C. Zone Rates

I. Description

Zone rates are specified monthly charges for urban grades of exchange service which do not vary with the distance from the base rate area, and are available to customers located within a zone rate area. A zone rate area is that portion of an exchange area which is beyond the base rate area and contiguous thereto, or to another zone rate area of the same exchange within which specified urban grades of service are offered at zone rates. Zone rate areas for each zoned exchange area are defined on maps in the Verizon Exchange Rate Tariff.

3.2 Standard Business Local Exchange Service

Standard Business Local Exchange Service provides the Customer with a single, analog, voice-grade telephonic communications channel, which can be used to place or receive one call at a time. Standard Business Local Exchange Service lines are provided for the connection of Customer-provided wiring, telephones, facsimile machines or other station equipment. An optional per line Hunting feature is available for multi-line Customers which routes a call to the next idle line in a prearranged group when the called line is busy.

Recurring charges for Standard Business Local Exchange Service are billed monthly in advance. Usage charges, if applicable are billed in arrears. Usage charges may apply for calls placed from the Customer's line. No usage charges will apply to calls received by the Customer. Non-recurring charges for installation or rearrangement of service are billed on the next month's bill immediately following work performed by the Company

3.2.1 SBC Ameritech Calling Areas

Monthly Recurring Charges

The following charges apply to Standard Business Local Exchange Service lines per month for customers located in the SBC Ameritech Calling Areas. Rates and charges include Touchtone Service for each line. The rates and charges below apply to service provided on a month-to-month basis. All business services are measured.

3 Local Exchange Service Price List (cont'd)

3.2 Standard Business Local Exchange Service (cont'd)

3.2.1 SBC Ameritech Calling Areas

A. Message Rate

Message Rate Service consists of a fixed monthly rate for usage packages which includes a monthly local usage allowance in the monthly rate. Each local call is charged on a message unit basis and an additional charge is made for local messages in excess of the allowance. The allowance, if not used during one month, is not credited to the customer's account for any other month that service is provided.

Local Message Allowances and Charges

The monthly rates for usage packages associated with message rate services include the number of local messages specified below:

Monthly Call Allowance 73

The current charge per additional local message is \$0.08

The maximum charge per additional local message is \$0.08

Unless otherwise requested by the customer, where two or more message rate services of the same class and grade are furnished to a customer from the same central office at given premises, the local message allowance for the service involved is combined and the total usage allowance.

3 Local Exchange Service Price List (cont'd)

3.2 Standard Business Local Exchange Service (cont'd)

3.2.1 SBC Ameritech Calling Areas

B. Measured Rate

1. Measured Rate Services

The local usage charges are based upon four measured elements, i.e., the total number of outgoing local messages, the distance and the duration of each local message and the time of day each local message is originated, subject to the following:

a. Distance

The charges for local messages vary based on the airline distance (i.e., rate mileage) between the rate centers of the central offices serving the calling and called stations, determined in the same manner as message toll rate distances.

b. Duration

(1) A charge applies for the initial minute, or fraction thereof, and for each additional minute, or fraction thereof.

(2) A local message is considered as starting at the time telephone communication is established between the calling station and the called telephone number.

(3) Chargeable time ends when the calling station "hangs up" thereby releasing the network connection. If the called station "hangs up" but the calling station does not, chargeable time ends when the network connection is released by the automatic timing equipment in the telephone network.

(4) Chargeable time does not include time lost because of faults or defects in the service.

Monthly Recurring Charges

The following charges apply to Standard Business Local Exchange Service lines per month for customers located in the Verizon Calling Areas. Rates and charges include Touchtone Service for each line. The rates and charges below apply to service provided on a month-to-month basis. All business services are measured.

A. Flat Rate Calling Service

Flat Rate Local Calling Service provides the customer with unlimited local calls within their local calling area for one flat monthly rate. A local calling area includes their home location and any EAS (Extended Area Service) locations that are available for their service area. Regional toll calls (outside the local area, but within regional boundaries) will be billed separately per minute.

B. Usage Sensitive Charges and Allowances

Each call to a telephone number within the customer's exchange area is charged on a usage basis. Extended area usage rates apply to calls made to certain exchanges outside the customer's exchange area. Usage charges apply on customer-dialed station-to-station calls charged to the calling party. Where operator assistance is utilized, the usage charges apply in addition to the charge for operator assistance on local messages¹². The additional charge for operator assistance would apply if the calling party wants the call billed to another local telephone number.

E. MetTel ISDN BRI Service

MetTel ISDN BRI (Basic Rate Interface) uses standard "twisted pair" cables and is nearly three times faster than a 56K dial up line. MetTel ISDN PRI (Primary Rate Interface) uses a 1.544 Mbps digital transport facility (T1). Both services provide the superior clarity of digital transmission, a high-speed data interface and sufficient bandwidth capacity to fulfill your current and future communication needs. MetTel ISDN BRI is a business service only.

ISDN BRI consists of two 64 Kbps B (Bearer) channels and one 16 Kbps D (Data) channel. Each B channel has the ability to integrate voice, data, image and video. The B channels may be kept separate or bonded together to deliver 128 Kbps.

EXHIBIT C

**Narrative Summarizing All Changes Proposed by
Metropolitan Telecommunications
Of Ohio, Inc.
In Compliance with PUCO Opinion and Order
in Case No. 06-1345-TP-ORD**

Through this detariffing filing revision, MetTel implements certain modifications to its previously submitted tariff text which would have remained on file with the PUCO following the effectiveness of the Company's mandatory detariffing filing of March 25, 2008. In particular, MetTel adds "Minimum Telephone Service Standards" language and the company's name, physical and website addresses to the title page of Tariff No. 4. Additionally, the Company adds back into Tariff No. 4 certain language inadvertently omitted in its initial detariffing filing; this text relates to certain residential services as well as to business services affecting customer accounts of three or fewer lines.

Finally, in accordance with modifications requested by PUCO Staff in connection with other detariffing filings, all pages of previously submitted tariff materials have been reissued utilizing an "Issued" and an "Effective" date of April 2, 2008, the close of the initial filing window for such mandatory detariffing filings.

Set forth at Exhibit A hereto is the text which MetTel originally submitted in compliance with the dictates of the PUCO's Opinion and Order in Case No. 06-1345-TP-ORD. Set forth at Exhibit B hereto is the text which will remain on file with the PUCO following the effectiveness of MetTel's revisions thereto.

EXHIBIT D

Rule 4901:1-6-05(G)(3) Statement of Metropolitan Telecommunications Of Ohio, Inc.

Metropolitan Telecommunications of Ohio, Inc. ("MetTel") has previously complied with Rule 4901:1-6-05(G)(3) regarding disclosure of rates, terms and conditions for detariffed services by posting on the Company's website all information previously contained in its Tariff No. 4 as filed with the Public Utilities Commission of Ohio prior to the effectiveness of this detariffing filing. As MetTel advised the PUCO on March 14, 2008, that information may be found in MetTel' tariff on-line, at www.mettel.net. Go to the "Support" section and click on "Tariffs" and then select Ohio.

On that same date, MetTel advised all Ohio customers of the upcoming detariffing filing and the location where previously tariffed information might be located.
