COMPLAINT DESCRIPTION:

After reading the article about AEP in the Athens Messenger, I was astounded that they want to increase electric rates 15 percent for the next three years. I also saw the salaries of their executives, with the CEO making approximately \$19.66 million in 2007. That is an utterly ridiculous amount of money for the head of such a company to make. We have people struggling to make ends meet, not knowing whether to pay their electric bill, buy food, or purchase medication. It is insane that they want to increase their rates. If they would lower the salaries of their executive heads, they would certainly not be hurting for money.
