Comments:

We live in Blacklick Estates and have been for 30+ years. We have Ohio American Water and went to the meeting last night regarding the increase they want. Our water is not fit to drink. We have to buy water to drink. We got a refrigerator that has a filter in it so that we can use that water for cooking, coffee etc. There were over 250 people at that meeting. We all have the same problem. There has got to be a stopping point to all this. If we cannot drink the water why should we pay the huge prices EVERY MONTH. We don't pay every 3 months like Columbus. PUCO was there, the president of Ohio American Water (which he did not say anything). Can you PLEASE HELP our community? Blacklick Estates, Huber Heights are just two that have this. Our water bill every month is about \$70.00 for 2 people. We do our best not to waste water but it doesn't seem to matter. We don't water our lawn, we don't water a garden or plants. Where do we turn from here? Thank you for the time of reading this e-mail & at least maybe thinking about what can be done. Sandy

Response: Yes
