TARIFF FORMAT

Sheet Numbering. Sheet numbers appear in the upper right hand corner of the sheets. Sheets are numbered sequentially. From time to time new sheets may be added to the tariff. When a new sheet is added between existing sheets, a decimal is added to the preceding sheet number. For example, a new sheet added between sheets 5 and 6 would be numbered 5.1.

Sheet Revision Numbers. Revision numbers also appear in the upper right corner of sheets. These numbers are used to determine the most current sheet version on file with the Commission. For example, the 4th Revised Sheet No. 24 cancels the 3rd Revised Sheet No. 24.

Paragraph Numbering Sequence. There are nine levels of paragraph coding. Each level of coding is subservient to its next higher level, as shown by the following example:

2
2.1
2.1.1
2.1.1.A
2.1.1.A.1
2.1.1.A.1.(a)
2.1.1.A.1.(a).I
2.1.1.A.1.(a).I.(i)
2.1.1.A.1.(a).I.(i).(1)

Check Sheets. When a tariff filing is made with the Commission, an updated check sheet accompanies the tariff filing. The check sheet lists the sheets contained in the tariff, with a cross-reference to the current revision number. When new sheets are added, the check sheet is changed to reflect the revision. All revisions made in a given filing are designated by an asterisk (*). The tariff user should refer to the latest check sheet to find out if a particular sheet is the most current one on file with the Commission.

2.7.2 Amount of Deposit

The amount of the deposit shall not be more than two (2) months of usage of McLeodUSA's services for any specific Customer. Bills to Customers will be issued monthly unless McLeodUSA is authorized by the Commission to bill at other than monthly intervals because of unusual circumstances. 2.11.6 Temporary Service

When McLeod renders temporary service to a Customer, the Customer may be required by McLeod to bear the entire cost of installing and removing the service facilities in excess of any salvage realized.

2.12 Cancellations and Deferments of Service

When a Customer cancels or defers an order for service before the service is activated, a charge applies that will allow McLeodUSA to recover its unrecovered costs, including but not limited to outside vendor charges, engineering, labor, materials, and equipment. Charges apply as follows:

2.12.1 Cancellation

In a cancellation situation, the charge is equal to the unrecoverable costs incurred prior to the request for cancellation and the costs of removal, restoration, and disposal, if any, to comply with the cancellation. Those costs include, but are not limited to, costs of outside vendors, engineering, labor, nonrecoverable materials, and equipment expense.

2.0 General Rules and Regulations (cont'd)**2.12 Cancellations and Deferments of Service (cont'd)****2.12.2 Deferment of Start of Service**

If a request for deferment of service is received by McLeodUSA prior to the date an order for equipment or service is placed with McLeodUSA's supplier, no charge shall apply. For deferments received by McLeodUSA subsequent to the date the order for equipment or service is placed with McLeodUSA's supplier, a monthly recurring charge based upon the costs incurred prior to the request for the deferment applies. This monthly rate shall be equal to the deferred investment multiplied by the monthly prime interest rate as announced by USBank plus recurring costs resulting directly from the deferral such as storage, taxes, etc., unless otherwise ordered by the Commission.

In addition, any extraordinary nonrecurring costs resulting from the deferral, such as additional engineering, labor, and transportation, shall be billed in total. Billing shall start at the beginning of the month of deferment and extend to the start of service. Charges shall not exceed the monthly rate that would have applied had the service been established. McLeodUSA will also charge the Customer who defers service any and all rates and charges incurred by McLeodUSA for any leased facilities for which McLeodUSA is held responsible. McLeodUSA will make a good faith effort to minimize those rates and charges whenever possible.

2.13 Information Service Access Blocking

Where facilities are available, McLeodUSA shall institute call blocking to all "900", "960" and "976" prefix numbers, without charge for the first block subject to applicable law. If a customer chooses to eliminate the free call blocking service for these types of calls, the Customer shall be fully responsible for all such charges regardless of who made such calls from the Customer's telephone line. McLeodUSA will comply with all applicable rules of the Commission concerning such blocking.

2.0 General Rules and Regulations (cont'd)2.14 Special Construction and Special Arrangements

Subject to the agreement of McLeodUSA and to all of the regulations contained in the tariffs of McLeodUSA, special construction and special arrangements may be undertaken on a reasonable efforts basis at the request of the Customer. Special arrangements include any service or facility relating to a regulated telecommunications service not otherwise specified under tariff, or for the provision of service on an expedited basis or in some other manner different from the normal tariff conditions. Special construction is that construction undertaken:

- A. where facilities are not presently available, and there is no other requirements for the facilities so constructed;
- B. of a type other than that which McLeodUSA would normally utilize in the furnishing of its services;
- C. over a route other than that which McLeodUSA would normally utilize in the furnishing of its services;
- D. in a quantity greater than that which McLeodUSA would normally construct;
- E. on an expedited basis;
- F. on a temporary basis until permanent facilities are available;
- G. involving abnormal costs; or
- H. in advance of its normal construction.

The agreement for special construction will ordinarily include a minimum service commitment based upon the estimated service life of the facilities provided.

3.0 Description of Services Offered

3.1 Local Service

3.1.1 Nature of Service

Local Service is a service that allows customers to originate non-toll local calls at locations within the service areas in which McLeodUSA has been approved for certification for termination within the local calling area (including any applicable EAS areas) of those locations. Subject to service availability and the package selection by the customer, Local Service may include services in addition to those required for completion of non-toll local calls (including services which may not be subject to regulation under this tariff) which are purchased as part of a bundled package.

3.1.2 Availability

McLeodUSA offers local service in the areas served by AT&T and in which McLeodUSA has available required network facilities or is able to lease required network facilities to enable the offering of service. Some features may not be available in all areas, or may slightly vary between service areas contingent on network availability or configuration. McLeodUSA will provide the most feature rich version of a feature in the bundled Local Service package available in a given market depending on network availability or configuration. (T)

3.1.3 Local Service Packages

The standard elements of local line packages consist of local dial tone and unlimited local calling unless otherwise noted in a Service specific description. Mandatory extended area service ("EAS") is provided where applicable for the prices set forth in the Rate Tables. Customers with multiple lines at a single location may purchase different Packages for each telephone line at a particular location. A Local Line Price Adjustment ("LLPA") is applied to recover the increased costs (rate increases to specific portions of Unbundled Network Elements (UNE's) purchased from suppliers) of providing local telecommunications service.

Remote Access to Call Forward

This feature allows a user at a "remote" location to activate/deactivate the call forwarding feature. The user gains remote access to the call forwarding feature from a touch tone phone at a remote location. The RACF feature uses an announcement system to provide interactive voice message prompting, which allows customers to verify the forwarded-to directory number. Changes are accomplished by remotely calling an access number, entering the appropriate line and PIN information when prompted to do so, and making any desired changes.

Speed Calling

Permits placing calls to 8 or 30 telephone numbers dialing an abbreviated code.

Three-Way Calling

The ability to add a third line to an established conversation.

Toll Restriction

Toll Restriction provides for exchange access lines to be restricted from dialing billable toll calls. Attempted violation of the restrictions are routed to an announcement.
