PUCO

Dear PUCO members,

Today's Cleveland Plain Dealer, Business Section

C3 published an article titled

"PUCO plans hearings on Dominion rate plan". Dominion's proposal is a monthly fixed customer charge from \$5.70 to \$17.50 per month.

The American public is being suppecated. Everything that factors into our daily economics is increasing, causing a domino effect - higher prices at the pump equal more bus riders, equals a proposed increase in bus fares. Same with the airlines, the prices keep climbing, the list of increases is endless, it's all about corporate

profits.

Where can consumers look for help to stabilize prices + price gouging, if not to the PUCO?

Please step up and begin to place caps on these unwarranted, soaring prices. We need to end over-pricing by corporates, passing economic ruin to citizens with only their intention of seeking profits at our expense.

Consumers need a strong voice. To place caps on corporate over-pricing, the PUCO is that voice, we as consumers depend on you, don't let your public down, get tough.

Sincerely,
Danna Nashar
