I am writing to complain about the possible rise in the electric rates. It seems above and beyond any reasonable rate increase. We are in the throes of a recession. We are retired and do not get any increase in our pay check. I do not know how you expect anyone to pay these high rates. We use all the new light bulbs, do not leave any lights on we do not use. I think perhaps you had better check the pay of the higher ups at AEP and maybe lowering the salaries would end this increase. Think of all of us who cannot afford this increase and do not go through with it.

Please docket the information above.
