Re: Boundary Change - Case No. 08-253-TP-ACB

On March 26, 2008, AT&T Ohio and Verizon North Inc. (Joint Applicants) filed revised maps for both the Lockbourne Exchange of AT&T Ohio and the Ashville Exchange of Verizon without application pursuant to Rule 4901:1-3-03(F), Ohio Administrative Code (O.A.C.). The revised maps reflect the incorporation of a portion of Verizon's Ashville Exchange into the Lockbourne Exchange of AT&T Ohio in order to accommodate the Columbus Regional Airport Authority (CRAA), a current AT&T Ohio customer, which has purchased several acres contiguous to its property to expand its operations. In order for this new acreage to be consistent as it relates to calling area and telephone numbers, CRAA has asked AT&T Ohio to also provide service to this newly purchased acreage. AT&T Ohio avers that the company has facilities necessary to serve this addition to its Lockbourne Exchange. Joint Applicants are in concurrence with this boundary modification and aver that no current customers will be impacted by this change in telephone boundaries. In light of the foregoing and based upon the assertions made by Joint Applicants in the March 26, 2008 filing, this matter should be considered approved and closed of record pursuant to Rule 4901:1-3-03(M), O.A.C.
