The PUCO MEMBERS

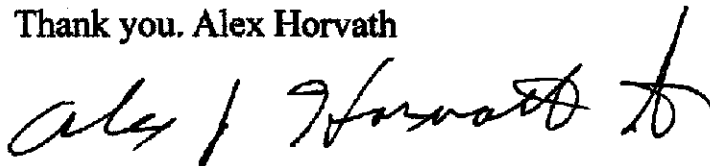

ISSUE PUCO CASE # 07-892-GA-AIR

This is to do with the rise of cost of natural gas to the Senior consumers by Dominion Gas Co.

With the cost of inflation we Seniors are paying as much as every one but on a limited budget. I feel that I have up graded my home to be more efficient in cutting my fuel cost. Now Dominion Gas Co. wants to penalize me because I do not use as much gas by rising up my rates. I do not think this is right, give the seniors a brake and let the PUCO and Dominion Gas know to give us Seniors break. With these high cost are driving us out of our homes. We do not get the cost of living to keep up with the raising costs of food, fuel and taxes, called inflation.

WE NEED TO GET HELP IN GIVING THE SENIORS A BREAK ON OUR HEATING FUEL FROM THE GAS COMPANYS.

Thank you. Alex Horvath

PUCO

I am retired and living on social security. I conserve gas by shutting off rooms, using an electric space heater and turning my thermostat down to 64 degrees. I feel its totally unfair to increase fixed charges by over \$150 yearly. How do you expect people to pay this when they can barely survive. This proposal is totally unacceptable.

Yours,

Roger Metro

RE: Case Number 07-829-GA-AIR or 07-0829-GA-AIR

Dear PUCO Members,

In regard to the Dominion East Ohio Distribution Rate Case referenced by number above, I wholeheartedly disagree with any increase to any flat/fixed monthly fees. Consumers who attempt to conserve would be unduly penalized and would in fact be subsidizing high use consumers. This is unfair, inequitable and especially harsh for consumers on a fixed income.

I also disagree with any attempt to charge consumers for any technology that would cause unemployment of any Dominion East Ohio employees.

I also disagree with any attempt to charge consumers with any increase in any rates that would effectively raise the percentage of net profits of this utility company over any of the same realized by this utility company in previous years.

Sincerely,

PUCO

PUCO

Dear PUCO Members;

I desire to voice my strong opposition to Dominion East Ohio's request for fee increases. I regard their transportation cost as already more than sufficient. A number of years ago I paid to have my gas lines from the street lined with plastic piping. Shortly thereafter I received a number of solicitations to "buy their insurance" for a service I already had paid for. That was laughable enough. Now a request to add monthly additional fees to my bill for a service I don't need. Please! Enough already!

I feel PUCO exist to regulate what is at least a delivery system monopoly. Either refuse their request or take over their system as a STATE RUN MONOPOLY. This is more than nickel or dime-ing us. Please refuse their request strongly. Thank you for your attention.

Sincerely,

A handwritten signature in black ink, appearing to read "Ronald E. Duer", written over the typed name.

Columbus, OH 43215

As two retired senior citizens, living on a very fixed income, we would like to express our opposition to the rate increase proposed by Dominion East Ohio. At a time when the country is in a strong recession it seems unconscionable to raise gas rates. The CEO and other officers of the gas company should tighten their belts, as their customers have been doing, and cut back on some of the obscene salaries and bonuses that are rampant in these large companies.

We strongly feel that it is high time to put the Public back into the Utility Commission and refuse to approve the rate increase.

Sincerely,

James C. Jarvela
