RE: **BullsEye Telecom, Inc.**
Application to Introduce new c-t-c Services (P.U.C.O. 2)

Dear Ms. Jenkins:

Enclosed for filing are the original and ten (10) copies of a revision to P.U.C.O. Tariff No. 2 (Access) filed on behalf of BullsEye Telecom, Inc. This filing introduces new specific rates for each Service territory the Company provides service and add language regarding Constructive Orders. The Company respectfully requests and effective date of November 14, 2008 for this filing.

The following tariff pages are included with this filing:

3 rd Revised Page 3	Updates Check Sheet
1 st Revised Page 7	Adds Constructive Order definition and moves Customer definition
1 st Revised Page 8	Moves Customer definition
1 st Revised Page 29	Adds additional language regarding ASR and Constructive Order
1 st Revised Page 31	Adds language reading Constructive Order
1 st Revised Page 47	Text edit to add AT&T Territory to header
1 st Revised Page 48	Adds Tandem Switched Transport rates
Original Page 48.1	Moves Direct Transport
1 st Revised Page 49	Deletes Trunk Ports and Switching Transport; adds Host Remote Transport and 8xx Access
Original Pages 49.1-49.4	Add rates for Embarq Territory
Original Pages 49.5-49.7	Adds rates for Verizon North Territory
Original Pages 49.8-49.11	Adds rates for Cincinnati Bell Territory
2 nd Revised Page 50	Text edits to adjust section numbering and deletes 8xx Access

This is to certify that the images appearing are an accurate and complete reproduction of a case file document delivered in the regular course of business
Technician Date Processed 10/14/08

Ms. Renee Jenkins, Commission Secretary
Docketing Division

*NOTE: During the interim period between the effective date of the rules and an Applicant's Detariffing Filing, changes to existing business Tier 2 and all toll services, including the addition of new business Tier 2 and all new toll services, will be processed as 0-day TRF filings, and briefly described in the "Other" section above.

All Section I and II applications that result in a change to one or more tariff pages require, at a minimum, the following exhibits. Other exhibits may be required under the applicable rule(s). ACN, ACO, AMT, ATC, ATR and CIO applications see the 4901:1-6-14 Filing Requirements on the Commission's Web Page for a complete list of exhibits.

Exhibit	Description:
A	The tariff pages subject to the proposed change(s) as they exist before the change(s)
B	The Tariff pages subject to the proposed change(s), reflecting the change, with the change(s) marked in the right margin.
C	A short description of the nature of the change(s), the intent of the change(s), and the customers affected.
D	A copy of the notice provided to customers, along with an affidavit that the notice was provided according to the applicable rule(s).

Section III. – Attestation

Registrant hereby attests to its compliance with pertinent entries and orders issued by the Commission.

AFFIDAVIT

Compliance with Commission Rules and Service Standards

I am an agent of the applicant corporation, BullsEye Telecom, Inc., and am authorized to make this statement on its behalf.
(Name)

I attest that these tariffs comply with all applicable rules, including the Minimum Telephone Service Standards (MTSS) Pursuant to Chapter 4901:1-5 OAC for the state of Ohio. I understand that tariff notification filings do not imply Commission approval and that the Commission's rules, including the Minimum Telephone Service Standards, as modified and clarified from time to time, supersede any contradictory provisions in our tariff. We will fully comply with the rules of the state of Ohio and understand that noncompliance can result in various penalties, including the suspension of our certificate to operate within the state of Ohio.

I declare under penalty of perjury that the foregoing is true and correct.

Executed on (Date) October 13, 2008 at (Location) Maitland, FL

*Monique Byrnes, Consultant to BullsEye Telecom, Inc.

(Date)

October 13, 2008

- This affidavit is required for every tariff-affecting filing. It may be signed by counsel or an officer of the applicant, or an authorized agent of the applicant.

VERIFICATION

I, Monique Byrnes, Consultant to BullsEye Telecom, Inc. verify that I have utilized the Telecommunications Application Form for Routine Proceedings provided by the Commission and that all of the information submitted here, and all additional information submitted in connection with this case, is true and correct to the best of my knowledge.

*Monique Byrnes, Consultant to BullsEye Telecom, Inc.

(Date) October 13, 2008

*Verification is required for every filing. It may be signed by counsel or an officer of the applicant, or an authorized agent of the applicant.

Send your completed Application Form, including all required attachments as well as the required number of copies, to:

1. Definition of Terms

For the purpose of this Tariff, the following definitions will apply:

Access Service Request (ASR)

A written request for service submitted by the Customer.

ANI

ANI (Automated Number Identification) refers to the specific and unique Calling Party's billing number delivered by a local exchange carrier to any interconnecting carrier for billing or routing purposes.

Bill Date

The date on which billing information is compiled and sent to the Customer.

Call

A completed connection between the Calling and Called Stations.

Channel or Circuit

A dedicated communications path between two or more points having a Bandwidth or Transmission Speed specified in this Tariff and selected by a Customer.

Commission

The Public Utilities Commission of Ohio.

Company

The term Company refers to BullsEye Telecom, Inc., its subsidiaries and affiliates.

Customer

The interexchange carrier (IXC) which orders service and which is responsible for the payment of charges and for compliance with the Company's Tariff regulations. A Customer is considered to be an account for billing purposes.

1. Definition of Terms (cont'd.)**Customer Premises/Customer's Premises**

Customer Point of Presence (POP) where service is originated/terminated.

Due Date

The Due Date is the date on which payment is due.

End Office

The wire center from which the end user normally obtains dial tone from the company.

End User

A person or entity that subscribes to any BullsEye Telecom Exchange Access Service offered under the Company's Tariff P.U.C.O. No. 1, and that has been assigned one or more telephone number(s) within a central office code (NPA-NXX) directly assigned to the Company.

Expedite

A Service Order initiated at the request of the Customer that is processed in a time period shorter than the Company's standard service interval.

FCC

Federal Communications Commission.

Interruption

Interruption shall mean a condition whereby the Service or a portion thereof is inoperative, beginning at the time of notice by the Customer to Company that such Service is inoperative and ending at the time of restoration.

LATA (Local Access Transport Area)

A Local Access and Transport Area established pursuant to the Modification of Final Judgment entered by the United States District Court for the District of Columbia in Civil Action No. 82-0192; or any other geographic area designated as a LATA in the NATIONAL EXCHANGE CARRIER ASSOCIATION, INC. TARIFF F.C.C. NO. 4.

3. Description of Services

3.1 Access Services

(A.) Switched Access

Interexchange Switched Access Service provides an interexchange carrier (IXC) the ability to utilize the Company's local exchange network for the purpose of originating or terminating an interLATA call. The service provides the physical connection between a Customer's point of presence (POP) and an end user's premises, utilizing the Company's switched network. Switched Access provides for the ability to originate calls from an end user's premises to a Customer's POP and to terminate calls from a Customer's POP to an end user's premises in the LATA in which the customer desires to originate and terminate calls.

Interexchange Switched Access Service is provided as a trunk side connection, Feature Group D type, to Company end office switches with an associated uniform 101XXXX access code for the Customer's use in originating and terminating communications.

End Users may originate calls to a selected FGD customer by dialing 101XXXX+1+NPA+NXX+XXXX. Calls in the terminating direction will be completed for all IXCs whose CIC code has been opened at the tandem switch.

Interexchange calls placed by end users to 1-800-NXX-XXXXs will be completed, subject to the terms and conditions in Section 3.1 (B.) Interexchange calls placed by end users utilizing 500, 700, and 900/976 prefixes will be blocked.

The rates and charges for Switched Access Service depends on whether the Switched Transport is switched through an access tandem or direct routed to the Company's end office. Rates and charges for Switched Access Service are set forth in Section 4 following. The application of rates for Switched Access Service is described in Section 3.1.2 following.

3. Description of Services (cont'd.)**3.1 Access Services (cont'd.)****3.1.1 Access Service Request**

The ASR shall state the date on which Service shall begin and the points between which Service is to be provided, the type of facilities required, and any special arrangements related thereto.

An Access Service Request must be submitted by the Customer to provide Switched Access Service. When placing an order for Access Service, the Customer shall provide, at a minimum, the following information:

For Feature Group D Switched Access Service, the Customer shall specify the number of busy hour minutes of capacity (BHMC) from the Customer's POP to the end office by traffic type. This information is used to determine the number of transmission paths. The Customer shall also specify the Switched Transport and Local Switching options.

When FGD is ordered by specifying the number of trunks and end office and routing via an access tandem operated by another Exchange Telephone Company is desired, the customer shall specify:

- the access tandem
- the Switched Transport and Local Switching options desired, and
- an estimate of the amount of traffic to be generated to and/or from each Company end office subtending another Exchange Telephone Company's access tandem.

In addition, for Feature Group D with the SS7 signaling option, the Customer shall specify the switching point codes and trunk circuit identification codes for trunks with the SS7 signaling option, and the STP point codes, signaling link codes and link type for each Common Channel Signaling Access (CCSA) connection ordered.

When a Customer orders FGD, the Customer is responsible to assure that sufficient access facilities have been ordered to handle its traffic.

4. Rates**4.1 Access Service**

4.1.1	Service Orders	Nonrecurring Charge
(A.)	Service Implementation	
(1)	Access Order Charge	\$ 60.00

1. Definition of Terms

For the purpose of this Tariff, the following definitions will apply:

Access Service Request (ASR)

A written request for service submitted by the Customer.

ANI

ANI (Automated Number Identification) refers to the specific and unique Calling Party's billing number delivered by a local exchange carrier to any interconnecting carrier for billing or routing purposes.

Bill Date

The date on which billing information is compiled and sent to the Customer.

Call

A completed connection between the Calling and Called Stations.

Channel or Circuit

A dedicated communications path between two or more points having a Bandwidth or Transmission Speed specified in this Tariff and selected by a Customer.

Commission

The Public Utilities Commission of Ohio.

Company

The term Company refers to BullsEye Telecom, Inc., its subsidiaries and affiliates.

Constructive Order

Delivery of calls to or acceptance of calls from the Customer's End Users over Company-switched local exchange services constitutes a Constructive Order by the Customer to purchase switched access services as described herein. Similarly the selection of the Customer by an End User as the End User's PIC constitutes a Constructive Order for switched access by the Customer.

1. Definition of Terms (cont'd.)**Customer**

The interexchange carrier (IXC) which orders service and which is responsible for the payment of charges and for compliance with the Company's Tariff regulations. A Customer is considered to be an account for billing purposes.

(M)

|
|
(M)**Customer Premises/Customer's Premises**

Customer Point of Presence (POP) where service is originated/terminated.

Due Date

The Due Date is the date on which payment is due.

End Office

The wire center from which the end user normally obtains dial tone from the company.

End User

A person or entity that subscribes to any BullsEye Telecom Exchange Access Service offered under the Company's Tariff P.U.C.O. No. 1, and that has been assigned one or more telephone number(s) within a central office code (NPA-NXX) directly assigned to the Company.

Expedite

A Service Order initiated at the request of the Customer that is processed in a time period shorter than the Company's standard service interval.

FCC

Federal Communications Commission.

Interruption

Interruption shall mean a condition whereby the Service or a portion thereof is inoperative, beginning at the time of notice by the Customer to Company that such Service is inoperative and ending at the time of restoration.

LATA (Local Access Transport Area)

A Local Access and Transport Area established pursuant to the Modification of Final Judgment entered by the United States District Court for the District of Columbia in Civil Action No. 82-0192; or any other geographic area designated as a LATA in the NATIONAL EXCHANGE CARRIER ASSOCIATION, INC. TARIFF F.C.C. NO. 4.

Oak Park, Michigan 48237

oha0806

3. Description of Services**3.1 Access Services****(A.) Switched Access**

Interexchange Switched Access Service provides an interexchange carrier (IXC) the ability to utilize the Company's local exchange network for the purpose of originating or terminating an interLATA call. The service provides the physical connection between a Customer's point of presence (POP) and an end user's premises, utilizing the Company's switched network. Switched Access provides for the ability to originate calls from an end user's premises to a Customer's POP and to terminate calls from a Customer's POP to an end user's premises in the LATA in which the customer desires to originate and terminate calls.

Interexchange Switched Access Service is provided as a trunk side connection, Feature Group D type, to Company end office switches with an associated uniform 101XXXX access code for the Customer's use in originating and terminating communications.

End Users may originate calls to a selected FGD customer by dialing 101XXXX+1+NPA+NXX+XXXX. Calls in the terminating direction will be completed for all IXCs whose CIC code has been opened at the tandem switch.

Interexchange calls placed by end users to 1-800-NXX-XXXXs will be completed, subject to the terms and conditions in Section 3.1 (B.) Interexchange calls placed by end users utilizing 500, 700, and 900/976 prefixes will be blocked.

The rates and charges for Switched Access Service depends on whether the Switched Transport is switched through an access tandem or direct routed to the Company's end office. Rates and charges for Switched Access Service are set forth in Section 4 following. The application of rates for Switched Access Service is described in Section 3.1.2 following.

In the absence of an ASR as described in Section 3.4, delivery of calls to, or acceptance of calls from, the Customer's End User location(s) via Company-provided switched access services shall constitute a Constructive Order and an agreement by the Customer to purchase the Company's switched access services as described and priced herein.

Oak Park, Michigan 48237

oha0806

3. Description of Services (cont'd.)**3.1 Access Services (cont'd.)****3.1.1 Access Service Request**

Customers may order Switched Access Service through a Constructive Order, as defined herein, or through an ASR. The ASR shall state the date on which Service shall begin and the points between which Service is to be provided, the type of facilities required, and any special arrangements related thereto. (T)
(T)

An Access Service Request must be submitted by the Customer to provide Switched Access Service. When placing an order for Access Service, the Customer shall provide, at a minimum, the following information:

For Feature Group D Switched Access Service, the Customer shall specify the number of busy hour minutes of capacity (BHMC) from the Customer's POP to the end office by traffic type. This information is used to determine the number of transmission paths. The Customer shall also specify the Switched Transport and Local Switching options.

When FGD is ordered by specifying the number of trunks and end office and routing via an access tandem operated by another Exchange Telephone Company is desired, the customer shall specify:

- the access tandem
- the Switched Transport and Local Switching options desired, and
- an estimate of the amount of traffic to be generated to and/or from each Company end office subtending another Exchange Telephone Company's access tandem.

In addition, for Feature Group D with the SS7 signaling option, the Customer shall specify the switching point codes and trunk circuit identification codes for trunks with the SS7 signaling option, and the STP point codes, signaling link codes and link type for each Common Channel Signaling Access (CCSA) connection ordered.

When a Customer orders FGD, the Customer is responsible to assure that sufficient access facilities have been ordered to handle its traffic.
