RE: Case number 07-829-GA- AIR

We, the undersigned, want to go on record to oppose the rate increase Dominion East Ohio Gas Company is requesting. Right now, we are expecting our gas heating bills for this winter to almost double what we paid last winter. How is this possible when there is and never will be a shortage of natural gas? Deregulation has not helped the consumer but reaps higher profits for the suppliers. We are tired of utility companies and government entities endlessly implementing higher prices and taxes with no thought of the hardships it causes. As senior citizens, we have no one to give us a big income increase but try to live within our means.

We ask the Public Utilities Commissioners to re-consider granting any rate increase.
