Dear PUCO,

We are writing because we are not satisfied with the idea of a water bill increase. We are budgeting our own funds and we must live with in our income. We have cut costs and adjusted with no additional income coming in. We are adjusting and cutting where we can. My wife received a pink slip from her employer 2 months ago. We are not happy with the quality and taste of the water, it leaves mineral deposits. Why is the cost of the water so high compared to other water sources. I believe that there should be competition for this utility service.
