To Whom It May Concern:

I agree with the OCC staff in opposing raising the flat-rate customer charge because such a change in the rate structure would negatively impact my bill. I am trying to conserve energy and the result would be in low use customers (like myself) subsidizing high-use customers. Loading more of Dominion's costs into my fixed charge limits the ability for consumers like me to control my monthly bills by being more energy efficient. With my budget stretched thin (I am an single parent), a higher flat-rate customer charge means I would be paying more than \$17.00 per month regardless of how much natural gas I use!

Please rethink this decision!!

Please don't Raise the monthly Customs
charge to \$17.50, claim on Social Security
and it is hard to pay the big Gas Bills
in the winter

if it keeps going up, I will have to burn
wood to keep warm I can't keep up with
the Bills now.

A Big concern. Help

I have a question for you. What interest are you looking out for, the public or the utility companies? You and the utilities a year ago, were urging the consumers to cut back on gas, and electricity.

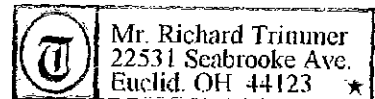

Now the consumers have done so.

Now because we have cut back, the utilities are crying they are not making enough money.

They come to you with their hands out, and you asked them for more.

You people are either crooked or stupid, which is it. If I had my way I would tar & feather the whole bunch of you and run you out of Ohio.

I cannot fully express my disgust with you clowns

Dear Man/Sir-

In regards to Dominion New
gas carrying rate charges - WHY??

I've written P.U.C.O. before - WHY??
should customers be charged more
& more dollars to cover the "poor
families" and the "deadbeats" that
don't pay their bills??

I keep my thermostat very low
most homes out of the 24 hour day -
in winter months. The purpose of
that being - I'm trying to keep my gas
utility bill on the low charging
side - so WHY?? should I pay for
those who don't pay -??

We are retired people - fixed incomes
& worked hard to try to keep our lives
in retirement - decent with our
incomes -

NO - Lefty increases is my sug-
gestion -

Yours Truly
