SECTION 2 - GENERAL RULES AND REGULATIONS (CONT'D)

2.5 MAINTENANCE AND TESTING

Upon suitable notice, the Company may make such tests, adjustments and inspections as may be necessary to maintain the Company's facilities in satisfactory operating condition. No interruption allowance will be credited to the Customer for the period during which the Company makes such tests, adjustments, or inspections.

Upon suitable notification to the Customer, and at a reasonable time, the Company may make such tests and inspections as may be necessary to determine that the Customer, authorized user, or joint user is complying with the requirements set forth above for the installation, operation and maintenance of Customer-provided facilities, equipment, and wiring in the connection of Customer-provided facilities and equipment to Company-owned facilities and equipment. If the protective requirements for Customer-provided equipment are not being complied with, the Company may take such action as it deems necessary to protect its facilities, equipment, and personnel. The Company will notify the Customer promptly if there is any need for further corrective action. Within ten (10) days of receiving this notice, the Customer must take such action. If the Customer fails to do this, the Company may take whatever additional action is deemed necessary, including the suspension of Service, to protect its facilities, equipment, and personnel from harm.

SECTION 4 - SERVICES AND RATE STRUCTURE

4.1 CLEC SERVICE OFFERINGS

4.1.1 Local Exchange Service

a. Nature of Service

Local Exchange Service is a telephone service that allows customers to originate non-toll local calls at locations within the service areas in which the Company has been approved for certification and terminate calls within the local calling area and EAS area of those locations, and within the LATA in which the call originates.

Touch Tone service provides for the origination of calls by means of instrumentalities equipped for tone-type signaling.

Service connection charges are nonrecurring charges which apply for the connection, move or change of local telephone service. One or more Service Connection Charges may apply to each Customer order depending upon the work functions performed. All changes in the location of customer's service from one premises to another are treated as new service establishment with Service Connection Charges applying. Service Connection Charges are associated with, but not necessarily limited to:

1. Installation of Service - Applies for establishing each initial or additional line or trunk. The charge includes initial ordering, central office work and exchange access line work.

Primary Interexchange Carrier (PIC) Change Charge - This refers to an arrangement whereby a customer may select and designate an Interexchange Carrier to access, without an access code, for interLATA and intraLATA calls. Single line customers requesting a PIC to only one line will incur the per line charge. Multi-line customers requesting a PIC to more than one line in a single request will incur the per line charge for the first line and the additional line charge for each additional line.
