> Re: AT&T Ohio

> > Case No. 08-1281-TP-BLS

Dear Ms. Jenkins:

Enclosed for filing is AT&T Ohio's application for approval of an alternative form of regulation of basic local exchange service and other Tier 1 services in four of its exchanges. The application includes confidential supporting information which is submitted for filing under seal. A motion for a protective order addressing that confidential information accompanies this filing.

Thank you for your courtesy and assistance in this matter. Please contact me if you have any questions.

> Very truly yours, DyF. Mlly

MEMORANDUM IN SUPPORT OF APPLICATION

Introduction

AT&T Ohio¹, by its attorneys, submits this memorandum in support of its application filed in the captioned case. This application, filed pursuant to R. C. § 4927.03 and Section 4901:1-4-09 of the Commission's rules, includes the forms, affidavits, supporting information and detailed analysis, proposed tariff revisions, and the proposed legal notice called for by that rule, as explained below.²

Exhibit 1 - Compliance With Elective Alternative Regulation Commitments

As demonstrated by the affidavit of Thomas C. Pelto, the President of AT&T Ohio, the applicant fully complies with the elective alternative regulation commitments as required by divisions (A) and (B) of Section 4901:1-4-06 of the Commission's rules. AT&T Ohio is in compliance with those requirements, as reflected in the rules and in the Company's application filed in Case No. 02-3069-TP-ALT which established its current elective alternative regulation plan.

¹ The Ohio Bell Telephone Company uses the name AT&T Ohio.

² The sample application form provided by the Commission includes a reference to R. C. § 4927.04. AT&T Ohio believes that this application is filed under, and should be dealt with, under R. C. § 4927.03. However, to the extent the Commission relies on R. C. § 4927.04 to grant the requested relief, the Company does not object.

Exhibit 2 - Exchange Areas/County Matrix

As a guide to those reviewing the application, there is included in this filing a matrix identifying the exchanges included in the application and the county or counties in which each exchange is located. The identification of the competitive market test proposed for each exchange is shown in the exchange-specific sections of Exhibit 3. All of the exchanges in this application meet Test 4, Ohio Admin. Code § 4901:1-4-10(C)(4).

Exhibit 3 - Supporting Information and Detailed Analysis

In this exhibit, AT&T Ohio identifies the telephone exchange areas for which it seeks alternative regulation for basic local exchange service ("BLES") and other tier one services. The summary sheet for each exchange specifies the competitive market test proposed by the applicant for each telephone exchange area that is the subject of this application.

This exhibit presents the supporting information and detailed analysis demonstrating that the applicant meets, on a telephone exchange basis, at least one of the competitive market tests as set forth in Section 4901:1-4-10(C) of the Commission's rules. This information is contained within the affidavit of Thomas C. Pelto, the President of AT&T Ohio, attesting to the veracity of the data upon which the application is premised, in compliance with the applicable rule, Ohio Admin. Code § 4901:1-4-09(B)(3).

Test 4, which is used in this case, provides as follows:

An applicant must demonstrate that in each requested telephone exchange area that at least fifteen per cent of total residential access lines have been lost since 2002 as reflected in the applicant's annual report filed with the commission in 2003, reflecting data for

2002; and the presence of at least five unaffiliated facilities-based alternative providers serving the residential market.

Ohio Admin. Code § 4901:1-4-10(C)(4).

AT&T Ohio compiled the information necessary to meet the specified competitive test using several sources. In collecting information on CLEC and alternative provider activity in its exchanges, AT&T Ohio first reviewed and documented publicly available data, such as websites, carrier tariff filings, information on wireless licenses, and Commission certification case and interconnection agreement filings. In some cases, carriers provide web tools that permit an inquiry about the availability of their services in specific areas by using telephone numbers or zip codes. Those tools were used to identify the presence of a carrier in an AT&T Ohio exchange.

To confirm the information available from publicly-available sources, AT&T Ohio reviewed internal data from billing and E 9-1-1 records, white pages listings, and ported telephone number information. In order to demonstrate that it meets test 4 in each exchange, AT&T Ohio examined its own line loss since 2002, relying on the annual report for that year, and compared that information to comparable data as of September 30, 2008. Using the same process as in the Company's previous applications, the 2008 line count data was obtained by performing the same query on the same access line database that is used to develop the year end residence access line counts for each exchange that appear on Schedule 28 of the Annual Report. In order to demonstrate the presence of specific CLECs, AT&T Ohio developed CLEC line counts using the same process utilized in the Company's previous applications. The volumes for residential Local Wholesale Complete (LWC) and residential resale (resold lines) were

developed from billing data for each CLEC for each central office switch location (identified by Common Language Location Identification or "CLLI" code). CLEC lines served by CLEC switches were counted using residence E911 data provided by Intrado, a third party vendor. This data has been collected and reviewed for each exchange for which relief is sought.

In Case Nos. 06-1013-TP-BLS and 07-259-TP-BLS, AT&T Ohio sent CLECs and wireless service providers separate "Accessible Letters" regarding the use and treatment of data that might be considered to be proprietary, giving them an opportunity for comment and feedback. AT&T Ohio is relying on the letters from Case No. 07-259-TP-BLS for this proceeding. The Accessible Letters are included in this filing as Attachments 1 and 2.

AT&T Ohio has identified at least the minimum number of competitors required by the Commission's rules for each exchange. In some cases, even more competitors could be identified, but AT&T Ohio limited its filing to making an appropriate showing that it meets the requirements of the applicable competitive tests.

The competitive proof for each exchange is organized on a summary sheet, which names several carriers that provide service in the exchange and notes what other verification was done to confirm their presence. Working from left to right, the sheet indicates **certification number** (for CLECs) and the **interconnection agreement number** (for all carriers), confirming the accomplishment of these prerequisite steps by the competing carrier. This information is specific to each carrier and was obtained from Company and publicly available Commission records. In most instances, the underlying carrier is clear. In some cases, AT&T Ohio's records

contain different names for a single carrier. For example, when MCI/WorldCom is listed on the summary sheet, the certificate number indicates that the reference is specifically to MCImetro Access Transmission Services, Inc.

Having identified the carrier, the next two columns indicate how each carrier is providing service, through their own facilities or through facilities obtained from AT&T Ohio. A check-mark ($\sqrt{}$) in the **Own Facilities** column indicates that the carrier is facilities-based and that it provides its own switching (or obtains it from someone other than AT&T Ohio). Those carriers may lease other facilities from AT&T Ohio, such as unbundled loops, but since they do not use AT&T Ohio's switching, these carriers (rather than AT&T Ohio) are responsible for creating the E911 listings for their customers. All wireless carriers fall within this category. Other facilities-based carriers obtain the use and control of facilities, including switching, provided by AT&T Ohio. These carriers utilize Local Wholesale Complete (LWC). The presence of these facilities-based arrangements is denoted by a check-mark ($\sqrt{}$) in the column titled **Lease AT&T Facilities**. Both the Own Facilities and Lease AT&T Facilities columns are supported by the sheets titled "CLEC Residence Lines in Service" which quantify residence E911 listings and residence LWC and resale arrangements.

Another indicator of the ability of CLECs to serve residence customers in a given exchange is the inclusion of residence services in the carrier's approved tariff. The CLEC's tariff, as posted on the Commission's web site, was reviewed to ensure that it contains basic local exchange service for residence customers and the service areas were verified where possible.

The reference to the specific exchange under review is included in the "Tariff Authority"

column. In the case of a wireless or VoIP carrier, since they are not required to file tariffs with the PUCO, this column is marked "n/a" (not applicable).

Another indication of presence for wireless carriers is data contained in an independent web site (www.WirelessAdvisor.com) that lists carriers by area. That web site was consulted to be sure wireless carriers had a license to operate in the specific exchange area. The presence of that license is indicated by a check-mark ($\sqrt{}$) in the **Licensed Wireless Providers** column.

For all carriers, AT&T Ohio checked to see if the carrier indicates via their own web site that they provide residence service in the exchange. Many, but not all, carriers allow customers to enter a zip code, telephone number or street address to search for available services. If AT&T Ohio was able to successfully complete such a web search, a check-mark ($\sqrt{}$) was placed in the **Carrier Website** column.

Company records were consulted to confirm the presence of residential white page listings and ported telephone numbers from AT&T Ohio. The "White Page Listings" sheets summarize residence white page listings by carrier. These sheets were developed by extracting residential white page listing information by carrier and by NPA/NXX code, which were then assigned to the correct exchange using Local Exchange Routing Guide (LERG) data.

Ported numbers are those formerly AT&T Ohio telephone numbers that have been reassigned, or "ported," from an AT&T Ohio switch onto the switch of another carrier.

Clearly the presence of ported numbers indicates that another carrier is serving customers via its own switch. The data were developed by querying the Local Service Management System for the volume of customer numbers ported out of AT&T Ohio's switches. The use of ported number information, however, has two limitations. First, number porting is most common between wireline carriers. While some customers have disconnected their wireline connection and ported their wireline number to a wireless phone, this arrangement is an exception rather than the rule. Many customers merely disconnect their wireline connection, or chose not to order one in the first place, and instead rely on the number assigned by their wireless provider. Therefore, while the presence of ported numbers demonstrates a carrier's presence in the exchange, the lack of ported numbers does not prove that the carrier is not present. The second limitation is AT&T's inability to distinguish between residence and business numbers in the ported number database. The quantities included on the Ported Numbers sheets therefore reflect both residence and business telephone numbers.

In summary, if a particular CLEC has not only accomplished the prerequisites of becoming certified, having tariffs approved by the Commission and entering into an interconnection agreement with AT&T Ohio, but has also incurred the cost of facilities to serve residential customers, indicated publicly that they are providing service and has entered the names, addresses and telephone numbers of residential customers into the directory white pages, the Commission can rest assured that the carrier is providing residential basic local exchange service in the exchange. Similarly for wireless carriers, the fact that they have incurred the costs of obtaining a license and facilities, entered into an interconnection agreement, indicated publicly

that they provide service and ported some former AT&T Ohio telephone numbers onto their switch is strong evidence of the availability of service to residential customers in an exchange.

AT&T Ohio relies on Level 3 in supporting its competitive showing for the South Solon exchange. As the Commission determined in the first Embarq BLES alternative regulation case, Case No. 07-760-TP-BLS, it is appropriate to count that carrier because of its activities in support of one or more VoIP providers. Level 3 advertises the availability of this service. As shown in the supporting documents, Level 3 has obtained residential white pages listings and has ported numbers in the South Solon exchange. Because Level 3 does not, itself, provide service to residential customers in the South Solon exchange, it is clearly providing these wholesale services to enable another entity to do so in competition with AT&T Ohio. Under these circumstances, the Commission should adopt the same approach it took in the Embarg case:

Accordingly, as a conservative approach, the Commission will consider only one facilities-based alternative service provider who is in partnership with Level 3 to be providing residential service in all of the four exchanges for the purpose of satisfying the Test 4 requirements.

Case No. 07-760-TP-BLS, Opinion and Order, December 19, 2007, pp. 26-27. Here, AT&T Ohio seeks the same treatment for the facilities-based alternative service provider(s) in partnership with Level 3, but only in the South Solon exchange. The supporting documents for the South Solon exchange also include website information from Level 3 on its "VoIP Enhanced Local" service, similar to that relied on in the Embarq case. It explains that this service "enables companies operating their own Class 5 switches to launch IP-based local and long-distance communications to residential and business customers using broadband connections." Also included is the PDF of the "VoIP Enhanced Local eBrochure" available at the link on that

8

³ http://www.level3.com/index.cfm?pageID=111

website marked "Download." AT&T Ohio has determined, through publicly available sources, that Packet8, a VoIP provider, offers its service using the Level 3 wholesale services. A website query was performed on the Packet8 website that confirmed that Packet8 offers service in the South Solon exchange, to the 937-756 NPA-NXX combination. The website query generated an actual telephone number, "Best Number Match," as shown in the documentation. The LERG data, also attached, shows that the 937-756 NPA-NXX is assigned to Level 3. Lastly, with respect to the South Solon exchange, documentation is provided that shows that both Vonage and Time Warner offer their VoIP services there.

Exhibit 4 - Proposed Tariff Modifications

AT&T Ohio modified the structure of its tariff to implement the pricing flexibility rules set forth in division (A) of Section 4901:1-4-11 of the Commission's rules on January 2, 2007, as a result of Case No. 06-1013-TP-BLS. That restructuring included the appropriate tariff modifications for Lifeline service. The tariff modifications proposed in this case merely add the additional four exchanges to the 166 exchanges approved by the Commission in the Company's first six cases.

Exhibit 5 - Proposed Legal Notice

AT&T Ohio's proposed legal notice notifying the public of the filing of the application is included in the application. That notice provides that objections can be filed with the Commission consistent with division (F) of Section 4901:1-4-09 of the Commission's rules. The public notice will be published within seven days of the filing of the application in the legal notice section of a newspaper of general circulation in each county corresponding to the

exchanges for which BLES alternative regulation is being requested, pursuant to Section 4901:1-4-09(B)(5) of the Commission's rules. AT&T Ohio has conferred with the Commission staff regarding the content of the legal notice prior to commencing with the publication of the public notice, also in accordance with the applicable rule.

Conclusion

AT&T Ohio has complied with all aspects of the Commission's rules in preparing and filing its application and it requests that the Commission grant its application on an automatic basis in accordance with the applicable rule.

Respectfully submitted,

AT&T Ohio

AT&T OHIO - (REGULATORY) PUCO Case No. 05-1305-TP-ORD

Date: February 22, 2007

Number: CEL07-004

Category: Other

Contact: NA

The purpose of this Accessible Letter is to update **CLECAM06-218**, issued on July 20, 2006, to advise CLECs that, as part of a potential docket, The Ohio Bell Telephone Company ("AT&T Ohio") plans to again provide to the Commission, subject to the confidentiality rules of the Public Utilities Commission of Ohio ("PUCO") and proprietary agreements, data that may constitute CLEC-proprietary information. Specifically, AT&T Ohio intends to request the PUCO to open one or more additional dockets regarding, per the rules established in PUCO Case No. 05-1305-TP-ORD, and to obtain pricing flexibility for Basic Local Exchange Service ("BLES") in its Ohio exchanges that were not granted pricing flexibility in the case just concluded, Case No. 06-1013-TP-BLS. AT&T Ohio intends to file its direct testimony concurrent with its Application. AT&T Ohio may also provide rebuttal and live testimony in the docket. In addition, AT&T Ohio may need to respond to data requests from the PUCO Staff and other parties.

To satisfy the directive of Rule 4901:01-4-10(A) that AT&T Ohio demonstrate at least one of the competitive market tests has been met, the data AT&T Ohio will present, as part of testimony and data request responses, may include CLEC-specific information. AT&T Ohio will only file such information under the highest degree of protection available under Ohio Commissions rules and will not disclose any CLEC proprietary information publicly. Any provision of CLEC proprietary information to parties will be subject to a Proprietary Agreement. Moreover, any disclosure of CLEC proprietary information to the PUCO or its Staff will be subject to the protections afforded by Ohio Administrative Code Section 4901-1-24.

Many of AT&T Ohio's interconnection agreements require AT&T Ohio to provide CLECs with notice before disclosure of proprietary information as part of a pending docket. (See the General Terms and Conditions of your interconnection agreement with AT&T Ohio). Because specific terms and conditions in AT&T Ohio's numerous interconnection agreements vary significantly, AT&T Ohio hereby provides notice to all CLECs in Ohio at this time to comply with any potential contractual obligations; receipt of this letter does not necessarily mean that any AT&T Ohio's testimony or data responses will include data affecting each CLEC in Ohio.

AT&T Ohio makes no judgment whether any future testimony or data request responses will contain CLEC proprietary information and specifically reserves all rights as to this issue. AT&T Ohio requests that any such objections be served on AT&T Ohio's counsel (Jon Kelly) by email (jon.kelly@att.com) or fax (614 223-5955).

AT&T Ohio also reserves the right to make any modifications to the above information. Should any modifications be made to the information, these modifications will be reflected in a subsequent letter.

Date: February 22, 2007 Number: CLECAM07-071

Attachment: No

States Impacted: Ohio

Response Deadline: N/A Contact: N/A

Conference Call/Meeting: N/A

The purpose of this Accessible Letter is to update **CLECAM06-218** to advise Wireless Providers that, as part of a potential docket, The Ohio Bell Telephone Company ("AT&T Ohio") plans to again provide to the Commission, subject to the confidentiality rules of the Public Utilities Commission of Ohio ("PUCO") and proprietary agreements, data that may constitute proprietary information. Specifically, AT&T Ohio intends to request the PUCO to open one or more dockets regarding, per the rules established in PUCO Case No. 05-1305-TP-ORD, and to obtain pricing flexibility for Basic Local Exchange Service ("BLES") in <u>its</u> Ohio exchanges that were not granted pricing flexibility in the case just concluded, Case No. 06-1013-TP-BLS. AT&T Ohio intends to file its direct testimony concurrent with its Application. AT&T Ohio may also provide rebuttal and live testimony in the docket. In addition, AT&T Ohio may need to respond to data requests from the PUCO Staff and other parties.

To satisfy the directive of Rule 4901:01-4-10(A) that AT&T Ohio demonstrate at least one of the competitive market tests has been met, the data AT&T Ohio will present, as part of testimony and data request responses, may include carrier-specific information. AT&T Ohio will only file such information under the highest degree of protection available under Ohio Commissions rules and will not disclose any carrier proprietary information publicly. Any provision of proprietary information to parties will be subject to a Proprietary Agreement. Moreover, any disclosure of proprietary information to the PUCO or its Staff will be subject to the protections afforded by Ohio Administrative Code Section 4901-1-24.

Many of AT&T Ohio's wireless interconnection agreements require AT&T Ohio to provide Wireless Providers with notice before disclosure of proprietary information as part of a pending docket. (See the General Terms and Conditions of your wireless interconnection agreement with AT&T Ohio). Because specific terms and conditions in AT&T Ohio's numerous wireless interconnection agreements vary significantly, AT&T Ohio hereby provides notice to **all Wireless Providers** in Ohio at this time to comply with any potential contractual obligations; receipt of this letter does not necessarily mean that any AT&T Ohio's testimony or data responses will include data affecting each carrier in Ohio.

AT&T Ohio makes no judgment whether any future testimony or data request responses will contain proprietary information and specifically reserves all rights as to this issue. AT&T Ohio requests that any such objections be served on AT&T Ohio's counsel (Jon Kelly) by email (jon.kelly@att.com) or fax (614 223-5955).

AT&T Ohio also reserves the right to make any modifications to the above information. Should any modifications be made to the information, these modifications will be reflected in a subsequent letter.

**ACN-2-ACN Free Calling includes outbound, direct dialed, voice calls and is limited to ACN residential customers in the U.S. and Canada only, with typical residential calling patterns as defined by ACN. ACN's Acceptable Use Policy for ACN-2-ACN Free Calling can be found here. ACN reserves the sole right to disconnect, or switch to another plan, any user who abuses the Acceptable Use Policy. ACN Advantage Data/Fax Line does not qualify for this feature.

**There is a 25 cent surcharge on each ACN calling card call. An FCC mandated surcharge of 24 cents is assessed for all ACN calling card calls placed from a pay phone. Calling card calls placed to international locations are assessed a \$2.50 charge per call.

MORE ABOUT THE NEIGHBORHOOD:

Compare Neighborhood Plans

Need help deciding? Compare plans

†For new Neighborhood Unlimited, Neighborhood Connect 500 and Neighborhood Connect 200 customers only. Free month offer applies to local line fee only. Discount comes in the form of a certificate to be applied to your first month's line fee. After 12 consecutive months of MCI service on qualifying Neighborhood product, you will receive a second certificate for an additional month's line fee. Each consecutive 12 month anniversary you will continue to receive a certificate for an additional month's line fee discount, as long as you remain on the Neighborhood plan you select. Limit one bonus offer per customer and/or account. Offer available only for a limited time to customers that do not currently have or subscribe to MCI local service.

CONSIDER THIS IF:

You want unlimited local calling but don't need more than 200 minutes a month of long distance calls.

Note: MCI offers low income discounts to those who qualify. Please call 1-888-MCI-LOCAL (1-888-624-5622) and a Neighborhood representative will be happy to assist you with your application needs.

Unlimited calling is for residential voice service only. Click here for details.

Additional taxes and surcharges apply. Click here for details.

THE SAGE SERVICE DIFFERENCE

Service that is centered around you. Free long distance calling between Sage residential customers. Phone service that lets you pick the features you want, and only the features you want. Sage offers truly customized plans that bring you REAL savings.

TESTIMONIAL: Randall and Tina, Frisco, TX

Just a little note of appreciation for your service. After a couple of months with Sage service, I have saved more than \$100. Even with additional calls during the holiday season, my bill was about half of what it had been with SBC.

TESTIMONIAL: Larry, Clare, MI

This is the first time I have written a letter to thank someone. I recently helped my sister get her phone service transferred to Sage, and I had the good fortune to speak with a lady name Rosa. She was courteous, polite, and knowledgeable, and took a genuine interest in helping me.

I can assure you that my family and I will be Sage customers for a long time.

ACN's Acceptable Use Policy for ACN-2-ACN Free Calling can be found here. ACN reserves the sole right to disconnect, or switch to another plan, any user who abuses the Acceptable Use Policy. ACN Advantage Data/Fax Line does not qualify for this feature.

**There is a 25 cent surcharge on each ACN calling card call. An FCC mandated surcharge of 24 cents is assessed for all ACN calling card calls placed from a pay phone. Calling card calls placed to international locations are assessed a \$2.50 charge per call.

MORE ABOUT THE NEIGHBORHOOD:

Compare Neighborhood Plans

Need help deciding? Compare plans

†For new Neighborhood Unlimited, Neighborhood Connect 500 and Neighborhood Connect 200 customers only. Free month offer applies to local line fee only. Discount comes in the form of a certificate to be applied to your first month's line fee. After 12 consecutive months of MCI service on qualifying Neighborhood product, you will receive a second certificate for an additional month's line fee. Each consecutive 12 month anniversary you will continue to receive a certificate for an additional month's line fee discount, as long as you remain on the Neighborhood plan you select. Limit one bonus offer per customer and/or account. Offer available only for a limited time to customers that do not currently have or subscribe to MCI local service.

CONSIDER THIS IF ;

You want unlimited local calling but don't need more than 200 minutes a month of long distance calls.

Note: MCI offers low income discounts to those who qualify. Please call 1-888-MCI-LOCAL (1-888-624-5622) and a Neighborhood representative will be happy to assist you with your application needs.

Unlimited calling is for residential voice service only. Click here for details.

Additional taxes and surcharges apply. Click here for details.

COME SEE THE SAGE SERVICE DIFFERENCE

Service that is centered around you. Free long distance calling between Sage residential customers. Phone service that lets you pick the features you want, and only the features you want. Sage offers truly customized plans that bring you REAL savings.

TESTIMONIAL: Randall and Tina, Frisco, TX

Just a little note of appreciation for your service. After a couple of months with Sage service, I have saved more than \$100. Even with additional calls during the holiday season, my bill was about half of what it had been with SBC.

TESTIMONIAL: Vanika, Madison, WI

I want to thank Sage for making my experience with Customer Service so enjoyable. Your employees are top notch and always professional. I have never had so many positive experiences with a telephone company.

Thank you for providing me with great service. Your company will go a long way.

SIMPLY SAVINGS ESSENTIALS

Calling Plan Information

Important Calling Plan Information

Anytime Minutes, National IN Calling, Night & Weekend Minutes and Per–Minute Rate are for use from within the Nationwide Rate and Coverage Area.

- Unlimited Domestic Long Distance. (Airtime applies.)
- No domestic roaming charges. (Coverage not available in all areas)
- Unlimited Night & Weekend Minutes
 Night Hrs: (M–F) 9:01 p.m.–5:59 a.m.
 Wknd Hrs: 12:00 a.m. Sat.–11:59 p.m. Sun.

International Roaming

Make or receive calls while traveling internationally with rates starting as low as 69¢/minute. While at home, some international destinations can be reached using 10-digit direct dialing; international long distance rates apply in addition to airtime charges. Please visit www.verizonwireless.com/international for a list of North American Dialing Pattern countries and rates.

Mobile Web

Billing for Data Sent or Received. Mobile Web is included in all Nationwide Calling Plans. Megabyte charges apply to Basic and Select Plans. Unless you subscribe to the V Cast VPak, V CAST Mobile TV Select or Premium Calling Plans, megabytes sent or received

using Mobile Web (including advertising) will be aggregated each month, rounded up to the next megabyte, and billed at \$1.99/MB.

Rates are rounded to the nearest whole megabyte. One megabyte is equal to 1024 kilobytes. Application charges apply in addition to charges for data sent/received.

411 Connect®

\$1.49 per call plus airtime.

Detailed Billing

\$1.99 per month per number.

Required Equipment

GPS-capable CDMA tri-mode or all-digital phone with Verizon Wireless software.

Minimum Term, Activation and Early Termination Fees

- Month-to-month, one- or two-year minimum term required per line.
- Activation Fee/line: \$35, except \$25 for secondary Family SharePlan® lines with two-year minimum term.
- · Activation fees may vary or be waived for business customers that have a Major Account Agreement with Verizon Wireless.
- Early Termination Fee: Up to \$175 per line for one- or two-year minimum terms.

Taxes, Surcharges and Fees

- Tolls, taxes, surcharges and other fees, such as E911 and gross receipt charges, vary by market and as of November 1, 2008, add between 5% and 36% to your monthly bill and are in addition to your monthly access fees and airtime charges.
- Monthly Federal Universal Service Charge on interstate & international telecom charges (varies quarterly based on FCC rate) is 11.4% per line.
- The Verizon Wireless monthly Regulatory Charge is 7¢ per line.
- Monthly Administrative Charge (subject to change) is 85¢ per line.
- The Federal Universal Service, Regulatory and Administrative Charges are Verizon Wireless charges, not taxes. For more details on these charges, call 1-888-684-1888.

Important Information:

For more information, refer to the Customer Agreement or speak with a Sales Representative. Service is subject to the Customer Agreement, which you should read before activating service. Credit approval required. Billing, shipping and end-user address must be within the Verizon Wireless licensed and service areas where the wireless phone number is issued.

In some rare instances, dialing *228 may alter your Calling Plan's Airtime Rate and Coverage Area. The accuracy of the roaming indicator on your phone cannot be guaranteed. Charges for calls will be based on the cell sites used and time of day at the telephone switching office that carries your call, which may be different than the time of day shown on your phone. Rates do not apply to credit card or operator-assisted calls, which may be required in certain areas. Usage rounded up to next full minute. Unused allowance minutes lost. Charges start when you first press SEND or the call connects to a network on outgoing calls, and when the call connects to a network (which may be before it rings) on incoming calls. Time may end several seconds after you press END or the call otherwise disconnects. For calls made on our network, we only bill for calls that connect (which includes calls answered by machines). Calls to 'toll-free' numbers are toll-free; you will be billed airtime. Billing for airtime and related charges may sometimes be delayed. Delayed airtime will be applied against the included airtime for the month when you actually made or received the call, even though such charges may show up on a later bill. This may result in charges higher than you'd expect in the later month.

Unlimited Calling Plan

Plans are not eligible for monthly access discounts. Anytime minutes are for live calls between individuals.

Family SharePlan

Minimum of two lines required. Maximum of five lines. Only one line is the primary line. All lines must be activated on the same billing account and in the same market.

National IN Calling

You can talk with any of our customers anytime from within the America's and North America's Choice (in the United States and Puerto Rico) Rate and Coverage Area. If Caller ID is not present or Caller ID Block is initiated, National IN Calling does not apply to incoming calls and will apply to outgoing calls only. National IN Calling is not available to customers whose wireless exchange restricts the delivery of Caller ID or with fixed wireless devices with usage substantially from a single cell site. National IN Calling does not apply if Call Forwarding or No Answer/Busy Transfer features are activated or to data usage, including Push to Talk calls, Picture Messaging or Video Messaging, calls to check your Voice Mail and calls to Verizon Wireless customers using any of the VZGlobal services. National IN Calling does not apply in those areas of Louisiana and Mississippi where your phone's roaming indicator flashes.

Internet Access

Mobile Office Kits, PC Cards, PDAs or other wireless modem devices may not be used for Internet access without a subscription to select VZEmail or VZAccess plans.

Connecticut Customers: If you have any questions about your bill or concerns about your service, please call Customer Care at: 1-800-922-0204 or dial *611 from your wireless phone. If you are a Connecticut customer and we cannot resolve your issue, you have the option of contacting the Department of Public Utility Control (DPUC): Online: www.state.ct.us/dpuc Phone: 866-381-2355; Mail: Connecticut DPUC, 10 Franklin Square, New Britain, CT 06051.

These Coverage Locator depictions apply to the following calling plans:
Nationwide Calling Plans, America's Choice initiated (activated) on or after 2/21/2005, BroadbandAccess and INpulse.

Roaming charges will apply in the Canada Coverage area unless you subscribe to the Nationwide Plus Canada Plan.

These Coverage Locator maps are not a guarantee of coverage and may contain areas with no service. These maps reflect a depiction of predicted and approximate wireless coverage of the Verizon Wireless Network and the network of other carriers. The coverage areas shown do not guarantee service availability, and may include locations with limited or no coverage. Even within a coverage area, there are many factors, including a customer's equipment, terrain, and proximity to buildings, foliage, and weather that may impact service. An all-digital device will not operate or be able to make 911 calls when digital service is not available. Some of the coverage area includes networks run by other carriers; some of the coverage depicted is based on their information and public sources and we cannot ensure its accuracy.

The Level 3[®] VoIP Enhanced Local service enables companies operating their own Class 5 switches to launch IP-based local and long-distance communications to residential and business customers using broadband connections. This solution enables a quick-to-market, cost-effective and high-quality VoIP primary-line replacement service.

Service Details

Primary-line VoIP Services — We provide local and long-distance services with the ability to make and receive calls worldwide using a broadband connection.

Local Capabilities — Level 3 delivers local phone numbers and local number portability (LNP) with port-in and port-out capability.

Regulatory Compliance — The Level 3SM E-911 Direct service complements the VoIP Enhanced Local service, providing an FCC-compliant E-911 solution for fixed-line and nomadic VoIP subscribers.

Features — Level 3 enables operator assistance, directory listings and directory assistance.

Benefits

Industry-leading Coverage

Level 3 offers nationwide coverage with depth of service in over 300 markets, reaching over 70 percent of the United States.

VoIP Expertise

Level 3 is a proven thought leader and technology innovator that developed the first all-IP network. Today, that network carries billions of minutes of IP-based voice and data calls every week.

Total Control

Level 3[®] VoIP Enhanced Local Service

The VoIP Your Customers Want - With the Control You Need

Voice over Internet Protocol (VoIP) is gaining momentum, and your company wants to establish itself in the growing market. But with your brand on the line, you need to go to your customers with the features, coverage and experience they expect.

The Level 3 VoIP Enhanced Local service is a wholesale solution that enables companies that operate their own Class 5 switching infrastructures to launch IP-based local and long-distance communications services to residential and business customers who use broadband connections. Level 3's proprietary Softswitch platform makes the service extremely efficient. You can get to market quickly and cost-effectively with a high-quality VoIP service.

Offering your consumer base the features they expect

The Level 3 VoIP Enhanced Local solution allows you to connect your broadband Internet end users with:

- Local and long-distance phone service with the ability to make and receive calls worldwide using either an existing analog touchtone telephone or a digital IP telephone
- Freedom from traditional telephone service; their broadband Internet connections, such as cable or DSL, are used instead
- Local numbers and Local Number Portability (LNP) with port-in and port-out capability
- Operator assistance, directory listings, and directory assistance.

Level 3 also offers its Level 3® E-911 Direct solution, in support of an FCC-compliant E-911 solution, for interconnected VoIP providers for fixed-line and nomadic VoIP subscribers.

Delivering control and agility

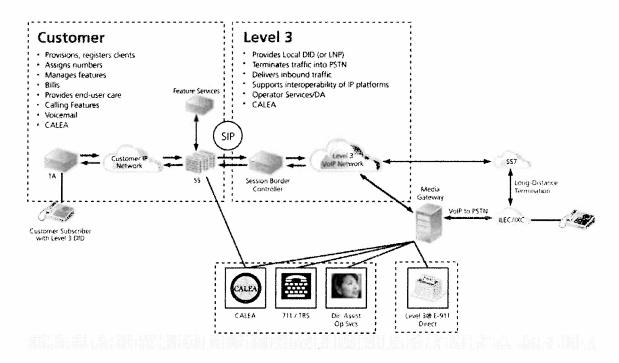

With the Level 3 VoIP Enhanced Local solution, you can gain the essential building blocks to offer VoIP phone service. Because you manage and operate your own Class 5 Softswitch, you retain total control over end-user features and billing. You can quickly adapt to market needs by adding competitive features with minimal involvement in complex interconnection issues.

ww.level3.com

Providing coverage you can grow with

With the Level 3 VoIP Enhanced Local service, you leverage the power of the Level 3 Network. You can provide local phone numbers, LNP, and local trunking to over 2,600 rate centers with local calling. Level 3 has network connections to Public Safety Answering Points (PSAPs) that serve approximately 81 percent of U.S. households. And with CLEC status in 50 states and two million voice-capable trunks, Level 3 can provide you with nationwide access at a low cost.

Why Level 3?

Rely on a VoIP leader

In 1999, Level 3 introduced the Level 3® Voice Termination solution, the industry's first PSTN-quality VoIP service. Since that time, Level 3 has been proving its VoIP leadership and expertise. Our patented, proprietary Softswitch now processes more minutes per month than many traditional long-distance and local carriers. Level 3 has devoted substantial time and resources to help ensure customer safety by establishing connections to hundreds of E-911 selective routers and thousands of PSAPs nationwide. Today, Level 3 is the underlying provider to over 40 million end users, with rate centers that serve over 83 percent of U.S. households and the ability to terminate calls anywhere in the world.

For more information, contact us at: 1.877.2LEVEL3, email us at: info@level3.com, or visit: www.level3.com.

True simplicity
It's one price on one bill from one company. It doesn't get any easier than that.

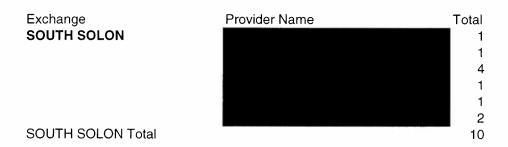

Or call 1-800-934-4181

Not available in some areas. \$9.95 installation applies for standard residential installation and does not include custom wiring. Digital Phone Service does not include backup power and, as in the case with an electric-powered home cordless phone, should there be a power outage, Digital Phone Service, including the ability to access 911 services, will not be available. Additional charges apply for taxes, Directory Assistance, Operator Services and calls outside of the calling plan area. Credit and other restrictions may apply.

Compare Neighborhood Plans

Need help deciding? Compare plans

†For new Neighborhood Unlimited, Neighborhood Connect 500 and Neighborhood Connect 200 customers only. Free month offer applies to local line fee only. Discount comes in the form of a certificate to be applied to your first month's line fee. After 12 consecutive months of MCI service on qualifying Neighborhood product, you will receive a second certificate for an additional month's line fee. Each consecutive 12 month anniversary you will continue to receive a certificate for an additional month's line fee discount, as long as you remain on the Neighborhood plan you select. Limit one bonus offer per customer and/or account. Offer available only for a limited time to customers that do not currently have or subscribe to MCI local service.

CONSIDER THIS IF:

You want unlimited local calling but don't need more than 200 minutes a month of long distance calls.

Note: MCI offers low income discounts to those who qualify. Please call 1-888-MCI-LOCAL (1-888-624-5622) and a Neighborhood representative will be happy to assist you with your application needs.

Unlimited calling is for residential voice service only. Click here for details.

Additional taxes and surcharges apply. Click here for details.

COME SEE THE SAGE SERVICE DIFFERENCE

Service that is centered around you. Free long distance calling between Sage residential customers. Phone service that lets you pick the features you want, and only the features you want. Sage offers truly customized plans that bring you REAL savings.

TESTIMONIAL: Larry, Clare, MI

This is the first time I have written a letter to thank someone. I recently helped my sister get her phone service transferred to Sage, and I had the good fortune to speak with a lady name Rosa. She was courteous, polite, and knowledgeable, and took a genuine interest in helping me.

I can assure you that my family and I will be Sage customers for a long time.

TESTIMONIAL: Randall and Tina, Frisco, TX

Just a little note of appreciation for your service. After a couple of months with Sage service, I have saved more than \$100. Even with additional calls during the holiday season, my bill was about half of what it had been with SBC.

Check Service Availability in your area

Please enter your telephone number:

740 - 545 - 7950

With Trinsic UnlimitedTM, you can call across the street or across the country as much as you like without watching the clock. All your local and nationwide long distance calls, plus Caller ID, Call Waiting and many more popular calling features, are included on one convenient bill, for one low price every month.

Trinsic Powered By Matrix customers can also enjoy other enhanced features no other provider offers, including Web-accessible voicemail management and many more.

Check service availability in your area by submitting your current telephone number in the form on the left. Rates and products vary by state, so it's important that we have your current number in order to provide you with accurate information.

No current home phone service? Call us at 1-877-9TRINSIC (877-987-4674).

Representatives are available 8:00 am - 9:00 pm Eastern, Monday - Friday; 9:00 - 6:00 Eastern on Saturday.

Trinsic Unlimited is intended for Person to Person, Residential Voice Service Only

Calling Plan Information

Important Calling Plan Information

Anytime Minutes, National IN Calling, Night & Weekend Minutes and Per–Minute Rate are for use from within the Nationwide Rate and Coverage Area.

- Unlimited Domestic Long Distance. (Airtime applies.)
- No domestic roaming charges. (Coverage not available in all areas)
- Unlimited Night & Weekend Minutes
 Night Hrs: (M-F) 9:01 p.m.-5:59 a.m.
 Wknd Hrs: 12:00 a.m. Sat.-11:59 p.m. Sun.

International Roaming

Make or receive calls while traveling internationally with rates starting as low as 69¢/minute. While at home, some international destinations can be reached using 10-digit direct dialing; international long distance rates apply in addition to airtime charges. Please visit www.verizonwireless.com/international for a list of North American Dialing Pattern countries and rates.

Mobile Web

Billing for Data Sent or Received. Mobile Web is included in all Nationwide Calling Plans. Megabyte charges apply to Basic and Select Plans. Unless you subscribe to the V Cast VPak, V CAST Mobile TV Select or Premium Calling Plans, megabytes sent or received

using Mobile Web (including advertising) will be aggregated each month, rounded up to the next megabyte, and billed at \$1.99/MB.

Rates are rounded to the nearest whole megabyte. One megabyte is equal to 1024 kilobytes. Application charges apply in addition to charges for data sent/received.

411 Connect®

\$1.49 per call plus airtime.

Detailed Billing

\$1.99 per month per number.

Required Equipment

GPS-capable CDMA tri-mode or all-digital phone with Verizon Wireless software.

Minimum Term, Activation and Early Termination Fees

- Month-to-month, one- or two-year minimum term required per line.
- Activation Fee/line: \$35, except \$25 for secondary Family SharePlan® lines with two-year minimum term.
- Activation fees may vary or be waived for business customers that have a Major Account Agreement with Verizon Wireless.
- Early Termination Fee: Up to \$175 per line for one— or two—year minimum terms.

Taxes, Surcharges and Fees

- Tolls, taxes, surcharges and other fees, such as E911 and gross receipt charges, vary by market and as of November 1, 2008, add between 5% and 36% to your monthly bill and are in addition to your monthly access fees and airtime charges.
- Monthly Federal Universal Service Charge on interstate & international telecom charges (varies quarterly based on FCC rate) is 11.4% per line.
- The Verizon Wireless monthly Regulatory Charge is 7¢ per line.
- Monthly Administrative Charge (subject to change) is 85¢ per line.
- The Federal Universal Service, Regulatory and Administrative Charges are Verizon Wireless charges, not taxes. For more details on these charges, call 1-888-684-1888.

Important Information:

For more information, refer to the Customer Agreement or speak with a Sales Representative. Service is subject to the Customer Agreement, which you should read before activating service. Credit approval required. Billing, shipping and end-user address must be within the Verizon Wireless licensed and service areas where the wireless phone number is issued.

In some rare instances, dialing *228 may alter your Calling Plan's Airtime Rate and Coverage Area. The accuracy of the roaming indicator on your phone cannot be guaranteed. Charges for calls will be based on the cell sites used and time of day at the telephone switching office that carries your call, which may be different than the time of day shown on your phone. Rates do not apply to credit card or operator-assisted calls, which may be required in certain areas. Usage rounded up to next full minute. Unused allowance minutes lost. Charges start when you first press SEND or the call connects to a network on outgoing calls, and when the call connects to a network (which may be before it rings) on incoming calls. Time may end several seconds after you press END or the call otherwise disconnects. For calls made on our network, we only bill for calls that connect (which includes calls answered by machines). Calls to 'toll-free' numbers are toll-free; you will be billed airtime. Billing for airtime and related charges may sometimes be delayed. Delayed airtime will be applied against the included airtime for the month when you actually made or received the call, even though such charges may show up on a later bill. This may result in charges higher than you'd expect in the later month.

Unlimited Calling Plan

Plans are not eligible for monthly access discounts. Anytime minutes are for live calls between individuals.

Family SharePlan

Minimum of two lines required. Maximum of five lines. Only one line is the primary line. All lines must be activated on the same billing account and in the same market.

National IN Calling

You can talk with any of our customers anytime from within the America's and North America's Choice (in the United States and Puerto Rico) Rate and Coverage Area. If Caller ID is not present or Caller ID Block is initiated, National IN Calling does not apply to incoming calls and will apply to outgoing calls only. National IN Calling is not available to customers whose wireless exchange restricts the delivery of Caller ID or with fixed wireless devices with usage substantially from a single cell site. National IN Calling does not apply if Call Forwarding or No Answer/Busy Transfer features are activated or to data usage, including Push to Talk calls, Picture Messaging or Video Messaging, calls to check your Voice Mail and calls to Verizon Wireless customers using any of the VZGlobal services. National IN Calling does not apply in those areas of Louisiana and Mississippi where your phone's roaming indicator flashes.

Internet Access

Mobile Office Kits, PC Cards, PDAs or other wireless modem devices may not be used for Internet access without a subscription to select VZEmail or VZAccess plans.

Connecticut Customers: If you have any questions about your bill or concerns about your service, please call Customer Care at: 1-800-922-0204 or dial *611 from your wireless phone. If you are a Connecticut customer and we cannot resolve your issue, you have the option of contacting the Department of Public Utility Control (DPUC): Online: www.state.ct.us/dpuc Phone: 866-381-2355; Mail: Connecticut DPUC, 10 Franklin Square, New Britain, CT 06051.

These Coverage Locator depictions apply to the following calling plans:
Nationwide Calling Plans, America's Choice initiated (activated) on or after 2/21/2005, BroadbandAccess and INpulse.

Roaming charges will apply in the Canada Coverage area unless you subscribe to the Nationwide Plus Canada Plan.

These Coverage Locator maps are not a guarantee of coverage and may contain areas with no service. These maps reflect a depiction of predicted and approximate wireless coverage of the Verizon Wireless Network and the network of other carriers. The coverage areas shown do not guarantee service availability, and may include locations with limited or no coverage. Even within a coverage area, there are many factors, including a customer's equipment, terrain, and proximity to buildings, foliage, and weather that may impact service. An all-digital device will not operate or be able to make 911 calls when digital service is not available. Some of the coverage area includes networks run by other carriers; some of the coverage depicted is based on their information and public sources and we cannot ensure its accuracy.

EXHIBIT 5 PROPOSED LEGAL NOTICE

LEGAL NOTICE

NOTICE OF APPLICATION OF AT&T OHIO FOR APPROVAL OF PRICING FLEXIBILITY FOR BASIC LOCAL EXCHANGE TELEPHONE SERVICE AND OTHER TELEPHONE SERVICES

The Ohio Bell Telephone Company d/b/a AT&T Ohio ("AT&T Ohio") gives notice that on December 5, 2008, it filed an application (Case No. 08-1281-TP-BLS) with the Public Utilities Commission of Ohio ("PUCO") seeking approval of alternative regulation of, including pricing flexibility for, basic local exchange telephone service, basic Caller ID service, and other telephone services in all or parts of ten of the counties in which AT&T Ohio provides service. AT&T Ohio already has pricing flexibility for certain services, including bundled packages and long distance services, but not for basic local exchange telephone service and basic Caller ID service.

This application relates to four of AT&T Ohio's 192 exchanges (Fultonham, New Riegel, South Solon, and West Lafayette), located in whole or in part in the following counties: Coshocton, Clark, Greene, Guernsey, Hancock, Madison, Muskingum, Perry, Seneca, and Tuscarawas.

In each telephone exchange area where AT&T Ohio proves that competition exists, the company will be granted limited pricing flexibility. AT&T Ohio's pricing flexibility for basic local exchange telephone service will be limited to an annual increase of no more than \$1.25. The annual increase for basic Caller ID service will be limited to no more than 50 cents.

Other telephone services such as second and third line local telephone service access lines, call waiting, call trace, Centrex access lines, private branch exchange trunks, per line number identification blocking, and nonpublished number service currently have limited pricing

flexibility. Where AT&T Ohio proves there is competition, these services will not be subject to any rate cap and may be priced at market-based prices.

Any customer may provide the PUCO with a written statement objecting to the application no later than January 19, 2009. Such objections should be sent to PUCO, Attn: Docketing Division, 180 East Broad Street, Columbus, OH 43215-3793. Please reference Case No. 08-1281-TP-BLS in the objection. The PUCO will consider any objections received when reviewing the application. The PUCO will decide on the application within 120 days.

At this time, AT&T Ohio is not changing prices. Rather, AT&T Ohio is requesting that it be able to change prices in the future in response to the competitive market. If the PUCO grants AT&T Ohio pricing flexibility, AT&T Ohio must provide customers with 30 days notice prior to any rate increases authorized in this case. Lifeline telephone rates for low income customers will not change as a result of this application.

Regardless of the outcome of this application, the PUCO retains regulatory oversight of service quality and consumer protections.

Certificate of Service

I hereby certify that a copy of the foregoing has been served by hand delivery this 5th day of December, 2008 on:

David C. Bergmann Terry Etter Office of the Ohio Consumers' Counsel 10 W. Broad St., Suite 1800 Columbus, OH 43215
