RE: Rockies Express Pipeline, L.L.C.  
Proposed REX EAST Project  
Docket No. CP07-208-000

Dear Ms. Bose and Commissioners:

FERC Staff, at 4-27 of its FEIS, recommended that Rockies Express Pipeline, LLC ("REX") consult with Hoosier Hills Regional Water District ("Hoosier Hills") as REX seeks to route its proposed pipeline through the Whitewater River and its underlying aquifer.

On Friday afternoon, May 2, 2008, I spoke with REX attorney Phillip B. McKiernan. He indicated that certain REX representatives wanted to meet with Hoosier Hills to consider some technical documents that the pending FEIS requires of his client.

We arrived at a tentative available date of May 12. I requested that the above-referenced technical documents be provided to my client in advance of the meeting, stressing that it would be very difficult for my client to participate in a true consultation as intended by the FEIS recommendation without an opportunity for prior review and consideration of their documents. No commitment to produce the documents was forthcoming from Mr. McKiernan.

On May 5, 2008 I confirmed my client's May 12 availability to Mr. McKiernan, reiterating my client's willingness to participate in a consultation as long as the REX representatives would be able to produce the technical documents in advance of the meeting in order to effectuate the FEIS recommendation of a

true consultation. To that end, I asked Mr. McKiernan to inquire as to his client's ability to provide the documents in advance of the meeting, advising that should they be unable to accomplish the documents' production, we would need to seek another meeting date to make the appropriate arrangements. Again no commitment was offered.

The morning of Monday, May 12, 2008, passed with neither word from Mr. McKiernan nor delivery of the requested documents. Consequently, I advised Mr. McKiernan that since my clients had not received the technical documents as previously indicated, no meeting would occur.

Copies of my May 5 and May 12, 2008 correspondence are attached for your review.

To be clear, neither the Hoosier Hills Board of Directors nor I wish to skirt the letter or spirit of the FERC recommendation at issue. Hoosier Hills Regional Water District remains firmly committed to the preservation of the high quality groundwater resources that are found in the Whitewater River and its underlying aquifer. Our multiple requests for the documents REX purportedly wanted to share were reasonable and intended to cooperate with REX. We were left to wonder why REX would initiate the contact in the first place if it had no intention of accomplishing any real consultation. Certainly no true purpose is served by arranging what would amount to little more than a inconsequential meeting: not the recommended consultation or the sharing of information, but at best an opportunity merely to appear to satisfy a requirement.

Thank you for your time and consideration. Should you have any questions or require additional information, please do not hesitate to contact me at the above address or phone number. With kind regards, I remain

Dear Mr. McKiernan:

This confirms our telephone conference of Friday afternoon, May 2, 2008, wherein you indicated that personnel from your client would like to meet with representatives of Hoosier Hills Regional Water District on either May 8 or May 9 to consider some technical documents that the pending final EIS requires of your client. As I indicated, to you, I am unavailable on either May 8 or 9.

We also discussed the possibility of a meeting on May 12. I have contacted my client, and we can be available on May 12 at 4:30 p.m. at the offices of Hoosier Hills Regional Water District, 7215 E St Rd 350, Milan, IN 47031, to review the technical documents as long as **those technical documents are made available to my client on May 8, 2008.** As I indicated, it would be very difficult for my client to have a meaningful meeting on May 12 if we are merely provided the documents that day and asked to comment upon the documents. Therefore, please let me know your client's capability as it relates to providing the documents to us. If the documents cannot be provided prior to the meeting as outlined, we will need to seek another meeting date.

I thank you for your cooperation.

With kind regards, I remain

Dear Mr. McKiernan:

Since my clients have not received the technical documents as requested in our telephone conference of May 2 and confirmed in my May 5, 2008, fax, there will be no meeting today, May 12, 2008, at 4:30 p.m. at the offices of Hoosiers Hills Regional Water District.

With kind regards, I remain
