AVAILABILITY

Firm transportation service for residential purposes, which is provided from the Company's city gate receipt points to the outlet side of Company's meter. Service is available to all residential customers, except for those customers whose utility service accounts are past due at the time customer desires to utilize this service. The Company may terminate a customer's supplier contract for non-payment and return the customer to the Company's sales service only if: (1) the Supplier has made an affirmative request for the Company to act as its agent to terminate customer contracts for non-payment; and (2) the Supplier has included in its customer contracts, a notice that the Company can terminate such contracts for non-payment. Where the Supplier is performing its own billing of the gas supply, termination of the agreement will be at the discretion of the Supplier, as specified in the Supplier contracts for service. In either case, the Supplier or the Company shall give no less than 30 days written notice that the customer will be switched from the Supplier and revert to the Company unless the past due amount is paid by the customer's next scheduled bill due date. If the past due amount is paid by the next scheduled bill due date, the customer will not revert to the Company and will remain with the Supplier. If the Company provides the late payment notice to the customer, it will send a copy of the notice to the customer's Supplier. A customer must enter into an agreement with a Supplier who meets the Company's requirements for participation in this pooling program pursuant to Rate FRAS, Sheet No. 44.

Gas transported under this tariff shall be for customer's sole use at one point of delivery where distribution mains are adjacent to the premises to be served. Any gas provided hereunder shall be provided by displacement.

Residential customers who are enrolled in income payment plans pursuant to Rule 4901:1-18-04(B), Ohio Administrative Code (PIPP Customers), shall be provided their alternative gas supply service exclusively through their own supply pool, for which gas is provided by a willing Supplier whose bid has been approved by the Public Utilities Commission of Ohio.

CHANGES IN CUSTOMERS' SERVICE ELECTIONS

Customers who elect service under this tariff and later return to Company's sales service may do so only in accordance with the requirements of the Company's tariffs and applicable regulations of the Public Utilities Commission of Ohio. If a customer voluntarily elects to return to the Company's sales service, all incremental gas procurement, upstream transportation, and storage costs incurred by the Company in order to return a customer to sales service shall be borne by customer pursuant to the Commission's Gas Transportation Program Guidelines adopted in Case No. 85-800-GA-COI.

After the Company installs additional information system capability on or before September 1, 2007, a customer participating in a governmental aggregation will not be subject to the switching fee, regardless of whether the customer returns to the Company's sales service from the governmental aggregation or the governmental aggregator chooses to switch its aggregation to a different Supplier.

The Company shall notify the Supplier of the actual transfer date.

A customer may request termination of service under this tariff and return to the Company's sales service by notifying the Company, and the request will become effective on the customer's next regularly scheduled meter reading date that is twelve (12) or more calendar days from the receipt of such notification. In the event that a customer is returned to sales service for non-payment, the Supplier shall provide the Company with notice of termination and shall comply with any notice requirements of the Suppliers' Code of Conduct set forth in Rate FRAS, Sheet No. 44.

3. Delivery Pressure and Gas Composition

Gas service under this tariff shall be at the pressure that is currently available at customer's premise. During severe weather periods, the Company must sometimes supplement its flowing gas supplies with propane-air gas produced at peaking plants located at various points on the Company's system. While the Company attempts to manufacture such gas at a heating value roughly equivalent to the heating value of its flowing gas supplies, it is not always able to do so.

A customer whose operations are affected by swings in the composition of the Company's gas is required to notify the Company of that fact so that the Company can give the customer advance notice when the propane plants are going to be in operation.

4. Service Term

Except customers returned for non-payment or for good cause shown, a customer who elects service under this tariff, other than a small commercial customer, shall not be permitted to return to Company's sales service for at least one (1) year.

5. Regulatory Approvals

Customer's Supplier shall be responsible for making all necessary arrangements and securing all requisite regulatory or governmental approvals, certificates or permits to enable gas to be delivered to the Company's system.

AUTOMATIC METER READING EQUIPMENT

If the customer requests the Company to install remote meter reading equipment at customer's meter location in order to monitor the customer's usage on a daily basis, customer shall be responsible for the cost of such equipment either through a lump-sum payment or monthly facilities charges, at the Company's option, designed to reimburse the Company for the cost of such equipment.

In the event customer, in co-operation with its Supplier, wishes to install telemetering devices or related equipment in order to monitor consumption, the Company shall provide the necessary interface with its meters. Customer shall be responsible for the costs of providing such interface, including the cost of electric and or telephone services, if required. Customer shall pay the Company, either through a lump-sum payment or monthly facilities charges, at the Company's option, designed to reimburse Company for the cost of providing such interface. Customer shall be solely responsible for installing, maintaining, and operating devices that it installs. Customer, or its agent, shall provide the Company with daily usage data if requested by the Company. In the event of disagreement between the parties, the Company's metered consumption data shall be used for all billings to the customer.

CURTAILMENT OF SERVICE

Company may curtail service under this rate schedule in accordance with curtailment procedures on file with, and approved by, the Public Utilities Commission of Ohio. In the event customer fails to comply with the Company's direction to curtail, the Company reserves the right to physically discontinue service to the customer. Company shall not be liable in damages or otherwise to customer for any loss of production, other claim, or any consequences occasioned by customer as a result of such curtailment or because of the lack of advance notice to customer of such curtailment.
