Case # **07-1112-WS-AIR**

To Whom It May Concern:

The Blendon Township Board of Trustees **strongly objects** to any more increases.

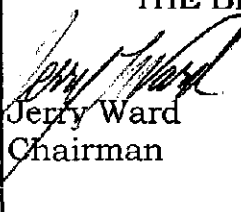

We objected in July and December of 2007, because the water was of inferior quality and the system needed to be much improved to bring it to an acceptable level.

The proposed rate increases are way too much, given both the service levels and the current economy.

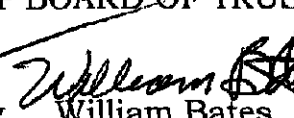

Granting rate increases that were not even requested is totally unconscionable and unacceptable.

The Blendon Township Board of Trustees requests that the Public Utility Commission **deny** such inflated increases in rate.
