Gentlemen:

I am writing in reference to
Case number 07-1080-GA-AIR.

I recently moved into Wash. C. H.
I have been living for the past 4 years
out in the country (Fayette).

I had been looking forward to
lower utility bills as my new
home is smaller than the old one.

I have heated with a boiler fired
by oil. I have a gas fired boiler in
my new home.

I keep my thermostat in the
60's in the daytime and at 50° during

the night.

I really can't keep it much lower than that!

I'm very active, and wear heavy clothing, so I am pretty comfortable.

I am very distressed at the possibility of a rise in the gas rates.

I truly cannot afford any additional expenses.

Health insurance, prescription costs and food costs have all risen dramatically, and I have no control over those prices either.

A social security income leaves little room for all these additional expenses.

Thank you for listening to my concerns.

Most sincerely,

Sue Tarbutton
