CUSTOM CALLING SERVICES

A. GENERAL

Custom Calling Services are a group of optional services as described in Part B of this section.

Custom Calling Services are available to customers subscribing to residence and nonresidence access lines.

Custom Calling Services are not generally available with Public Telephone Service. However, where technically feasible, Per Call Number Privacy and Per Line Number Privacy will be provided. Per Line Number Privacy will be available on a subscription basis at the rates listed in this section. There is no charge for Per Call Number Privacy.

In any type of hunt group arrangement, each line to be equipped with Custom Calling Services must be assigned a telephone number. The services must be ordered and billed on each line.

Custom Calling Services will be available to customers having technically compatible services and customer premises equipment (CPE). The Company is not responsible for the compatibility of products and services of CPE vendors.

Custom Calling Services are offered from central offices where the Company has arranged the equipment for Custom Calling Services and is furnished subject to the availability of facilities and where technically feasible.

Custom Calling Services cannot be functional unless both the called and calling parties are served by, and the call is routed through, appropriately equipped central offices, and routed over appropriately equipped facilities for calls between such equipped central offices. When a service cannot be functional due to these limitations, notification will be given that the call is outside of the calling area.

Custom Calling Services are generally offered on a subscription basis. However, where facilities permit and at the option of the Company, certain services may be provided on a pay-per-use basis. Per Call Number Privacy will be provided to all eligible customers and Per Line Number Privacy will be provided when requested by the customer to all non-published service customers at no monthly charge. The customer must specify each line to be equipped with the specific Custom Calling Services desired.

CUSTOM CALLING SERVICES

A. GENERAL (Continued)

Custom Calling Services use blocks of memory in the central office called memory slots. The incoming memory slot stores information about the last incoming call received by the customer. The outgoing memory slot stores information about the last outgoing call made by the customer.

The provision of Custom Calling Services by the Company is subject to the availability of facilities and the requirements of the local network. In no event will the Company be liable for any losses or damages of any kind resulting from the unavailability or failure of its equipment or facilities unless caused by the gross negligence or willful misconduct of the Company. Nor will the Company be liable for losses or damages arising out of any act, omission or failure to perform by the Company, its employees or agents in connection with this service, unless caused by the gross negligence or willful misconduct of the Company, its employees, or agents. The Company will not be responsible for calls that cannot be completed as a result of repair or maintenance difficulties on Company facilities and equipment nor on equipment provided by the customer.

The Custom Calling Services customer will be liable for, and will indemnify, protect, defend and save harmless the Company against all suits, actions, claims, demands and judgments, and all costs, expenses and counsel fees incurred on account thereof, arising out of and resulting directly or indirectly from the service or in connection therewith including but not limited to, any loss, damage, expense or liability resulting from any claim of libel or slander. For additional liability information, see Section 2, Part B of this tariff.

Custom Calling Services (such as Caller ID) which have the potential for disclosure of the calling party's number (CPN) will only be provided where:

The Company makes available Per Call Number Privacy to all eligible customers at no charge.

The Company makes available Per Line Number Privacy on a subscription basis to all eligible customers.

The Company makes available Per Line Number Privacy for non-published service customers at no monthly charge. Per Line Number Privacy will be provided to non-published service customers only when requested. Customers subscribing to non-published service will be advised by Company personnel of the availability of Per Line Number Privacy. Non-published service customers entitled to Per Line Number Privacy at no charge include only those subscribing to non-published service as described in Section 8, Part D of this tariff.

CUSTOM CALLING SERVICES

A. GENERAL (Continued)

Telemarketers are prohibited from blocking the disclosure of their telephone number when placing calls. Upon receiving complaints that a telemarketer is blocking the disclosure of their telephone number, the Company will investigate the complaints and terminate the number privacy service where appropriate.

Customers subscribing to Custom Calling Services are provided with a 30-day Customer Satisfaction Guarantee. The 30-day Customer Satisfaction Guarantee will provide the customer up to a 30 day credit for the monthly charge associated with the service, if they are not satisfied with the service. The credit will be provided only for the time the customer has the service, up to a maximum of 30 days. To receive the credit the customer must notify the Company of their dissatisfaction with the service and place an order to discontinue the service within 30 days of the time that the service was installed. The customer will also be credited for the nonrecurring charge associated with the service if one was charged.

A nonrecurring charge applies to establish or change to new and/or additional Custom Calling Services, except when the change results only in the removal of one or more Custom Calling Services.

A nonrecurring charge per line equipped is applicable:

To establish or change to new and/or additional Custom Calling Services at the same time at the same address and on the same line, except when the change results only in the removal of one or more of the services.

To change the forwarded-to telephone number whenever Call Forwarding Busy Line and/or Call Forwarding Don't Answer is furnished.

To change the approximate number of ringing cycles before Call Forwarding Don't Answer occurs.

To change ringing patterns, telephone numbers of dependent directory numbers (DNs) or the call forwarding designation arrangement associated with Multiple Directory Numbers Per Line with Distinctive Ringing feature (MDNL) when MDNL is furnished.

CUSTOM CALLING SERVICES

B. SERVICE DESCRIPTIONS

1. Anonymous Call Rejection

The Anonymous Call Rejection (ACR) service allows subscribers to the service to automatically reject incoming calls when the call originates from a telephone number which has invoked a blocking feature that prevents the telephone number of the call originating telephone from being delivered to the called party. When ACR is activated on the subscriber's line and an incoming call marked private is received, the called party's telephone number will not ring. The call will be routed to an announcement and subsequently terminated. The announcement informs the calling party that the called party will not accept the call as long as the calling party's telephone number is not delivered. Incoming calls are checked for acceptance or rejection by ACR regardless of the current state of the ACR subscriber's line (e.g., off hook or idle). The activation and return of the announcement will not be viewed as a completed call.

ACR is available for single line residence service subscribers. It is not available for Multi-Line Hunt Group service customers. A service order is required to establish or to discontinue ACR. Once established, the service can be activated and deactivated at the subscriber's discretion through the use of pre-assigned access codes.

ACR subscribers who also subscribe to any of the following services will not be billed the monthly charge for their ACR service:

Caller ID
Calling Name
Calling Name and Number
Call Return

2. Anywhere Call Forwarding

Anywhere Call Forwarding allows subscribers the capability to remotely change the termination of their incoming calls to another telephone line using any tone signaling telephone. The customer can activate, deactivate, or change the destination number using a personal identification number (PIN).

CUSTOM CALLING SERVICES

B. SERVICE DESCRIPTIONS (Continued)

3. Call Block (*60)

Call Block provides the customer with a way to block calls from certain telephone numbers, which may or may not be known to the customers.

The customer can create a screening list of up to six (6) telephone numbers and place them in the network memory through an interactive dialing sequence. The customer may also activate the service after receiving a call, and thus place the number associated with the call on the Call Block list. In this case the number is copied automatically from the customer's incoming memory slot. Once the service is activated by dialing a special code, a calling party's number, if available, is checked against the customer's Call Block list on every incoming call.

If the incoming number matches one of the numbers on the list, the customer is not alerted by the call and the call terminates to an announcement. If the incoming number does not match one of the numbers on the list or is unavailable, the call terminates to the customer's line.

When a telephone number on the Call Block screening list also appears on the Priority Forward and/or Priority Call list, the Call Block service will take precedence and the call will be blocked.

4. Call Forwarding Busy Line

Call Forwarding Busy Line allows for forwarding of an incoming call when the activated line is busy. The Call Forwarding Busy Line customer is responsible for any applicable customer-dialed station-to-station toll charge.

5. Call Forwarding Don't Answer

Call Forwarding Don't Answer allows for forwarding an incoming call when the call remains unanswered after a pre-determined number of rings (approximate number 1 to 7, selected by the customer). The call forwarding don't answer customer is responsible for any applicable customer-dialed station-to-station toll charge.

6. Call Forwarding Variable

Call Forwarding Variable permits the customer to activate and deactivate a transfer of his or her incoming calls to another telephone line. Because of transmission limitations, it is recommended that the calls be transferred within the customer's local service area. The Call Forwarding Variable customer is responsible for any applicable customer-dialed station-to-station toll charge.

Section 7
Original Page 6

CUSTOM CALLING SERVICES

B. SERVICE DESCRIPTIONS (Continued)

5. Call Return (*69)

Call Return enables a customer to return the last incoming call received, whether or not it was answered. In order to activate the service the customer must dial a special code before another incoming call or a Call Waiting indication is received. After dialing the code to activate Call Return, the customer will receive (where technically possible) a message indicating the telephone number (unless the telephone number is marked as private), the date and the time of the last incoming call. The customer may return the call by pressing "1", or the customer may choose not to return the call and hang up. Call Return service is considered activated at the time the customer dials the activation code regardless of whether the customer presses "1" to return the call.

If the called line is idle, the call completes immediately and the Call Return request is complete regardless whether or not the called party answers. If the called line is busy, the customer is notified when the Call Return service has been activated. The Call Return request is queued and placed on the customer's list of queued Call Return requests in the central office. The called line is then monitored until one of the following occurs:

The called line becomes idle. When this occurs, the customer's line is checked and if it also is idle, the customer is given a special ringback. Upon answering the ringback, call set-up is attempted.

The central office equipment deactivates the Call Return request upon unanswered ringback, or the thirty (30) minute time limit queuing is reached and the request times out.

A deactivation code is dialed which removes all current Call Return activations.

When Call Return is active, both the calling and called party may originate and receive calls without affecting the Call Return service status.

This service cannot be activated for all telephone numbers. Telephone number with 700, 800 or 900 prefixes cannot be activated. The Call Return customer is responsible for any applicable local or toll usage charges.

Customers may utilize Call Return on a subscription basis or on a pay-per-use basis. Customers obtaining the service on a subscription basis order the service in advance. These customers incur a monthly charge and receive unlimited use of the Call Return feature. Customers who obtain the service on a pay-per-use basis activate the Call Return feature by dialing an activation code each time they want to utilize Call Return. These customers incur a specific charge for each activation (usage) of the Call Return feature but no monthly charge. The pay-per-use option is only available where facilities permit and at the option of the Company.

CUSTOM CALLING SERVICES

B. SERVICE DESCRIPTIONS (Continued)

5. Call Return (*69) (Continued)

Call Return also includes Anonymous Call Rejection (ACR) where facilities are available. This feature allows customers to automatically reject incoming calls when the call originates from a telephone number which has invoked a blocking feature that prevents the delivery of their number to the called party. When ACR is activated on the customer's line and an incoming marked private is received, the called party's telephone will not ring. The call will be routed to an announcement and subsequently terminated. The announcement informs the calling party that the person he or she is trying to reach will not accept the call as long as the calling number is not delivered. Incoming calls are checked for acceptance or rejection by ACR regardless of the current state of the Call Return customer's line (e.g., off hook or idle).

Subsequent to the establishment of Call Return, ACR can be activated and deactivated at the customer's discretion through the use of pre-assigned feature access codes.

6. Call Tracing

Call Tracing allows customers to automatically trace the last incoming call by dialing a special code. The call details are provided to the Company's Annoyance Call Bureau. This service is designed to help customers deal more effectively with harassing and obscene calls.

The customer, after receiving a call that is to be traced, hangs up and invokes the Call Tracing activation procedure. The customer must activate Call Tracing before making or receiving another call after hanging up from the annoying call so that the correct number will be recorded. If the customer subscribes to Call Waiting and the customer gets a Call Waiting signal while an annoying call is in progress the annoyance call can not be traced using this service. Successful activation of Call Tracing is confirmed by an announcement that also tells the customer how to follow up on the trace. The information from the trace is not made available to the customer.

Upon activation by the customer, Call Tracing allows the network to automatically take the information from the incoming memory slot and send it to the Company's Annoyance Call Bureau indicating the called number, the calling number, the time the trace was activated and the time the offending call was received.

By subscribing to Call Tracing, the customer automatically authorizes the Company to disclose the identity of the source of annoying calls to law enforcement officials engaged in conducting, at customer's request or otherwise, any investigation with respect to such calls.

CUSTOM CALLING SERVICES

B. SERVICE DESCRIPTIONS (Continued)

6. Call Tracing (Continued)

In consideration of the Company undertaking such investigation, the customer agrees to release, protect, indemnify and save harmless the Company, its employees and agents, from all liability, claims, demands and actions for damages, or otherwise, that may arise by reason of such investigation.

The Call Tracing usage charge will be billed only when the attempt to trace and record the calling number is successful. The results of a successful trace will only be released outside the Company to legally constituted authorities and only upon the presentation of proper authorization (i.e. court order). The Company will not be liable for damages if, for any reason, the attempt is not successful. For additional liability information, see Section 2.

7. Call Transfer Service

Call Transfer Service (Call Transfer) is a feature that allows a customer (POTS customer) to transfer an established call terminating on their telephone line to any other telephone line. Call Transfer allows the customer to (1) transfer the call and then hang-up leaving the other two-parties on a two-way call, or (2) to bridge the call and establish a three-way call. If the Call Transfer subscriber hangs up once a three-way call has been established the call will be considered transferred and the other two parties will be able to continue on a two-way call. The Call Transfer customer is free to originate and terminate additional calls after the call has been transferred. Any charges applicable to the call will be billed to the Call Transfer subscriber. Any toll usage will appear on the Call Transfer Service Customer's bill.

8. Call Waiting (including Cancel Call Waiting and Long Distance Alert)

Call Waiting permits the customer, upon receiving a tone signal indicating that a call is waiting, to place an existing call on hold by depressing the switchhook, and answer the second waiting call.

Cancel Call Waiting permits the customer to deactivate the Call Waiting feature on an individual call by dialing a code before making an outgoing call.

Long Distance Alert (LD Alert) is a feature on the Call Waiting Service which indicates to Call Waiting subscribers - while on a call in progress through a special signal - that an incoming call is long distance. When the Call Waiting subscriber is not on a telephone call in progress, LD Alert will also indicate that an incoming call is long distance with a special ring pattern. This feature overrides the Multiple Directory Number (Distinctive Ring) feature for long distance calls.

B. SERVICE DESCRIPTIONS (Continued)

9. Call Waiting Deluxe

Call Waiting Deluxe is a feature that allows a customer to control the treatment applied to incoming calls while the customer is off-hook on an existing call. While on an existing call, Call Waiting Deluxe notifies the customer of an incoming call with the call waiting tone. Call Waiting Deluxe is comprised of the functionality of the Call Waiting feature including Long Distance Alert and provides several additional call disposition options.

A user's perception of Call Waiting Deluxe will be affected by 1) whether they receive Calling Identity Delivery (CID) data for a waited party (Caller ID type services), and 2) the type of Customer Premises Equipment (CPE) used. The application of CID while a call is waited, allows the Call Waiting Deluxe customer to select a disposition option based on information about the waited party. The CPE will determine how Call Waiting Deluxe options are displayed, selected and in some cases, how they behave.

The Call Waiting Deluxe customer must also subscribe to Call Forwarding Don't Answer Service in order to forward a waiting call to another location.

Call disposition options provided with Call Waiting Deluxe include:

- Answer the call and put the existing call on hold,
- Answer the call and disconnect the existing call,
- Forward the call,
- Connect the call to an announcement,
- Put the call on hold,
- Conference the call with the existing call.

Utilization of the full capabilities of Call Waiting Deluxe requires the use of compatible CPE at the customers' premises. The installation and maintenance of the compatible CPE and the technical capability of that CPE to function in conjunction with features of Call Waiting Deluxe is the responsibility of the customer.

The Company assumes no liability, and will be held harmless, for any incompatibility between this equipment and the Call Waiting Deluxe features. The service will only be provided in central offices that are equipped to provide the Call Waiting Deluxe features. Call Waiting Deluxe will be furnished only in connection with individual line service.

CUSTOM CALLING SERVICES

B. SERVICE DESCRIPTIONS (Continued)

10. Caller ID

The Caller ID service allows a customer to view the telephone number of the calling party on an incoming telephone call. The telephone number of the incoming call is disclosed on a customer-provided display device.

When the display device is turned on, the telephone number of every incoming call is disclosed, subject to the limitations in Part A of this section. The number is sent from the calling party's serving central office to the customer during the first silent interval in the ringing cycle. If the customer's line is busy, and another incoming call attempt is made, the telephone number of that calling party will not be disclosed even if the called customer has Call Waiting. The customer has the option of turning off the display device to suspend the display of incoming calling numbers.

If the telephone number of the incoming call is on the customer's Priority Forward screening list, the call will be forwarded and the number will not be displayed by the customer-provided display device. Likewise, if the telephone number is on the Call Block screening list, the call will be blocked and the number will not be displayed by the customer-provided display device.

Callers placing calls to customers subscribing to Caller ID, subject to the provisions in Parts A of this section, have the ability to prevent their telephone number from being disclosed to the called party on a per call basis by utilizing Per Call Number Privacy. The prevention of the disclosure of their telephone number is accomplished by dialing a special code before dialing the telephone number. The special code must be dialed prior to every call made where the calling party does not want the telephone number disclosed. If the called party has a display device, a privacy indication will appear instead of the calling party's telephone number.

Callers placing calls to customers subscribing to Caller ID may also prevent the disclosure of their telephone number on a per line basis by subscribing to Per Line Number Privacy. This service will prevent the displaying of the calling party's number on all calls originating on that line. A privacy indication will appear instead of the calling party's telephone number on all calls.

Caller ID includes Anonymous Call Rejection (ACR) where facilities are available. This feature allows customers to automatically reject incoming calls when the call originates from a telephone number which has invoked a blocking feature that prevents the delivery of their number to the called party. When ACR is activated on the customer's line and an incoming call marked private is received, the called party's telephone will not ring. The call will be routed to an announcement and subsequently terminated. The announcement informs the calling party that the person he or she is trying to reach will not accept the call as long as the calling number is not delivered. Incoming calls are checked for acceptance or rejection by ACR regardless of the current state of the Caller ID customer's line (e.g., off hook or idle).

Subsequent to the establishment of Caller ID, ACR can be activated and deactivated at the customer's discretion through the use of pre-assigned feature access codes.

11. Calling Name

Calling Name is a service that provides for the delivery of the listed name associated with the calling party telephone number to the called party so that the name may be displayed on a customer-provided display device attached to the subscriber's line or telephone set. This service will provide up to a maximum of 15 characters for display of the calling party's directory name.

The subscriber to Calling Name service will be responsible for the provision of the display device. The installation, repair, and technical capability of the device to function with Calling Name service will be the responsibility of the subscriber. The Company assumes no liability and will be held harmless for any incompatibility of this equipment to perform satisfactorily with network features associated with this service.

Calling Name service will deliver the calling party's name information, except when the calling party name and/or number is not provided to the network because of where the call originates or when the calling party invokes a per call or per line blocking feature which prevents the telephone number and/or name from being passed.

Calling Name includes Anonymous Call Rejection (ACR where facilities are available. This feature allows customers to automatically reject incoming calls when the call originates from a telephone number which has invoked a blocking feature that prevents the delivery of their number to the called party. When ACR is activated on the customer's line and an incoming call marked private is received, the called party's telephone will not ring. The call will be routed to an announcement and subsequently terminated. The announcement informs the calling party that the person he or she is trying to reach will not accept the call as long the calling number is not delivered. Incoming calls are checked for acceptance or rejection by ACR regardless of the current state of the Calling Name customer's line (e.g., off hook or idle).

Subsequent to the establishment of Calling Name, ACR can be activated and deactivated at the customer's discretion through the use of pre assigned feature access codes.

12. Calling Name and Number

Calling Name and Number is a service that provides for the delivery of the listed name and telephone number associated with the calling party telephone number on incoming calls. This information is provided to the subscriber to Calling Name and Number service so that the information may be displayed on a customer-provided display device attached to the subscriber's line or telephone set. This service will provide up to a maximum of 15 characters for display of the calling party's directory name and 10 characters for display of the calling party's directory telephone number.

The subscriber to Calling Name and Number service will be responsible for the provision of the display device. The installation, repair, and technical capability of the device to function with Calling Name and Number service will be the responsibility of the subscriber. The Company assumes no liability and will be held harmless for any incompatibility of this equipment to perform satisfactorily with network features associated with this service.

Calling Name and Number service will deliver the calling party's name and number information, except when the calling party name and/or number is not provided to the network because of where the call originates or when the calling party invokes a per call or per line blocking feature which prevents the telephone number and/or name from being passed.

Calling Name and Number also includes Anonymous Call Rejection (ACR where facilities are available. This feature allows customers to automatically reject incoming calls when the call originates from a telephone number which has invoked a blocking feature that prevents the delivery of their number to the called party. When ACR is activated on the customer's line and an incoming call marked private is received, the called party's telephone will not ring. The call will be routed to an announcement and subsequently terminated. The announcement informs the calling party that the person he or she is trying to reach will not accept the call as long the calling number is not delivered. Incoming calls are checked for acceptance or rejection by ACR regardless of the current state of the Calling Name and Number customer's line (e.g., off hook or idle).

Subsequent to the establishment of Calling Name and Number, ACR can be activated and deactivated at the customer's discretion through the use of pre-assigned feature access codes.

CUSTOM CALLING SERVICES

B. SERVICE DESCRIPTIONS (Continued)

13. Message Waiting Indicator

The Message Waiting Indicator provides either a stutter dial tone for the end user on the associated access line(s), or a signal to activate/deactivate a message waiting light on the end user's telephone set.

14. Multiple Directory Numbers Per Line With Distinctive Ringing Feature (MDNL)

The Multiple Directory Numbers Per Line with Distinctive Ringing feature will provide customers the benefit of up to five directory numbers (DNs) on a single access line, each with a unique distinctive ringing pattern, without an additional line termination, and without additional station equipment. The access line will be designated as the "master" DN and will receive a standard ring. Any additional DN's associated with the same access line number will be called a "Dependent" DN and will receive distinctive ringing. Each Dependent DN will have a non-standard distinctive ringing pattern.

If a customer subscribes to Call Waiting, distinctive call waiting tones that correspond in cadence to the distinctive ringing patterns will also be provided for each of the additional DN's.

Customers with MDNL who subscribe to Call Forwarding must designate whether calls to only the "master" DN or to all DN's are to be call-forwarded.

Customers subscribing to the MDNL feature can subscribe to all other Custom Calling Service features available to them. However, regardless of the number of DN's an access line has, it can only have one set of Custom Calling features chargeable per access line, and the features are available to all the DN's.

A call directed to an off-hook MDNL line will receive busy treatment, regardless of which DN (master or any of the related dependents) was dialed.

Directory listings provided in connection with MDNL service will be governed by rules, regulations, and rates specified in Section 8 of this tariff.

Customer Premises Equipment (CPE) which produces personalized ringing should not be used with the MDNL service. Personalized ringing (ringing provided, based on call destination that indicates the intended recipient of the call) and MDNL's distinctive ringing can be coded within the same ringing pattern. As a result, customers may have trouble discerning what the ringing implies. Similarly, other types of CPE such as cordless phones and phones with electronic ringers may not be able to reproduce the distinctive ringing patterns that are sent out from the central office. For that reason, these types of CPE are not recommended for use with the MDNL service.

15. Per Call Number Privacy

Per Call Number Privacy enables customers to prevent the disclosure of their telephone number on a per call basis to the called party. The disclosure of the calling party's number can be prevented on a per call basis by dialing a preassigned access code before making a call. This action must be repeated each time a call is made to prevent the disclosure of the calling party's telephone number. If the called party has a display device, a privacy indication will appear instead of the calling party's telephone number.

Telemarketers are prohibited from blocking the disclosure of their telephone number. Upon receiving complaints that a telemarketer is blocking the disclosure of their telephone number, the Company will investigate the complaints and terminate the number privacy service where appropriate.

There is no charge for Per Call Number Privacy.

16. Per Line Number Privacy

Per Line Number Privacy prevents the disclosure of the subscriber's telephone number to the called party. Per Line Number Privacy is applicable on all outgoing calls placed from the subscriber's line. If the called party has a display device, a privacy indication will appear instead of the calling party's telephone number.

Telemarketers are prohibited from blocking the disclosure of their telephone numbers. Upon receiving complaints that a telemarketer is blocking the disclosure of their telephone number, the Company will investigate the complaints and terminate the number privacy service where appropriate.

Per Line Number Privacy will be available for subscription to all eligible customers at the rates shown in this section. Per Line Number Privacy will be provided at no monthly charge to subscribers of non-published service.

CUSTOM CALLING SERVICES

B. SERVICE DESCRIPTIONS (Continued)

17. Priority Call

Priority Call provides a unique ringing pattern to the subscribing customer for up to six (6) predetermined telephone numbers.

The customer creates a screening list of up to six (6) telephone numbers and places them in the network memory through an interactive dialing sequence. The customer may also activate the service after receiving a call, and thus place the number associated with the call on the Priority Call list. In this case, the number is copied automatically from the customer's incoming memory slot. The customer must dial a special code to activate or to deactivate the Priority Call service. When the service is activated and a call is received from one of the predetermined telephone numbers, the customer is alerted with a unique ringing pattern. Calls from telephone numbers not included on the screening list will produce a normal ring.

If the customer subscribes to Call Waiting and a call is received from a telephone number on the Priority Call screening list while the line is in use, the Call Waiting tone will also be unique.

When a telephone number on the Priority Call screening list also appears on the Priority Forward list, the Priority Forward service will take precedence and the call will be forwarded. Likewise if the same number is on the Call Block list, the Call Block service will take precedence and the call will be blocked.

18. Priority Forward

Priority Forward allows the customer to transfer up to six (6) selected telephone numbers to one other number. A screening list of up to six (6) numbers is created by the customer and placed in the network memory through an interactive dialing sequence. The customer may also activate the service after receiving a call, and thus place the number associated with the call on the Priority Forward list. In this case the number is copied automatically from the customer's incoming memory slot. The customer must dial a special code to activate or to deactivate the Priority Forward service. When the service is activated, calls are forwarded to the designated telephone number only if the calling number can be obtained and is found to match a number on the screening list.

When a telephone number on the Priority Forward screening list also appears on the Call Block list, the Call Block service takes precedence and the call will be blocked. When a telephone number is on the Priority Forward screening list and also appears on the Priority Call list, the Priority Forward service will take precedence and the call will be forwarded.

The Priority Forward customer is responsible for any applicable local or toll usage charges.

CUSTOM CALLING SERVICES

B. SERVICE DESCRIPTIONS (Continued)

19. Quiet Time

Quiet Time is an optional feature available to residential customers. It allows subscribers to block incoming calls from ringing their telephone line during time periods specified by the subscribers. Subscribers have the option to either set a daily schedule for the Quiet Time service to be active to block incoming calls on their line through a telephone user interface (TUI) or to use specific star codes to activate/deactivate Quiet Time on an as-needed basis.

Subscribers have the option to allow callers to ring through when Quiet Time is active. Callers can ring through by entering a subscriber-specific password after the call has been connected or by calling from a telephone number in a subscriber-set priority list.

During service set up, subscribers may choose one of the following announcement options for call treatment if the caller does not initially ring through:

Connection to Call Forward Don't Answer (Applicable for Call Forwarding Don't Answer subscribers only) if the subscriber has messaging service, the caller may stay on the line and leave a message.

Generic Announcement - Callers hear a generic announcement indicating the customer is not available.

Emergency Breakthrough - callers hear a generic announcement indicating the customer is not available and have the option to key in code to connect the call in emergency situations.

Through the TUI, the subscriber can:

Activate or deactivate the Quiet Time schedule.

Change the password that gives the subscriber access to the TUI.

Choose the announcement option.

Create/edit/delete caller breakthrough password.

Create/edit/delete priority breakthrough caller telephone number list.

Create/edit/delete the Quiet Time schedule.

Deactivate/activate Quiet Time service on either all of the Distinctive Ring numbers or none of the Distinctive Ring numbers on the line. (Only applicable for Quiet Time Subscribers who also subscribe to Distinctive Ring).

CUSTOM CALLING SERVICES

B. SERVICE DESCRIPTIONS (Continued)

20. Repeat Dialing (*66)

Repeat Dialing automatically redials the last outgoing number after the customer activates the service by dialing a special code. Repeat Dialing is a way of keeping track of a busy line and performing call set-up when both originating and terminating lines become idle. The customer must dial a special code before placing another outgoing call to activate the service.

If the called line is idle, the call completes immediately and the Repeat Dialing request is complete irrespective of whether or not the called party answers. If the called line is busy, the customer is notified when the Repeat Dialing service has been activated. The Repeat Dialing request is queued and placed on the customer's list of queued Repeat Dialing requests in the central office. The called line is then monitored until one of the following occurs:

The called line becomes idle. When this occurs, the customer's line is checked and if it also is idle, the customer is given a special ringback. Upon answering the ringback, call set-up is attempted.

The central office equipment deactivates the Repeat Dialing request upon unanswered ringback, or the thirty (30) minute time limit for queuing is reached and the request times out.

A deactivation code is dialed which removes all current Repeat Dialing activations.

When the Repeat Dialing service is active, both the calling and called party may originate and receive calls without affecting the Repeat Dialing service status.

This service can also be used to recall a called party after the conversation has been terminated.

Customers may utilize Repeat Dialing on a subscription basis or on a pay-per-use basis. Customers obtaining the service on a subscription basis order the service in advance and the feature is always activated for their use. These customers incur a monthly charge and receive unlimited use of the Repeat Dialing feature. Customers who obtain the service on a pay-per-use basis order Repeat Dialing by dialing an activation code each time they want to utilize Repeat Dialing. These customers incur a specific charge for each activation(usage) if the Repeat Dialing feature but no monthly charge. The Pay-per-use option is only available where facilities permit and at the option of the Company.

CUSTOM CALLING SERVICES

B. SERVICE DESCRIPTIONS (Continued)

21. Reveal Privacy Management Service

Reveal Privacy Management Service (Reveal) is available to residential and nonresidential customers who subscribe to Caller ID, Calling Name, and Calling Name and Number. Reveal intercepts incoming calls to the subscriber that would normally appear as 'private', 'unavailable', 'out of area' or 'anonymous' on the Caller ID unit and asks the caller to enter a telephone number.

If the number entered has a match in the Caller ID database, this information will appear on the Caller ID unit. An asterisk will also appear to indicate that the number was provided using Reveal. If the telephone number is not in the database, the entered telephone number and an asterisk will appear on the Caller ID unit. When possible, the corresponding city and state will appear with the entered telephone number.

The asterisk displayed on the Caller ID unit indicates the telephone number displayed may not be the originating telephone number.

Reveal can be turned off and on by the subscriber when not on an active call by using *99 and *98 respectively.

Calls to Reveal service subscribers (when Reveal is activated) will be disconnected if the calling party does not enter a telephone number when prompted by the Reveal service announcement.

22. Speed Calling

Speed Calling permits the customer to place local and toll calls to a pre-selected group of telephone numbers by dialing abbreviated codes. Speed Calling is provided in capacities of eight or thirty telephone numbers.

23. Talking Call Waiting

Talking Call Waiting Service allows a subscriber on a call in progress, upon receiving a tone signal indicating that another call is waiting, to hear the name of the second calling party. The name is spoken to the subscriber directly after the call waiting tone is sent. The Talking Call Waiting subscriber does not need to hit the flash button in order to hear the spoken name of the incoming caller.

The subscriber has the option to accept the incoming call by placing the existing call on hold (depressing the switch hook) and answering the waiting call or to ignore it.

CUSTOM CALLING SERVICES

B. SERVICE DESCRIPTIONS (Continued)

24. Three-Way Calling Feature

Three-Way Calling permits the customer to add a third party to an existing connection, thus establishing a three-way conference call. Because of transmission limitations, it is recommended that not more than one of the parties included in a three-way conference call be outside the local service area of the customer establishing the call.

Customers may utilize Three-Way Calling on a subscription basis or on a pay-per-use basis. Customers obtaining the service on a subscription basis order the service in advance and the feature is always activated for their use. These customers incur a monthly charge and receive unlimited use.

Customers, who obtain the service on a pay-per-use basis, order Three-Way Calling in advance and then activate the Three-Way Calling feature by dialing an activation code each time they want to utilize this feature. These customers incur a specific charge for each activation (usage) of the Three-Way Calling feature but no monthly charge. The pay-per-use option is only available where facilities permit and at the option of the Company.

25. Voice Mail Support Package

The Voice Mail Support Package provides the combination of the Call Forwarding Busy, Call Forwarding Don't Answer, and Message Waiting Indicator services.

Note 1: Tier 1-Noncore rates can be increased to a maximum cap of double the initial rate, other than the second local exchange access line and Call Waiting, which are limited to a ten percent increase per year until they cap at the double initial rate. This pricing flexibility is in accordance with O.A.C. 4901:1-4 and Alt Reg Case No. 04-720, effective July 1, 2004.

Note 2: The recurring charge is the monthly subscription rate except for pay-per-use services. For pay-per-use services, the recurring charge applies to each use of the service.

Note 3: Customers ordering a combination of Custom Calling Services on the same line, at the same time and at the same address will be billed only one nonrecurring charge. The applicable nonrecurring charge will be the higher of the applicable nonrecurring charges. There is no service activation or nonrecurring charge associated with services provided on a pay-per-use basis.

CUSTOM CALLING SERVICES

D. CALL MANAGER SERVICE

1. GENERAL

The Call Manager Service is a residence bundle that includes the following Custom Calling services (details about these services are in Part B of this section of the tariff):

Call Forwarding Busy Line
Call Forwarding Don't Answer
Call Waiting Deluxe
Calling Name and Number
Message Waiting Indicator

Additional Custom Calling services outside the Call Manager Service bundle may be added to the customer's line at tariffed rates.

2. REGULATIONS AND LIMITATIONS

1. Services provided under Call Manager Service are applicable on a per line basis and all services must be on the same line. Accounts with additional lines may subscribe to the Call Manager Service.
2. Subscribers who choose any services included in the Call Manager Service bundle will not be eligible to receive additional discounts associated with Custom Calling services.
3. Subscribers who discontinue service features (individual or total package) provided under the Call Manager Service Package and who want to continue with certain features formerly provided in the package will have such services reconnected for them under the terms and regulations for those services as they exist in this section of the tariff.

3. RATES AND CHARGES

The following monthly and non-recurring charges apply per line and are in addition to the rates and charges applicable to any associated service, equipment and/or facilities.

<u>Monthly</u>	<u>Nonrecurring Charge</u>	<u>USOC</u>
\$ 12.75	-	NLUYN
-	\$ 6.50	NLUY1

Note: The nonrecurring rate applies per line. Customers who order Call Manager Service and also order Custom Calling services will only be billed one nonrecurring charge, the higher of the applicable nonrecurring charges.

DIRECTORY LISTINGS

A. GENERAL

The rates and regulations specified in this section for directory listings apply only to the alphabetical directory.

The alphabetical directory is a list of customers and others arranged alphabetically by surname, business, association, institution or other nonresidence name, who are entitled to use a customer's service under the regulations in Section 2 of this tariff governing such use.

The alphabetical directory is designed for the purpose of informing calling parties of the telephone number of customers and others listed in it. Accordingly, listings are intended solely for purposes of identification and are limited to information which is essential to such identification.

Special prominence or arrangement of names is not permitted. The listing of a service, commodity or trade name is not permitted except when such service, commodity or trade name is a part of the name under which the listed party conducts his or her business.

The Company may refuse a listing which does not constitute a legally authorized or adopted name, or any listing which in its opinion is likely to mislead or to deceive calling parties as to the identity of the listed party, or is intended for advertising purposes or to secure a preferential position in the directory, or is more elaborate than is reasonably necessary to identify the listed party. The Company may, upon notification to the customer, discontinue any listing found to be in violation of the foregoing regulations.

Directory listings must conform to the Company's specifications for its directories.

Abbreviations may be used to limit the length of any listing when in the opinion of the Company, the clearness of the listing and the identification of the listed party is not impaired by use of abbreviations.

In connection with nonresidence service, a descriptive term characterizing the listed party's business or purpose in a general way is furnished (in abbreviated form) as a part of the listing, when desired. When the character of the listed party's business or purpose is apparent from the name under which it is conducted, a further designation is unnecessary and is not furnished.

PUCO NO. 1

CINCINNATI BELL TELEPHONE COMPANY LLC

Section 8
Original Page 2

DIRECTORY LISTINGS

A. GENERAL (Continued)

Listings are regularly provided in connection with all classes of exchange service except public service. At the request of the customer, the entire listing may be omitted from the directory (Non-Published service or Non-List service) or the address only may be omitted (Non-Address service). Regulations and rates and charges for these services are specified in Parts D, E, and F of this section.

For regulations concerning the initial service period, the termination of directory listings, and other general regulations regarding listings and directories, see Section 2 of this tariff.

Listings are of two types: Primary listings and additional listings. Supplementary material not regularly provided as part of a primary listing or an additional listing is classified as extra line matter.

To be eligible for any type of additional listing, a customer must pay the appropriate monthly rate, if any, for a primary listing or its equivalent.

Cellular telephone, pager or voice messaging services may subscribe for additional listings. However, due to the technical nature of these services, the Company may place limitations on, or refuse a listing for cellular, pager or voice messaging services.

A cellular telephone number will only be listed upon the request of the cellular carrier assigned that number by the Company. Requests for directory listings by cellular telephone end users will not be honored. A pager or voice messaging number will only be listed at the request of the customer actually assigned that number by the Company.

DIRECTORY LISTINGS

B. PRIMARY LISTINGS

A primary listing is the listing furnished as a part of the exchange service. It includes the name of the customer, a business, purpose, or other nonresidence designation when required, the address (or Post Office Box for residence only), and the telephone number.

A dual name primary listing comprised of a surname, two first names, an address and a telephone number may be provided to a residence or nonresidence customer. Titles, middle names, and initials may be associated with the first names. This listing may be provided for two persons who share the same surname and reside or have a business at the same address or for a person known by two first names.

One primary listing is furnished with residence or nonresidence basic exchange service, except that when a customer has two or more residence or nonresidence exchange access lines with Hunting Service, only one primary listing is provided for the group.

DIRECTORY LISTINGS

C. RESIDENTIAL ADDITIONAL LISTINGS

Additional listings are listings furnished to the residential customer in addition to the primary listing. Additional listings are of three general types: regular additional listings, alternate listings, and foreign listings. The initial charge applies when establishing or changing these listings.

1. Regular Residential Additional Listings

a. Service Description

Regular additional listings are listings which are similar to primary listings and furnished in addition to primary listings at the request of the customer. Regular additional listings may be the names of members of the family, or others, residing in and part of the customer's household. A dual name additional listing may be provided to the customer subject to the same terms and conditions as specified in Part B. preceding.

b. Rates and Charges

The monthly rate for a regular additional listing begins when the information records are posted. Information records are posted when the listing is accepted or when the directory in which it will appear is issued, at the option of the customer.

Regular residential additional listing, each

	<u>Initial Charge</u>	<u>Monthly Rate</u>	<u>USOC</u>
Residence Additional Listing	\$12.37	\$ 4.50	RLT
Cellular Telephone	12.37	4.50	CLH
Pager	12.37	4.50	PS6
Voice Messaging	12.37	4.50	VS5

Extra line matter furnished as a part of regular additional listing at the request of the customer per line:

	<u>Monthly Rate</u>	<u>USOC</u>
Residence extra line matter, per line	\$ 4.50	Y6V

DIRECTORY LISTINGS

C. RESIDENTIAL ADDITIONAL LISTINGS (Continued)

2. Residential Alternate Listings

a. Service Description

Residential Alternate Listings are supplementary listings which usually follow a primary or regular additional listing and refer a calling party to other telephone numbers under certain conditions. The alternate telephone numbers may be those of other customers, subject to their consent.

b. Rates and Charges

Residential Alternate listings, per line

	<u>Initial Charge</u>	<u>Monthly Rate</u>	<u>USOC</u>
Residence	\$ 12.37	\$ 4.50	FNA, LLT, NSH
Cellular Telephone	12.37	4.50	FNA, LLT, NSH
Pager	12.37	4.50	FNA, LLT, NSH
Voice Messaging	12.37	4.50	FNA, LLT, NSH

3. Residential Foreign Listings

a. Service Description

Residential Foreign listings are listings in an alphabetical directory of an exchange other than the exchange in which the listed service is furnished. Foreign listings are similar to regular additional listings, except that extra line matter is sometimes required to direct the calling party in placing the call when the number cannot be dialed.

b. Rates and Charges

	<u>Initial Charge</u>	<u>Monthly Rate</u>	<u>USOC</u>
Residential Foreign Listings, each	\$ 12.37	\$ 4.50	FAL

DIRECTORY LISTINGS

D. NON-PUBLISHED SERVICE

1. General

The name, address and telephone number of non-published service is not listed in the Company's alphabetical directories. The name and address, but not the telephone number, appear on information records available to the general public.

When calling the Universal Emergency Number Service (911), a customer forfeits the privacy afforded by Non-Published Service to the extent that the telephone number associated with the originating station is furnished to the Public Safety Answering Point on a call-by-call basis for the purpose of responding to emergency calls.

2. Regulations

Incoming calls to non-published service will be completed by the Company only when the calling party places the call by number. The Company will adhere to this practice regardless of any claim of emergency the calling party may present. The acceptance by the Company of the customer's request to refrain from publishing his or her telephone number in the directory does not create any relationship or obligation, direct or indirect, to any person other than the customer.

In the absence of gross negligence or willful misconduct, no liability for damages arising from publishing the telephone number of non-published service in the directory or disclosing the number to any person shall attach to the Company. Where such a number is published in the directory, the Company's liability will be limited to and satisfied by a refund of any monthly charges which the customer incurs as shown in Part D.3, for non-published service.

The customer indemnifies and saves the Company harmless against any and all claims for damages caused or claimed to have been caused, directly or indirectly, by the publication of the number of a non-published service or the disclosing of the number to any person. For additional liability information, see Section 2, Part B.

Providing the name, address and/or telephone number of a non-published service customer for billing purposes only, to the customer's primary interexchange carrier, does not constitute publication or disclosure of the customer's name, address, and/or number under this tariff.

Interexchange Carriers must not release the name, address, and/or telephone number of any non-published service customer without the written consent of the Telephone Company and the customer. Exceptions to this rule are as follows:

Use of name and address for the rendering of the interexchange carrier's bill to the customer.

Release of the telephone number only for purposes of detail billing.

D. NON-PUBLISHED SERVICE (Continued)

3. Rates and Charges

The monthly rates do not apply to the following:

Pay Phone Access Lines

Foreign exchange service where the customer is also furnished exchange service from the normal exchange.

Additional service furnished to the same customer at the same address.

Where the customer has other service listed in the same name in the alphabetical directory for the territory in which the customer is located, provided that (a) both services are of the same class or (b) if the services are of different classes, arrangements have been made so that calls to the listed number will be answered at all times.

Where a customer is a permanent guest residing in a hotel or club and has an additional listing showing the telephone number included with the primary directory listing furnished the hotel or club.

Where service is installed for a temporary period.

Where assistance is requested in stopping harassing or obscene calls and non-published service is provided for a temporary period of 30 days or less to discourage the caller.

DIRECTORY LISTINGS

E. RESIDENTIAL NON-LIST SERVICE

1. General

Non-List Service is a directory listing option available to residence customers who choose to exclude their name, address, and telephone number from appearing in the Company's alphabetical directories. However, the customer's name, address, and telephone number will appear in the Directory Assistance information database and will be furnished to the calling party when requested through Directory Assistance.

When calling the Universal Emergency Number Service (911), a customer forfeits the privacy afforded by Non-List Service to the extent that the name, address and telephone number associated with the originating station is furnished to the Public Safety Answering Point on a call-by-call basis for the purpose of responding to emergency calls.

2. Regulations

The acceptance by the Company of the customer's request to refrain from publishing the customer's name, address and telephone number in the directory does not create any relationship or obligation, direct or indirect, to any person other than the customer.

In the absence of gross negligence or willful misconduct, no liability for damages arising from publishing the name, address or telephone number of a Non-List Service subscriber in the directory will attach to the Company, and where such name, address, and telephone number are published in the directory, the Company's liability will be limited to and satisfied by a refund of any monthly charges which the Company may have made under Part E.3.

The customer indemnifies and saves the Company harmless against any and all claims for damages caused or claimed to have been caused, directly or indirectly, by the publication of the name, address and telephone number of a Non-List Service subscriber. For additional liability information, see Section 2, Part B.

Providing the name, address and telephone number of a Non-List Service customer for billing purposes only, to the customer's primary interexchange carrier, does not constitute publication or disclosure of the address under this tariff.

Interexchange Carriers must not release the name, address and telephone number of any Non-List Service customer without the written consent of the Company and the customer, except when the address is used for the purpose of rendering the interexchange carrier's bill to the customer.

DIRECTORY LISTINGS

F. RESIDENTIAL NON-ADDRESS SERVICE

1. General

Non-Address Service is a directory listing option available to residence customers who choose to list their name and telephone number in the alphabetical directory or information records available to the general public but who choose not to, or who are unable (i.e. certain voice mail customers) to list the address where the telephone service is located.

When calling the Universal Emergency Number Service (911), a customer forfeits the privacy afforded by Non-Address Service to the extent that the address associated with the originating station is furnished to the Public Safety Answering Point on a call-by-call basis for the purpose of responding to emergency calls.

2. Regulations

The acceptance by the Company of the customer's request to refrain from publishing the customer's address in the directory does not create any relationship or obligation, direct or indirect, to any person other than the customer.

In the absence of gross negligence or willful misconduct, no liability for damages arising from publishing the address of Non-Address Service in the directory or disclosing the address to any person will attach to the Company, and where such an address is published in the directory, the Company's liability will be limited to and satisfied by a refund of any monthly charges which the customer incurs as shown in Part F.3.

The customer indemnifies and saves the Company harmless against any and all claims for damages caused or claimed to have been caused, directly or indirectly, by the publication of the address of a Non-Address Service or the disclosing of the address to any person. For additional liability information see Section 2, Part B.

Providing the address of a Non-Address Service customer for billing purposes only, to the customer's primary interexchange carrier, does not constitute publication or disclosure of the address under this tariff.

Interexchange Carriers must not release the address of any Non-Address Service customer without the written consent of the Company and the customer, except when the address is used for the purpose of rendering the interexchange carrier's bill to the customer.

G. RESIDENTIAL LOGO LISTINGS

1. General

Logo Listings are special listing arrangements that allow residential service customers to make their listing in the White Page Alpha-numeric Directory distinctive. The listings are made distinctive by captioning their listing in a logo that depicts their hobby, interest or school.

2. Regulations

Only residential service customers may subscribe to Logo Listings.

Subscribers must select from the list of logos provided by the Company. Customers are not allowed to create their own logos.

Logo Listings can be purchased for primary and additional listings.

Logo Listings are for the entire directory period (generally one year). Customers requesting cancellation and/or discontinuation of the Logo Listing after the directory close deadline will be charged the rates below until the new directory comes out which does not have the Logo Listing included.

3. Rates and Charges

	<u>Initial Charge</u>	<u>Monthly Rate (Note)</u>	<u>USOC</u>

DIRECTORY LISTINGS

H. RESIDENTIAL ELECTRONIC ADDRESS LISTINGS

1. General

Electronic Address Listings provide listing information associated with the subscriber to the service such that the subscriber may be contacted via electronic (computer) access. Such listings include but are not limited to Uniform Resource Locator (URL) and E-Mail addresses.

Uniform Resource Locator (URL) is the technical name of a World Wide Web page address. URL addresses include both the address of the Web server and the specific directory structure that leads to <http://www.research.digit.com>.

E-Mail Address is the domain based address through which a user is defined. For example: username@somewhere.com. A user's e-mail address may also be referred to as an "internet address".

2. Regulations

The rates and regulations specified herein apply only to listings in the White-page alphabetical directory.

Listings must conform to the Company's specifications with respect to its directories. The Company reserves the right to reject listings when in its sole judgment, such listings would violate the integrity of Company records and its directories, confuse individuals using the directory, or when the subscriber cannot provide satisfactory evidence that he/she is authorized to do business as requested.

Electronic Address Listings may or may not be associated with a primary or regular additional listing which consists of the listed name, telephone number and address where the telephone service is located.

Electronic Listings will be accepted for parties who do not subscribe to the Company for their local telephone service. Listings for parties whose basic telephone service is not provided by the Company must pay for their listing on an annual basis and prior to the listing appearing in the directory.

I. EMERGENCY SERVICE PROVIDER DATABASE SERVICE (ESPDS)

1. General

The Company will provide Emergency Service Provider Database Service (ESPDS) to the customer (city, county, or municipality) solely for the purpose of delivering or assisting in the delivery of public emergency notification. Customers ordering this service are required to provide written certification to the Company showing that they have the capability and authority to provide the service for which the data is intended.

The extract will include published, non-published, listed, and non-listed information including listed information of Competitive Local Exchange Carriers (CLECs), if present. The extract will consist of listed name, listed address (if present) and ten-digit telephone number.

ESPDS is available by, and must be ordered by, one of the following primary criteria:

City/Municipality Name and State
County Name and State

Customers may specify incorporated municipalities, unincorporated municipalities, or both. The information contained in all extract files will be sorted by telephone number in ascending sequence. Extracts will only be provided for the customer's jurisdictional area for which public emergency services or public emergency support services are authorized. Foreign Listings, Foreign Exchange, Foreign Central Office, and Multiple Listings will be excluded from the extract.

The information provided by ESPDS may not be used, in whole or part, to provide Basic 911 or E911 Service. Misuse of the data provided pursuant to this tariff or failure to comply with any other provisions of this tariff will be cause for immediate suspension of the service provided hereunder.

Any information shared between the Company and the ESPDS customer is considered confidential and proprietary.

The information provided by ESPDS is available to customers utilizing one of the following data storage methods 1) CD-ROM or 2) e-mail dependent on file size constraints. Customers must specify the storage method when ESPDS is ordered.

I. EMERGENCY SERVICE PROVIDER DATABASE SERVICE (ESPDS) (Continued)

2. Definitions

a. Public Emergency

For the purposes of this service, a public emergency shall be defined as the presence of actual or imminent conditions which present either an immediate danger to the health or safety of people or a likelihood of severe irreparable damage to property.

b. Public Emergency Notification Services

Public Emergency Notification Services are services that notify the public of a public emergency.

c. Public Emergency Services

Public emergency services include 911 emergency services (incoming calls to PSAP) and public emergency notification services.

d. Public Emergency Support Services

Information or database management services used in support of public emergency services.

I. EMERGENCY SERVICE PROVIDER DATABASE SERVICE (ESPDS) (Continued)

3. Regulations

Public emergency services providers and public emergency support services providers requesting this service must meet the current network standards and must cooperate with the Company's network operations center (NOC) to avoid network problems associated with the use of data obtained through this service.

Geographically focused calling patterns that result from the use of data provided hereunder may cause problems, including congestion, in the Company's network. One or more of the following must be used by the ESPDS customer to prevent network congestion problems:

The ESPDS customer's calling platforms should be equipped within reorder tone (RO) and "No circuit Available" (NCA) announcement detection capability. Each platform should provide the capability to automatically throttle back call origination when a threshold of RO and NCA is reached. The throttling algorithm should allow for reduction call origination to the point where 99 percent of call origination reaches neither NCA nor RO.

The ESPDS customer's calling platforms should be designed with a call gapping mechanism to allow specification of, at most, one originating call per a specified time interval to any specific NPA-NXX code. The gaps should be capable of any time interval between 0 and 10 seconds. This is intended to give the ESPDS subscriber the capability of preventing excessive simultaneous call origination.

If the Company's NOC center determines that the call volume is having a negative impact on the Company's network, the NOC will request the ESPDS customer to throttle the outgoing calls generated by the event to a specified number of simultaneous calls. The ESPDS customer must implement each request within ten minutes of receipt from the Company's NOC center.

The Company's NOC center must be notified of the target location and size of the event at the launch of an public emergency call origination exceeding 1000 calls. The Company will provide a contact number to the ESPDS customer for this purpose. The subscriber will also provide the name (s) of the carrier(s), which will be utilized by the customer for the public emergency call origination and the number of simultaneous calls.

Each ESPDS customer must provide Company's NOC center up-to-date contact information for 7 days per week, 24 hours per day, and contact information for three levels of management escalation.

The ESPDS customer agrees to work cooperatively with the Company's NOC in order to avoid network congestion that may affect the ability of customers to call out of an affected area. This includes implementation of call gaps on the calling platform at intervals recommended by the Company's NOC.

3. Regulations (Continued)

The Company's NOC will utilize protective controls including those outlined in Section 2.1.11 of the Company's Intrastate Access Service Tariff, in order to minimize congestion and to allow the customers the ability to call out of an affected area. The traffic originated based upon the ESPDS customer's use of the data provided hereunder may be affected by these controls. The Company will not be liable for the intentional or unintentional blockage of any traffic in any way related to the ESPDS customer's use or the use by its agents or contractors of the data provided hereunder.

The Company does not guarantee the completion of mass calling on its network.

With respect to the database extract file provided by this service, the ESPDS customers, providers of public emergency services, providers of public emergency support services, and their employees shall:

Hold the information in confidence and protect it in accordance with the security regulations by which it protects its own proprietary or confidential information.

Restrict disclosure of the information solely to those employees with a need to know and not disclose it to any other parties.

Be responsible for determining the information it will use from the data provided by this service

Use the information only in connection with delivering or assisting in the delivery of public emergency services.

Notify the Company immediately if there is confirmed or suspected misuse of the data by any party or parties.

Any published, listed, or non-published number or any information provided by the Company shall be used only by an ESPDS customer for the sole purpose of delivering or assisting in the delivery of public emergency services. Any use involving the reproduction, publishing, reselling, disclosing, tampering with, or providing access to information in the database for any purpose other than the provision of public emergency support services is strictly prohibited and any known violations must be reported to the Company immediately. Information obtained by the ESPDS customer pursuant to this tariff may be provided to the ESPDS customer's client(s) as a part of the call attempts/completions reports only upon execution by the ESPDS customer's client(s) of a written agreement limiting use of the information and providing for its protection in the same manner as is set forth in this tariff regarding use and protection of the information by the ESPDS customer. The Company does not transfer right, title or interest (including intellectual property rights), if any, which it may have in and to ESPDS.

3. Regulations (Continued)

The data shall be secured by the ESPDS customer from unauthorized usage.

The Company shall not be required to modify its network operations or protocols to accommodate any public emergency services providers' or public emergency support providers' equipment, systems or data processors.

Emergency Service Providers Data service may not be used for any purpose which violates federal or state laws, statutes, regulatory orders or tariffs.

The public emergency services provider or public emergency support services provider agrees to hold harmless and indemnify the Company, its employees, directors, officers, agendas, and subcontractors from and against any and all claims or suits which arise out of or result from the provision of the database extract file, specifically including, but not limited to, all claims or suits resulting from or allegedly resulting from errors or omission in the file or the use of such information by the ESPDS customer, public emergency services providers, or the public emergency support services providers.

Each public emergency services provider or public emergency support services provider agrees to release, defend, indemnify and hold harmless the Company, its agents and subcontractors from any and all losses, claims, demands, suits, and other actions, or any liability whatsoever, whether suffered, made, instituted or asserted by the customer or by any other party or person: 1) for any personal injury to or death of any person or persons, or any loss, damage or destruction of any property, whether owned by the customer or others, and which arises out of the negligence or other wrongdoing act of the Company, the customer, its user agencies or municipalities or employees or agents of any one of them, or 2) for any infringement or invasion of the right of privacy of any person or persons, caused or claimed to have been caused, directly or indirectly, but the installation, operation, failure to operate, maintenance, removal, presence, condition, location, or use of the service and the equipment associated therewith, including, but not limited to, the identification for the telephone number, service address or name associated with the telephone number used by the party or parties utilizing the service hereunder, or 3) arising out of any action or omission of the customer, in the course of using services provided pursuant to this tariff.

In the event the data is enhanced, modified, and/or merged with data obtained from other sources by the ESPDS customer, all restrictions, regulations, and limitations contained in this tariff remain applicable to the ESPDS customer.

3. Regulations (Continued)

Each entity which performs an outbound public emergency notification message shall do so in coordination with other municipalities within the county.

Each entity who performs an outbound public emergency notification message shall notify the Ohio 9-1-1 coordinator in writing within twenty-four hours after initiating the messaging. The report shall include:

The date and time that the outbound public emergency notification message was initiated.

The total number of individual unique outbound public emergency notification messages sent.

The circumstances surrounding the situation that spurred the outbound public emergency notification message(s).

The total number of telephone numbers the message(s) was delivered to.

The number of square miles included in the geographic area of the outbound public emergency notification message(s).

A summary of whether or not the entity submitting the report believes the outbound public emergency notification message will be utilized to deliver a message in relation to this same situation in the near future and, if so, for what length of time the submitting entity believes the situation will continue.

Each entity who wishes to perform a test message of an outbound public emergency notification messaging system shall provide twenty-four hours advanced notification of the scope and scheduled time of the test to:

The news media in the affected area.

The Ohio 9-1-1 coordinator.

Any entity which fails to abide by the terms of this tariff shall hence forth receive no further data extracts from the 911 database until it has been determined that such entity has come into compliance with the terms of this tariff.
