CHANGES IN GAS BASE RATES

On October XX, 2008, in case number 07-0829-GA-AIR, the Public Utilities Commission of Ohio (PUCO) granted Dominion East Ohio a revenue increase of \$40.5 million, which is reflected in an approximate 3.9% increase in base rates charged on customer bills. All approved rate changes are effective October YY, 2008, except as noted. Explanations of new items and fees will not appear on the back of bills until a later date.

General Sales Service (GSS)

Residential and small commercial customers who use less than 3,000 cubic feet per year and who purchase their gas supply from Dominion East Ohio will see a Basic Monthly Charge of \$12.50. The Usage-Based Charges are initially set at \$2.29 per thousand cubic feet (MCF) and are included in the Gas Usage Charges. These rates have been redesigned to include most of the fixed costs for delivering gas, such as the pipes in the ground, meters, billing and meter reading in the new basic monthly charge, along with reduced fees for delivery based on gas usage. Residential customers, who use on average 99.1 MCF annually, will see their monthly bill increase by approximately \$3.01 per month.

Service & Delivery Charges

Basic Monthly Charge. With the rate redesign, this new charge replaces the Monthly Service Charge for the GSS and ECTS rate schedules. It includes the fixed costs for delivering gas, which do not change with usage. It will also include the following charges:

AMR Cost Recovery. This charge recovers expenses associated with the installation of automated meter reading (AMR) equipment. It will be implemented in early 2009.

PIR Cost Recovery. This charge recovers expenses associated with the pipeline infrastructure replacement (PIR) program. This charge is expected to be implemented in November 2009.

Gas Usage Charges. These charges include the cost of the gas at the Standard Service Offer (SSO) rate and the new Usage-Based Charges. The Usage-Based Charges recover a portion of the costs associated with delivering gas to the meter, including applicable riders and tax, as well as the new Demand Side Management Rider. This charge recovers costs to promote energy efficiency and conservation.

Gross Receipts Tax. An Ohio tax levied on public utilities. Applies to all charges billed by the company, excluding security deposits and charges billed on behalf of Energy Choice suppliers and separate entities.

Other Fees

Reconnection Fee. This fee increases to \$33 and is charged to reconnect service at a service address following a shutoff for nonpayment.

Returned Payment Fee. A new fee of \$12 for each returned item tendered or authorized as payment on the customer's account and returned for any reason, including insufficient or uncollected funds, closed account, revoked authorization or stop payment.

Investigation Fee. A new fee of \$112 to be levied in those circumstances where Dominion East Ohio has reasonable proof of the customer's fraudulent or damaging practice related to gas service.

Late Payment Charge. Beginning in April 2009, a 1.5% late payment charge (LPG) may be added to the past-due amount of your bill if you do not pay the minimum required amount by the bill due date. For Payment Plan and Budget customers, the LPC late charge applies only to the past-due plan amount.
