COMMENT DESCRIPTION:

I was not able to attend the hearing about the proposed changes to the Gas delivery fee. I am in the process of switching to Geothermal but still have a gas stove and hot water heater and think it is ridiculous that the fees being proposed are not based off of consumption. Many of the elderly and those who have done what they have been told in insulating, replacing old furnaces etc. and folks like me who are moving away from high utilization should not shoulder the same burden of those who have high utilization.
