### SECTION 3 - DESCRIPTION OF SERVICE

#### 3.1 General

Each Customer is charged individually for each call placed through the Company.

Charges may vary by service offering, mileage band, class of call, time of day, day of week, call duration, and/or volume and term commitment.

Customers are billed based on their use of the Company's long distance service.

**SECTION 3 - DESCRIPTION OF SERVICE, CONT'D.**

**3.2 Calculation of Distance**

Usage charges for mileage sensitive products are based on the airline distance between the Rate Centers associated with the originating and terminating points of the call.

The distance between the originating and terminating points is calculated by using the "V" and "H" coordinates of the serving wire centers as defined by BellCore (Bell Communications Research), in the following manner:

- Step 1:** Obtain the "V" and "H" coordinates for the Rate Center of the originating and the destination points.
- Step 2:** Obtain the difference between the "V" coordinates of each of the Rate Centers. Obtain the difference between the "H" coordinates.
- Step 3:** Square the differences obtained in Step 2.
- Step 4:** Add the squares of the "V" difference and "H" difference obtained in Step 3.
- Step 5:** Divide the sum of the square obtained in Step 4 by ten (10). Round to the next higher whole number if any fraction results from the division.
- Step 6:** Obtain the square root of the whole number obtained in Step 5. Round to the next higher whole number if any fraction is obtained. This is the distance between the originating and terminating locations of the call.

**Formula:**

**SECTION 3 - DESCRIPTION OF SERVICE, CONT'D.**

**3.3 Timing of Calls**

**3.3.1** Long distance usage charges are based on the actual usage of the Company's network. Chargeable time begins when a connection is established between the calling station and the called station. Chargeable time ends when either party "hangs up" thereby releasing the network connection.

**3.3.2** Unless otherwise specified in this tariff the minimum call duration and rounding of calls for measurement and billing purposes is one minute.

**3.4 Time-of-Day Rate Periods**

Unless otherwise indicated elsewhere in this tariff, all usage-based rates in this tariff are subject to the following time-of-day, day-of-week, and holiday rate periods:

**3.4.1** Day Rate Period - Applies to that portion of a call occurring from 8:00 AM to, but not including, 5:00 PM Monday through Friday.

**3.4.2** Evening Rate Period - Applies to that portion of a call occurring from 5:00 PM to, but not including, 11:00 PM all days, unless a lower rate would normally apply.

**3.4.3** Night and Weekend Rate Period - Applies to that portion of a call occurring from 11:00 PM to, but not including 8:00 the following morning, all days; all day on Saturday and Sunday from 8:00 AM to, but not including 5:00 PM.

**3.4.4** When a call is established in one rate period and ends in another rate period, the rate in effect at the calling station applies to the portion of the call occurring within that rate period. When a unit of time is split between two rate periods, the rate applicable to that unit of time is based on the rate period in which it began.

**3.8 Public Pay Telephone Surcharge**

(N)

In order to recover the Company's expenses to comply with the FCC's pay telephone compensation plan effective on October 7, 1997 (FCC 97-371), an undiscountable per call charge is applicable to all interstate, intrastate and international calls that originate from any domestic pay telephone used to access the Company's services. This surcharge, which is in addition to standard tariffed usage charges and any applicable service charges and surcharges associated with the Company's service, applies for the use of the instrument used to access the Company service and is unrelated to the Company's service accessed from the pay telephone.

Pay telephones include coin-operated and coinless phones owned by local telephone companies, independent companies and other interexchange carriers. The Public Pay Telephone Surcharge applies to the initial completed call and any reoriginated call (i.e., using the "#" symbol).

Whenever possible, the Public Pay Telephone Surcharge will appear on the same invoice containing the usage charges for the surcharged call. In cases where proper pay telephone coding digits are not transmitted to the Company prior to completion of a call, the Public Pay Telephone Surcharge may be billed on a subsequent invoice after the Company has obtained information from a carrier that the originating station is an eligible pay telephone.

The Public Pay Telephone Surcharge does not apply to calls placed from pay telephones at which the Customer pays for service by inserting coins during the progress of the call.

The Low Volume rate applies to accounts with total monthly Public Pay Telephone Surcharge billing which is equal to or less than \$100. The High Volume rate applies to accounts with monthly Public Pay Telephone Surcharge billing greater than \$100 (when rated at \$0.75 per call).

**SECTION 2 - RULES AND REGULATIONS, CONT'D.**

**2.8 Deposits and Advance Payments**

Each service applicant will be required to establish credit. Any applicant whose credit has not been duly established to the sole and exclusive satisfaction of the Company may be required to make a deposit to be held as a guarantee of payment of charges at the time of application. In addition, an existing customer may be required to make a deposit or increase a deposit presently held.

2.8.1 A deposit is not to exceed the estimated charges for two (2) months' service plus 30% of the estimated monthly charge. Deposits will be held for a period of one year. Interest on intrastate deposits will be in accordance with Rule 4901:1-17-05 of the Ohio Administrative Code.

2.8.2 A deposit will be returned...

...When an application for service has been canceled prior to the establishment of service. The deposit will be applied to any charges applicable in accordance with the tariff and the excess portion of the deposit will be returned.

...Upon the discontinuance of service. The Company will refund the Subscriber's deposit or the balance in excess of unpaid bills for that service. At the option of the Company, such a deposit may be refunded or credited to the Subscriber at any time prior to the termination of the service.

2.8.3 The fact that a deposit has been made in no way relieves the Subscriber from complying with the regulation with respect to advance payments and the prompt payment of bills on presentation.

2.8.4 Deposit and Advance Payment requirements for providing service will be in accordance (N)  
with MTSS Rule 4901:1-5-13(A) and (B). (N)

**SECTION 2 - RULES AND REGULATIONS, CONT'D.**

**2.11 Refusal or Discontinuance by Company, (Cont'd.)**

**2.11.14 Discontinuance of Service other than Toll Service**

- A. For purposes of this section, all regulated telephone services provided by the Company, except toll services, shall be defined as local service.
- B. The Company may disconnect its customer's local service for nonpayment of charges incurred for local service. Such disconnection must be conducted pursuant to all applicable minimum telephone service standards. All practices of the Company pertaining to either the provision of its own toll service, if any, or as a duly-authorized agent for another toll service provider shall also conform to the minimum telephone service standards.
  - 1. Disconnection notices issued by the Company pursuant to Rule 4901:1-5-17(L)(4), O.A.C., must inform the subscribers facing local (T) service disconnection of the total amount which the subscriber would need to pay in order to avoid disconnection of local service. It must also inform the subscriber of the Company's legal obligation to provide "local only" service to customers whose local services charges are paid, even while their toll service is disconnected for nonpayment of outstanding toll debt.
- C. The Company is prohibited from disconnecting any customer's local service for nonpayment of charges incurred by the customer for toll service.
- D. Partial payments by a customer to the Company will be apportioned by the Company to the Company's regulated local service charges first before being applied by the Company to any toll charges and will be apportioned to regulated telephone service charges first before being applied to charges for nonregulated services.
- E. Disconnection of Local Service will be conducted in accordance with MTSS Rule 4901:1-5-17.

**SECTION 2 - RULES AND REGULATIONS, CONT'D.**

**2.11 Refusal or Discontinuance by Company, (Cont'd.)**

**2.11.15 Discontinuance of Toll Service (Generally)**

- A. In addition to enforcing, on its own behalf, the Company's own billing credit/deposit, and disconnection policies with respect to all regulated telephone services provided by the Company itself, the Company is not precluded from entering into formal contracts with other toll service providers which would authorize the Company as a formal contractual agent of such other toll service providers for purposes of enforcing the billing, credit/deposit, and disconnection policies of such other toll service providers.
- B. Unless and until it has entered into a formal contract specifically authorizing it to do so, the Company is not permitted to enforce the billing, credit/deposit, and disconnection policies of any toll service provider other than the Company.
- C. When the Company disconnects toll service for nonpayment of toll debt, whether owed to the Company or to some other provider of toll service, the method of toll disconnection which the Company utilizes:
  - 1. must not function as a vehicle by which the (nonpaying) toll subscriber is denied access, through presubscription to any other toll service provider besides the one whose provision of toll service has precipitated the toll disconnection;
  - 2. must be available from the Company, by tariff, on a nondiscriminatory basis to all toll service providers; and
- D. Neither purchase of the toll service provider's accounts receivable by the Company nor a requirement that the Company shall be the billing and collection agent for the toll service provider, shall be established as a necessary precondition imposed by the Company in connection with its tariffed disconnection services offered on a nondiscriminatory basis to all toll service providers.
- E. Disconnection of toll service will be conducted in accordance with MTSS Rule (N) 4901:1-5-17. (N)

Resold service is available only to carriers which are certified by the Public Utilities Commission of Ohio to provide intrastate local exchange services.

There are no prohibitions or limitations on the resale of services. Any service provided under this tariff may be resold to or share with other persons at the option of Customer, subject to compliance with any applicable laws of the Public Utility Commission of Ohio regulations governing such resale or sharing. **SECTION 2 - RULES AND REGULATIONS, CONT'D.**

**2.11 Refusal or Discontinuance by Company, (Cont'd.)**

**2.11.14 Discontinuance of Service other than Toll Service**

- A. For purposes of this section, all regulated telephone services provided by the Company, except toll services, shall be defined as local service.
- B. The Company may disconnect its customer's local service for nonpayment of charges incurred for local service. Such disconnection must be conducted pursuant to all applicable minimum telephone service standards. All practices of the Company pertaining to either the provision of its own toll service, if any, or as a duly-authorized agent for another toll service provider shall also conform to the minimum telephone service standards.
  - 1. Disconnection notices issued by the Company pursuant to Rule 4901:1-5-17(L)(4), O.A.C., must inform the subscribers facing local service disconnection of the total amount which the subscriber would need to pay in order to avoid disconnection of local service. It must also inform the subscriber of the Company's legal obligation to provide "local only" service to customers whose local services charges are paid, even while their toll service is disconnected for nonpayment of outstanding toll debt.
- C. The Company is prohibited from disconnecting any customer's local service for nonpayment of charges incurred by the customer for toll service.
- D. Partial payments by a customer to the Company will be apportioned by the Company to the Company's regulated local service charges first before being applied by the Company to any toll charges and will be apportioned to regulated telephone service charges first before being applied to charges for nonregulated services.
- E. Disconnection of Local Service will be conducted pursuant to the Minimum Telephone Service Standards as codified Chapter 4901:1-5 of the Ohio Administrative Code.

**SECTION 2 - RULES AND REGULATIONS, CONT'D.**

**2.11 Refusal or Discontinuance by Company, (Cont'd.)**

**2.11.15 Discontinuance of Toll Service (Generally)**

- A. In addition to enforcing, on its own behalf, the Company's own billing credit/deposit, and disconnection policies with respect to all regulated telephone services provided by the Company itself, the Company is not precluded from entering into formal contracts with other toll service providers which would authorize the Company as a formal contractual agent of such other toll service providers for purposes of enforcing the billing, credit/deposit, and disconnection policies of such other toll service providers.
- B. Unless and until it has entered into a formal contract specifically authorizing it to do so, the Company is not permitted to enforce the billing, credit/deposit, and disconnection policies of any toll service provider other than the Company.
- C. When the Company disconnects toll service for nonpayment of toll debt, whether owed to the Company or to some other provider of toll service, the method of toll disconnection which the Company utilizes:
  - 1. must not function as a vehicle by which the (nonpaying) toll subscriber is denied access, through presubscription to any other toll service provider besides the one whose provision of toll service has precipitated the toll disconnection;
  - 2. must be available from the Company, by tariff, on a nondiscriminatory basis to all toll service providers; and
- D. Neither purchase of the toll service provider's accounts receivable by the Company nor a requirement that the Company shall be the billing and collection agent for the toll service provider, shall be established as a necessary precondition imposed by the Company in connection with its tariffed disconnection services offered on a nondiscriminatory basis to all toll service providers.
- E. Disconnection of toll service will be conducted pursuant to the Minimum Telephone Service Standards as codified Chapter 4901:1-5 of the Ohio Administrative Code.

**Re: Detariffing**

Dear Customer:

Pursuant to recent determination made by the Public Utilities Commission of Ohio (PUCO), all carriers providing certain long distance and toll traffic in Ohio, including Globalcom, may no longer file tariffs with the PUCO (detariffing). As a result, the terms and conditions for Globalcom service shall continue to be governed by the parties' existing service agreement and Globalcom's online rate posting at [www.callglobalcom.com](http://www.callglobalcom.com). The detariffing will not affect your services, as no change will be made to the services.

If you should have any questions, please feel free to contact Globalcom at (800) 589-1531. Additional information can be found at [www.puco.ohio.gov](http://www.puco.ohio.gov).

We thank you for your continued business.
