Ref: Case #07-1112-WS-AIR

Dear Members:

I would like to go on record as opposing the water and sewer rate increase requested by Ohio American Water Company. Our water and sewer rates are already higher than anyone else's in the area. There are only two people living in this house and I am paying more in one month than my sister is paying in three months.

I do not understand why it costs so much more for Ohio American Water to furnish us with water and sewer services than it does in other nearby neighborhoods.

I am a senior citizen retired who is being forced to go back to work because of the high utility rates. We are also facing a very large increase in the natural gas rates this fall as well as this exceptionally large increase in water and sewer. When will you call a halt?

Thank you for your time and assistance.
