2008

Ladies & Gentlemen,

You just cannot
let AEP raise their
rates 45% in the
next three years.

Everyone I know
is working it rough
right now. My husband
and everyone he works
with has not had a
raise in over 5 years.

Stop and think how
much everything has
gone up in that
period of time. I
waitress for a
living and 2 places
I worked at have
closed because not
only did they raise
prices to over the

rising cost of supplies,
but our customers
could not afford to
let out.

We have South
Central Power and you
may not think
AEP would concern
us. I do.

If AEP is allowed
to raise their rates
it is only a matter
of time before South
Central Power raises
theirs.

Don't get me
wrong - I feel for
AEP. I understand
why they need to
raise their rates.
they need to puff
it out with the

rest of us. Millions
of dollars in profit
is not fixing their
is up life

Ohio is in the
top 5 states for
homeless people. I
know in my heart
if AEP is allowed to
raise their rates we
will be number 1
in weather related
~~the~~ deaths. Every-
thing from heart stroke
to freezing to death.

I'm sure no
one will ever read
this letter and I'm
sure no one even
cares what ordinary
people think.

If by some chance

this letter is read
please thank long
and hard about it
Thank You
