2.15 IntraLATA Presubscription

A. IntraLATA Presubscription

1. General

IntraLATA Presubscription is a procedure whereby a subscriber designates to the Telephone Company the carrier which the subscriber wishes to be the carrier of choice for intraLATA toll calls. Such calls are automatically directed to the designated carrier, without the need to use carrier access codes or additional dialing to direct the call to the designated carrier. IntraLATA Presubscription does not prevent a subscriber who has presubscribed to an intraLATA toll carrier from using carrier access codes or additional dialing to direct calls to an alternative intraLATA toll carrier on a per call basis.

IntraLATA Presubscription will become effective upon the initial offering of certified local exchange service.

2. IntraLATA Presubscription Options

Option A: Subscriber may select the Telephone Company as the presubscribed carrier for intraLATA toll calls subject to presubscription.

Option B: Subscriber may select his/her interLATA toll carrier as the presubscribed carrier for IntraLATA toll calls subject to presubscription.

Option C: Subscriber may select a carrier other than the Telephone Company or the subscriber's IntraLATA toll carrier as the presubscribed carrier for IntraLATA toll calls subject to presubscription.

Option D: Subscriber may select no presubscribed carrier for IntraLATA toll calls subject to presubscription which will require the subscriber to dial a carrier access code to route all IntraLATA toll calls to the carrier of choice for each call.

A. IntraLATA Presubscription (Cont'd)

3. Rules and Regulations

Subscribers of record will retain their current dialing arrangements until they request that their dialing arrangements be changed.

Subscribers of record or new subscribers may select either Options A, B, C, or D for IntraLATA Presubscription.

Subscribers may change their selected Option and/or their presubscribed IntraLATA toll carrier at any time subject to charges specified in Paragraph 5 below.

4. IntraLATA Presubscription Procedures

New subscribers will be asked to select an IntraLATA toll carrier(s) at the time the subscriber places an order to establish local exchange service with the Telephone Company. The Telephone Company will process the subscriber's order for IntraLATA service. The selected carrier(s) will confirm their respective subscriber's verbal selection by third-party verification or return written confirmation notices. All new subscribers' initial requests for IntraLATA toll service presubscription shall be provided free of charge.

If a new subscriber is unable to make a selection at the time the new subscriber places an order to establish local exchange service, the Telephone Company will read a random listing of all available IntraLATA carriers to aid the subscriber in selection. If selection is still not possible, the Telephone Company will inform the subscriber that he/she will be given 90 calendar days in which to inform the Telephone Company of an IntraLATA toll carrier presubscription selection free of charge. Until the subscriber informs the Telephone Company of his/her choice for IntraLATA toll carrier, the subscriber will not have a presubscribed IntraLATA toll carrier, but rather will be required to dial a carrier

Section 3 - CONNECTION CHARGES (Cont'd)

3.8 Public Pay Telephone Surcharge

In order to recover the Company's expenses to comply with the FCC's pay telephone compensation plan, effective October 7, 1997 (FCC 97-371), an undiscountable per call charge is applicable to all intrastate, interstate, and international calls that originate from any domestic pay telephone used to access Company services. This surcharge, which is in addition to standard tariffed usage charges and any applicable service charges and surcharges associated with service, applies for the use of the instrument used to access Company service and is unrelated to the Company service accessed from the pay telephone.

Pay telephones include coin-operated and coinless phones owned by local telephone companies, independent companies and other interexchange carriers. The Public Pay Telephone Surcharge applies to the initial completed call and any reoriginated call (i.e., using the # symbol).

Whenever possible, the Public Pay Telephone Surcharge will appear on the same invoice containing the usage charges for the surcharged call. In cases where proper pay telephone coding digits are not transmitted to the Company prior to completion of a call, the Public Pay Telephone Surcharge may be billed on a subsequent invoice after the Company has obtained information from a carrier that the originating station is an eligible pay telephone.

The Public Pay Telephone Surcharge does not apply to calls placed from pay telephones at which the Subscriber pays for service by inserting coins during the progress of the call.

15.10 Public Pay Telephone Surcharge

In order to recover the Company's expended to comply with the FCC's pay telephone compensation plan, effective October 7, 1997 (FCC 97-371), an undiscountable per call charge is applicable to all intrastate, interstate, and international calls that originate from any domestic pay telephone used to access Company services. This surcharge which is in addition to standard tariffed usage charges and any applicable service charges and surcharges associated with service, applies for the use of the instrument used to access Company service and is unrelated to the Company service accessed from the pay telephone

Pay telephones include coin-operated and coinless phones owned by local telephone companies, independent companies and other interexchange carriers. The Public Pay Telephone Surcharge applies to the initial completed call and any reoriginated call (i.e. using the # symbol).

Whenever possible, the Public Pay Telephone Surcharge will appear on the same invoice containing the usage charges for the surcharged call. In cases where proper pay telephone coding digits are not transmitted to the Company prior to completion of a call, the Public Pay Telephone Surcharge may be billed on a subsequent invoice after the Company has obtained information from a carrier that the originating station is an eligible pay telephone.
