Comments:

Governor, I live in Toledo where we pay some of the highest electric rates in the country. I have spoke with several persons at the PUCO and many agencies and people in positions of knowledge. Not a single person has been able to explain to me why our rates are so high and

why the PUCO keeps letting them charge more and more. Is this politics and/or due to the lobbyists controlling our state as they due the Federal government? Would you have someone please explain this to me? I have fought for this country in war and protected it as a law enforcement officer. I know that I am only a small fish in a big pond but I thought that all fish were equal in this pond called, The United States of America. Respectfully, Michael W. Arnold
