephone will not ring. The call will be routed to an announcement and subsequently terminated. The announcement informs the calling party that the person he or she is trying to reach will not accept the call as long as the calling number is not delivered. Incoming calls are checked for acceptance or rejection by ACR regardless of the current state of the Caller ID customer's line (e.g., off hook or idle).

Subsequent to the establishment of Caller ID, ACR can be activated and deactivated at the customer's discretion through the use of pre-assigned feature access codes.

CUSTOM CALLING SERVICES

B. SERVICE DESCRIPTIONS (Continued)

11. Calling Name

Calling Name is a service that provides for the delivery of the listed name associated with the calling party telephone number to the called party so that the name may be displayed on a customer-provided display device attached to the subscriber's line or telephone set. This service will provide up to a maximum of 15 characters for display of the calling party's directory name.

The subscriber to Calling Name service will be responsible for the provision of the display device. The installation, repair, and technical capability of the device to function with Calling Name service will be the responsibility of the subscriber. The Company assumes no liability and will be held harmless for any incompatibility of this equipment to perform satisfactorily with network features associated with this service.

Calling Name service will deliver the calling party's name information, except when the calling party name and/or number is not provided to the network because of where the call originates or when the calling party invokes a per call or per line blocking feature which prevents the telephone number and/or name from being passed.

Calling Name includes Anonymous Call Rejection (ACR where facilities are available. This feature allows customers to automatically reject incoming calls when the call originates from a telephone number which has invoked a blocking feature that prevents the delivery of their number to the called party. When ACR is activated on the customer's line and an incoming call marked private is received, the called party's telephone will not ring. The call will be routed to an announcement and subsequently terminated. The announcement informs the calling party that the person he or she is trying to reach will not accept the call as long the calling number is not delivered. Incoming calls are checked for acceptance or rejection by ACR regardless of the current state of the Calling Name customer's line (e.g., off hook or idle).

Subsequent to the establishment of Calling Name, ACR can be activated and deactivated at the customer's discretion through the use of pre assigned feature access codes.

CUSTOM CALLING SERVICES

B. SERVICE DESCRIPTIONS (Continued)

12. Calling Name and Number

Calling Name and Number is a service that provides for the delivery of the listed name and telephone number associated with the calling party telephone number on incoming calls. This information is provided to the subscriber to Calling Name and Number service so that the information may be displayed on a customer-provided display device attached to the subscriber's line or telephone set. This service will provide up to a maximum of 15 characters for display of the calling party's directory name and 10 characters for display of the calling party's directory telephone number.

The subscriber to Calling Name and Number service will be responsible for the provision of the display device. The installation, repair, and technical capability of the device to function with Calling Name and Number service will be the responsibility of the subscriber. The Company assumes no liability and will be held harmless for any incompatibility of this equipment to perform satisfactorily with network features associated with this service.

Calling Name and Number service will deliver the calling party's name and number information, except when the calling party name and/or number is not provided to the network because of where the call originates or when the calling party invokes a per call or per line blocking feature which prevents the telephone number and/or name from being passed.

Calling Name and Number also includes Anonymous Call Rejection (ACR where facilities are available. This feature allows customers to automatically reject incoming calls when the call originates from a telephone number which has invoked a blocking feature that prevents the delivery of their number to the called party. When ACR is activated on the customer's line and an incoming call marked private is received, the called party's telephone will not ring. The call will be routed to an announcement and subsequently terminated. The announcement informs the calling party that the person he or she is trying to reach will not accept the call as long the calling number is not delivered. Incoming calls are checked for acceptance or rejection by ACR regardless of the current state of the Calling Name and Number customer's line (e.g., off hook or idle).

Subsequent to the establishment of Calling Name and Number, ACR can be activated and deactivated at the customer's discretion through the use of pre-assigned feature access codes.
