Docketing Case No.: 08-0917-EL-SSO

Notes:

I am just concerned that the Commission would allow all 3 rate increases that the AEP is asking for. Part of this is based on market speculation. Part of this is based on what the electric company might do to bring in alternative resources other than coal. I do not understand this. Right now the consumers of Ohio are fighting to stay in their homes. This is not the time to be approving such rate hikes on speculation. I would concede that IF they show you they are in need of help RIGHT NOW that you might need to approve the first rate hike, but to approve all three at this time seems very wrong. the government should also step in and help them set up the equipment they need to use wind and water for power instead of just coal.

Please docket the attached in the case number above.
