SECTION 5 - SERVICE DESCRIPTIONS

5.3 Exchange Service Optional Services (Cont'd)5.3.7 Frame Relay Service

Frame Relay Service (FRS) is a data communications service that provides for data connectivity between/among widely distributed locations. FRS routes Frame Relay Data Units between a customer's premises, using assigned Permanent Virtual Circuits (PVCs) provided via a dedicated Frame Relay Subscriber Network Access Line and a switch dedicated to FRS and other high-speed data services.

A Frame Relay Subscriber Network Access Line (NAL) is a dedicated digital line, utilizing the Frame Relay User to Network Interface standards. A Frame Relay Subscriber NAL provides connectivity from the customer's premises to the telephone company hub or serving wire center. The effective data rate of the line is 56/64 kbps for narrowband connectivity and 1.536 Mbps for wideband connectivity.

Each Frame Relay Data Unit is routed through the Frame Relay Network with an address that specifies the PVC connection. A PVC connection is a virtual connection between two Frame Relay Subscriber NALs, e.g. customer's premises.

Each Frame Relay Subscriber NAL is assigned at least one PVC. However, a customer may elect to subscribe to multiple PVCs. Additional PVCs are provisioned over the Frame Relay Subscriber NAL via address mapping, which enable the customer to route Frame Relay Data Units via virtual connections to multiple locations.

Frame Relay Service is available only where technically feasible and where US LEC has adequate facilities in place to provision it.

June 19, 2008

Dear Valued Customer:

Beginning on June 30, 2008, the prices, service descriptions, and the terms and conditions for certain telecommunication services that you are provided by US LEC Communications, Inc., now a PAETEC Company ("PAETEC"), will no longer be on file at the Public Utilities Commission of Ohio (PUCO).

These services include:

- All business Local packages and services
- All business Long Distance and Toll packages and services
- Applicable business related features

This modification does not automatically result in a change in the prices, terms, or conditions of those services to which you currently subscribe. PAETEC must still provide a customer notice at least fifteen days in advance of rate increases, changes in terms and conditions, and discontinuance of existing services. Additionally, you will be able to view the company's future service offerings online at www.paetec.com.

Since these services will no longer be on file with the Commission, this means that the agreement reached between the customer and the company, instead of the document on file at the PUCO will now control new services or changes in service. This agreement, whether it is verbal or written, will still be subject to consumer protections required by the PUCO.

For any new services or changes in service, it will be important that you carefully review and confirm the price, terms, and conditions.

If you have any questions about this matter, please call PAETEC at the toll free number, 877-340-2600, or visit us at www.paetec.com. You may also visit the consumer information page on the PUCO's Web site at puco.ohio.gov for further information.

Sincerely,

PAETEC
