VECTREN ENERGY DELIVERY:07-1080-GA-AJ

"STRAIGHT-FIXED VARIABLE" would hurt the consumers of low and fixed income or customers out of work who are living in small homes.

With increased cost of gas thanks to Katrina and now Ike conservation measures are necessary. With less incentives to cut back on use everyone pays higher prices. By less gas use and replacing gas powered appliances with efficient ones our state will be better in the long run.

Being 82 and living alone in a small house on a fixed income I write for others under the same circumstances of surviving during our poor economy.

Sincerely,

This is to certify that the images appearing are an accurate and complete reproduction of a case file document delivered in the regular course of business.
